KANSAS DEPARTMENT OF AGRICULTURE Division of Water Resources

M E M O R A N D U M

TO: Files DATE: August 4, 2016

FROM: Alex Whitesell **RE:** Appropriation of Water, File No. 49,570

John Paul Grother filed the above referenced file on May 2, 2016. The original application was returned to the applicant on March 14, 2016. The applicant was given the final deadline of July 5, 2016 to submit the information or request an extension of time. The applicant was reminded of the deadline on May 5, 2016. No correspondence was received from the applicant by the July 5, 2016 deadline. Therefore, the file should be dismissed.

RE:

Dismissal of Application

File No. 49,569

Dear Mr. Grother;

The referenced application was returned to you for additional information on March 14, 2016. Enclosed is a Findings and Order by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, dismissing Application, File No. 49,569, for failure to return the original application and provide the required information, prior to the final deadline of July 5, 2016.

This is a final agency action. If you choose to appeal this decision or any finding or part thereof, you must do so by filing a petition for review in the manner set forth in the enclosed order.

If you have any questions, please contact our office. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Change Application Unit Supervisor

FINDINGS AND ORDER IN THE MATTER OF THE DISMISSAL OF APPLICATION FILE NO. 49,569

After due consideration, the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture (hereinafter referred to as the "Chief Engineer"), makes the following findings and order:

FINDINGS

- 1. That on May 02, 2016, the Chief Engineer received an application from John Paul Grother for permit to appropriate water for beneficial use, assigned File No. 49,569, proposing the appropriation of 91 acre-feet of groundwater, for irrigation use, at a maximum requested diversion rate of 1200 gallons per minute, from a point of diversion located in the Northeast Quarter (NE½) of Section 16, Township 30 South, Range 1 East, Sumner County, Kansas.
- 2. That in accordance with K.A.R. 5-3-1, the application was accepted for filing provided that the applicant submit a more specific location of the point of diversion within 60 days of receipt of the new application.
- 3. That in accordance with K.S.A. 82a-710 and K.A.R. 5-3-1b, the application was returned to the applicant on March 14, 2016, with a letter requesting additional information, including the specific location for the proposed point of diversion, in order to complete the application.
- 4. That on May 5, 2016, the applicant was provided a final deadline of July 5, 2016, in which to return the application with the required information and notified that the application would be dismissed if it was not returned within the time allowed or within any authorized extension of time thereof.
- 5. That the applicant was reminded of the deadline by letter dated June 9, 2016.
- 6. That no further correspondence was received from the applicant by the deadline of July 5, 2016.
- 7. That as required by K.S.A. 82a-710, the application, described in Paragraph No. 1, shall be denied and dismissed for failure to return the application with the requested information.

ORDER

NOW, THEREFORE, It is the decision and order of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, that effective the date of this order, in accordance with the law, Application, File No. 49,569, is herewith dismissed and the priority assigned to it is considered to be forfeited.

This is a final agency action. If you choose to appeal this decision or any finding or part thereof, you must do so by filing a petition for review in the manner prescribed by the Kansas Act for Judicial Review and Civil Enforcement of Agency Actions (KJRA K.S.A. 77-601 et seq.) within 30 days of service of this order. Your appeal must be made with the appropriate district court for the district of Kansas.

The Chief Legal Counsel for the Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502 the agency officer who will receive service of a petition for judicial review on behalf of the Kansas Department of Agriculture, Division of Water Resources. If you have questions or would like clarification concerning this order, you may contact the Chief Engineer.

Ordered this 9th day of Queenst , 2016, in Topeka, Shawnee County, Kansas.

	File No. 49, 569
9.	Will pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion works? ☑ Yes ☐ No If "yes", a check valve shall be required.
10.	All chemigation safety requirements must be met including a chemigation permit and reporting requirements. If you are planning to impound water, please contact the Division of Water Resources for assistance, prior to submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir.
	Have you also made an application for a permit for construction of this dam and reservoir with the Division o Water Resources? ☐ Yes ☐ No If yes, show the Water Structures permit number here If no, explain here why a Water Structures permit is not required
11.	The application <u>must</u> be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plasshowing the following information. On the topographic map, aerial photograph, or plat, identify the center of the section, the section lines or the section corners and show the appropriate section, township and range numbers. Also, please show the following information: (a) The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the
	North-South distance and the East-West distance from a section line or southeast corner of section. (b) If the application is for groundwater, please show the location of any existing water wells of any kind within ½ mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within ½ mile, please advise us.
	 (c) If the application is for surface water, the names and addresses of the landowner(s) ½ mile downstream and ½ mile upstream from your property lines must be shown. (d) The location of the proposed place of use should be shown by crosshatching on the topographic map, aerial photographic
	 (e) Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.
	A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence, Kansas 66047.
12.	List any application, appropriation of water, water right, or vested right file number that covers the same diversion points or any of the same place of use described in this application. Also list any other recent modifications made to existing permits or water rights in conjunction with the filing of this application.

Re:

Pending Applications,

File Nos. 49,569 and 49,570

Dear Mr. Grother:

The Division of Water Resources returned the above referenced applications to you for additional information on March 14, 2016, and the current deadline for your response is July 5, 2016. The purpose of this letter is to <u>provide a reminder</u> that in order for you to retain your priority of filing, the original applications and requested information needs to be returned to this office on or before <u>July 5, 2016</u>, or within any authorized extension of time thereof. According to law, default in refiling of the completed applications and attachments within the time allowed shall constitute forfeiture of priority date and dismissal of the applications.

If an extension of time is necessary to supply the requested information, please request the extension of time in writing before <u>July 5, 2016</u>. Provide information as to why the additional time is needed and how much additional time is requested. Please note that since there are instances when the Chief Engineer may deny your request for an extension of time, there is no guarantee that future requests for more time will be granted.

If you have any questions, please contact me at (785) 564-6631 or by email at alex.whitesell@kda.ks.gov. If you wish to discuss a specific file, please have the file number ready so that I may help you more efficiently.

Sincerely,

Alex Whitesell

Re:

Pending Applications,

File Nos. 49,569 and 49,570

Dear Mr. Grother:

In response to your written request by mail received in this office on May 2, 2016, the Chief Engineer is allowing an <u>extension of time</u> for sixty (60) days, in which to supply further information concerning the above referenced files. The original applications were returned to you on March 14, 2016, and with this extension of time, the revised deadline will be <u>July 5, 2016</u>.

Extension requests are evaluated on a case by case basis. Since it appears that no pending application would be adversely affected by granting this extension, you are being allowed an additional 60 days. If you determine that additional time will be needed, you may submit another request for an extension prior to the deadline given above. Please note that since there are instances when the Chief Engineer may deny your request for an extension of time, there is no guarantee that future requests for more time will be granted.

In order to retain their priority of filing, the original applications and attachments must be returned to this office with the requested information on or before <u>July 5, 2016</u>, or within any authorized extension of time thereof. According to law, default in refiling of the completed applications and attachments within the time allowed shall constitute forfeiture of priority date and dismissal of the applications.

If you have any questions, please contact me at (785) 564-6631. If you wish to discuss a specific file, please have the file number ready so that I may help you more efficiently.

Sincerely,

Alex Whitesell

KS DEPT OF AGRICULTURE

Dear Mr. Whitesell:

I am writing to request an extension of time in which to provide information as to the location of the point of diversion for applications Nos. 49,569 and 49,570. I was not able to schedule the test driller earlier. These fields are in winter wheat and because of its growth stage and several rains; I am not going to be able to do these tests until after wheat harvest. I do not know exactly when wheat harvest will be and do not know how quickly after harvest I will be able to get the driller back on site. The driller is aware of the job and said he will be in the area after harvest.

Because of these circumstances I did not know exactly how much of an extension would be required. If you need to talk to me by phone, my number is (316) 570-3343

Sincerely,

Hard Grother

Re:

Pending Applications,

File Nos. 49,569 and 49,570

Dear Mr. Grother:

The Division of Water Resources returned the above referenced applications to you for additional information on March 14, 2016, and the current deadline for your response is May 2, 2016. The purpose of this letter is to <u>provide a reminder</u> that in order for you to retain your priority of filing, the original applications and requested information needs to be returned to this office on or before <u>May 2, 2016</u>, or within any authorized extension of time thereof. According to law, default in refiling of the completed applications and attachments within the time allowed shall constitute forfeiture of priority date and dismissal of the applications.

If an extension of time is necessary to supply the requested information, please request the extension of time in writing before May 2, 2016. Provide information as to why the additional time is needed and how much additional time is requested. Please note that since there are instances when the Chief Engineer may deny your request for an extension of time, there is no guarantee that future requests for more time will be granted.

If you have any questions, please contact me at (785) 564-6631 or by email at alex.whitesell@kda.ks.gov. If you wish to discuss a specific file, please have the file number ready so that I may help you more efficiently.

Sincerely,

Alex Whitesell

Re:

Pending Applications,

File Nos. 49,569 and 49,570

Dear Mr. Grother:

After a preliminary review of your above referenced applications for permits to appropriate water received in this office on March 2, 2016, they are being returned to you for additional information. In your original applications, you requested a 60-day period of time in which to determine the precise locations for your points of diversion within specified quarter section tracts of land described as the Northeast Quarter (NE½) of Section 16, in Township 30 South, Range 1 East, Sumner County, Kansas.

Once you've determined the precise locations for your points of diversion, complete the rest of Paragraph No. 5 for each of your applications by providing the description for the 10-acre tract location of the point of diversion as well as the feet distances North and West of the Southeast corner of the Section. The locations of the points of diversion must also be plotted on the topographical map(s) included. In the case of a battery of wells, please provide the description of the location of the proposed geographic center of the well battery, as well as the location for each of the individual wells comprising the battery of wells.

The locations of all other water wells of every kind within one-half mile ($\frac{1}{2}$) of the points of diversion must be plotted on the topographical map(s) as well. Each well should be identified as to its use (e.g. domestic, irrigation, industrial, etc.) and must **include the name and mailing address of the well owner**. A signed statement should be included on the map(s) declaring that all wells within one-half mile ($\frac{1}{2}$) of the points of diversion have been plotted, or it should declare that none exist. Please provide this information once you have established your points of diversion.

Paragraph No. 13 of the application requests well information so the source of supply of the proposed wells may be determined. Pursuant to K.A.R. 5-3-4d, this office requires a stratigraphic log of wells or test holes within 300 feet of the proposed points of diversion. Please supply the indicated information and test hole logs or driller's logs with the returned applications.

In order to retain their priority of filing, the original applications and attachments must be returned to this office with the requested information on or before <u>May 2, 2016</u>, or within any authorized extension of time thereof. According to law, default in refiling of the completed applications and attachments within the time allowed shall constitute forfeiture of priority date and dismissal of the applications.

RE: Application File No. 49569

Dear Sir or Madam:

Your application for permit to appropriate water in 16-30S-1E in Sumner County, was received and has been assigned the file number noted above.

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. Once review of your application has begun, we will contact you, if additional information is required.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water as proposed prior to approval of the application is unlawful. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor . . .

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6634. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Kenneth A. Kopp, P.G.
