 Proposed Rate _____ Proposed Quantity _____ Proposed well depth (feet) _____
 This point is: Additional Well Geo Center List other water rights that will use this point _____

7. The changes herein are desired for the following reasons? (please be specific) To correct the authorized location of the geocenter.

13a. If the proposed point of diversion will be relocated within 100 feet of the existing point of diversion, indicate its location on the diagram below in relation to the existing point of diversion. (PLEASE NOTE: The "X" in center of diagram below represents presently authorized point of diversion.)

8. If a well, is the test hole log attached? Yes No
9. The change(s) (was)(will be) completed by? ASAP
10. If the point of diversion is a well:
 (a) What are you going to do with the old well? wells have not been completed
 (b) When will this be done? NA

11. Groundwater Management District recommendation attached? Yes No

12. Assisted by TJS - SFFO

13b. If the proposed point of diversion will be relocated more than 100 feet but within 1320 feet from the existing point of diversion, attach a topographic map or aerial photograph. For groundwater sources, show all wells (including domestic) within one-half mile of the proposed point of diversion and the names and mailing addresses of the owners. For surface water sources, show the names and addresses of the landowner(s) one-half mile downstream and one-half mile upstream from your property lines.

RECEIVED

APR 24 2018

14. If the proposed groundwater point of diversion is 300 or fewer feet from existing point of diversion, complete the following:
- (a) Does the undersigned represent all owners of the currently authorized place(s) of use identified in this application?
 Yes No (If no, all owners must sign this application.)
 - (b) Will the ownership interest of any owner of the currently authorized place(s) of use identified in this application be adversely affected if this application is approved as requested?
 Yes No (If yes, all owners must sign this application.)
 - (c) If this application is not approved expeditiously, will there be substantial damage to property, public health or safety?
 Yes No (If no, all owners must sign this application.)

If the application proposes a surface water change in point of diversion, a groundwater change in point of diversion greater than 300 feet, or a change in place of use, the application must be signed by all owners of the currently authorized place of use, or their duly authorized agent (attach notarized statement authorizing representation).

I hereby verify, being first duly sworn upon my oath or affirmation and under penalty of perjury, that I am of lawful age and the owner, the spouse of the owner, or a duly authorized agent of the owner(s) to make this application on their behalf, in regards to the water right(s) to which this application pertains. I further verify that the statements contained in this application are true, correct and complete.

Re: Water Right, File No(s). 49909

Dear Water Right Owner:

Enclosed is the order executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the application for change under the above referenced file number(s).

Your attention is directed to the enclosures and to the terms, conditions and limitations specified in this approval for change. An acceptable water flow meter must be installed on your well before any water is applied as authorized under this change approval. A copy of the approved list of Certified Water Flowmeters as well as the regulations regarding the installation of flowmeters, measurement tubes and check valves can be found at <http://agriculture.ks.gov/divisions-programs/dwr/water-appropriation/water-flowmeters>. If you do not have access to the internet, please contact this office and we will send you a paper copy of the referenced information.

Since this order modifies the original document referred to above, it should be recorded with the Register of Deeds as other instruments affecting real estate.

This order requires that a notice and completion of works form be submitted once the diversion works are completed, including a properly installed flowmeter. This form is available at the referenced website.

Any abandoned well must be plugged in accordance with the requirements of Article 30 of the Rules and Regulations as adopted by the Kansas Department of Health and Environment.

Should you have any questions, please feel free to contact this office. If you wish to refer to a specific file, please reference it when you contact us.

Sincerely,

Jeff Lanterman
Water Commissioner

CERTIFICATE OF SERVICE

On this **3rd** day of **May, 2018**, I hereby certify that the attached Change in Point of Diversion for Water Right, File No. **49909**, dated **May 2, 2018** was mailed via Certified U.S. mail to the following:

Derek Totten
267 S Oxford Rd
Oxford KS 67119

Staff

Analysis Results

The selected PD is in an area OPEN to new appropriations.

The safe yield based on the variables listed below is 1,470.24 AF.

Total prior appropriations in the circle is 825.50 AF.

Total quantity of water available for appropriation is 644.74 AF.

Safe Yield Variables

The area used for the analysis is set at 5,346 acres.

The potential annual recharge at the circle center is estimated to be 3.3 inches.

The percent of recharge available for appropriation is 100%.

Authorized Quantity values are as of 27-APR-2018 and are based on Appropriated and Vested ground water right and possible stream nodes for GMD #2. Domestic, Term and Temporary water rights have been excluded.

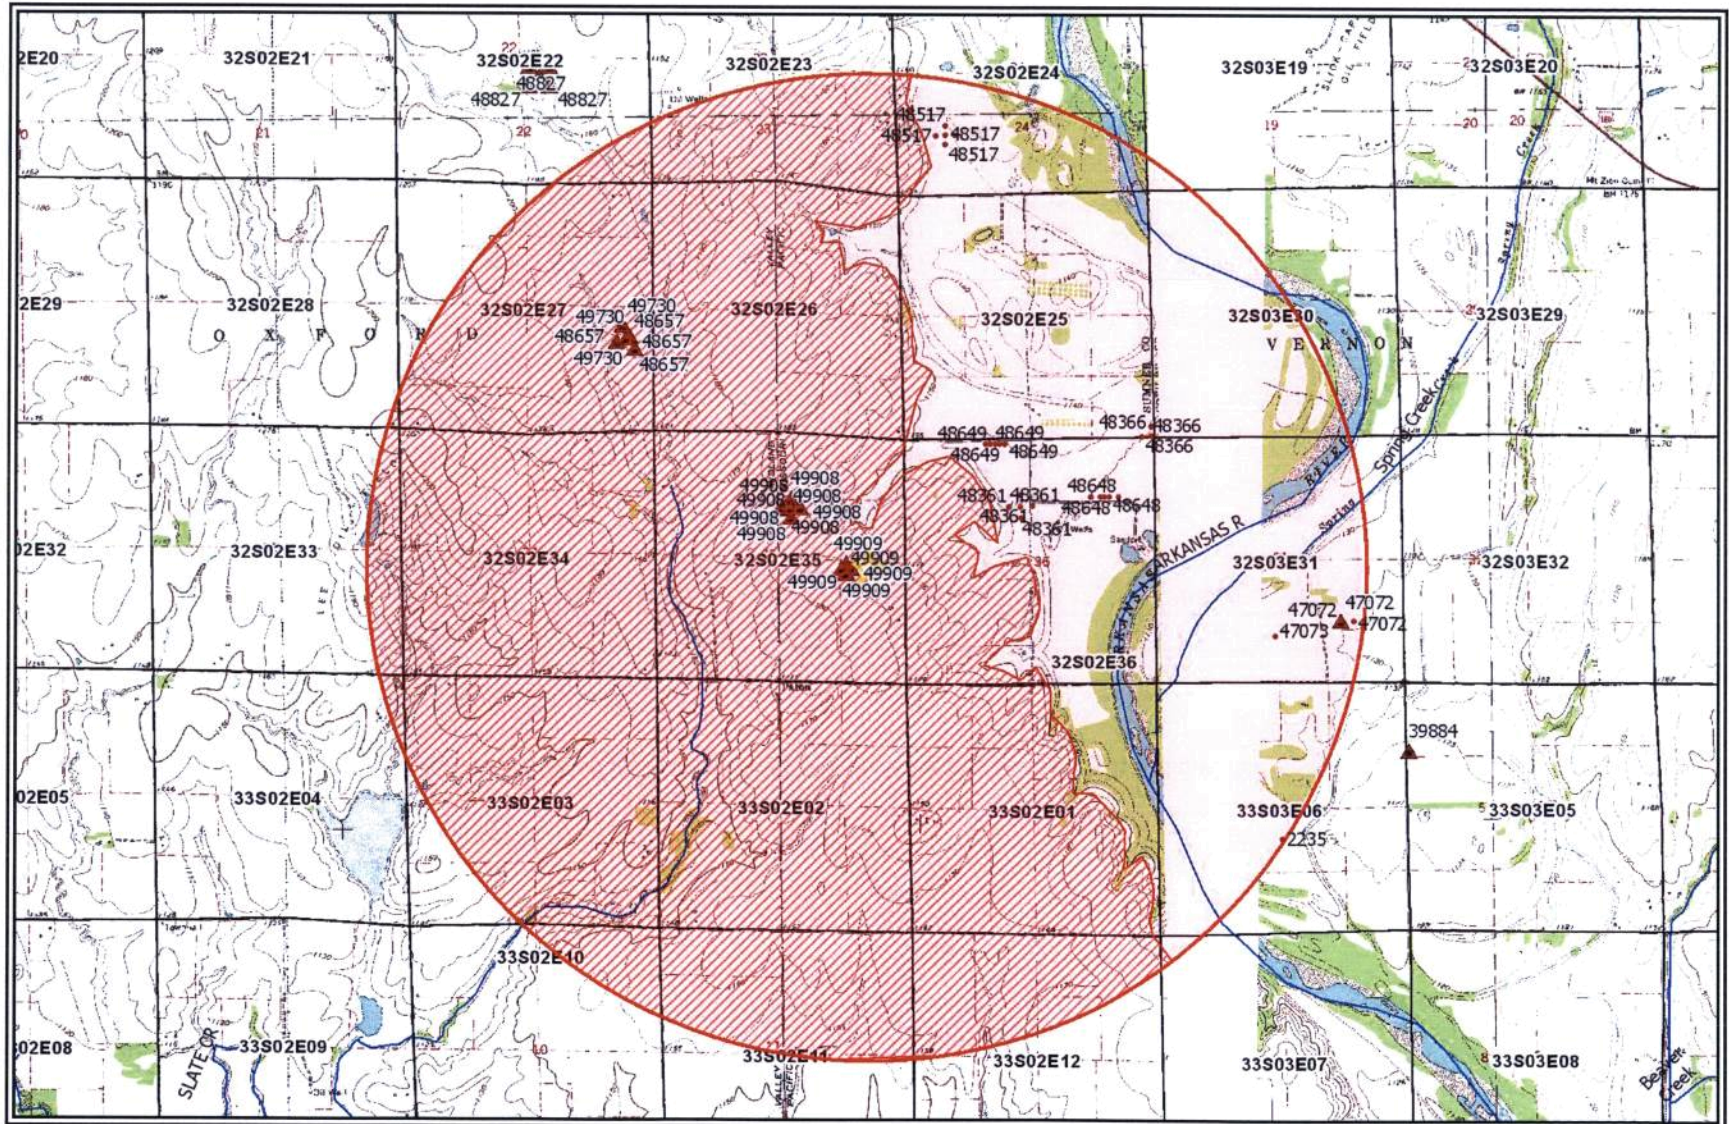

There are 4 water rights and 15 points of diversion within the circle.

Subject: RE: Change Application - File No. 49909
Attachments: 49909.Change App Map.pdf

Derek,

I have tried calling your phone but I could not leave a message. I thought I would try email before I sent a letter through standard mail.

The Stafford Field Office has received an application to change the point of diversion for File No. 49,909. Upon review of the application, it has been found that the accompanying map for the application has not been signed.

Please review the attached map carefully and ensure that any wells within one-half mile of the proposed well location have been identified. If there are any wells not shown, please add them and then sign the map.

Please return the signed map to the Stafford Field Office as soon as possible. Please note that the map signature does not require a notary and only one signature is required (you can sign as the applicant).

If you have any questions, feel free to call the Stafford Field Office at 620-234-5311.

Thank you,
Tyler
