RE: Water Right, File No(s). 18,082

Dear Mr. Greene,

You will find enclosed with this letter an application for approval to change the place of use under Water Right, File No(s). 18,082. The acres involved are located in Section 32 - Township 23 South - Range 17 West in Pawnee County. This application was completed based on a recent office visit with Cameron Conant, where the plan is to modify the authorized place of use to authorize the entire pivot system that is currently in place.

Please review the application and associated maps carefully and make any corrections as needed. Once you are satisfied everything is correct, an authorized representative of all owners of record (and spouse, if applicable) must sign the application and have their signature notarized. In addition, all domestic wells within one-half mile of the authorized well location need to be noted on the map. If there are any wells not shown, please add them and then sign the map.

The fee for filing the enclosed application is \$200. Please return the signed application to the Stafford Field Office and include a check made payable to the Kansas Department of Agriculture for the total amount. If I can be of any further assistance, or if you have any questions regarding the enclosed application, please give me a call at (620)234-5311.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tyler Saryerwinnie".

MEMORANDUM

TO: File

DATE: 6/12/2019

FROM: Tyler Saryerwinnie

RE: File No. 18082

This is a memorandum regarding surrounding well owner notification on irrigation field office PU changes and pertains to decisions made during the Water Commissioner meeting which took place on 11/16/2016 with directive from Lane Letourneau Program Manager.

This is applicable to field office changes to increase the place of use by 10 acres or 10% (whichever is less) or a change in place of use to create a complete overlap in which no new acres are being irrigated.

During that meeting it was determined that no surrounding well owner notification will be sent under this type of Place of Use change. All well rates and quantities will remain unchanged and the referenced change will not cause impairment or impact surrounding well owners.

The change in place of use filed on 6/10/2019 for the above referenced file meets this criteria and surrounding well owners will not be notified.
