MEMORANDUM

TO: File

DATE: December 10, 2018

FROM: Leslie Ireland

RE: Water Right, File Nos. 3,149; 9,982; 13,158-D1;
14,309; 25,031; 28,580 & 30,950

Kay Berghaus, Trustee, of the Dean Berghaus Living Trust and Kay Berghaus Living Trust, along with Marc and Jeanne Berghaus, Tereda Cook and Charles Jeffery Twist as owners submitted applications on September 24, 2018, to change the irrigated place of use. The signature of Charles Jeffery Twist was determined to be on behalf of Twist Family Farms, LLC per the documents submitted and Meade County register of Deeds. While the Twist signature does not appear to be needed after the division of File No. 13,158, resulting in their portion to be held separately under 13,158-D2, a portion of Section 30 is also authorized by File Nos. 3,149 and 28,580.

The referenced water rights appear to be in compliance with K.S.A. 82a-732 and the applications comply with K.A.R. 5-5-2a, with the updates to the ownership and addresses supplied by the applicants.

The referenced files are authorized separate portions with several complete and incomplete overlaps in place of use with a total of 1,473.51 acres authorized. The only additional limitation is on the rate of diversion under File No. 13,158-D1 that the rate is limited to 1,190 gallons per minute with File No. 3,149. Originally the apps proposed a total of 1,475.51 acres to be irrigated eliminating all incomplete overlaps, but with no acres that had not been authorized, but didn't take into account the base acres. The place of use will remain within what is currently authorize but eliminating the incomplete overlaps as there is no justification of K.A.R. 5-3-5n, *Authorized place of use*. Additionally, the division of File No. 13,185, will also eliminate a large incomplete overlap, allowing these separate owners to operate independently. The applications required a modification due to the referenced files base acres totaling 1,224.5 acres. A review of the base acres by Mike Meyer, Water Commissioner, Garden City Field Office determined 1,224.5 acres under File Nos. 3,149; 9,982; 13,158-D1; 14,309; 25,031; 28,580 & 30,950. As allowed per K.A.R. 5-5-11(b)(1), each right base acres can be increased ten acres or ten percent whichever is less as allowed. As four different base acres were developed that would allow ten acres to be added each was afforded its ten acres or a total of 1,264.5 acres to be proposed by the complete overlap of the referenced files.

The November 27, 2018, modifications to the applications by Kay Berghaus will propose a total of 1,264.02 acres authorized complying with of K.A.R. 5-5-11, *Applications for change in place of use for irrigation purposes*. No increase in the consumptive should occur thus complying with K.A.R. 5-5-3, *Change in consumptive use*.

Historically the 1,473.51 acres developed an irrigation ration of 1.88 acre-foot per acre with the 2,778 acre-feet authorized by the referenced files. The change will result in the in an irrigation ratio of 2.20 acre-foot per acre. This exceeds the standard 2.00 acre-foot per acre as allowed by K.A.R. 5-3-23, *Maximum reasonable annual quantity approvable for irrigation use for an application for change in place of use and a request to reduce a water right*. To allow flexibility an additional limitation will be placed on File Nos. 25,031; 28,580 and 30,950 limiting the 2,778 acre-feet authorized to a maximum annual quantity of 2,528.04 acre-feet when combined with the senior files.

In a letter dated October 25, 2018, Jason Norquest, Assistant Manager, Southwest Kansas Groundwater Management District No. 3, recommend approval of the applications, if they complied with K.A.R. 5-5-11.

Michael Meyer, Water Commissioner of the Garden City Field Office area reviewed the proposed applications. In an email dated December 3, 2018, he recommended approval of the change applications.

Water flowmeters will be required for the change approvals. The water use correspondent will be updated to Kay Berghaus Living Trust for all of the referenced files. A check valve will be required, if chemigating. As no new wells will be drilled a water level measurement tube and WWC-5 will not be a condition of the approvals.

Based on the above discussion, that the change to the place of use authorized by all of the referenced files will make a complete overlap and not substantially increase the acres above what is currently authorized and with no increase in the historical consumptive use, it is recommended that the referenced applications be approved.

Dear Mrs. Berghaus:

Enclosed are the orders executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the applications for change under the above referenced file numbers.

Since these orders modify the original documents referred to above, they should be recorded with the Register of Deeds as other instruments affecting real estate. As detailed in the Certificate of Service, a true and correct copy of the orders has been sent to individuals who remain owners of a portion of the place of use authorized by the referenced files.

Your attention is directed to the enclosures and to the terms, conditions and limitations specified in these approvals for change. The total quantity of water is limited to 2, 528.04 acre-feet with an additional limitation on Water Right, File Nos. 25,031; 28,580 & 30,950. A condition of the approvals is that an acceptable water flowmeter must be installed on the diversion works authorized under the referenced files.

Please be reminded that reports of water usage must be submitted to this office annually. Records indicating the amount of water used should be furnished to the Chief Engineer by March 1 following the end of the previous calendar year so that the continued use of water becomes a matter of record in this office. The owner, or his or her legally designated agent, is held responsible for submitting annual water use reports. As requested the water use correspondent for the referenced files has been updated to Kay Berghaus at the address listed above. If an annual water use report is not received by the deadline, a fine may be assessed and all water use under such right may be suspended. Please file your annual water use report online at www.kswaterusereport.org.

**APPROVAL OF APPLICATION
FOR
CHANGE IN PLACE OF USE
WATER RIGHT, FILE NO. 13,158 - D1**

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of Kay Berghaus, Trustee, of the Dean Berghaus Living Trust and Kay Berghaus Living Trust, PO Box 602, Meade, Kansas 67864, along with Marc and Jeanne Berghaus, PO Box 838, Meade, Kansas 67864, along with Charles Jeffery Twist on behalf of Twist Family Farms LLC, 130 Iroquois Road, Boulder, Colorado 80303-4214, and Teresa Cook, 12845 W. Hendryx Court, Wichita, Kansas 67235-1724, received in the office of the Chief Engineer on September 24, 2018, for approval of a change in the location of the place of use under the certificate of appropriation issued pursuant to the permit to appropriate water for beneficial use, as modified and amended by the Order of the Chief Engineer dated April 18, 2011, approving the application to change the place of use, and by the Findings and Order of the Chief Engineer dated December 14, 2018, determining the interest in Water Right, File No. 13,158, finds that the change is reasonable and will not impair existing rights, and that the application should be and is hereby approved.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized location of the place of use shall be:

located substantially as shown on the topographic map accompanying the application to change the place of use.

All diversion works into which any type of chemical or other foreign substance will be injected into the water pumped from the diversion works shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

The water right owner shall properly install an acceptable water meter on the diversion works authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meter has been completed. The water right owner shall maintain the water meter in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. The water right owner shall also report the reading of said water meter and the total quantity of water diverted annually to the Chief Engineer. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

In all other respects, the Certificate of Appropriation issued pursuant to Approval of Application, File No. 13,158 - D1, for permit to appropriate water for beneficial use, is as stated and set forth in the Certificate of Appropriation dated June 4, 1987, as modified and amended by the aforementioned orders.

RIGHT TO A HEARING AND TO ADMINISTRATIVE REVIEW

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may:

- 1) request an evidentiary hearing before the Chief Engineer, or
- 2) request administrative review by the Secretary of Agriculture.

Failure to request an evidentiary hearing before the Chief Engineer does not preclude your right to administrative review by the Secretary.

To obtain an evidentiary hearing before the Chief Engineer, a written request for hearing must be filed within 15 days after service of this Order as provided in K.S.A. 77-531 (i.e., **within a total of 18 days after this Order was mailed to you**), with: Kansas Department of Agriculture, Attn: Legal Section, 1320 Research Park Drive, Manhattan, KS 66502, FAX (785) 564-6777.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for hearing may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. The petition must be filed within 30 days after service of this Order as provided in K.S.A. 77-531 (i.e., **within a total of 33 days after this Order was mailed to you**), and be filed with: Secretary of Agriculture, Attn: Legal Division, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, KS 66502, FAX (785) 564-6777.

If neither a request for an evidentiary hearing nor a petition for administrative review is filed as set forth above, then this Order shall be effective and become a final agency action as defined in K.S.A. 77-607(b). Failure to timely request either an evidentiary hearing or administrative review may preclude further judicial review under the Kansas Judicial Review Act.

Mike,

This is the Berghaus changes. There will be quantity limitations placed on File Nos. 25,031; 28,580 and 30,950, so they can utilize all of the developed quantity between the six wells.

My memo didn't say anything about the term permit under File No. 20189043, on top of 30950 with the quantity being offset by File No. 25031. It is to expire shortly.

Please let me know if you could recommend these changes. As always comments and concerns are welcome.

Okay I met with kay berghause
Here is what we agreed on for amending the place of use changes
Please reivew, if you agree, I will have these forms signed/initialed and dated by the owner.
She need a good map and description first to review before she signs off on it.

Can you use this to amend all the applications if they agree?

Yes. The 1733 acres includes Twist in Section 30. Does your proposal from last week have a bearing on what was developed as base?

It would seem taking the acres in Sections 24 and 19 to just pivots at 136 each would work. And then two wipers in Section 29? Gave 1239.02 so some could be added back somewhere.

The division stands as proposed.

Still need to work on the map. No more than 1,264.5 acres under 3,149; 9,982; 14,309; 25,031; 28,580 & 30,950. I'll work on the maps and tables get them to you this is what I have so far.

No, Mike the base is 1,224 + 40 + 1,264.5 acres.
Total base for all water rights is 1,733
Subtract 508.48 from 1,733 = 1,264.5 (FOR THE DIVISION)
1,264.5 + 40 = 1,264.5

Mike,

Got to look at these with Brent. The division will go as proposed. So no need to contact Twist.

The changes from the proposed modification to the changes you sent last week total 1313.02 acres are still 49 acres over the max base 1264.5 acres. The proposed changes should total 1264.5 acres (base + 40 additional). I looks from the aerial there are acres not irrigated and could be removed. Do you want to contact Berghaus or should we?

Correct, but I am trying to figure base acres for all files since there were intertwined...
We need to know base for D2

No.. All the acres in Section 30 go to the D2 and are not proposed to change. I sent 3149 as it overlaps with 13158 and you can see the acres in 30 are not of the proposed. The change on file for 13158 will be modified to show as 13158-D1 and then D2 will go to Twist Family Farms will be on their own in Section 30.

Mike,

I looked at this again. Because the changes are not creating an identical overlap they should be looked involving the base acres.

Could you please let me know the base acres.

I've given it a go, but don't want to confuse you with my numbers. The changes propose a complete overlap of 1,475.51 acres.

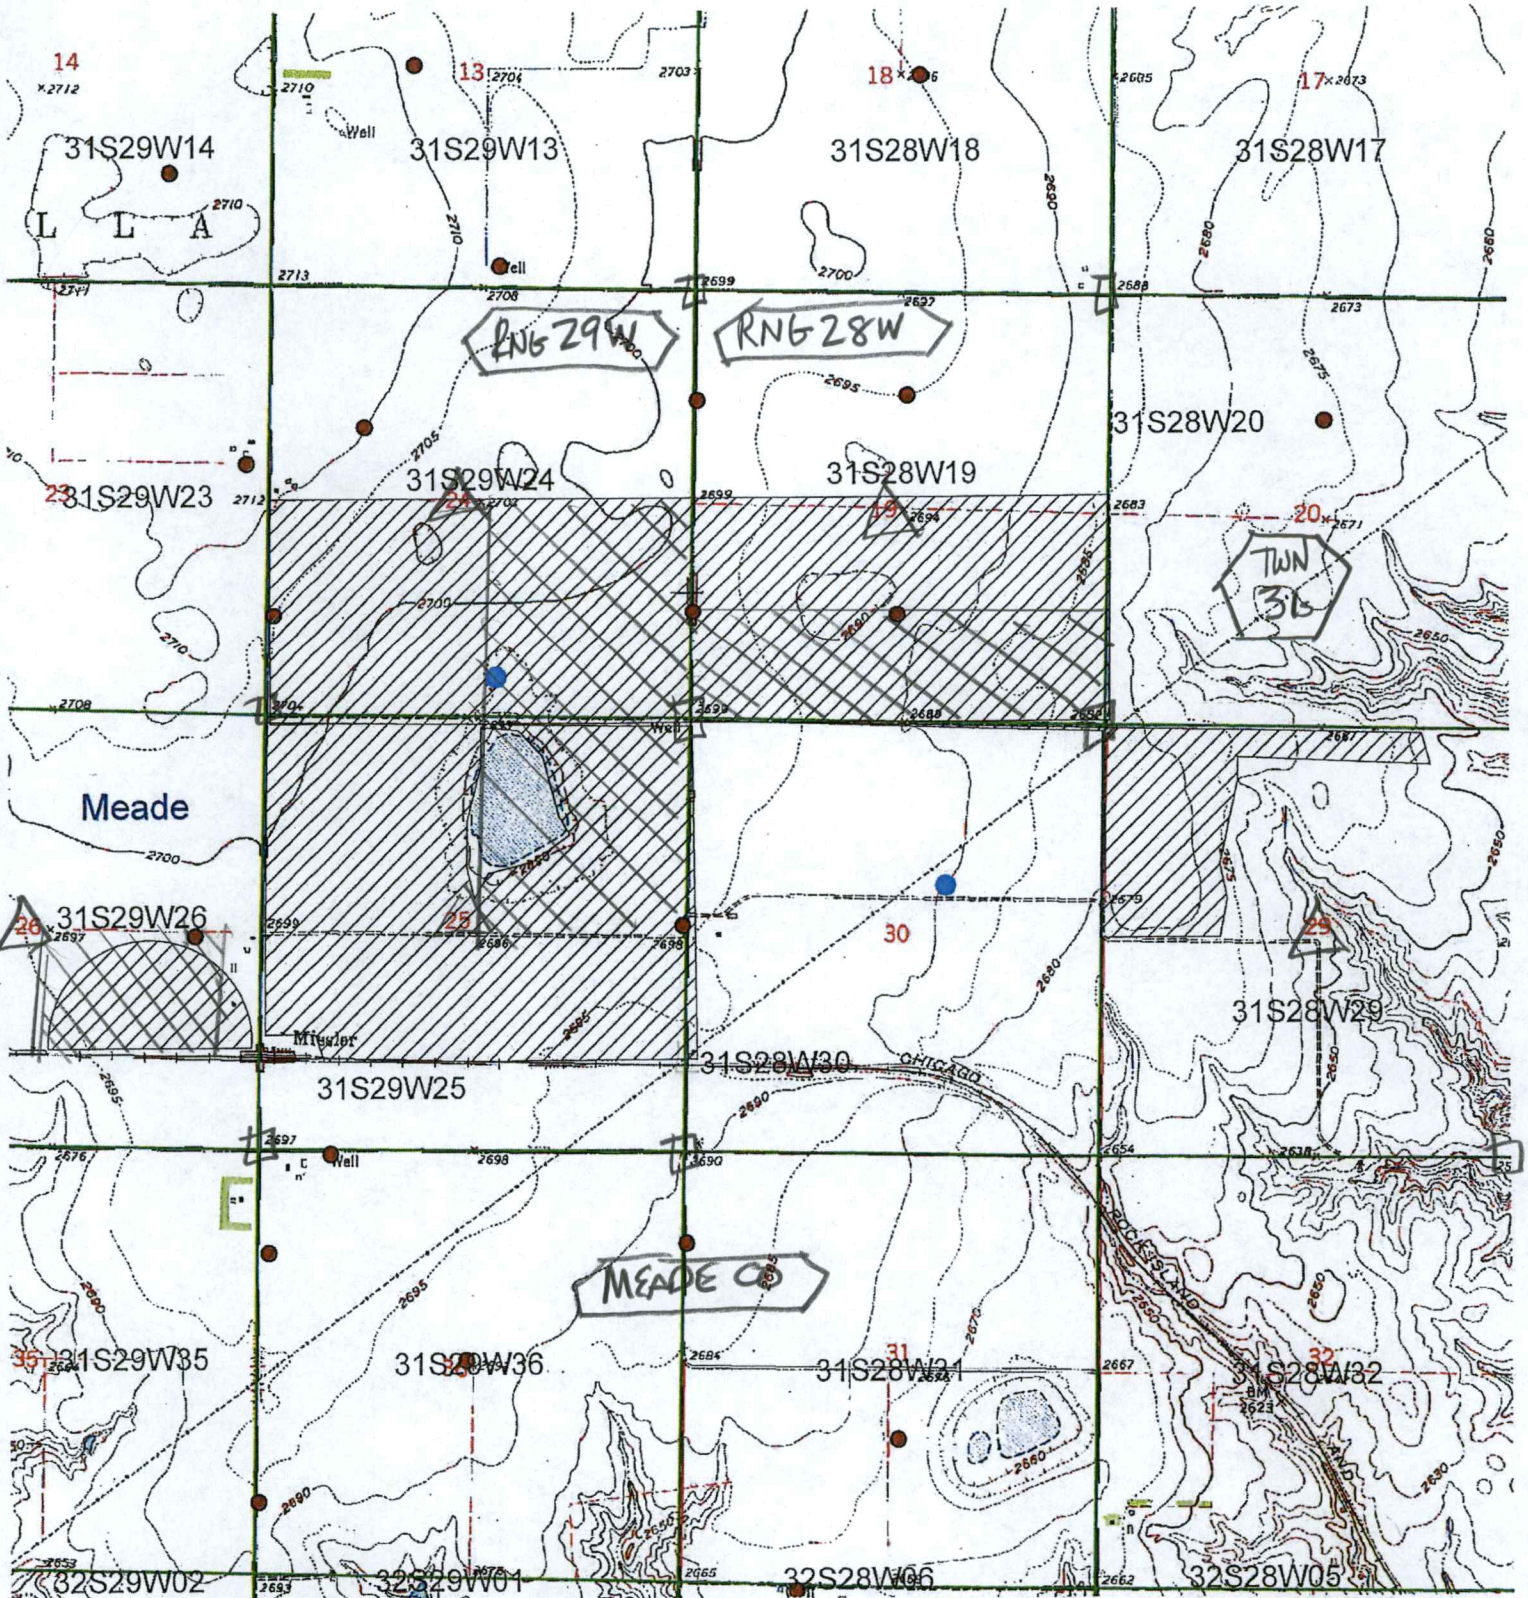

Looks like File Nos. 3149, 25031 & 28580 were developed together with 13158. But 13,158-D1 will contribute 159.52 base acres.

File Nos. 9982 & 14309 have theirs...

File No. 30950 developed some, but had it incomplete overlap with File No 13,158 & 25301

Might be like old times as you did the certificate work with Jim Congrove.

RE: Application for Change in place of Use
Water Right, File Nos. 3149, 9982, 13158 D1, 14309, 25031, 28580 & 30950

Dear Leslie:

We have completed a review of the applications for the above referenced water rights. The proposal is not in conflict with the Management Program of the Southwest Kansas Groundwater Management District No. 3 (GMD3). The request for change in place of use create a complete overlap and is within their base acres criteria set for in K.A.R. 5-5-11. It is therefore recommended that the application be approved at this time. The division request for Water Right 13158, will keep place of use separated while allowing the overlap with the other water rights.

Thank you for the opportunity to review the applications and to provide a recommendation. If you have any questions, please don't hesitate to contact us.

Sincerely,

Jason L. Norquest
Assistant Manager

The division of WR 13158 meets the rules and is not in need of a waiver.

The proposed change in PU will create a complete overlap to correct an impartial overlap that is currently authorized.

Is a waiver needed: NO.

Final Recommendation: After review of all available information, it appears current area rules are met. Staff therefore recommends approval of the applications.

Dear Sir or Madam:

This letter is to **provide notice** as required by K.S.A. 82a-1906, which became effective on July 1, 2016. This notice is to inform you that the owners of the referenced appropriations of water have filed applications for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture.

The applications for Water Right, File Nos. 3,149; 9,982; 13,158-D1; 14,309; 25,031; 28,580 & 30,950, propose a change in the authorized places of use to overlap all their irrigated acres. These changes will not alter the quantity of water or rate of diversion authorized for irrigation use. The applications will not increase the number of acres authorized for irrigation use, and the place of use as a whole will remain as authorized. The 1,473.51 acres authorized in Sections 19 & 29, in Township 31 South, Range 28 West, and in Sections 24, 25 & 26 in Township 31 south Range 29, West, Meade County, Kansas would be authorized by each of the referenced files.

If you have any questions, please contact our office, my desk phone is (785) 564-6633. If you wish to discuss a specific file, please have the file numbers ready so that we may help you more efficiently.

Sorry to bother you again, but will the PO Box 99 in Meade remain the address? The address in our records is where the order for the division will be sent (need to be recorded with Meade Co register of deeds) and also this would be the address for the mailing of annual water use report sent in January that is required to be returned to us by March 1, or filed on line,.

Looks like your file number, after the division will be 13,158-D2, and held as Twist Family Farms LLC.

RE: File No 13158

Dear Sir or Madam:

An application for approval of the Chief Engineer to change the following condition or conditions of the file number referred to above has been received:

- place of use PU
- point of diversion
- use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore, to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. You will be contacted regarding this application as soon as it has been examined.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water prior to approval of the application is unlawful. You should not proceed and divert water as indicated by your plans in your application for a change for this file until you receive approval for this change from the Chief Engineer. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor...

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Brent Tourney, L.G.

12. The presently authorized use of water is for irrigation purposes.

It is proposed that the use be changed to irrigation purposes.

13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.

no change proposed to increase pumping, or acres irrigated and no change to irrigation wells

(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to na (acre-feet or million gallons).

15. It is requested that the maximum rate of diversion of water be reduced to _____ gallons per minute (_____ c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 (www.usgs.gov). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.

a. If a change in the location of the point(s) of diversion is proposed, show:

- 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
- 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
- 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.

b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

no chagne is proposed to source of supply

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

Any use of water that is not as authorized by the water right or permit to authorize water **before** the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

Any use of water that is not as authorized by the water right or permit to authorize water **before** the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

Dated at Meado, Kansas, this 14th day of September, 20 18.
