RE: Filed Office Application for Change  
Vested Right, File No. GT-025-D1  
Water Right, File Nos. 131; 972; 4852; 8857; 10525; 18201; 19609-D1; 22507 & 38166

Dear Sir or Madam:

Enclosed is the order executed by the designee of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the application for change under the above referenced file numbers.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in this approval for change. A condition of this approval is that an acceptable water flow meter must be installed on the diversion works authorized under the referenced file number and meet current specifications. Please return the required notification of completion of the diversion works and/or installation of the required meter as soon as these actions are completed.

Since the order modifies the original document referred to above, it should be recorded with the Register of Deeds as other instruments affecting real estate.

Should you have any questions, please feel free contact this office. If you would prefer, you could arrange an appointment for additional assistance.

Sincerely,

A handwritten signature in blue ink, appearing to read "Austin J. McColloch".

Austin J. McColloch  
Assistant Water Commissioner

## DWR FIELD OFFICE APPLICATION FOR APPROVAL TO CHANGE THE PLACE OF USE AND/OR THE POINT OF DIVERSION

STATE OF KANSAS

**Filing Fee Must Accompany the Application, K.S.A. 82a-708b(b), as amended.**  
 Fee Schedule is on the third page of this application form.

**Paragraph Nos. 1, 2, 3 & 5 must be completed. Complete all other applicable portions.** If change in point of diversion is greater than 100 feet, or if place of use will be changed, include a topographic map or detailed plat showing the authorized and proposed point(s) of diversion and/or place of use.

File No. 10525

14. If the proposed groundwater point of diversion is 300 or fewer feet from the existing point of diversion, complete the following:
- (a) Does the undersigned represent all owners of the currently authorized place(s) of use identified in this application?  
 Yes     No    (If no, all owners must sign this application.)
  - (b) Will the ownership interest of any owner of the currently authorized place(s) of use identified in this application be adversely affected if this application is approved as requested?  
 Yes     No    (If yes, all owners must sign this application.)
  - (c) If this application is not approved expeditiously, will there be substantial damage to property, public health or safety?  
 Yes     No    (If no, all owners must sign this application.)

If the application proposes a surface water change in point of diversion, a groundwater change in point of diversion greater than 300 feet, or a change in place of use, the application must be signed by all owners of the currently authorized place of use, or their duly authorized agent (attach notarized statement authorizing representation).

I hereby verify, being first duly sworn upon my oath or affirmation and under penalty of perjury, that I am of lawful age and the owner, the spouse of the owner, or a duly authorized agent of the owner(s) to make this application on their behalf, in regards to the water right(s) to which this application pertains. I further verify that the statements contained in this application are true, correct and complete.

Dated at Lawrence, Kansas, this 19 day of July, 20 19.

**RE:** Vested Right, File No. GT 025 – D1  
Water Right, File Nos. 131; 972; 4852; 8857;  
10,525; 18,201; 19,609 D1; 22,057 & 38,166

Clay and Nancy Scott along with Katherine McGillivray on behalf of her trust, are requesting to change the irrigated place of use. The applications for change in place of use were received on July 18, 2019 and August 27, 2019. The applications were delayed due to signatures on the requested division for File No. GT 025, and the updates of the place of use to remove farmsteads.

The referenced water rights are considered in compliance with both K.S.A. 82a-718, and K.S.A. 82a-732. The applications were initially sent to the headquarters office for processing due to the division of interest under GT 025 and 19609, but upon completion of the divisions the applications were returned to our Garden City Field Office for processing. The ownership of File No. 22,507 has changed. Irene Morris is no longer the owner of the Northwest Quarter of Section 21.

The proposed changes in place of use are to overlap a total of 1,896.16 acres for all of the referenced files located in Sections 18, 19, 20, 21 & 29, in Township 28 South, Range 38 West, Grant County. The acres will be updated to remove the farmsteads owned by; Jacob Cesar & Paula Segovia in Section 21; Robert & Norma Pauda in Section 20 and Ronald & Ramona Haney Trust in Section 20, who have submitted Quit Claim Deeds. The removal of their total 10.7 acres will result in an irrigation ratio of 1.7 acre-feet per acre. The requested reduction complies with K.A.R. 5-23-3 *Maximum reasonable annual quantity approvable for irrigation use for an application for change in place of use and a request to reduce a water right.*

After the removal of the small farmsteads there will be no modification of the currently authorized acres. The requested change in place of use for the referenced files complies with, Part (b)(1) of K.A.R. 5-5-11, *Applications for change in place of use for irrigation purposes*, as the proposal is to create an identical place of use for the certified rights, without any increase in the authorized acres. The proposal appears to be reasonable as the referenced files have a total combined quantity of 3,447 acre-feet which appears to be sufficient for irrigating the place of use of 1,896.16 acres, providing 1.81 acre-foot per acre. This irrigation ratio exceeds Grant County's 1.39 acre-feet per acre at the 80% chance as per K.A.R. 5-5-12, *Net irrigation requirements*, and complies with K.A.R. 5-5-19, *Maximum reasonable annual quantity of water for irrigation use*. A water conservation plan meeting the KWO guidelines will not be required for the changes.

The approvals will comply with K.A.R. 5-5-3, *Change in consumptive use*, and will not increase consumptive use as there will be no increase in authorized acres.

Water flowmeters would not be required per K.A.R. 5-5-11(e) as the applications were filed to make an identical place of use and the irrigation ratio. Looking at the rights it appears that all have meters installed and recently inspected, but as within GMD 3 meters will be required by the approvals. The approvals will require that if the rights chemigate they will have to install and maintain check valves. Water level measurement tubes are not applicable.

Based on the above discussion, that the changes are reasonable, there will be no significant increase in the consumptive use and impairment of existing water rights is unlikely, it is recommended that the referenced applications for change in place of use be approved.
