## **NOTICE**

This scan only represents the application as filed. The information contained herein meets the requirements of K.A.R. 5-3-1 or K.A.R. 5-5-1, and has been found acceptable for filing in the office of the Chief Engineer. The application should not be considered to be a complete application as per K.A.R. 5-3-1b or K.A.R. 5-5-2a.

#### KANSAS DEPARTMENT OF AGRICULTURE

Jackie McClaskey, Secretary of Agriculture

THE STREET STATES 

> **DIVISION OF WATER RESOURCES** David W. Barfield, Chief Engineer WAI ER RESOURCES RECEIVED

OCT 3 0 2017

File Number This item to be completed by the Division of Water Resources.

#### APPLICATION FOR PERMIT TO APPROPRIATE WATER FOR BENEFICIAL USE

Filing Fee Must Accompany the Application (Please refer to Fee Schedule attached to this application form.)

To the Chief Engineer of the Division of Water Resources, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502:

1.	Name of Applicant (Please Print): Arlen Becker											
	Address: 1293 26th Ave.											
	City: Canton	*	State ks Z	Zip Code 67428								
	Telephone Number: (316	242-4311										
2.	The source of water is:	☐ surface water in	(stream	,								
	OR	groundwater in Little Ar	`	,								
	when water is released from	m storage for use by water date we receive your app	ws established by law or may r assurance district members. plication, you will be sent the a	If your application is subject								
3.	The maximum quantity of	₩3i water desired is 200.85 LTD	acre-feet OR.	_ gallons per calendar year,								
	to be diverted at a maximu	ım rate of 800 g	allons per minute OR	cubic feet per second.								
	requested quantity of water maximum rate of diversion	r under that priority numbe n and maximum quantity o	the requested maximum rate or can <u>NOT</u> be increased. Plea of water are appropriate and re ater Resources' requirements	ase be certain your requested easonable for your proposed								
4.	The water is intended to be	e appropriated for (Check u	ise intended):									
	(a) Artificial Recharge	(b) Irrigation	(c) ☐ Recreational	(d) □ Water Power

Å	pplicant requests 60 days to conduct File No.	
	test drilling and locate well	
5.	The location of the proposed wells, pump sites or other works for diversion of water is:	
	<b>Note:</b> For the application to be accepted, the point of diversion location must be described to at least a 10 acre tract, unless you specifically request a 60 day period of time in which to locate the site within a specifically described, minimal legal quarter section of land.	
's tare	(A) One in the quarter of the quarter of the $\underline{SW}$ quarter of Section $\underline{8}$ , more particular	ırly
	described as being near a point feet North and feet West of the Southeast corner of s	
	section, in Township 20 Sou 39(00 W Section), McPherson County, Kans	as.
	(B) One in the quarter of the, more particular	arly
	described as being near a poir utheast corner of s	aid
	section, in Township So County, Kans	as.
	(C) One in the quarter of th	ırly
	described as being near a poil jutheast corner of s	aid
	section, in Township South, range county, Kans	as.
	(D) One in the quarter of the quarter of the quarter of Section, more particular	arly
	described as being near a point feet North and feet West of the Southeast corner of s	
	section, in Township South, Range East/West (circle one), County, Kans	as.
	If the source of supply is groundwater, a separate application shall be filed for each proposed well or batter wells, except that a single application may include up to four wells within a circle with a quarter (½) mile radiu the same local source of supply which do not exceed a maximum diversion rate of 20 gallons per minute per value of wells is defined as two or more wells connected to a common pump by a manifold; or not more the four wells in the same local source of supply within a 300 foot radius circle which are being operated by pumport to exceed a total maximum diversion rate of 800 gallons per minute and which supply water to a common distribution system.	is ir well nan nps
6.	The owner of the point of diversion, if other than the applicant is (please print): Elfrieda Becker Rev. Tr., 208 Unruh St. Moundridge, KS 67107	
	(name, address and telephone number)	
	(name, address and telephone number)	—
	You must provide evidence of legal access to, or control of, the point of diversion from the landowner or landowner's authorized representative. Provide a copy of a recorded deed, lease, easement or other docume with this application. In lieu thereof, you may sign the following sworn statement:	:he ent
	I have legal access to, or control of, the point of diversion described in this application from the landowner or the landowner's authorized representative. I declare under penalty of perjury that the foregoing is true and correct.	
	foregoing is true and correct.  Executed on Oct 23 , 2017.  Applicant's Signature	
	The applicant must provide the required information or signature irrespective of whether they are the landown Failure to complete this portion of the application will cause it to be unacceptable for filing and the application be returned to the applicant.	<u>er.</u> will
7.	The proposed project for diversion of water will consist of 1 well battery / or   well (number of wells, pumps or dams, etc.)	
	and (was)(will be) completed (by)  (Month/Day/Year - each was or will be completed)	
8.	(Month/Day/Year - each was or will be completed) The first actual application of water for the proposed beneficial use was or is estimated to be 4/1/2018 (Mon/Day/Year)	

submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir.  Have you also made an application for a permit for construction of this dam and reservoir with the Division of Water Resources?    Yes	).	Will pesticide	e, fertilizer, or other foreign substance be injected into the water pumped from the diversion works?
<ul> <li>If you are planning to impound water, please contact the Division of Water Resources for assistance, prior to submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir.</li> <li>Have you also made an application for a permit for construction of this dam and reservoir with the Division of Water Resources?</li></ul>		■ Yes □ N	lo If "yes", a check valve shall be required.
submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir. If the application is for groundwater, please show the location of the proposed will here and no wells within 1% mile pleas		All chemigation	on safety requirements must be met including a chemigation permit and reporting requirements.
Water Resources?   Yes	0.	submitting th	e application. Please attach a reservoir area capacity table and inform us of the total acres of
1. The application must be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plat showing the following information. On the topographic map, aerial photograph, or plat, identify the center of the section, the section lines or the section corners and show the appropriate section, township and range numbers. Also, please show the following information:  (a) The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North-South distance and the East-West distance from a section line or southeast corner of section.  (b) If the application is for groundwater, please show the location of any existing water wells of any kind within ½ mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within ½ mile, please advise us.  (c) If the application is for surface water, the names and addresses of the landowner(s) ½ mile downstream and ½ mile upstream from your property lines must be shown.  (d) The location of the proposed place of use should be shown by crosshatching on the topographic map, aerial photograph or plat.  (e) Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.  A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence, Kansas 66047.  2. List any application, appropriation of water, water right, or vested right file number that covers the same diversion points or any of the same place of use described in this application. Also list any other recent modifications made to existing permits or water rights in conjunction with the filing of this application.  Overlapping place of use with Water Right No. 316

Re:

Application File No.

Minimum Desirable Streamflow

Dear Sir:

I understand that a Minimum Desirable Streamflow requirement has been established by the legislature for the source of supply to which the above referenced application applies.

I understand that diversion of water pursuant to this application will be subject to regulation any time Minimum Desirable Streamflow requirements are not being met.

I also understand that if this application is approved, there could be times, as determined by the Division of Water Resources, when I would not be allowed to divert water. I realize that this could affect the economics of my decision to appropriate water.

I am aware of the above factors, and with the knowledge thereof, request that the Division of Water Resources proceed with processing and approval, if possible, of the above referenced application.

Signature of Applicant

State of Kansas

BOURCES

# MINIMUM DESIRABLE STREAMFLOW FORM TO BE USED WHEN APPLICABLE WHEN FILING AN APPLICATION FOR PERMIT TO APPROPRIATE WATER FOR BENEFICIAL USE

The Kansas Legislature has established minimum desirable streamflows for the streams listed below. If your proposed diversion of water is going to be from one of these watercourses or adjacent alluvial aquifers, please complete the back side of this page and submit it along with your application for permit to appropriate water.

Arkansas River
Big Blue River
Chapman Creek
Chikaskia River
Cottonwood River
Delaware River
Little Arkansas River
Little Blue River
Marais des Cygnes River
Medicine Lodge River
Mill Creek (Wabaunsee Co. area)
Neosho River

Ninnescah River
North Fork Ninnescah River
Rattlesnake Creek
Republican River
Saline River
Smoky Hill River
Solomon River
South Fork Ninnescah
Spring River
Walnut River
Whitewater River

RE: Application File No. 49931

Dear Sir or Madam:

Your application for permit to appropriate water in 8-20S-1W in McPherson County, was received and has been assigned the file number noted above.

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. Once review of your application has begun, we will contact you, if additional information is required.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water as proposed prior to approval of the application is unlawful. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor . . .

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Kristen A. Baum
