David Barfield  
Kansas State Board of Agriculture  
Division of Water Resources  
901 S Kansas Ave 2<sup>nd</sup> Floor  
Topeka KS 66612-1283

Dear Dave:

This is the information we discussed today on the telephone. The hand written notes were put in at the Board meeting. Our position out of the meeting was to stay with the current restriction of 8" above Lovewell and 6" below Lovewell with the caveat that 8" is probably in both areas. As of today, I think we can beat the 40% delivery and I don't think the river losses will be similar to last year. In a few weeks, I could backpedal from this position if you know what I mean.

In a telephone discussion with Marv Swanda after your call, I told him I was forwarding you this information. They should have sent it to you in the first place in my opinion. As I told you on the phone, Reclamation plans to attend our June 5 Board meeting at which time we intend to sign the Bostwick Agreement. The Bureau is hoping to have the Cambridge Assignment as well.

If I can be of further assistance please let me know.

Sincerely,

Kenneth Nelson  
Superintendent
