 Authorized Rate _____ Authorized Quantity _____
 (DWR use only: Computer ID No. _____ GPS _____ feet North _____ feet West)
 This point will not be changed This point will be changed as follows:
Proposed point of diversion: (Complete only if change is requested)
 One in the _____ Quarter of the _____ Quarter of the _____ Quarter
 of Section _____, Township _____ South, Range _____ (E/W),
 in _____ County, Kansas, _____ feet North _____ feet West of Southeast corner of section.
 Proposed Rate _____ Proposed Quantity _____
 This point is: Additional Well Geo Center List other water rights that will use this point _____

11. Describe the current condition of and future plans for any point(s) of diversion which will no longer be used _____

Water Resources
Received

FEB 10 2020

12. The presently authorized use of water is for IRR purposes.
It is proposed that the use be changed to IRR purposes.

13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.
Calculation is in accordance with KAR 5-5-11
 $((1.15)/.85) \times 351.2 \times 5 \text{ years} = 2376 \text{ AF} / 5 \text{ years, without exceeding annual base right}$
As with the base, the 5 year total will be split on the two wells equally since the base is equal

(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to _____ (acre-feet or million gallons).

15. It is requested that the maximum rate of diversion of water be reduced to _____ gallons per minute (_____ c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 (www.usgs.gov). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.

- a. If a change in the location of the point(s) of diversion is proposed, show:
 - 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
 - 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
 - 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.
- b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

Follow criteria in KAR 5-5-11, see plat map

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

No waivers needed. has discussed the requirements with GMD3 for the monitoring agreement.

Any use of water that is not as authorized by the water right or permit to authorize water **before** the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

Dated at GmD3 Office, Kansas, this 6th day of February, 2020.

STATEMENT OF REVIEW
under K.A.R. 5-5-11(b)(3), (4) and (5)
for a Point of Diversion located within GMD No. 3

The items listed below were reviewed by the undersigned person(s) at _____
GMD 3 Office, Kansas, on this 6th day of February,
20 22. This review was related to the proposed *Change in Place of Use Under Water*
Right for File No. 28346.

- (1) Water flow meters will be required on all wells authorized by the above-referenced file number. These flow meter(s) shall be properly installed and maintained on each well to the satisfaction of the Chief Engineer. The metered quantity of water diverted during the past year by each well shall be reported on the annual water use report required by law to be provided to the Division of Water Resources (Division).
- (2) Southwest Kansas Groundwater Management District No. 3 (GMD No. 3) will make at least one visit per calendar year to this farm. The purpose of this visit is to monitor the compliance with conditions under which this change will be approved, if granted. Reports of verification of compliance and status reports will be completed by GMD No. 3 and furnished to the Division.
- (3) The amount of water required to irrigate the acreage proposed under this change application has been reviewed. The five-year allocation, if required, has been reviewed and is understood to be 2376 acre-feet. The five-year allocation is the quantity of water that will be authorized for diversion under this water right for each five-year period.
- (4) The approval of this application will be conditioned so that any use of water in excess of the five-year allocation will result in a two-year suspension of all water use under that water right and a subsequent restriction of the authorized place of use to a place of use equivalent to the base acres at a location specifically set forth on the change application approval.
- (5) For an application that proposes an increase in authorized acres solely for the purpose of rotation of the irrigated land within the authorized place of use, the base acres are _____ acres. The acres irrigated in any one calendar year shall not exceed _____ base acres each calendar year. The land to be irrigated will be certified to GMD No. 3 in writing before applying any water in that calendar year.
- (6) The approval of this application will be conditioned so that the use of water on more than the base acres certified to GMD No. 3 in any calendar year will result in a two-year suspension of all water use under this water right and a subsequent restriction of the authorized place of use equivalent to the base acres at a location specifically set forth on the change application approval.

- (7) Changes in the Memorandum of Understanding between GMD No. 3 and the Division may affect the above-referenced files. If the Memorandum of Understanding related to K.A.R. 5-5-11 between the GMD No. 3 and the Division is rescinded because of the fault of GMD No. 3, the authorized place of use will revert to the equivalent of the base acres at a location specifically set forth in the change approval.

By signing below, I am indicating that I have reviewed and understand the items set forth above and agree that I am willing to abide by those conditions if my application for change in place of use is approved.

RE: File Nos. 28,346 & 29,915

Dear Sir or Madam:

Two applications for approval of the Chief Engineer to change the following condition or conditions of the file numbers referred to above has been received:

- place of use UMW
- point of diversion
- use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore, to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. You will be contacted regarding this application as soon as it has been examined.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water prior to approval of the application is unlawful. You should not proceed and divert water as indicated by your plans in your application for a change for this file until you receive approval for this change from the Chief Engineer. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor...

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Kristen A. Baum
New Applications Unit Supervisor
