TO: Files
FROM: Leslie Ireland

DATE: July 22, 2020

RE: Water Right, File Nos. 10,427; 18,618;
23,880; 30,132; 37,688; 38,457; 38,458;
38,677 and 38,678

Scott Foote on behalf of Lane Cattle Feeders, LLC., as owner of the referenced water rights, has filed applications for all of the referenced files to change the place of use authorized for stockwatering use. Additionally, File Nos. 23,880; 38,677 and 38,678 propose use made of water changes as dual use and File Nos. 38,457 and 38,458 request a change in point of diversion. The applications were received on March 9, 2020. The applications were prepared by Craig Griswold, I.E., KLA Environmental Services, Incorporated.

The water rights do not appear to be abandoned as per K.S.A. 82a-718, *Abandonment of water rights*, and in compliance with K.S.A.82-732, *Annual water use report required; penalty for violations*. The applications appear to comply with K.A.R. 5-5-2a, *Complete change application*.

The requested changes in point of diversion are for Water Right, File Nos. 38,457 and 38,458, both authorized for stockwatering from separate wells. File No. 38,457, referenced as Well #3, is authorized 2.9 million gallons per year (mgy) (8.90 acre-feet (AF)) at 57 gallons per minute (GPM). File No. 38,458, referenced as Well #3 South, provides only 43 GPM additional rate as it is limited to 2.9 mgy (8.90 AF) at 100 GPM when combined with File No 38,457. The changes in points of diversion is to consolidate them to the well authorized by File No. 10,427. The rights will move approximately 740 and 630 feet. The authorized wells are located in the far Southeast Quarter (SE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 2, with the proposed existing well located in the (SW $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$) at a 2008 GPS determined location of 111 feet North and 5,172 feet West of the Southeast corner of Section 1, all in Township 17 South, Range 29 West, Lane County. The source of supply for all of the wells has been determined to be the Ogallala Formation (Code 211). The rights are not located in a special use area but are in the Western Kansas Groundwater Management District No. 1, (GMD 1). The source of supply for all the wells has been determined to be the Ogallala Formation (Code 211).- The applicant has indicated the two(2) wells no longer authorized will be capped.

The owners requested a **waiver of K.A.R. 5-21-3, Well spacing requirements**. The waiver is needed due to the proposed existing well is located less than the 2,640 feet from two (2) irrigation wells and one (1) stockwatering well. The applicant owns the stockwatering well and one (1) of the irrigation wells. The owner and water use correspondent of the other irrigation well, authorized by File Nos. 5,523 & 15,120, were informed by letter dated May 13, 2020. No comments of any kind were received. It appears the requirement of K.S.A. 82a-1906, *Notifications and publications of certain applications and orders*, has been met.

The requested changes in place of use are only for stockwatering. The two separate stockwatering facilities (purchased a defunct swine facility) will be combined and the footprint expanded in Section 11 to authorize the North Half and Southwest Quarter (N $\frac{1}{2}$) & (SW $\frac{1}{4}$). Currently, stockwatering authorized under File Nos. 10,427; 18,618; 30,132 & 37,688, is located in Sections 1, 11 & 12. The place of use authorized by File Nos. 38,457 & 38,458, is the Southeast Quarter of the Southeast Quarter (SE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 2. The changed in place of use will authorize stockwatering as:

a feedyard located in the Southwest Quarter (SW $\frac{1}{4}$) of Section 1, the Southeast Quarter of the Southeast Quarter (SE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 2, the North Half (N $\frac{1}{2}$) and the Southwest Quarter (SW $\frac{1}{4}$) of Section 11, and in the Northwest Quarter (NW $\frac{1}{4}$) of Section 12, all in Township 17 South, Range 29 West, Lane County, Kansas.

The existing stockwatering under File Nos. 10,427; 18,618; 30,132; 37,688; 38,457 & 38,458, provide a total of 580.63 acre-feet (AF) per year or 189.20 million gallons per year (mgy).

Change to dual irrigation and stockwatering use File Nos. 23,880; 38,677 and 38,678

These appropriations authorize only irrigation use each from their own point of diversion, with the irrigated place of use under File Nos. 38,677 & 38,678 overlapped. There are no additional limitations. The request for dual use of water that will allow for both stockwatering use and irrigation use in any calendar year, and request temporary reductions/limitations in quantity based on K.A.R. 5-5-9, *Approval of application for a change in the use made of water from irrigation to any other type of beneficial use of water*, calculations.

The regulation applies a consumptive use (CU) adjustment of 81.1% for Lane County (LE Co). The quantity for the temporarily requested dual use:

File No. 23,880: 202 AF X .811(LE Co CU) = 163.82AF or 53.38 mgy

File No. 38,677: 171 AF X .811(LE Co CU) = 138.10AF or 45.19 mgy

File No. 38,678: 142 AF X .811(LE Co CU) = 115.16AF or 37.52 mgy

The reductions assure compliance with per KAR 5-5-3, *Change in consumptive use*. The dual use adds a combined total of 417.67 AF or 136.10 million gallons per year to the stockwatering operation. While these three (3) files are permitted as dual use a total of 998.3 AF per year (325.30 mgy) will be authorized for stockwatering.

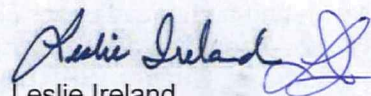

As detailed in KAR 5-3-22, *Maximum reasonable quantity of water for livestock and poultry*, the 70,000 head would be afforded a maximum reasonable quantity of 1,176 AF per year (383.25 mgy) at 15 gallons per head per day. The justified and authorized quantity appear to be reasonable and no additional limitations on the overall stockwatering quantity will be needed.

In a letter dated June 17, 2020, Kyle Spencer, District Manager, GMD 1, stated the Board unanimously **voted to waive K.A.R. 5-21-3 for File Nos. 38,457 & 38,458** and recommended approval of all the applications for change referenced above.

In an e-mail dated July 17, 2020, Michael Meyer, Water Commissioner, Garden City Field Office, indicated that he recommended approval of the applications and supported the requested waivers.

Water flowmeters will be required for each use by the dual use wells and the standard condition for flowmeters and check valves will be on the approvals. The changes in point of diversion will not require water level measurement tubes as rate is low and proposed point of diversion dates from 1964. A notice of completion will be required for File Nos. 38,457 and 38,458.

Based on the above discussion, that the waivers of K.A.R. 5-21-3, may be granted, and that it appears impairment to existing water rights is unlikely, and that no change in the local source of supply will occur, that the approvals would be in compliance with K.A.R. 5-5-9, not increasing the historical consumptive use, the referenced applications have been recommended to be approved.

RE: Water Right, File Nos. 10,427; 18,618; 23,880; 30,132; 37,688; 38,457; 38,458; 38,677 and 38,678

Dear Mr. Foote:

Enclosed are the orders executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the applications for change under the above referenced files.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in these approvals for change. A condition of these approvals is that an acceptable water flowmeter must be installed so both irrigation and stockwatering uses can be metered independent of each other, from each of the diversion works under File Nos. 23,880; 38,677 and 38,678, prior to the diversion of water. Additionally, a Notice of Completion will be needed for File Nos. 38,457 and 38,458. Please return the required notification of completion of the diversion works and/or installation of the required flowmeter as soon as these actions are completed.

Since these orders for the referenced file numbers modify the original documents referred to above, they should be recorded with the Register of Deeds as other instruments affecting real estate.

If you have any questions regarding the installation of the required flowmeters, please contact Michael Meyer, with our Garden City Field Office at 620-276-2901. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

A handwritten signature in blue ink that reads "Richelle A. Krueger".

**APPROVAL OF APPLICATION
FOR
CHANGE IN PLACE OF USE
AND
ORDER BETTER DESCRIBING THE AUTHORIZED POINT OF DIVERSION
WATER RIGHT, FILE NO. 10,427**

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of Scott Foote on behalf of Lane County Feeders LLC, 16 W Road 230, Dighton, Kansas 67839-5050, received in this office on March 9, 2020, for approval of a change in the location of the place of use under the certificate of appropriation issued pursuant to the application for permit to appropriate water for beneficial use, as modified and amended by the Orders of the Chief Engineer dated September 11, 1985 and October 9, 1995, approving the applications to change the authorized place of use and use made of water, and by the Order of the Chief Engineer dated August 7, 2007, approving the application to change the point of diversion, finds that the change is reasonable and will not impair existing rights, and that the application should be and is hereby approved.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized location of the place of use shall be:

a feedlot located in the Southwest Quarter (SW $\frac{1}{4}$) of Section 1, the Southeast Quarter of the Southeast Quarter (SE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 2, the North Half (N $\frac{1}{2}$) and the Southwest Quarter (SW $\frac{1}{4}$) of Section 11, and in the Northwest Quarter (NW $\frac{1}{4}$) of Section 12, all in Township 17 South, Range 29 West, Lane County, Kansas,

all located substantially as shown on the topographic map accompanying the application to change the place of use, and the location of the authorized point of diversion shall be better described as:

one (1) well located in the Southwest Quarter of the Southwest Quarter of the Southwest Quarter (SW $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$) of Section 1, more particularly described as being near a point 111 feet North and 5,172 feet West of the Southeast corner of said section, in Township 17 South, Range 29 West, Lane County, Kansas.

All diversion works into which any type of chemical or other foreign substance will be injected into the water pumped from the diversion works shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

The water right owner shall properly install an acceptable water meter on the diversion works authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meter has been completed. The water right owner shall maintain the water meter in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. The water right owner shall also report the reading of said water meter and the total quantity of water diverted annually to the Chief Engineer. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

In all other respects, the Certificate of Appropriation issued pursuant to Approval of Application, File No. 10,427 for permit to appropriate water for beneficial use, is as stated and set forth in the Certificate of Appropriation dated June 16, 1975, as modified and amended by the orders.

Ordered this 29 day of July, 2020, in Manhattan, Riley County, Kansas.

MAR 09 2020

SCANNED KS Dept Of Agriculture

Handwritten signature and date: LD/DWR 5/12/20

12. The presently authorized use of water is for STOCKWATERING purposes.
It is proposed that the use be changed to NO CHANGE purposes.
13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.
CHANGE APPLICATIONS WILL ENSURE NO INCREASE IN CONSUMPTIVE USE BY COMPLYING WITH THE PROVISIONS OF K.A.R. 5-5-9. PLEASE REFER TO THE ENCLOSED CALCULATIONS AND RELATED DOCUMENTATION FOR MORE DETAILED INFORMATION.

(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to _____ (acre-feet or million gallons).
15. It is requested that the maximum rate of diversion of water be reduced to _____ gallons per minute (____ c.f.s.).
16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 (www.usgs.gov). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.
- a. If a change in the location of the point(s) of diversion is proposed, show:
- 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
 - 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within ½ mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within ½ mile, please indicate so on the map.
 - 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) ½ mile downstream and ½ mile upstream from your property lines must be shown.
- b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.
17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

NO CHANGE IN WELL LOCATION OR LOCAL SOURCE OF SUPPLY WATER.

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

Any use of water that is not as authorized by the water right or permit to authorize water before the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

Dated at Hoxie, Kansas, this 4th day of March, 2020.

My Commission Expires 5-30-2022

FFF SCHEDULE

Each application to change the place of use, the point of diversion or the use made of the water under this section shall be accompanied by the application fee set forth in the schedule below:

- (1) Application to change a point of diversion 300 feet or less \$100
- (2) Application to change a point of diversion more than 300 feet \$200
- (3) Application to change the place of use \$200
- (4) Application to change the use made of the water \$300

Make check payable to Kansas Department of Agriculture.

KS Dept Of Agriculture

Mr. David Barfield, P.E.
Chief Engineer
Division of Water Resources
Kansas Department of Agriculture
1320 Research Park Drive
Manhattan, KS 66502

Subject: Change Applications Pertaining to Water Right File Nos. 10,427; 18,618; 30,132;
37,688; 38,457; 38,458; 23,880; 38,677; and 38,678 for Lane County Feeders, LLC

Dear Mr. Barfield:

Nine change applications pertaining to the subject water rights are enclosed for your consideration. These applications are submitted on behalf of the applicant, Lane County Feeders, LLC. KLA Environmental Services, Inc. assisted with the preparation of these applications. Additional information relating to the change applications is provided herein.

Water for livestock consumption at Lane County Feeders, LLC is currently supplied by four wells. All four stockwater wells discharge into an interconnected pressurized pipeline system that supplies water to the entire facility. The operation of the system is based upon variable livestock demand and the physical characteristics of the pumps and pipeline system.

In September 2019, Kansas Department of Health and Environment (KDHE) issued a new permit to Lane County Feeders, LLC which increased their permitted headcount to 70,000 cattle with an approved plan for an expansion of the feedyard. The water system for the new expansion is planned to be interconnected with the existing feedyard's pipeline system. Change in place of use to include the expansion is necessary to allow for this connection.

SCANNED

Application for Change in Place of Use and Point of Diversion Pertaining to File Nos. 38,457 and 38,458

Lane County Feeders, LLC previously purchased a tract of land which had been a hog facility. The tract of land included two wells associated with File Nos. 38,457 and 38,458. The water rights were not connected to the facility's stockwater system, even though they have been approved for stock use.

The well associated with File No. 10,427 (North Well) is located nearby, and often acts as the dominant well in the interconnected system. To assist in reducing the risk of over-pumping the North Well, it is proposed to transfer the entire authorized quantity from the existing points of diversion associated with File Nos. 38,457 and 38,458 to the existing point of diversion associated with File No. 10,427, and to change the place of use to coincide with the other applications for changes in place of use.

Application for Change in Place of Use and Use Made of Water Pertaining to File Nos. 23,880; 38,677; and 38,678

70,000 x 15 x 365 = 38325000 gal/yr

Lane County Feeders, LLC has a maximum permitted capacity of 70,000 head of beef cattle. The maximum reasonable use for this capacity is 1,176.2 acre-feet per year based upon a maximum unit consumption rate of 15 gallons/head/day. The facility has historically used less than the maximum unit consumption. During the period of 2012-2019, the facility used an average of 8.23 gallons/head/day with a maximum rate of 8.94 gallons/head/day during a year. To provide a safety factor of approximately 20% to the historic use, calculations were made using a rate of 10 gallons/head/day. At this rate, annual consumption is calculated to be 784.1 acre-feet. *APPLICANTS DETERMINED NEED*

The total of all stockwater rights currently associated with the facility is 580.633 acre-feet per year. This implies a potential supply deficit of 203.5 acre-feet per year, based on historic use. A supplemental source of stockwater is needed to allow the facility to operate at full capacity. Three dual use permits are proposed to provide a supplemental source of stockwater for Lane County Feeders, LLC. The authorized quantity would be reduced to the consumptive use level to ensure that consumptive use is not increased. * The irrigation place of use would remain the same and the place of use for stockwater diversion would completely overlap that of the other change applications being submitted, which will supply stockwater to the feedyard and new expansion.

*163.822
115.162
138.681
417.665
136.095*

Authorization of these dual use permits for File No. 23,880 for 163.822 acre-feet per year, File No. 38,677 for 138.681 acre-feet per year, and File No. 38,678 for 115.162 acre-feet per year would provide a sufficient supplemental source of stockwater while retaining water for irrigation.

** CONSUMPTIVE USE PERCENTAGES MAP*

Determination of the consumptive use quantity is based on the "Irrigation Return-Flow Percentages in Kansas, by County" map issued by the Division of Water Resources. Use of this map and the associated methodology appears to satisfy the requirements of K.A.R. 5-5-9. Calculations have been included with these applications.

*81.190

LOCATION: **SECTIONS 1, 2, 11, & 12 T17S R29W, LANE COUNTY, KANSAS**

BY: CSG
DATE: 02/12/20

CHECKED BY: KLS
DATE: 2/24/2020

**CONSUMPTIVE USE CALCULATION FOR CHANGE OF USE FROM IRRIGATION TO DUAL USE
PERTAINING TO FILE NOS. 23,880 (3), 38,677 (3), AND 38,678 (4)**

Lane County Feeders, LLC is a beef cattle feeding facility. An expansion is in progress to raise the permitted number of cattle to 70,000 head. An additional source of water is required to support the increase in permitted headcount. Three dual use permits are proposed which would limit File Nos. 23,880, 38,677, and 38,678 to the consumptive use quantities associated with these irrigation water rights. A portion of the consumptive use quantities would be diverted to the facility for stockwatering use. The remainder will continue to be used for irrigation. It is anticipated that the actual quantities used for stockwatering will vary from year to year depending upon cattle numbers and environmental conditions.

Determine reasonable use for stockwatering quantity (K.A.R. 5-3-22):

Planned facility capacity = **70,000** head of beef cattle (maximum annual capacity)

→ Maximum Reasonable Quantity = 70,000 head x 15 gallons/head/day x 365 days/year = 383.25 MGY = 1,176.2 AF

→ Facility Specific Planned Quantity* = 70,000 head x **10 gallons/head/day** x 365 days/year = 255.50 MGY = 784.1 AF

*Facility-Specific Planned Quantity is based off of 2012-2019 historic average use of 8.23 gal/head/day with an additional 21.5% safety factor.

where MGY = million gallons per year, AF = acre-feet per year and 1.0 AF = 325,851 gallons

Existing Facility Stockwater Summary:

File No. (P/D ID)	Facility ID	Quantity (AF)	
10,427 (4)	North	181.985	
18,618 (2)	Middle	131.962	
30,132 (3)	West	131.962	
37,688 (3)	East	125.824	
38,457 (1)	Well #3	8.900	NOT CURRENTLY CONNECTED TO THE SYSTEM.
38,458 (2)	Well #3 South		
TOTAL		580.633	

→ Maximum additional quantity of stockwater needed = (Maximum Reasonable Quantity) - (Existing Quantity)
= 1176.2 AF - 580.6 AF = **595.5 AF**

→ Additional quantity of stockwater needed based on historic use = (Facility Specific Planned Quantity) - (Existing Quantity)
= 784.1 AF - 580.6 AF = **203.5 AF**

is authorized to operate, as a pollutant discharge elimination system, water pollution control facilities to collect, retain, and dispose of precipitation induced runoff and/or dry weather wastewater accumulations containing livestock and related agricultural wastes in accordance with requirements as set forth herein.

This permit is effective September 25, 2019, supersedes the previously issued water pollution control permit A-UALE-C004, and expires September 24, 2024.

Facility Summary

The facility consists of approximately 428.5 acres of open lot pens, feed roads and alleys, manure stockpile area, snow removal area, feed storage area, a truck wash, and associated feedlot areas for the maximum capacity of 48,500 head (48,500 animal units) of cattle weighing greater than 700 pounds. Surface runoff is collected by drainage channels, six sedimentation basins, and five earthen waste storage ponds. Proposed modifications to the facility include expansion of the facility with an additional 199.8 acres of open lot pens, associated feedlot area, 10.4 acres of extraneous drainage, a sedimentation basin, and a waste storage pond. The proposed expansion will increase the permitted animal units by 21,500 head for a total maximum capacity of 70,000 head (70,000 animal units) of cattle weighing more than 700 pounds.

Hi Leslie,

Attached is the extension request, I asked for 10 days but realistically as long as we have our scheduled meeting on the 17th, I should have the recommendation to you on the 18th.
Extension via email is fine, mainly just wanted you to know the recommendation wouldn't be within 15 days.

Thanks,
Kyle-GMD1

Hi Kyle,

I was going to touch base with you today.

No worries with mail, you can email me your letter as a PDF and I'll get it in the records. I'll respond in kind if that is OK with your procedure? If you'd rather have a mailed letter that is OK and we can do that too. Just need to know extension via email? or US Post mail?

Yesterday I did make an update to the two PD change applications the unauthorized points of diversion will be capped. I had asked Craig Griswold, KLA Environmental about it earlier and he had just gotten back with me. I'll let him know of the extension.

Thank you for letting me know about your receipt of the apps.

Take care,
Leslie Ireland

Hi Leslie,

Sorry I forgot to let you know, I do have all the applications now so you can remove the files anytime.

Hate to hold things up but I will be sending a request for an extension until after our June 17th board meeting due to the board will need to grant a waiver for stacking the whopping 8.9AF on to 10427.

Under the CV19 circumstances would you prefer the extension request by email or snail mail or both?

Thanks,
Kyle

Dear Sir or Madam:

This letter is to **provide notice** as required by K.S.A. 82a-1906, which became effective on July 1, 2016.

Lane County Feeders LLC, owner of the referenced water rights has filed applications for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture.

The applications under File Nos. 23,880; 38,677 & 38,678, propose a change in place of use and the use made of water to allow the irrigation use to authorize irrigation and stockwatering use as allowed by K.A.R. 5-5-9. These three applications proposed a reduced combined annual quantity of 417.66 acre-feet (136.095 million gallons) per calendar year for the dual use allotment. As allowed per dual use the changes not alter the authorized quantity of water or rate of diversion when the rights are operated solely for irrigation use. The acres comprising the irrigated place of use will remain as authorized in Sections 1 & 10, Township 17 South, Range 29 West, all in Lane County, Kansas. The proposed place of use for the stockwatering use will be located and in conjunction with the proposed changes in place of use applications under stockwatering use, Water Right, File Nos. 10,427; 18,618; 30,132; 37,688; 38,457; 38,458, at the existing feedlot located in Sections 1, 2, 11, and 12, in Township 17 South, Range 29 West, Lane County, Kansas.

The applications under File Nos. 38,457 & 38,458, proposed to also change the authorized points of diversion

from: File No. 38,457, authorizing one (1) well located in the Southeast Quarter of the Southeast Quarter of the Southeast Quarter (SE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 2, more particularly described as being near a point 530 feet North and 396 feet West of the Southeast corner of said section, and

File No. 38, 458, authorizing one (1) well located in the Southeast Quarter of the Southeast Quarter of the Southeast Quarter (SE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 2, more particularly described as being near a point 330 feet North and 395 feet West of the Southeast corner of said section,

to: an existing well currently authorized by Water Right, File No. 10,427, located in the Southwest Quarter of the Southwest Quarter of the Southwest (SW $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$) of Section 1, more particularly described as being near a point 85 feet North and 5,120 feet West of the Southeast corner of said section,

all in Township 17 South, Range 29 West, Lane County, Kansas.

Dear Sir or Madam:

This letter is to **provide notice** as required by K.S.A. 82a-1906, which became effective on July 1, 2016.

Lane County Feeders LLC, owner of the referenced water rights has filed applications for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture.

The applications under File Nos. 23,880; 38,677 & 38,678, propose a change in place of use and the use made of water to allow the irrigation use to authorize irrigation and stockwatering use as allowed by K.A.R. 5-5-9. These three applications proposed a reduced combined annual quantity of 417.66 acre-feet (136.095 million gallons) per calendar year for the dual use allotment. As allowed per dual use the changes not alter the authorized quantity of water or rate of diversion when the rights are operated solely for irrigation use. The acres comprising the irrigated place of use will remain as authorized in Sections 1 & 10, Township 17 South, Range 29 West, all in Lane County, Kansas. The proposed place of use for the stockwatering use will be located and in conjunction with the proposed changes in place of use applications under stockwatering use, Water Right, File Nos. 10,427; 18,618; 30,132; 37,688; 38,457; 38,458, at the existing feedlot located in Sections 1, 2, 11, and 12, in Township 17 South, Range 29 West, Lane County, Kansas.

The applications under File Nos. 38,457 & 38,458, proposed to also change the authorized points of diversion

from: File No. 38,457, authorizing one (1) well located in the Southeast Quarter of the Southeast Quarter of the Southeast Quarter (SE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 2, more particularly described as being near a point 530 feet North and 396 feet West of the Southeast corner of said section, and

File No. 38, 458, authorizing one (1) well located in the Southeast Quarter of the Southeast Quarter of the Southeast Quarter (SE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 2, more particularly described as being near a point 330 feet North and 395 feet West of the Southeast corner of said section,

to: an existing well currently authorized by Water Right, File No. 10,427, located in the Southwest Quarter of the Southwest Quarter of the Southwest (SW $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$) of Section 1, more particularly described as being near a point 85 feet North and 5,120 feet West of the Southeast corner of said section,

all in Township 17 South, Range 29 West, Lane County, Kansas.

Subject: Recommendation for Change in UMW PD & PU, File Nos. 10,427; 18,618, 23,880xx Lane Co Feeders

Mike,

Please let me know if you would recommend these changes for dual use and the pd changes. The PD changes have a waiver of 5-31-3 recommended by GMD1 Board in June.

It appears to be a consolidation of the stockwatering PU and two of the PDs.

As always comments and concerns are welcome.

FILE COPY

RE: Water Right, File Nos. 10,427; 18,618; 23,880; 30,132; 37,688; 38,457; 38,458; 38,677 and 38,678

Dear Mr. Foote:

Enclosed are the orders executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the applications for change under the above referenced files.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in these approvals for change. A condition of these approvals is that an acceptable water flowmeter must be installed so both irrigation and stockwatering uses can be metered independent of each other, from each of the diversion works under File Nos. 23,880; 38,677 and 38,678, prior to the diversion of water. Additionally, a Notice of Completion will be needed for File Nos. 38,457 and 38,458. Please return the required notification of completion of the diversion works and/or installation of the required flowmeter as soon as these actions are completed.

Since these orders for the referenced file numbers modify the original documents referred to above, they should be recorded with the Register of Deeds as other instruments affecting real estate.

If you have any questions regarding the installation of the required flowmeters, please contact Michael Meyer, with our Garden City Field Office at 620-276-2901. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

Richelle A. Krueger

RIGHT TO A HEARING AND TO ADMINISTRATIVE REVIEW

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may:

- 1) request an evidentiary hearing before the Chief Engineer, or
- 2) request administrative review by the Secretary of Agriculture.

Failure to request an evidentiary hearing before the Chief Engineer does not preclude your right to administrative review by the Secretary.

To obtain an evidentiary hearing before the Chief Engineer, a written request for hearing must be filed within 15 days after service of this Order as provided in K.S.A. 77-531 (**i.e., within a total of 18 days after this Order was mailed to you**), with: Kansas Department of Agriculture, Attn: Legal Section, 1320 Research Park Drive, Manhattan, KS 66502, FAX (785) 564-6777.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for hearing may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. The petition must be filed within 30 days after service of this Order as provided in K.S.A. 77-531 (**i.e., within a total of 33 days after this Order was mailed to you**), and be filed with: Secretary of Agriculture, Attn: Legal Division, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, KS 66502, FAX (785) 564-6777.

If neither a request for an evidentiary hearing nor a petition for administrative review is filed as set forth above, then this Order shall be effective and become a final agency action as defined in K.S.A. 77-607(b). Failure to timely request either an evidentiary hearing or administrative review may preclude further judicial review under the Kansas Judicial Review Act.

Any request for a hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564 – 6777.

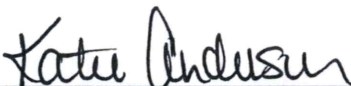

CERTIFICATE OF SERVICE

On this 3rd day of August, 2020, I hereby certify that the attached Approval of Application for Change in Place of Use and Order Better Describing the Authorized Point of Diversion under Water Right, File No. 10,427; dated _____ was mailed postage prepaid, first class, US mail to the following:
