RE: Water Right, File Nos. 28656, 32319, 45304

Dear Sir:

Enclosed is are orders executed by the designee of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the applications for change under the above referenced file numbers.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in the approvals for change. A condition of these approvals is that an acceptable water flow meter must be installed on the diversion works authorized under the referenced file numbers and meet current specifications. Please return the required notification of completion of the diversion works and installation of the required meter as soon as these actions are completed.

Since the orders modify the original documents referred to above, they should be recorded with the Register of Deeds as other instruments affecting real estate.

Should you have any questions, please feel free contact this office. If you would prefer, you could arrange an appointment for additional assistance.

Sincerely,

A handwritten signature in blue ink, appearing to read "Michael A. Meyer".

RE: Applications for Change in Place of Use
Water Right, File Nos. 28656, 32319 & 45304

Dear Mike:

We have reviewed the applications for the above referenced water rights. The proposal is not in conflict with the Management Program of the Southwest Kansas Groundwater Management District No. 3 (GMD3). The proposed change in place of use will separate the two quarters out and eliminate the current overlap for a land sale, which is in accordance with K.A.R. 5-5-11. In order to not have increased consumptive use, File No. 45304 can keep the limitation when combined with 28656. It is therefore recommended that the applications be approved at this time.

Thank you for the opportunity to review the applications and to provide a recommendation. If you have any questions, please don't hesitate to contact us.

Sincerely,

Jason L. Norquest
Assistant Manager

Applicant wants to split the two quarters to be separate.

32319 would irrigate the SE quarter of sect 23 with 280AF @ 885gpm.

28656 & 45304 would water the NW quarter of sect 26 with combined 284AF @

890gpm, keeping the limitation on 45304 when combined with 28656.

Is a waiver needed: Appears to meet the current area rules. Application is to separate the land for land sale.

good morning

attached is a request for recommendation for the above files for changes in place of use. for some reason change apps were filed rather than reductions to simply remove an overlap. these are Hatcher files that I assume need expedited. please review and respond within 15 days with a recommendation

thank you
