Subject: Historical January through May Inflows to Harlan County Lake

Kenny,

This year the computed inflow to Harlan County has totaled 98,300 acre-feet from January 1st through May 31st. Over the previous 10 years this amount was exceeded on two occasions for the January through May time period. In 2001 the computed inflow was 103,200 acre-feet and in 1997 the computed inflow was 108,900 acre-feet.

Looked back through 1980 and found six more instances when the January through May inflow exceeded this year: 1995 - 119,800 AF; 1994 - 116,300 AF; 1993 - 135,700 AF; 1984 - 134,400 AF; 1983 - 158,300 AF and 1980 - 100,000 AF.

Let us know if you need additional information,

Bill
