RE: Filed Office Application for Change

Water Right, File Nos. 5953; 7520; 8975; 11369; 13279;

20391; 23788; 29807 & 29808

Dear Sir or Madam:

Enclosed is the order executed by the designee of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the application for change under the above referenced file numbers. **Note:** this approval does not allow any single point of diversion to exceed its annual authorized quantity. All pivots must be adjusted to the now authorized acres per pivot.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in this approval for change. A condition of this approval is that an acceptable water flow meter must be installed on the diversion works authorized under the referenced file number and meet current specifications. Please return the required notification of completion of the diversion works and/or installation of the required meter as soon as these actions are completed.

Since the order modifies the original document referred to above, it should be recorded with the Register of Deeds as other instruments affecting real estate.

Should you have any questions, please feel free contact this office. If you would prefer, you could arrange an appointment for additional assistance.

Sincerely,

Austin J. McColloch

Assistant Water Commissioner

Dear Mike.

We have assisted with and completed a review of the applications for the above referenced water rights. The proposals are not in conflict with the Management Program of the Southwest Kansas Groundwater Management District. The changes in place of use will rearrange acres to better suit the operations. At the same time it will create complete overlap of irrigated acres in accordance with K.A.R. 5-5-11(b)(1). It is therefore recommended that the applications be approved at this time.

Thank you for the opportunity to review the applications and to provide a recommendation. If you have any questions please don't hesitate to contact us.

Sincerely,

Jason L. Norquest Asst. Manager
