**Subject:** End of 2007 WY update

Hello,

The end of the 2007 WY is significant with Harlan County, Lovewell and Harry Strunk all finishing out the year with above the historic average storage.

For Harlan County Reservoir, the end of 2007 WY storage was 246,921 AF, which was 24,931 AF greater than the long term historic average.

For Lovewell, the end of 2007 WY storage was 29,539 AF, which was 6,092 AF greater than the long term historic average.

For Harry Strunk, the end of 2007 WY storage was 31,636 AF, which was 11,603 AF greater than the long term historic average.

Current flow in the Republican River at Orleans is 61 cfs.

Mark
