RE: Water Right, File Nos. 8315, 8317, ~~12478~~, 18474, 33699

**12748**

Dear Sir and Madam:

Enclosed is are orders executed by the designee of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the application for change under the above referenced file numbers.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in the approvals for change. Conditions of these approvals are that an acceptable water flow meter must be installed on the diversion works authorized under the referenced file numbers and meet current specifications. Please return the required notification of completion of the diversion works and installation of the required meters as soon as these actions are completed.

Please note an additional condition was added to File No. 33,699 to limit the total overall quantity to a reasonable annual combined quantity on the total authorized acres.

Since the orders modify the original documents referred to above, they should be recorded with the Register of Deeds as other instruments affecting real estate.

Should you have any questions, please feel free contact this office. If you would prefer, you could arrange an appointment for additional assistance.

Sincerely,

A handwritten signature in blue ink that reads "Michael A. Meyer".

RE: Applications for Change in Place of Use  
Water Right, File Nos. 8315, 8317, 12748, 18474 & 33699

Dear Mike:

We have reviewed the applications for the above referenced water rights. The proposal is not in conflict with the Management Program of the Southwest Kansas Groundwater Management District No. 3 (GMD3). The proposed change in place of use will rearrange the acres to better suit the operation and is in accordance with K.A.R. 5-5-11 and does not increase the combined base acres by more than 10 acres. It is therefore recommended that the applications be approved at this time.

Thank you for the opportunity to review the applications and to provide a recommendation. If you have any questions, please don't hesitate to contact us.

Sincerely,

  
Jason L. Norquest  
Assistant Manager

Is a waiver needed: Rearranging the acres and bringing in new acres, but keeping it at 10 acres above the base.
