

Conservation Report 2006

Laterals converted to underground pipelines

1. North Canal 1.2	\$47,424	
2. North Canal 1.9	\$26,873	
3. North Canal 3.5	\$19,491	
4. Courtland West 0.3-1.3 pt	\$24,380	
5. Ridge 5.0 pt	\$22,142	
6. 51.1 fore bay & t/o relocation	\$22,103	
		\$162,413

Turnouts reconstructed with meters for pivots

1. 32.1-2.8	\$ 3,611	
2. CW 4.0	\$ 2,230	
3. 5ht sec 48.1	\$ 2,306	
4. 5 th sec 47.4	\$ 2,650	
		\$ 10,797

Total lines and turnouts for conservation \$173,210

The district funded these projects through 2006 O&M fees.

There were other turnouts that were changed to metered turnouts under general maintenance and not included in the above calculations.

There were 10 pivots installed for the 2006 irrigation season. Nine of these were with assistance from the USDA EQIP program. We estimate a pivot installation at \$50,000 each or \$500,000 in on farm conservation from pivot installation.
