RE: Vested Right, File No. SV-003
Water Right, File No. 16752-D1

Dear Sir or Madam:

Enclosed is the order executed by the designee of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the application for change under the above referenced file numbers.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in this approval for change. A condition of this approval is that an acceptable water flow meter must be installed on the diversion works authorized under the referenced file number and meet current specifications. Please return the required notification of completion of the diversion works and/or installation of the required meter as soon as these actions are completed.

Please see the additional conditions attached which reflect the previous orders. The water flowmeter must be equipped with an anti-reverse flow mechanism, and a required seal placed by DWR.

Since the order modifies the original document referred to above, it should be recorded with the Register of Deeds as other instruments affecting real estate.

Should you have any questions, please feel free contact this office. If you would prefer, you could arrange an appointment for additional assistance.

Sincerely,

A handwritten signature in blue ink, appearing to read "Michael A. Meyer".

RE: Applications for Change in Place of Use
Vested Right, SV 03
Water Right, File No. 16752 D1

Dear Mike:

We have completed a review of the applications for the above referenced water rights. The proposal is not in conflict with the Management Program of the Southwest Kansas Groundwater Management District No. 3 (GMD3). The proposed change in place of use will rearrange the acres to better suit the operation and is in accordance with K.A.R. 5-5-11(b). It is therefore recommended that the applications be approved at this time.

Re: File Nos. SV 003 and 16752-D1

Dear Mr. Norquest:

This is to advise you that Marcus Howe, has filed applications for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, to change the place of use for the above referenced files. These are proposing to combine the existing authorized place of use and adjust the acres to add new land. It appears the applications meet K.A.R. 5-5-11 as they do not exceed base acres plus 10 acres.

We are delaying action on the change applications to allow you time to review and provide a recommendation. Please submit a recommendation within 15 days from the date of this letter.

Thank you and as always feel free to contact this office at any time.

Sincerely,

good Monday morning!

attached are applications to change the place of use under the existing water rights. the applications are proposing to overlap the place of use between the two water rights and to cover an unauthorized little pivot on the west side of section. FYI, we are still waiting existing signatures for Nate Meile (copy of signature attached). but assume we receive this signature all appear to be in proper form and meets KAR 5-5-11 and do not exceed base acres. File No. 16752-D1 is currently been issued a civil penalty order for exceeding authorized quantity. please review and provide a recommendation within 15 days.

thank you and have a good day

Mike
