(d) □ Water Power (h) □ Sediment Control							

5 .	The location of the proposed wells, pump sites or other works for diversion of water is:												
	Note: For the application to be accepted, the point of diversion location must be described to at least a 10 acre tract, unless you specifically request a 60 day period of time in which to locate the site within a specifically described, minimal legal quarter section of land.												
	(A) One in the quarter of the quarter of the <u>LOT 4</u> quarter of Section <u>31</u> , more particularly												
	described as being near a point <u>329</u> feet North and <u>4759</u> feet West of the Southeast corner of said section,												
	in Township <u>29</u> South, Range <u>32</u> West, <u>HASKELL</u> County, Kansas.												
	(B) One in the quarter of the quarter of the quarter of Section, more particularly												
	described as being near a point feet North and feet West of the Southeast corner of said												
	section, in Township South, Range East/West (circle one), County, Kansas.												
	(C) One in the quarter of the quarter of the quarter of Section, more particularly												
	described as being near a point feet North and feet West of the Southeast corner of said												
	section, in Township South, Range East/West (circle one), County, Kansas.												
	(D) One in the quarter of the quarter of the quarter of Section, more particularly												
	described as being near a point feet North and feet West of the Southeast corner of said												
	section, in Township South, Range East/West (circle one), County, Kansas.												
	If the source of supply is groundwater, a separate application shall be filed for each proposed well or battery of wells, except that a single application may include up to four wells within a circle with a quarter (¼) mile radius in the same local source of supply which do not exceed a maximum diversion rate of 20 gallons per minute per well.												
	A battery of wells is defined as two or more wells connected to a common pump by a manifold; or not more than four wells in the same local source of supply within a 300 foot radius circle which are being operated by pumps not to exceed a total maximum diversion rate of 800 gallons per minute and which supply water to a common distribution system.												
6.	The owner of the point of diversion, if other than the applicant is (please print):												
	SAME AS APPLICANT												
	(name, address and telephone number)												
	(name, address and telephone number)												
	You must provide evidence of legal access to, or control of, the point of diversion from the landowner or the landowner's authorized representative. Provide a copy of a recorded deed, lease, easement or other document with this application. In lieu thereof, you may sign the following sworn statement:												
	I have legal access to, or control of, the point of diversion described in this application from the landowner or the landowner's authorized representative. I declare under penalty of perjury that the foregoing is true and correct. Executed on 12-14-18, 20												
	The applicant must provide the required information or signature irrespective of whether they are the landowner. Failure to complete this portion of the application will cause it to be unacceptable for filing and the application will be returned to the applicant.												
7.	The proposed project for diversion of water will consist of 1 WELL & PUMP (number of wells, pumps or dams, etc.)												
	and (was)(will be) completed (by) EXISTING WELL (Month/Day/Year - each was or will be completed)												
8.	The first actual application of water for the proposed beneficial use was or is estimated to be ASAR Pesouro												
٠.	(Mo/Day/Year) Received												

		File No. <u>50 184</u>
	Wil	I pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion works?
		Yes XNo If "yes", a check valve shall be required.
		chemigation safety requirements must be met including a chemigation permit and reporting requirements.
0.	sub	ou are planning to impound water, please contact the Division of Water Resources for assistance, prior to omitting the application. Please attach a reservoir area capacity table and inform us of the total acres of face drainage area above the reservoir.
		ve you also made an application for a permit for construction of this dam and reservoir with the Division of the Resources? ☐ Yes ☐ No
	•	If yes, show the Water Structures permit number here N/A
	•	If no, explain here why a Water Structures permit is not required
1.	sho sec	e application <u>must</u> be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plat bying the following information. On the topographic map, aerial photograph, or plat, identify the center of the stion, the section lines or the section corners and show the appropriate section, township and range numbers. o, please show the following information:
	(a)	The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North-South distance and the East-West distance from a section line or southeast corner of section.
	(b)	If the application is for groundwater, please show the location of any existing water wells of any kind within ½ mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within ½ mile, please advise us.
	(c)	If the application is for surface water, the names and addresses of the landowner(s) $\frac{1}{2}$ mile downstream and $\frac{1}{2}$ mile upstream from your property lines must be shown.
	(d)	The location of the proposed place of use should be shown by crosshatching on the topographic map, aerial photograph or plat.
	(e)	Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.
		A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence, Kansas 66047.
2.	poi	t any application, appropriation of water, water right, or vested right file number that covers the same diversion nts or any of the same place of use described in this application. Also list any other recent modifications made existing permits or water rights in conjunction with the filing of this application.

GOVERNOR JEFF COLYER, M.D. JACKIE McClaskey, Secretary of Agriculture

CROP PRODUCTION SERVICES Nutrient Ag Solutions 122 w. Laurel Garden City, KS 67846 January 4, 2019

Dear Sir or Madam:

The Division of Water Resources (Division) has received your application for a permit to appropriate water for beneficial use. Your application has been assigned the file number referenced above. Please be aware that the Division may have a large number of pending applications on hand at times and makes every attempt to process them in the order in which they are received. You will be contacted if additional information is required.

RE: Application, File No. 50184

Please note, this letter only acknowledges receipt of your application and does not guarantee approval. In accordance with the provisions of the Kansas Water Appropriation Act, the use of water as proposed prior to approval of the application is unlawful.

Additional information about the process may be found on our website at <u>agriculture.ks.gov/divisions-programs/dwr</u>. If you have any other questions, please contact our office at 785-564-6640 or your local Garden City Field Office at 620-276-2901. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

Brent Tourney, L.G.
