FROM: Richelle A. Krueger

RE: Water Right
File Nos. 17,248; 23,101;
23,872 and 39,356

Roger Cline, on behalf of Chester A. and Mildred E. Cline Living Trust, water right owner, filed applications for approval to change the authorized place of use for File Nos. 17,248; 23,101; 23,872 and 39,356, authorized groundwater for irrigation use in the Cimarron River drainage basin. The referenced change application was filed in conjunction with Application, File No. 50,238 processed by Austin McCullough, Assistant Water Commissioner of the Garden City Field Office.

The above referenced files do not appear abandoned as per K.S.A. 82a-718.

File Nos. 17,248; 23,101 and 39,356 have no current overlaps in point of diversion and are authorized a limited total of 1,054 acre-feet of groundwater for irrigation of the same 572.5 acres in Section 12, Township 33 South, Range 35 West, Stevens County. File No. 23,872 has no overlaps in the point of diversion or place of use and is authorized 520 acre-feet for irrigation of 260 acres in the East Half (E½) of Section 1 of the aforementioned township and range. The referenced change applications propose to create an exact overlap in place of use along with File No. 50,238, dropping and adding new acres for a total of 842 acres in Sections 1, 11 and 12 of the aforementioned township and range. The new application was filed for additional rate only on the well authorized by File No. 39,356. Base acres are 832 acres as indicated on the applications, so the application complies with K.A.R. 5-5-11

The total authorized quantity under the referenced file numbers, 1,574 acre-feet, can irrigate the proposed 842 acres with 1.87 acre-feet per acre, which appears reasonable since the maximum acre-feet per acre allowed in Stevens County is 2.0 acre-feet per acre.

No nearby well owners were notified since the applications create an exact overlap in place of use.

The same local source of supply will not change.

In a letter dated May 6, 2019, Jason Norquest, Assistant Manager of Southwest Kansas Groundwater Management District No. 3, recommended approval of the applications at this time.

Mike Meyer, Water Commissioner of the Garden City Field Office, recommended approval of the applications in a June 19, 2019 e-mail.

Water flow meters are required. Check valves are required if any chemical or foreign substance is injected into the water through the diversion works.

Based on the above discussion, that the changes are reasonable, that impairment to existing water rights is unlikely, and that no change in the local source of supply will occur, it has been recommended the change applications be approved.

RE: Water Right, File Nos. 17,248; 23,101; 23,872 and 39,356

Dear Mr. Cline:

Enclosed are the orders executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the applications for change under the above referenced file numbers.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in these approvals for change. A condition of these approvals is that acceptable water flow meters must be installed on the diversion works authorized under the referenced file numbers. Please return the required notification of completion of the diversion works and/or installation of the required meters as soon as these actions are completed.

Since the orders modify the original documents referred to above, they should be recorded with the Register of Deeds as other instruments affecting real estate.

If you have any questions, please contact this office. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

Brent A. Turney, P.G.

DIVISION OF WATER RESOURCES
 David W. Barfield, Chief Engineer

**APPROVAL OF APPLICATION
 FOR
 CHANGE IN PLACE OF USE
 WATER RIGHT
 FILE NO. 39,356**

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of Roger Cline, on behalf of Chester A. and Mildred E. Cline Living Trust, and Cline Land Company, L.L.C., 661 Lilac Drive, Liberal, Kansas 67901-2023, received in this office on April 15, 2019, for approval of a change in the location of the place of use under the certificate of appropriation issued pursuant to the permit to appropriate water for beneficial use, as modified and amended by the Order of the Chief Engineer dated November 20, 2017, approving the application to change the point of diversion, finds that the change is reasonable and will not impair existing rights, and that the application should be and is hereby approved.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized location of the irrigation place of use shall be:

Sec.	Twp.	Range	NE¼				NW¼				SW¼				SE¼				TOTAL ACRES		
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼			
1	33S	35W	30.00	30.00	30.00	30.00														240.00	
11	33S	35W																			114.00
12	33S	35W	30.50	30.50	30.50	30.50	30.50	30.50	30.50	30.50	30.50	30.50	30.50	30.50	30.50	30.50	30.50	30.50	30.50	30.50	488.00

a total of 842.00 acres in Township 33 South, Range 35 West, Stevens County, Kansas, located substantially as shown on the map accompanying the application to change the place of use.

All diversion works shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

The water right owner shall properly install an acceptable water meter on the diversion works authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meter has been completed. The water right owner shall maintain the water meter in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. The water right owner shall also report the reading of said water meter and the total quantity of water diverted annually to the Chief Engineer. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

In all other respects, the Certificate of Appropriation issued pursuant to Approval of Application, File No. 39,356, for permit to appropriate water for beneficial use, is as stated and set forth in the Certificate of Appropriation dated July 9, 2001, as modified and amended by the aforementioned order.

RIGHT TO A HEARING AND TO ADMINISTRATIVE REVIEW

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may:

- 1) request an evidentiary hearing before the Chief Engineer, or
- 2) request administrative review by the Secretary of Agriculture.

Failure to request an evidentiary hearing before the Chief Engineer does not preclude your right to administrative review by the Secretary.

To obtain an evidentiary hearing before the Chief Engineer, a written request for hearing must be filed within 15 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 18 days after this Order was mailed to you), with the Kansas Department of Agriculture, Attn: Legal Section, 1320 Research Park Drive, Manhattan, Kansas 66502, or by FAX (785) 564-6777.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for review may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. The petition must be filed within 30 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 33 days after this Order was mailed to you), and be filed with the Secretary of Agriculture, Attn: Legal Division, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, or by FAX (785) 564-6777.

If neither a request for an evidentiary hearing nor a petition for administrative review is filed as set forth above, then this Order shall be effective and become a final agency action as defined in K.S.A. 77-607(b). Failure to timely request either an evidentiary hearing or administrative review may preclude further judicial review under the Kansas Judicial Review Act.

KS DEPT OF AG SCANNED

12. The presently authorized use of water is for IRR purposes.
It is proposed that the use be changed to NO CHANGE purposes.

13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.
17248; 23101; 23872 AND 39356 COMBINED BASE ACRES = 832 ACRES *MM/GCFO REVIEWED
INCREASE IN 10 ACRES TO 842 ACRES PER K.A.R. 5-5-11(b)

(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to NA (acre-feet or million gallons).

15. It is requested that the maximum rate of diversion of water be reduced to NA gallons per minute (____ c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 (www.usgs.gov). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map:

- a. If a change in the location of the point(s) of diversion is proposed, show:
 - 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
 - 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
 - 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.
- b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

NO CHANGE IN LOCAL SOURCE OF SUPPLY

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

Any use of water that is not as authorized by the water right or permit to authorize water **before** the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

Hi Mike,
Attached is a revised draft memo for the referenced change, do you recommend approval?

Also, Austin I wonder if we should change all the ownership to Roger W. Cline Rev Trust since that's what Stevens ORKA shows?

Thanks,
Richelle

Subject: RE: Recommendation New Application File No 50238

I recommend approval. Not sure why GMD3 contacted neighbors over one half mile when there were no effects in their mind...

Mike

Subject: Recommendation New Application File No 50238

Mike,

Attached is my draft memo for the above referenced file. This is for rate only overlapping WR 39536 for 15%. HQ change apps have also been filed to overlap all place of use (see Richelle rec request on 5/9 that is still pending I think). Also attached is the GMD rec. Let me know if you have any questions.

Thanks,

RE: Change Applications
Water Right, File Nos. 17248, 23101, 23872 & 39356

Dear Richelle:

We have completed a review of the applications for the above referenced water rights. The proposals are not in conflict with the Management Program of the Southwest Kansas Groundwater Management District No. 3 (GMD3) and is in accordance with K.A.R. 5-5-11(b). The proposal will bring in 114 acres of ground currently not authorized by eliminating acres that are currently authorized and increasing by 10 acres over the base acres. It is therefore recommended that applications be approved at this time.

Thank you for the opportunity to review the applications and to provide a recommendation. If you have any questions, please don't hesitate to contact us.

Sincerely,

Jason L. Norquest
Assistant Manager

Base Acres: 832 combined.

Perfected Acres: .

Irr. Return-Flow %

Reducing acres on the current IRR in Sections 12 and 1 so that a pivot can be placed in the SE of 11-33-35.

Current authorized acres combined is 832.2.

Proposed acres is 842, which is within the 10 acres or 10% whichever is less rules.

Is a waiver needed: Proposal meets the current area rules.

Recommendation: New acres are being proposed along with a complete overlap and meets criteria in KAR 5-5-11. Staff therefore recommends approval of the applications.

FILE COPY

Re: Water Right, File Nos. 17,248; 23,101; 23,872 and 39,356

Dear Jason:

We are enclosing copies of the applications to change the place of use for the referenced file numbers.

We are delaying further action for a period of 15 days from the date of this letter to allow you time to submit your recommendations concerning these applications.

Please submit your recommendations within the allowed time, or any authorized extension of time thereof. If you have any questions, please contact me at (785) 564-6635. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

RE: File No 39356

Dear Sir or Madam:

An application for approval of the Chief Engineer to change the following condition or conditions of the file number referred to above has been received:

- place of use PU
- point of diversion
- use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore, to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. You will be contacted regarding this application as soon as it has been examined.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water prior to approval of the application is unlawful. You should not proceed and divert water as indicated by your plans in your application for a change for this file until you receive approval for this change from the Chief Engineer. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor...

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

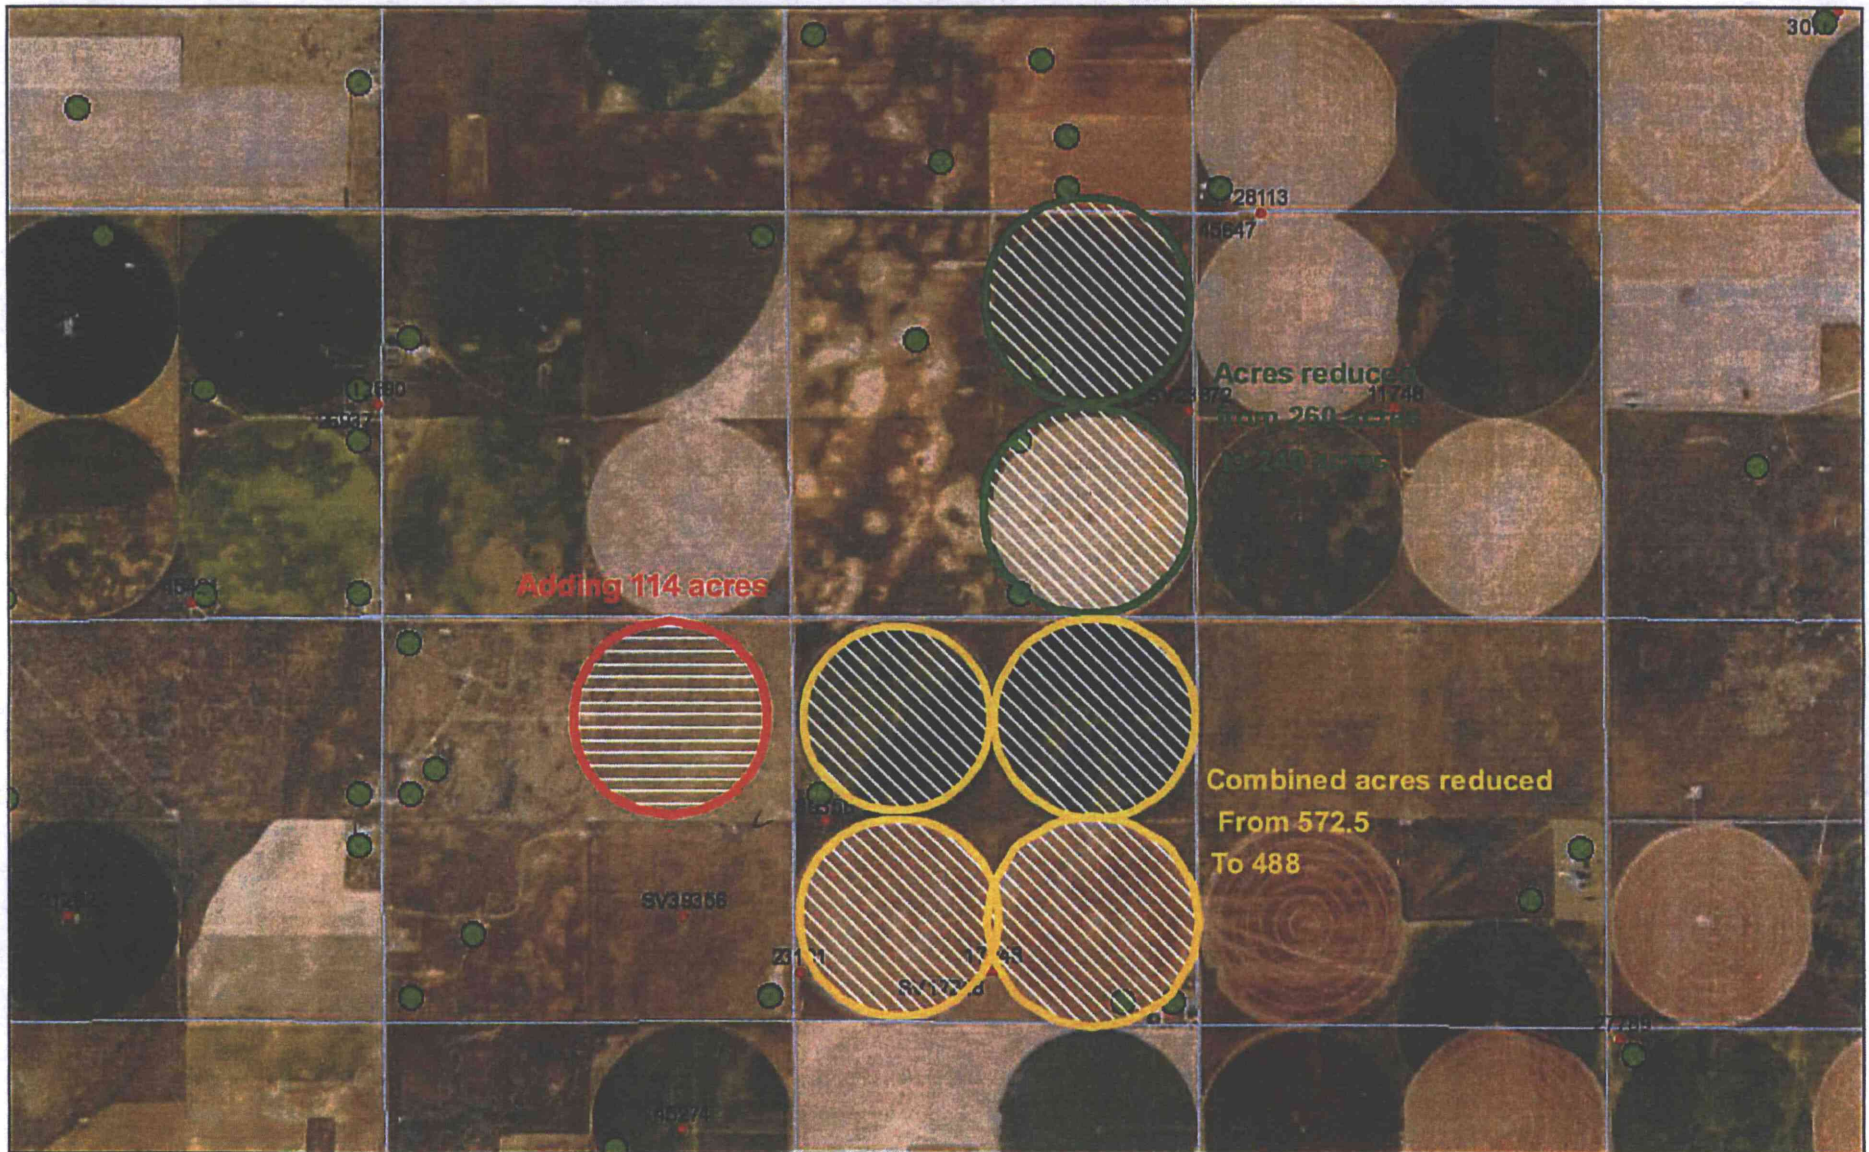

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Brent Tourney, L.G.

Good afternoon Richelle, hope you had a good weekend. I got caught out mowing last night when we got a little storm. Only lasted 30 minutes or more and gave us a half inch at my place. In town barely got a drop. Sounds like more storms tonight scattered around.

Attached is the review for this change in place of use for you. If you have questions, just let me know. I will put the signed cover in the mail to you.

Have a good day.
