RE: Change the Place of Use, File Nos 2955 7661 12343
22520

Dear Mr. Angell;

Enclosed you will find a *Summary Order Approving Application for Change in Place of Use* for the above referenced files. Since these orders modify the original documents, it should be recorded at the County Register of Deeds.

These orders modify the authorized acres that can be irrigated by these files. The authorized place of use is as shown on the plats within the change approvals.

A condition of this order is that an acceptable flow meter must be properly installed on the diversion works authorized under the referenced file number in accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12. This water flow meter shall be used to provide information required on the annual water use report (including the meter reading at the beginning and end of the report year).

This order shall become final if a request for a hearing is not filed with the Chief Engineer within 15 days of the date of service of this order. The date of service is the date listed on the enclosed *Certificate of Service*.

Should you have any questions, please feel free to call this office or arrange an appointment for additional assistance. Please refer to the file number when you contact us if you wish to discuss a specific file.

Sincerely,

Thomas P. Makens
Assistant Water Commissioner

Re: Water Right file number 2955 7661 12343 22520

Dear Mr. Norquest;

The Hamm Estate has applied to alter the acres authorized to add a pivot location. The base acres are 750. There are three neighboring wells all belong to the same owner.

We are delaying action for 15 days on the change application to allow you time to review and provide a recommendation if you feel one is warranted. I have enclosed a copy of the change for your perusal.

Thank you and as always feel free to call or write us at any time.

Sincerely;

RE: Applications for Change in Place of Use
Water Rights, File Nos. 2955, 7661, 12343 & 22520

Garden City Field Office
Division of Water Resources

Dear Thomas:

We have completed a review of the application for the above referenced water rights. The proposals are not in conflict with the Management Program of the Southwest Kansas Groundwater Management District No. 3 (GMD3). The proposed change in place of use, to bring in a pivot in the SE quarter by removing some of the currently authorized corners, is in accordance with K.A.R. 5-5-11. It is therefore recommended that the applications be approved at this time.

Thank you for the opportunity to review the applications and to provide a recommendation. If you have any questions, please don't hesitate to contact us.

Sincerely,

Jason L. Norquest
