WATER RESOURCES
RECEIVED

DEC 02 2016

**APPLICATION FOR PERMIT TO
APPROPRIATE WATER FOR BENEFICIAL USE**

Filing Fee Must Accompany the Application
(Please refer to Fee Schedule attached to this application form.)

12:45
KS DEPT OF AGRICULTURE

*To the Chief Engineer of the Division of Water Resources, Kansas Department of Agriculture,
1320 Research Park Drive, Manhattan, Kansas 66502:*

1. Name of Applicant (Please Print): Wyldewood Cellars
Address: Dr. John Brewer, PO Box 45
City: Mulvane State KS Zip Code 67110-0045
Telephone Number: (316) 554-9463

2. The source of water is: surface water in _____ (stream)
OR groundwater in Arkansas River (drainage basin)

Certain streams in Kansas have minimum target flows established by law or may be subject to administration when water is released from storage for use by water assurance district members. If your application is subject to these regulations on the date we receive your application, you will be sent the appropriate form to complete and return to the Division of Water Resources.

3. The maximum quantity of water desired is 14 acre-feet OR --- gallons per calendar year, to be diverted at a maximum rate of 99 gallons per minute OR --- cubic feet per second.

Once your application has been assigned a priority, the requested maximum rate of diversion and maximum requested quantity of water under that priority number can **NOT** be increased. Please be certain your requested maximum rate of diversion and maximum quantity of water are appropriate and reasonable for your proposed project and are in agreement with the Division of Water Resources' requirements.

4. The water is intended to be appropriated for (Check use intended):

(a) <input type="checkbox"/> Artificial Recharge	(b) <input type="checkbox"/> Irrigation	(c) <input type="checkbox"/> Recreational	(d) <input type="checkbox"/> Water Power
(e) <input type="checkbox"/> Industrial	(f) <input type="checkbox"/> Municipal	(g) <input type="checkbox"/> Stockwatering	(h) <input type="checkbox"/> Sediment Control
(i) <input type="checkbox"/> Domestic	(j) <input type="checkbox"/> Dewatering	(k) <input type="checkbox"/> Hydraulic Dredging	(l) <input type="checkbox"/> Fire Protection
(m) <input checked="" type="checkbox"/> Thermal Exchange	(n) <input type="checkbox"/> Contamination Remediation		

YOU **MUST** COMPLETE AND ATTACH ADDITIONAL DIVISION OF WATER RESOURCES FORM(S) PROVIDING INFORMATION TO SUBSTANTIATE YOUR REQUEST FOR THE AMOUNT OF WATER FOR THE INTENDED USE REFERENCED ABOVE.

For Office Use Only:							
F.O. <u>2</u>	GMD <u>0</u>	Meets K.A.R. 5-3-1 (YES/NO) <u>(YES)</u>	Use <u>THX</u>	Source <u>(G) S</u>	County <u>SU</u>	By <u>KAB</u>	Date <u>12/2/16</u>

RE: Water Right, File No. 46040, Water Appropriation,
File No. 47349 & New Application for Permit to
Proceed

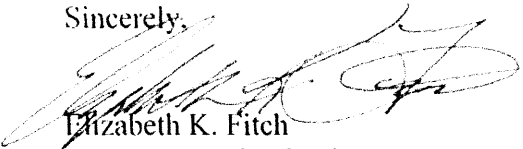

Dear Dr. Brewer,

You will find enclosed with this letter a new application for a permit to appropriate water for beneficial use. The enclosed application, if approved, will create a point of diversion overlap with existing Water Appropriation, File No. 47349 and a place of use overlap with Water Right, File No. 47349. The new application proposes to add quantity for thermal exchange use on the battery of two wells.

Please review the application and supplemental documents and make any corrections as needed. Once the application is completed, it will need to be signed on page 2 and page 4. If both places are not signed, the application will be returned to you. I was uncertain which homes had domestic wells, so these will need to be added to the map. I included a close up map with an aerial image for you to reference. Once the domestic wells and well owners have been added to the topographic map, it will need signed.

The completed application should be submitted to Manhattan for processing along with the application fee of \$200. If you have any questions, please give me a call at 620.234.5311.

Sincerely,

Elizabeth K. Fitch
Environmental Scientist
elizabeth.fitch@ks.gov

Enclosures

5. The location of the proposed wells, pump sites or other works for diversion of water is:

Note: For the application to be accepted, the point of diversion location must be described to at least a 10 acre tract, unless you specifically request a 60 day period of time in which to locate the site within a specifically described, minimal legal quarter section of land.

(A) One *Geographic Center located in* LOT 4 quarter of Section 4, more particularly described as being near a point 3758 feet North and 3175 feet West of the Southeast corner of said section, in Township 30 South, Range 1 East, Sumner County, Kansas.

(B) One in the ___ quarter of the ___ quarter of the LOT 4 quarter of Section 4, more particularly described as being near a point 3789 feet North and 3176 feet West of the Southeast corner of said section, in Township 30 South, Range 1 East, Sumner County, Kansas.

(C) One in the ___ quarter of the ___ quarter of the LOT 4 quarter of Section 4, more particularly described as being near a point 3727 feet North and 3173 feet West of the Southeast corner of said section, in Township 30 South, Range 1 East, Sumner County, Kansas.

(D) One in the ___ quarter of the ___ quarter of the ___ quarter of Section ___, more particularly described as being near a point ___ feet North and ___ feet West of the Southeast corner of said section, in Township ___ South, Range ___ East/West (circle one), ___ County, Kansas.

If the source of supply is groundwater, a separate application shall be filed for each proposed well or battery of wells, except that a single application may include up to four wells within a circle with a quarter (1/4) mile radius in the same local source of supply which do not exceed a maximum diversion rate of 20 gallons per minute per well.

A battery of wells is defined as two or more wells connected to a common pump by a manifold; or not more than four wells in the same local source of supply within a 300 foot radius circle which are being operated by pumps not to exceed a total maximum diversion rate of 800 gallons per minute and which supply water to a common distribution system.

6. The owner of the point of diversion, if other than the applicant is (please print):

Applicant
(name, address and telephone number)

(name, address and telephone number)

You must provide evidence of legal access to, or control of, the point of diversion from the landowner or the landowner's authorized representative. Provide a copy of a recorded deed, lease, easement or other document with this application. In lieu thereof, you may sign the following sworn statement:

I have legal access to, or control of, the point of diversion described in this application from the landowner or the landowner's authorized representative. I declare under penalty of perjury that the foregoing is true and correct.

Executed on 11-30, 2016. John A. Ben
Applicant's Signature

The applicant must provide the required information or signature irrespective of whether they are the landowner. Failure to complete this portion of the application will cause it to be unacceptable for filing and the application will be returned to the applicant.

7. The proposed project for diversion of water will consist of a battery of two wells
(number of wells, pumps or dams, etc.)

and was completed (by) 10/5/05
(Month/Day/Year - each was or will be completed)

8. The first actual application of water for the proposed beneficial use was or is estimated to be 10/5/05
(Mo/Day/Year)

WATER RESOURCES
RECEIVED

DEC 02 2016

- 9. Will pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion works?
 Yes No If "yes", a check valve shall be required.

All chemigation safety requirements must be met including a chemigation permit and reporting requirements.

- 10. If you are planning to impound water, please contact the Division of Water Resources for assistance, prior to submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir.

Have you also made an application for a permit for construction of this dam and reservoir with the Division of Water Resources? Yes No

- If yes, show the Water Structures permit number here _____
- If no, explain here why a Water Structures permit is not required _____

- 11. The application must be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plat showing the following information. On the topographic map, aerial photograph, or plat, identify the center of the section, the section lines or the section corners and show the appropriate section, township and range numbers. Also, please show the following information:

- (a) The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North-South distance and the East-West distance from a section line or southeast corner of section.
- (b) If the application is for groundwater, please show the location of any existing water wells of any kind within ½ mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within ½ mile, please advise us.
- (c) If the application is for surface water, the names and addresses of the landowner(s) ½ mile downstream and ½ mile upstream from your property lines must be shown.
- (d) The location of the proposed place of use should be shown by crosshatching on the topographic map, aerial photograph or plat.
- (e) Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.

A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence, Kansas 66047.

- 12. List any application, appropriation of water, water right, or vested right file number that covers the same diversion points or any of the same place of use described in this application. Also list any other recent modifications made to existing permits or water rights in conjunction with the filing of this application.

File No. 47349 overlaps P/D (no changes) _____

File No. 46040 overlaps P/U (no changes) _____

This application is for non-consumptive use. _____

13. Furnish the following well information if the proposed appropriation is for the use of groundwater. If the well has not been completed, give information obtained from test holes, if available.

Information below is from: Test holes Well as completed Drillers log attached

Well location as shown in paragraph No.	(A)	(B)	(C)	(D)
Date Drilled	<u>GeoCenter</u>	<u>12/1/05</u>	<u>12/1/05</u>	_____
Total depth of well	<u>N/A</u>	<u>36'</u>	<u>36'</u>	_____
Depth to water bearing formation	<u>N/A</u>	<u>10'</u>	<u>10'</u>	_____
Depth to static water level	<u>N/A</u>	<u>17'</u>	<u>17'</u>	_____
Depth to bottom of pump intake pipe	<u>N/A</u>	_____	_____	_____

14. The relationship of the applicant to the proposed place where the water will be used is that of

Owner
(owner, tenant, agent or otherwise)

15. The owner(s) of the property where the water is used, if other than the applicant, is (please print):

Applicant
(name, address and telephone number)

(name, address and telephone number)

16. The undersigned states that the information set forth above is true to the best of his/her knowledge and that this application is submitted in good faith.

DEC 02 2016

FEE SCHEDULE

1. The fee for an application for a permit to appropriate water for beneficial use, except for domestic use, shall be (see paragraph No. 2 below if requesting storage):

ACRE-FEET	FEE
0-100	\$200.00
101-320	\$300.00
More than 320	\$300.00 plus \$20.00 for each additional 100 acre-feet or any part thereof.

2. The fee for an application in which storage is requested, except for domestic use, shall be:

ACRE-FEET	FEE
0-250	\$200.00
More than 250	\$200.00 plus \$20.00 for each additional 250 acre-feet of storage or any part thereof.

Note: If an application requests both direct use *and* storage, the fee charged shall be as determined under No. 1 or No. 2 above, whichever is greater, but not both fees.

3. The fee for an application for a permit to appropriate water for water power or dewatering purposes shall be \$100.00 plus \$200.00 for each 100 cubic feet per second, or part thereof, of the diversion rate requested.

Note: The applicant shall notify the Chief Engineer and pay the statutorily required field inspection fee of \$400.00 when construction of the works for diversion has been completed, except that for applications filed on or after July 1, 2009, for works constructed for sediment control use and for evaporation from a groundwater pit for industrial use shall be accompanied by a field inspection fee of \$200.00.

MAKE CHECKS PAYABLE TO THE KANSAS DEPARTMENT OF AGRICULTURE

ATTENTION

A Water Conservation Plan may be required per K.S.A. 82a-733. A statement that your application for permit to appropriate water may be subject to the minimum desirable streamflow requirements per K.S.A. 82a-703a, b, and c may also be required from you. After the Division of Water Resources has had the opportunity to review your application, you will be notified whether or not you will need to submit a Water Conservation Plan. You also may be required to install a water flow meter or water stage measuring device on your diversion works prior to diverting water. There may be other special conditions or Groundwater Management District regulations that you will need to comply with if this application is approved.

CONVERSION FACTORS

1 acre-foot equals 325,851 gallons

1 million gallons equal 3.07 acre-feet

Re: Application File No. 49737

Minimum Desirable Streamflow

Dear Sir:

I understand that a Minimum Desirable Streamflow requirement has been established by the legislature for the source of supply to which the above referenced application applies.

I understand that diversion of water pursuant to this application will be subject to regulation any time Minimum Desirable Streamflow requirements are not being met.

I also understand that if this application is approved, there could be times, as determined by the Division of Water Resources, when I would not be allowed to divert water. I realize that this could affect the economics of my decision to appropriate water.

I am aware of the above factors, and with the knowledge thereof, request that the Division of Water Resources proceed with processing and approval, if possible, of the above referenced application.

Re: Unacceptable Application

Dear Dr. Brewer

Returned herewith is your Application for Permit to Appropriate Water for Beneficial Use received by the Division of Water Resources on November 21, 2016 with Check No. 1517 in the amount of \$200. This application is not acceptable for filing in its present form. Our office only received page one of the five page application.

Effective July 1, 2009, K.S.A. 82a-709 requires all applicants for new appropriation rights for the beneficial use of water in the State of Kansas to provide evidence of legal access to or control of the point of diversion from the landowner or the landowner's authorized representative. Applicants may provide a copy of a recorded deed, lease, easement or other document with the application. **In lieu of providing this documentary evidence, you may sign Paragraph No. 6 of the original permit application (where indicated), which constitutes a sworn statement.** Please note that the enclosed new application must bear an **original signature**. Photocopies or fax signatures are not acceptable.

Additionally, Paragraph No. 16 of the application must be signed and dated by the applicant. Please sign and date the application where indicated and return it to our office. Again, photocopies or fax signatures are not acceptable.

Upon return of the acceptable application with required original signatures and information, it will be assigned a priority based upon the date and time it is received in the office of the Chief Engineer. If you have any questions, please contact me at (785) 564-6631 or alex.whitesell@kda.ks.gov.

Sincerely,

Dr. John A. Brewer, President

11-15-16

To: Kansas Division of Water Resources

Subject: Wyldeewood Cellars' Water Rights Application

Attached are our application, including the water meter installation, and three pages of water well data around our facility. Pages 1 and 2 are from the KGS displaying the "known" wells in our area. I have drawn a circle that circumscribes a one-half mile radius from our Municipal well. Page 1 displays the well south of 119th St, and page 2 that there are no wells north of 119th St. Page 3 displays the same circumscribed area but on an aerial map from Sumner County GIS services to allow for better identification of wells. This area of Sumner County does not have a rural water district, so all of the houses in Page 3 have domestic wells. Very few of these wells are on Page 1 of the KGS well maps. Pages 4 – 6 display the owner and their address for the properties to the West and South of our property. The property has a pin in it. Page 7 displays the property information directly east of our property.

In the South-East quadrant, there is a housing addition. The Sumner County tax parcel number for all of the parcels in the housing development is the same except for the last 3 digits. The one-half mile radius from our wells could include tax parcel numbers 022040000007010, 020, 030, 040, 060, 070, 080, 090, 100, 110, 120, and 260. Page 8 displays the owner and address for tax parcels 010, 020, and 030. Page 9 displays tax parcels 040, 060, and 070. Page 10 displays tax parcels 080, 090, 100, and 110. Page 11 displays tax parcel 120, and page 12 tax parcel 260. The Kansas Turnpike Authority is the only other well owner in the circumscribed area.

I believe that this is a complete and accurate listing of all the well owners in a one-half mile radius of our Municipal well.

RE: Application
File No. 49737

Dear Sir or Madam:

Your application for permit to appropriate water in 4-30S-1E in Sumner County, was received and has been assigned the file number noted above.

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. Once review of your application has begun, we will contact you, if additional information is required.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water as proposed prior to approval of the application is unlawful. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor . . .

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

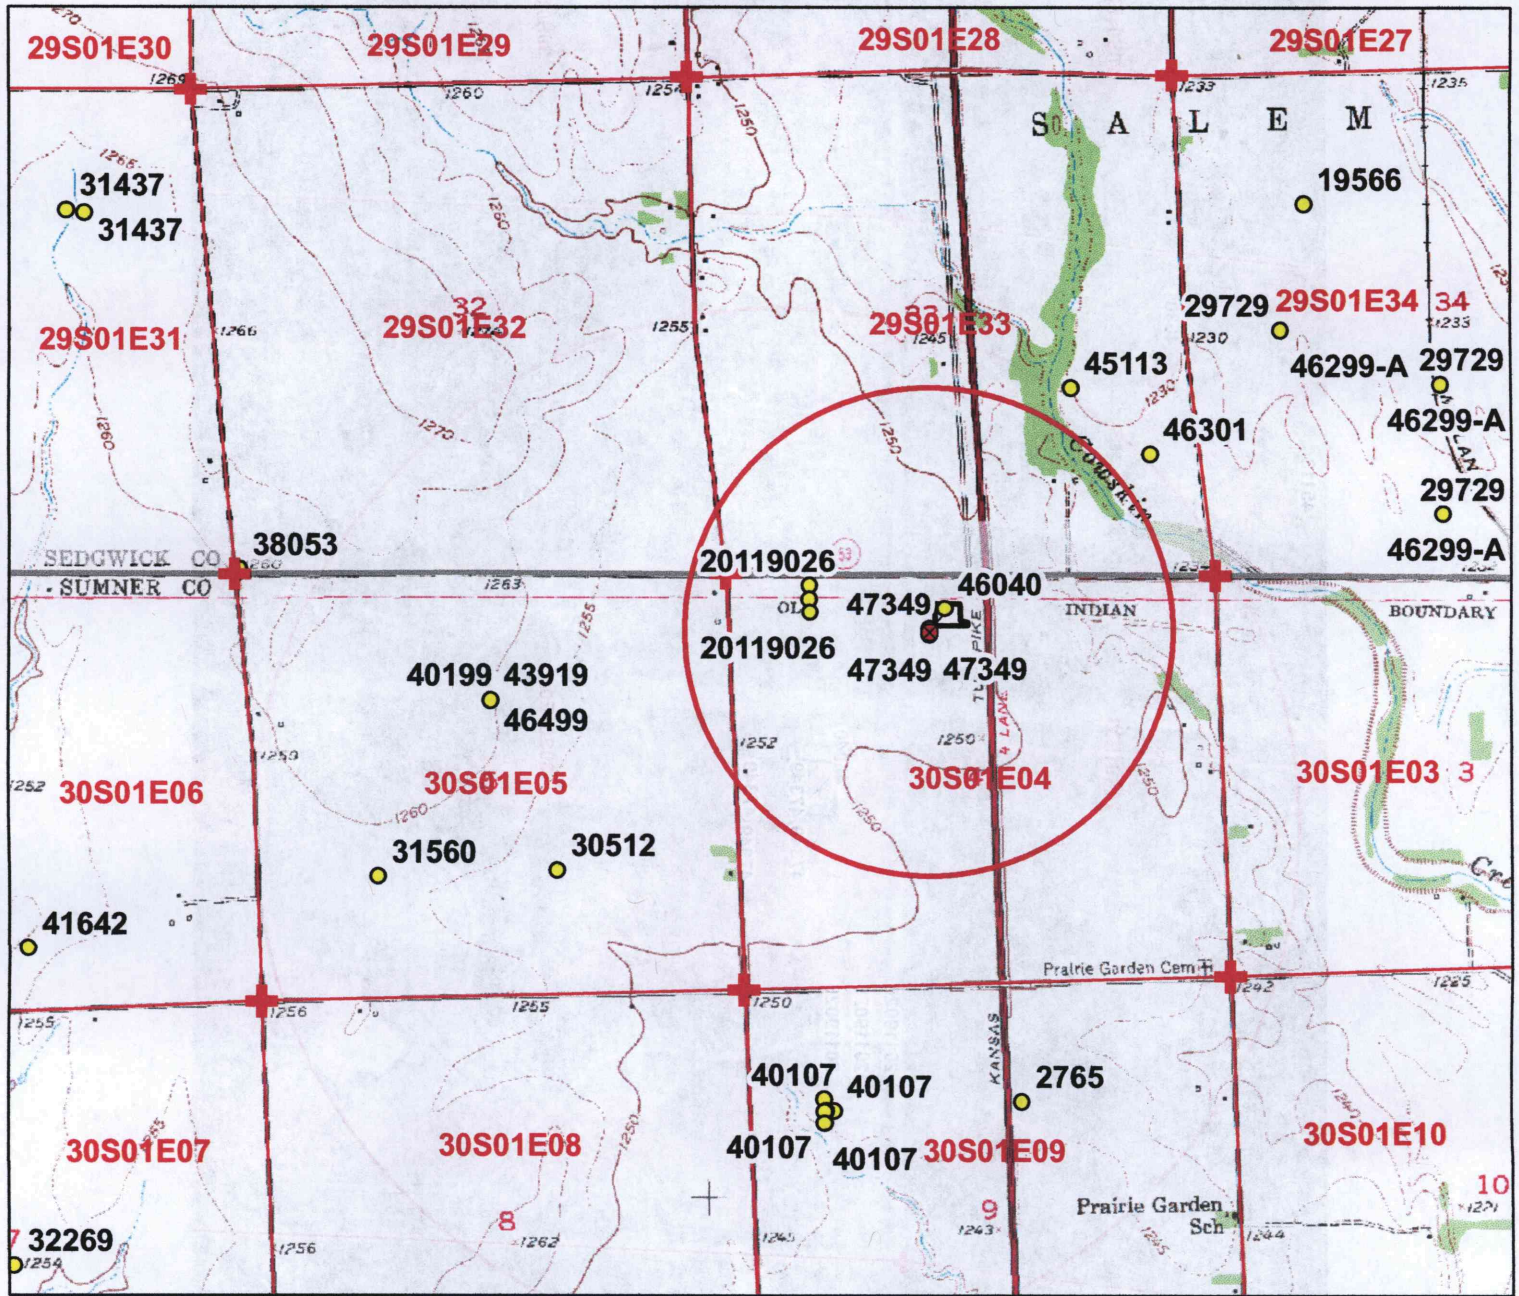

Brent A Turney, P.G.
