**M E M O R A N D U M**

**TO:** Files

**DATE:** April 24, 2018

**FROM:** Brent A. Turney

**RE:** Water Right  
File Nos. 4,537D1, 4,537D2,  
4,894 and 29,958

Raymond and Susan Flickner owners of the above referenced water rights have filed applications for approval to change the place of use under the above referenced water rights. The applications propose to add additional acres to the existing places of use and to also create a complete overlap in the authorized places of use between the four water rights.

The referenced files do not appear to be abandoned as per K.S.A. 82a-718.

The changes in place of use under propose to increase the authorized acres to a total of 483 acres from the currently authorized 426.39 acres of land. Water Right, File Nos. 4,537 D1 and 29,958 are currently authorized a total of 230 acres and are currently in 5 year allocations that total 1,006 acre-feet of water in a 5 year period. Water Right File No. 4,894 is currently authorized a total of 156.39 acres and is currently in a 5 year allocation to 529.5 acre-feet in a 5 year period. Both of these 5 year allocations will start over for the period beginning in 2018 through 2022. While Water Right, File No. 4,537 D2 is not currently in a 5 year allocation, it is proposed that it be place in one based upon the following calculation:

50% NIR McPherson County (10.8 inches / 0.85 efficiency / 12 inches x 81 base acres x 5 years = 428.8 acre-feet. Since the water right is only authorized 52 acres-feet, the allocation is equal to 5 times authorized or 260 acre-feet

In compliance with KAR 5-5-11(b)(3)(A), GMD No. 2 has agreed to monitor the project and has submitted a monitoring agreement between the GMD and Mr. Flickner.

In an letter dated, December 7, 2017, a letter and a copy of the applications were submitted to the Equus Beds GMD No. 2 along with a request to make a recommendation. In a letter date January 30, 2018, Tim Boese, Manager, GMD No. 2, recommended that the applications for change in place of use be approved.

In an email dated todays date, Jeff Lanterman, Water Commissioner, Stafford Field Office, recommended that the applications be approved.

A check valve will be required if any chemical or foreign substance is injected into the water through the diversion works.

Based on the above discussion, that the change is reasonable, that impairment to existing water rights is unlikely, that no change in the local source of supply will occur and that the new application will account for any increase in the consumptive use, it is recommended that the referenced application be approved.

RE: Water Right  
File Nos. 4,537 D1, 4,7537D2,  
4,894 and 29,958

Dear Mr. and Mrs. Flickner:

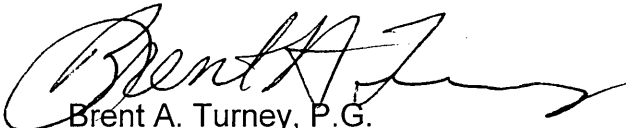

Enclosed are the orders executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the applications for change under the above referenced water rights.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in the approval for change. A condition of the approval is that an acceptable water flow meter must be installed on the diversion works authorized under the above referenced water rights. Please return the required notification of installation of the required meters as soon as these actions are completed.

Since these orders modify the original documents referred to above, they should be recorded with the Register of Deeds as other instruments affecting real estate.

If you have any questions, please contact this office. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

  
Brent A. Turney, P.G.

DIVISION OF WATER RESOURCES  
David W. Barfield, Chief Engineer

**APPROVAL OF APPLICATION  
FOR  
CHANGE IN PLACE OF USE  
WATER RIGHT  
FILE NO. 29,958**

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of Raymond and Susan Flickner, 2701 N North Shore Circle, Wichita Kansas 67205-1079, received in this office on November 27, 2017, for approval of a change in the location of the place of use under the certificate of appropriation issued pursuant to the application for permit to appropriate water for beneficial use, by the order of the Chief Engineer dated May 9, 2000, approving the application to change the location of the place of use, finds that the change is reasonable and will not impair existing rights and that the application should be and is hereby approved.

This order effectively removes the additional conditions which established the five (5)-year allocation as set forth by the Approval of Application for Change in Place of Use, Water Right, File No. 29,958, dated May 9, 2000.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized place of use shall be:

Sec.	Twp.	Range	NE¼				NW¼				SW¼				SE¼				TOTAL	
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼		
20	21S	2W									40.0	38.5	37.0	34.5			9.0			159.0
29	21S	2W					39.0	19.0	39.0	40.0	40.0	29.0	38.5	39.0						283.5
32	21S	2W					40.0													40.0

a total of 482.5 acres in Township 21 South, Range 2 West, McPherson County, Kansas,  
located substantially as shown on the topographic map accompanying the application to change the place of use,

The authorized place of use for industrial use shall remain:

fish farming in the Northwest Quarter of the Southwest Quarter (NW¼SW¼) of Section 29, Township 21 South, Range 2 West, McPherson County, Kansas.

By this order, this water right is subject to the following conditions:

1. That the quantity of water authorized under Water Right, File No. 29,958, when combined with Water Right, File No. 4,537 D1, shall not exceed 1,006 acre-feet per five (5)-year period; the first period being calendar years 2018 through 2022, ad infinitum.
2. That the quantity of water authorized under Water Right, File No. 29,958 shall not exceed 165 acre-feet per calendar year, provided that 1,006 acre-feet per five (5)-year period is not exceeded.
3. That use of water in excess of 1,006 acre-feet per five (5)-year period shall result in a two (2)-year suspension of all water use under this water right, effective the next two (2) calendar years, and a subsequent restriction of the authorized place of use to the following described property:

Sec.	Twp.	Range	NE¼				NW¼				SW¼				SE¼				TOTAL ACRES	
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼		
20	21S	2W																		112.0
29	21S	2W					5.0	14.5	25.5	39.0	36.0	24.0	38.0	37.0						219.0
32	21S	2W					40.0													40.0

a total of 371 acres in Township 21 South, Range 2 West, McPherson County, Kansas, located substantially as shown on the map accompanying the application to change the place of use.

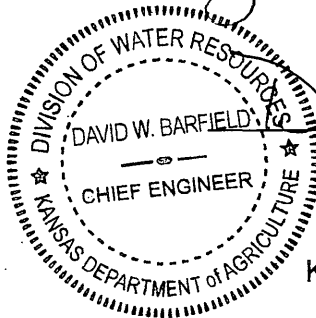

4. That if Equus Beds Groundwater Management District No. 2 and/or the Division of Water Resources terminate their/its Memorandum of Understanding (MOU) pertaining to K.A.R. 5-5-11(b)(3), (4) and (5), by which the District assumes monitoring responsibility, then the place of use authorized by this change approval, which was issued by the Division pursuant to the MOU shall revert to the property described in paragraph no. 3, above, starting the calendar year following the year of termination.

All diversion works into which any type of chemical or other foreign substance will be injected into the water pumped from the diversion works shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

The water right owner shall properly install an acceptable water meter on the diversion works authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meter has been completed. The water right owner shall maintain the water meter in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. The water right owner shall also report the reading of said water meter and the total quantity of water diverted annually to the Chief Engineer. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

In all other respects, the Certificate of Appropriation issued pursuant to Approval of Application, File No. 29,958, for permit to appropriate water for beneficial use, is as stated and set forth in the Certificate of Appropriation dated December 14, 1989, and as modified and amended by the aforementioned order.

Ordered this 2<sup>nd</sup> day of May, 2018, in Topeka, Shawnee County, Kansas.

David W. Barfield

Notary Public

**RIGHT TO A HEARING AND TO ADMINISTRATIVE REVIEW**

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may:

- 1) request an evidentiary hearing before the Chief Engineer, or
- 2) request administrative review by the Secretary of Agriculture.

Failure to request an evidentiary hearing before the Chief Engineer does not preclude your right to administrative review by the Secretary.

To obtain an evidentiary hearing before the Chief Engineer, a written request for hearing must be filed within 15 days after service of this Order as provided in K.S.A. 77-531 (**i.e., within a total of 18 days after this Order was mailed to you**), with: Kansas Department of Agriculture, Attn: Legal Section, 1320 Research Park Drive, Manhattan, KS 66502, FAX (785) 564-6777.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for hearing may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. The petition must be filed within 30 days after service of this Order as provided in K.S.A. 77-531 (**i.e., within a total of 33 days after this Order was mailed to you**), and be filed with: Secretary of Agriculture, Attn: Legal Division, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, KS 66502, FAX (785) 564-6777.

If neither a request for an evidentiary hearing nor a petition for administrative review is filed as set forth above, then this Order shall be effective and become a final agency action as defined in K.S.A. 77-607(b). Failure to timely request either an evidentiary hearing or administrative review may preclude further judicial review under the Kansas Judicial Review Act.

Any request for hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564 – 6777.

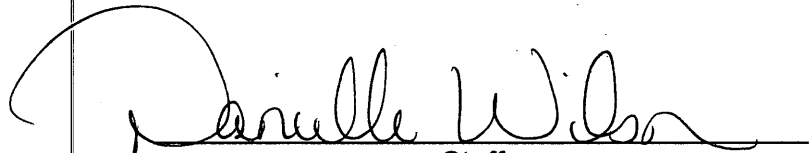

**CERTIFICATE OF SERVICE**

On this 8<sup>th</sup> day of May, 2018, I hereby certify that the attached original Approval of Change in Place of Us, File No. 29,958, dated May 2nd, 2018, was mailed postage prepaid, first class, US mail to the following:

**KS DEPT OF AGRICULTURE**

Brent – Attached are signed service agreements for GMD2 monitoring the place of use for the referenced change applications. I have also sent KDA Attorney Kenneth Titus a draft GMD2/DWR Monitoring MOU for his review and the Chief Engineer’s signature, but I don’t know how long that will take. Also, it looks like the “Statement of Review” example from GMD5 you sent me will need to be modified by DWR for GMD2 use, as it is a protected document (DWR 1-120.4), so I can’t modify it for GMD2 use. Since this will likely take some time, I went ahead and wrote up service agreements so you can approve the change applications.

Let me know if you need anything else.

Thanks.

**Subject:** RE: Nos. 4894, 4537-D1, 4537-D2, 29958 - Flickner

Tim,  
 This should be the base and 5 year allocation numbers for these files.

4,894 100 base acers which calculates 529.5 AF for the 5 year allocation  
 4,537 D1 and 29,958 have a common 190 base acres, these two combined have a 5 year allocation of 1,006 AF and will be limited to 1,006 AF in 5 years  
 4,537 D2 has 71 base acres, however the 5 year allocation is equal to 5 x authorized 260 AF

Total 5 year allocation  
 4,894 529.5 AF  
 4,537 D1 1,006 Af  
 29,958 1,006 AF limited to 1,006 comb / 4,537 D1  
 4,537 D2 260 AF

Total base acres = 361 acres  
 Total 5 year allocation = 1,795.5 AF

**From:** Tim Boese [mailto:tboese@gmd2.org]  
**Sent:** Monday, January 29, 2018 8:27 AM  
**To:** Turney, Brent [KDA] <Brent.Turney@ks.gov>  
**Cc:** Lanterman, Jeff [KDA] <Jeff.Lanterman@ks.gov>; Stephen Flaherty <sflaherty@gmd2.org>  
**Subject:** Nos. 4894, 4537-D1, 4537-D2, 29958 - Flickner

Brent – I am finishing up our review of the referenced change in place of applications and had some questions concerning the 5 year allocation.

The overall 5 year allocation for all the water rights would be 1964.1 AF based on a combined base acres total of 371 acres. The change applications also specify individual 5 year allocations for each file as follows:

4894: 529.5 AF  
4537D1: 525 AF  
4537D2: 260 AF  
29958: 825 AF

The 5 year allocation for 4894 appears to be based on  $100 \text{ base acres} \times 0.9' / 0.85 \times 5 = 529.5 \text{ AF}$

The other 5 year allocation are all based on the authorized quantity X 5.

Why is there a difference in the way the 5 year allocation is determined? Also, perhaps it does not matter and the rights will only be subject to overall 5 year allocation of 1964.1AF?

Thanks for your time.

**1 CUSTOMER**

RAYMOND G. FLICKNER  
2701 N NORTH SHORE CIRCLE  
WICHITA KANSAS 67205  
316 721-5221

**2 TERM AND COVERAGE**

2.1 The term of this agreement is for five years of irrigation beginning May 1, 2018, and ending December 31, 2022.

2.2 Equus Beds Groundwater Management District No. 2 will inspect, read and collect water use and other information associated with water right no. 29958, (hereinafter called Services) from all or a portion of the following described point of diversion and place of use:

2.2.1 one irrigation point of diversion in the Northeast quarter of the Northwest quarter of the Southwest quarter (NE-NW-SW) of Section 29, Township 21 South, Range 2 West, approximately 2,178 feet north and 4,554 feet west of the apparent southeast corner of said section.

2.2.2 authorized irrigated land totaling 483 acres located in:

Section 20, Township 21S, Range 2W, McPherson County:  
NE-SW: 40 acres; NW-SW: 38.5 acres; SW-SW: 37 acres;  
SE-SW: 34.5 acres.

Section 29, Township 21S, Range 2W, McPherson County:  
NE-NW: 39 acres; NW-NW: 19 acres; SW-NW: 39 acres;  
SE-NW: 40 acres; NE-SW: 40 acres; NW-SW: 29 acres;  
SW-SW: 38.5 acres; SE-SW: 39 acres.

Section 32, Township 21S, Range 2W, McPherson County:  
NE-NW: 40 acres.

RECEIVED

APR 16 2018

**3 RENEWAL**

3.1 The agreement may be renewed at the end of the term by mutual agreement. Service fees may be subject to change annually or upon renewal.

**4 TIME FOR SERVICE**

4.1 Services will be performed during normal business hours of the Equus Beds Groundwater Management District No. 2, which are from 8:00 A.M. to 5:00 P.M., Monday through Friday, exclusive of District holidays.

**5 SERVICE PERFORMED**

- 5.1 Qualified personnel employed by the Equus Beds Groundwater Management District No. 2 will perform services.
- 5.2 Inspection(s) of the point of diversion, water flow meter and place of use will be conducted on the items described in paragraphs 2.2.1 and 2.2.2.
- 5.3 The inspection(s) will be conducted during the period of active irrigation operations each year, as provided for in Paragraph 4, Time for Service.
- 5.4 Inspection(s) will be conducted at least once per irrigation season, or more often if necessary as determined by the Equus Beds Groundwater Management District No. 2. The customer may request additional inspections. Such inspections will be performed subject to the terms and conditions of the agreement.
- 5.5 Water meter readings will be recorded to the nearest gallon, 0.01 acre-inch or 0.001 acre-foot.
- 5.6 Recorded data for each inspection will include:
  - 5.6.1 Water Flow Meter
    - 5.6.1.1 legal description and coordinates of the water flow meter,
    - 5.6.1.2 date and time of meter reads,
    - 5.6.1.3 totalizer read,
    - 5.6.1.4 direct and timed rate reads,
    - 5.6.1.5 name of inspector,
    - 5.6.1.6 model and serial number,
    - 5.6.1.7 units of measure for rate and totalizer, and
    - 5.6.1.8 multiplication factor.
  - 5.6.2 Point of Diversion
    - 5.6.2.1 legal description and coordinates of the point of diversion,
    - 5.6.2.2 operational status of the point of diversion, and
    - 5.6.2.3 total discharge flow metered.
  - 5.6.3 Place of Use
    - 5.6.3.1 irrigated acres legal description,
    - 5.6.3.2 estimated acres irrigated,
    - 5.6.3.3 crop irrigated, and
    - 5.6.3.4 type of irrigation system.
- 5.7 The Equus Beds Groundwater Management District will submit an inspection summary report of the items described in paragraphs 2.2.1 and 2.2.2 to the Chief Engineer, Division of Water Resources, within thirty days of an inspection. A copy of the summary report will be furnished to the customer.
- 5.8 Only the services specifically listed are subject to the agreement.

**6 CUSTOMER RESPONSIBILITY**

- 6.1 The Equus Beds Groundwater Management District No. 2 will have ingress and egress to the point of diversion, water flow meter and place of use as reasonably necessary to the carry out this service agreement and the customer agrees not to restrict such ingress and egress.
- 6.2 The customer will maintain the point of diversion(s) and water meter(s) described in paragraph 2.2.1 in such a manner as to provide for the timely inspection of the point of diversion, water flow meter and place of use in order to implement the service agreement.

**7 LIMITATIONS OF LIABILITY**

- 7.1 The Equus Beds Groundwater Management District No. 2 is not responsible for consequential or incidental damages including, but not limited to, any interruption of use of the point of diversion(s) described in paragraph 2.2.1, or any losses or damages resulting from any Equus Beds Groundwater Management District No. 2 acts or omissions under this agreement.
- 7.2 Data collected under this agreement is subject to the Open Public Records Act, K.S.A. 45-215 et seq.

**8 SERVICE FEES**

- 8.1 The customer will be invoiced for services performed by the Equus Beds Groundwater Management District No. 2:
  - 8.1.1 mileage (one-way) at the standard mileage rate allowed by the Internal Revenue Service, Publication 463, and
  - 8.1.2 staff and administrative time including inspection, readings, data entry, and report preparation and distribution at \$34.25 per hour.
- 8.2 Service fees shall be invoiced within thirty days of service date.
- 8.3 Service fees are due and payable upon invoice.
- 8.4 A service fee not paid within 30 days of invoice is subject to a late charge of 1.5 percent per month equivalent to 18 percent per annum.
- 8.5 Fees not paid within 90 days of invoice will result in the suspension or termination of services.

Re: Place of Use Change Applications  
Water Right File Nos. 4537-D1, 4537-D2, 4894, 29958 – Raymond Flickner

KS DEPT OF AGRICULTURE

Dear Mr. Turney:

The Equus Beds Groundwater Management District No. 2 reviewed the referenced change in place of use applications on January 30, 2018, using the District's Revised Management Program (effective May 1, 1995) and Rules and Regulations K.A.R. 5-22-1 through 5-22-17.

The change applications propose to modify the place of use and create an identical place of use overlap totaling 483 acres between the referenced water rights pursuant to K.A.R. 5-5-11(b)(3), subject to five year allocation(s). The proposed place of use results in a combined water to land ratio of 0.89 acre-feet per acre.

Additionally, pursuant to K.A.R. 5-5-11(b)(3)(A), the groundwater management district in which the points of diversion are located, must agree to assume monitoring responsibility to ensure compliance with the change approvals conditions.

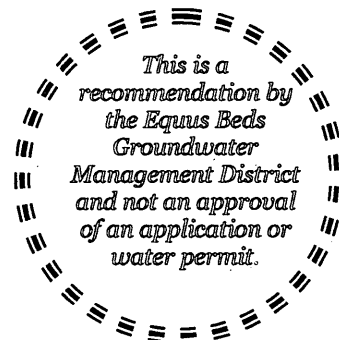

Subject to the condition specified below, the change applications will comply with the District's Revised Management Program and Rules and Regulations K.A.R. 5-22-1 through 5-22-17.

Based on the review, the change applications are recommended for approval, subject to the Division of Water Resources determining the 5 year allocation(s) quantity(s). Additionally, the District agrees to assume monitoring responsibilities to ensure compliance with the change approval conditions through either a formal Memorandum of Understanding with the Division of Water Resources and/or the applicant obtaining a service contract with the Equus Beds Groundwater Management to conduct an annual inspection(s) of the place of use being irrigated and review the annual water use.

A District decision may be appealed to the District Board of Directors by submitting a written petition to the District office within 30 days from date of this notification, pursuant to K.A.R. 5-22-12. Please contact the District should you have any questions regarding the review or recommendation.

Sincerely,  
EQUUS BEDS GROUNDWATER  
MANAGEMENT DISTRICT NO. 2

2018			0		0.000			0		0.000		595.737	**The IRR/IND split for 2017 is unknown
2019			0		0.000			0		0.000		595.737	

From 2014 on, the water user reported part of the meter readings on the Industrial water use report and the remainder of the meter readings on the irrigation report. Prior to that, the full metered quantity was reported on the Irrigation and the Industrial report with a value subtracted out for the other use with no indication of where the other use quantity came from.

The meter readings on the 2016 Industrial report do not match up properly with the irrigation reports. The IND readings were reported as beginning at 95,894,100 gal and ending at 7,005,600 gallons for a metered Q of 11,111,500 gallons. The quantity reported above 'corrected' and is based on the gap between the 2015 and 2016 irrigation report meter readings.

**Cc:** Lanterman, Jeff [KDA]; Stephen Flaherty  
**Subject:** Nos. 4894, 4537-D1, 4537-D2, 29958 - Flickner

Brent – I am finishing up our review of the referenced change in place of applications and had some questions concerning the 5 year allocation.

The overall 5 year allocation for all the water rights would be 1964.1 AF based on a combined base acres total of 371 acres. The change applications also specify individual 5 year allocations for each file as follows:

4894: 529.5 AF  
4537D1: 525 AF  
4537D2: 260 AF  
29958: 825 AF

*Handwritten notes:*  
100 base 529.5  
190 base 1,004  
81 base ~ 5x52 = 260

The 5 year allocation for 4894 appears to be based on 100 base acres X 0.9' / 0.85 X 5 = 529.5 AF

The other 5 year allocation are all based on the authorized quantity X 5.

Why is there a difference in the way the 5 year allocation is determined? Also, perhaps it does not matter and the rights will only be subject to overall 5 year allocation of 1964.1AF?

Thanks for your time.

**Subject:** RE: wca proposal

All,

I have been reviewing the four changes in place of use and have discovered an error in the calculations used to determine the 5 year allocation. The changes currently state that the 371 base acres will allow for a total of 1,964.1 AF for the 5 year allocation. The actual number for the 5 year allocation is 1,795.5 AF. I have informed Ray of this error. He said that he understands how the error happened and concurs that the number should be 1,795.5. Further he said that he will have to reevaluate his proposal for the WCA.

Let me know if you have any questions.

**Subject:** RE: wca proposal

Okay,

With the help of Jeff, Matt, and Lexi I think I have been able to understand more on this. I have included a new WCA summary report, the original letter from the Flickners, as well as a map that the Stafford office generated to hopefully explain clearly.

The letter was a bit confusing because they stated they wanted NIR, then stated they wanted 560 AF/YR (with a 5-year allocation), then specified specific quantities per water rights (which flexibilities they wanted to include overpumping and dual use). I attempted to capture all this in a summary report so please look at each section individually rather than a whole picture.

With the help of the Stafford office, we were able to get confirmation on the term-permits filed in the past. So Lexi was able to update our historical use spreadsheet to reflect those changes and give credit for year pumping above authority. Then she determined the NIR, BASED ON THE PENDING CHANGE APPS, with the exception of WR #29958 IND. As well, we went ahead and used the historical period of 2001-2016 for all water rights regardless of when SDI was installed but the first SDI's were installed in 2001.

To highlight some things:

Flickner's letter proposed a total of 560 AF/Year for all WR's; with a 5-year allocation of 2,800 AF.

Average Historical Use (2001-2016)= 433.941 AF/Year.....more than used in 2014, 2015, or 2016.

NIR for all IRR WR's + #29958 IND Auth Qty (35 AF)= 744.200 AF/ Year.

NIR for all IRR WR's + #29958 IND Ave Use (27.997 AF)= 737.197 AF/Year.

Specified WR's Qty's listed/requested + ave use of WR's not listed= 631.982 AF/Year.

This is all on the report sheet as well but wanted to point those things out.

I'd be happy to explain over a conference call if need. Lane, Mike, or Jeff can you please set this up? If there are any specific questions, please let me know.

**Subject:** RE: wca proposal

So the way I see it now...is that he wants his WCA allocation purely based on NIR for total authorized acres (which I think will include those in the changes).

Then he wants "past consideration" for his conservation using SDI. I can try to review his numbers/run my own spreadsheet to compare NIR to past use but just based on some back of a napkin math in my head I am not seeing an conservation factor...but I'll take a deeper look and get back to the group.

12. The presently authorized use of water is for Irrigation purposes.  
It is proposed that the use be changed to N/A purposes.

13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.  
GMD-2 Monitoring Required. File No. 29958 limited to 5-year fixed allocation=825 AF (1795.5 AF Entire p/u).  
Consideration must be made to align existing allocations (Quantity and start date) over the entire p/u overlap.  
A large portion the proposed place of use has been converted to subsurface drip systems with additional efficiency/  
subsurface drip systems planned for future conservation. It should also be noted that a portion of the place of use is  
low bottomland which regularly floods out crops (overlap will allow flexibility to better distribute water).  
(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to \_\_\_\_\_ (acre-feet or million gallons).

15. It is requested that the maximum rate of diversion of water be reduced to \_\_\_\_\_ gallons per minute (\_\_\_\_ c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 ([www.usgs.gov](http://www.usgs.gov)). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.

- a. If a change in the location of the point(s) of diversion is proposed, show:
  - 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
  - 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
  - 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.
- b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

The applicant requests that a draft order be sent for review of the allocation prior to approval.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

No waivers anticipated

WATER RESOURCES RECEIVED

NOV 27 2017 SCANNED

Any use of water that is not as authorized by the water right or permit to authorize water **before** the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

Dated at Uchika, Kansas, this 24 day of November, 2017.

RE: Water Right, File Nos. 4,537 D1; 4,537 D2; 4,894 and 29,958

Dear Mr. Hoeme:

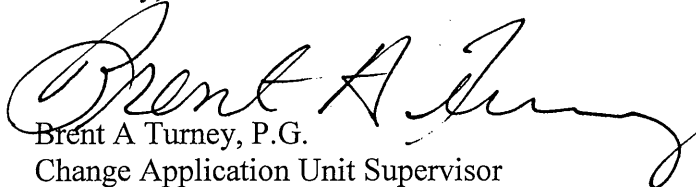

This is to advise you that Raymond Flickner has filed applications for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, to change the authorized place of use under the above referenced file numbers.

The changes are proposing to increase the place of use from the currently authorized 426.39 acres to a proposed total of 483 acres. The changes in place of use further propose that all water rights be authorized to irrigate the same overall place of use.

Effective July 1, 2016, K.S.A. 82a-1906 enacted by the Legislature of the State of Kansas requires the Division of Water Resources to notify all water right owners with a point of diversion within half a mile of a water right pending a request to change the water right. In order to comply with the statute, you are being notified of the above referenced application for change.

If you have any questions, please contact me at (785) 564-6645. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

Brent A Turney, P.G.

**FILE COPY**

RE: File No 29958

Dear Sir or Madam:

An application for approval of the Chief Engineer to change the following condition or conditions of the file number referred to above has been received:

- place of use            PU
- point of diversion
- use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore, to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. You will be contacted regarding this application as soon as it has been examined.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water prior to approval of the application is unlawful. You should not proceed and divert water as indicated by your plans in your application for a change for this file until you receive approval for this change from the Chief Engineer. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

**Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.**

**(b) (1) The violation of any provision of this section by any person is a class C misdemeanor...**

**A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.**

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Brent Tourney, L.G.
