Re: Water Right, File No(s). 30698

Dear Water Right Owner:

Enclosed is the order executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the application for change under the above referenced file number(s).

Your attention is directed to the enclosures and to the terms, conditions and limitations specified in this approval for change. An acceptable water flow meter must be installed on your well before any water is applied as authorized under this change approval. A copy of the approved list of Certified Water Flowmeters as well as the regulations regarding the installation of flowmeters, measurement tubes and check valves can be found at <http://agriculture.ks.gov/divisions-programs/dwr/water-appropriation/water-flowmeters>. If you do not have access to the internet, please contact this office and we will send you a paper copy of the referenced information.

Since this order modifies the original document referred to above, it should be recorded with the Register of Deeds as other instruments affecting real estate.

This order requires that a notice and completion of works form be submitted once the diversion works are completed, including a properly installed flowmeter. This form is available at the referenced website.

Any abandoned well must be plugged in accordance with the requirements of Article 30 of the Rules and Regulations as adopted by the Kansas Department of Health and Environment.

Should you have any questions, please feel free to contact this office. If you wish to refer to a specific file, please reference it when you contact us.

Sincerely,

Nearby Well Owner Comments

On April 1, 2019, Rick Stimatze, on behalf of Edwards Land Investment of Kansas Inc, filed an application for approval to change the authorized point of diversion for File No. 30698.

On April 3, 2019 two (2) surrounding well owners were notified of the proposed point of diversion change application.

On April 8, 2019, Matt Meier (SFFO) received a phone call from Bill Britton regarding a nearby notification letter that he had received. Mr. Britton was concerned about the mailing address that was listed on the letter and he wanted to update our records. It appears that the application map listed the actual address and not the mailing address for Mr. Britton. Mr. Britton did not state any objection or concern regarding the proposed point of diversion change. Mr. Britton stated that he would call back in to the Stafford Field Office to discuss in further detail but no call has been received as of the date of this memorandum. Although the letter may have been addressed incorrectly, it appears that the actual landowner is well aware that the change is occurring and this can be considered an acceptable form of notification.

No other nearby owners called the Field Office or submitted comments in writing.

This application can be moved on to GMD #5 for further review and recommendation

Dear Mr. Feril,

We are enclosing a copy of the application, as referenced above, for your review and recommendation. At this time the application appears to be in proper form. Notification letters were sent to all nearby well owners shown on the application map. These owners were given a 15 day comment period; one response was received.

This office will delay any further action on this file for a period of 15 business days from the date of this letter to allow you time to submit your recommendations concerning the application. Please submit your recommendation within the allotted time, or any authorized extension of time thereof.

RE: Water Right File No. 30698  
Change in the Point of Diversion

Dear Mr. Saryerwinnie,

Big Bend Groundwater Management District #5 has reviewed the above referenced application to change the point of diversion. It is the understanding of the District that this change is replace an existing well that is failing. Based upon information received in the District office, the application appears to be consistent with 5-25-20(b) and is therefore recommended for approval.

The application to change is subject to the District's well equipment regulation K.A.R. 5-25-5 for a required flow meter.

Please feel free to give me a call if you have any questions.

Sincerely,

Orrin Feril  
Manager
