## APPLICATION FOR APPROVAL TO CHANGE THE PLACE OF USE, THE POINT OF DIVERSION OR THE USE MADE OF THE WATER UNDER AN EXISTING WATER RIGHT

Filing Fee Must Accompany the Application

(Please refer to Fee Schedule on signature page of application form.)

Paragraph Nos. 1, 2, 3, 4 & 8 must be completed. Complete all other applicable portions. A topographic map or detailed plat showing the authorized and proposed points(s) of diversion and /or place of use must accompany this application.

1.	Application is hereby made for approval of the Chief Engineer to change the  Application is hereby made for approval of the Chief Engineer to change the  Place of Use  (Check one or more) Point of Diversion  Use Made of Water  Water Resources  Received  NOV 14 2018  7:56  KS Dept Of Agriculture							
	File No. <u>48283</u>							
	2. Name of applicant: <u>Hidden Lakes Golf Course</u>							
	Address: 6020 S Greenwich Rd							
	City, State and Zip: Derby KS 67037							
	Phone Number: ( ) E-mail address:							
	What is your relationship to the water right; ⊠ owner ☐ tenant ☐ agent ☐ other? If other, please explain.							
	Name of water use correspondent: <u>Hidden Lakes Golf Course</u> Address: <u>J Graham Dorian, 6020 S Greenwich Rd, Derby KS 67037</u> City, State and Zip: <u>Derby KS 67037</u>							
	Phone Number: ()							
3.	The change(s) proposed herein are desired for the following reasons (please be specific): The change proposes to add acres that are irrigated but currently unauthorized. It is also requested that the well locations be better described using GPS cooridnates.							
	The change(s) will be completed by date of change approval (Date)

16. It is requested that the maximum rate of diversion of water be reduced to N/A gallons per minute (— c.f.s.)  16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scali 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence Kansas 68047-3726 (www.usgs.gov). The map should show the location of the presently authorized point(s) of diversior Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of us should also be shown. Identify the center of the section from the section forms and the section corners and show the appropriat section, township, and range numbers on the map. In addition the following information must also be shown on the map.  a. If a change in the location of the point(s) of diversion is proposed, show:  1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.  2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within ½ mile of the proposed well or wells. Identify each well as to its use and furnish name an mailing address of the property owner or owners. If there are no wells within ½ mile, please indicate so on the map.  3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) ½ mile downstrean and ½ mile upstream from your property lines must be shown.  b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please by certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.  7. Attach documentation to show the change(s) proposed herein will not impair existing water rights	12.	The presently authorized use of water is for IRRIGATION & RECREATION purposes.
Proposed change is a 10 acre increase over the currently authrozied 16 acres. This file is still in the perfection period.  (Please show any calculations here.)  4. It is requested that the maximum annual quantity of water be reduced to N/A gallons per minute (— c.f.s.)  5. It is requested that the maximum rate of diversion of water be reduced to N/A gallons per minute (— c.f.s.)  6. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scall 124,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence Kansas 66047-3726 (www.usgs.gov). The map should show the location of the presently authorized point(s) of diversion Distances North and West of the Southesst corner of the section must be shown. The presently authorized place of us should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriat section, township, and range numbers on the map. In addition the following information must also be shown on the map.  a. If a change in the location of the point(s) of diversion is proposed, show:  1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.  2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within ½ mile of the proposed well or wells. Identify each well as to its use and furnish name an mailing address of the property owner or owners. If there are no wells within ½ mile, please indicate so on the map.  3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) ½ mile downstrear and ½ mile upstream from your property lines must be shown. In paragraph No. 5 of the application.  4. Attach documentation to show		It is proposed that the use be changed to <u>NO CHANGE</u> purposes.
(Please show any calculations here.)  4. It is requested that the maximum annual quantity of water be reduced to N/A gallons per minute (— c.f.s.)  5. It is requested that the maximum rate of diversion of water be reduced to N/A gallons per minute (— c.f.s.)  6. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scal 1.24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence Kansas 6647-3726 (www.usgs.gay). The map should show the location of the presently authorized place of us should also be shown. Healthy the center of the section, the section lines and the section correst-and show place of us should also be shown. The presently authorized place of us should also be shown. The presently authorized place of us should also be shown. In earlief the center of the section, the section interest on correst-and show place of us should also be shown. The presently authorized place of us should also be shown. The presently authorized place of us should also be shown. The presently authorized place of us should also be shown. Indentify the center of the section, township, and range numbers on the map. In addition the following information must also be shown on the map.  a. If a change in the location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.  2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1½ mille of the proposed well or wells. Identify each well as to its use and furnish name an mailing address of the property owner or owners. If there are no wells within ½ mille, please indicates on the map.  3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) ½ mille dow	3.	If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.
4. It is requested that the maximum annual quantity of water be reduced to N/A gallons per minute (— c.f.s.)  5. It is requested that the maximum rate of diversion of water be reduced to N/A gallons per minute (— c.f.s.)  6. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scal 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence Kansas 66047-3726 (www.usgs.gov). File No.	48283	

Any use of water that is not as authorized by the water right or permit to authorize water <u>before</u> the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorize authorized to make this application on their behalf, a complete. By filing this application I authorize the chi as specified in sections 14 and 15 of this application.	and declare furthe	er that the s	statemer	nts contained herei	n are true, correct, and

RE: File No 48283

Dear Sir or Madam:

An application for approval of the Chief Engineer to change the following condition or conditions of the file number referred to above has been received:

☐ place of use PU ☐ point of diversion ☐ use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore, to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. You will be contacted regarding this application as soon as it has been examined.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water prior to approval of the application is unlawful. You should not proceed and divert water as indicated by your plans in your application for a change for this file until you receive approval for this change from the Chief Engineer. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor...

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely.

Brent Tourney, L.G.
