MEMORANDUM

TO: Files

DATE: January 23, 2019

FROM: Brandon Milner

RE: Application, File No. 50,119, 50,120, 50121

Perry Beach filed the above referenced application to appropriate groundwater for irrigation use and requested 60 days to locate the point of diversion. The application was returned to the applicant on September 10th, 2018 providing 60 days to locate the point of diversion, provide additional information, and return the application by a November 10th, 2018 deadline. The applicant was provided extension one of time with the latest being until January 10, 2019. A reminder letter of the upcoming deadline was sent to the applicant on December 11, 2018. The application was not returned prior to this deadline, nor did the applicant request an extension of time.

Based on the available information, that the application was not returned within the time allowed, it is

recommended that the file be dismissed for failure to return, as provided by K.S.A. 82a-710.

Re: Application, File Nos. 50,119, 50,120 & 50,121

Dear Mr. Beachy

The referenced applications were returned to you on September 10, 2018. Enclosed are the Findings and Order by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, dismissing Applications, File Nos. 50,119, 50,120 and 50,121 for failure to return the original application and provide the requested information, prior to the deadline of January 10, 2019.

This is a final agency action. If you choose to appeal this decision or any finding or part thereof, you must do so by filing a petition for review in the manner set forth in the enclosed orders.

If you have any questions, please contact our office. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Kristen Baum

KANSAS DEPARTMENT OF AGRICULTURE

Mike Beam, Interim Secretary of Agriculture

DIVISION OF WATER RESOURCES David W. Barfield, Chief Engineer

FINDINGS AND ORDER IN THE MATTER OF THE DISMISSAL OF APPLICATION **FILE NO. 50.119**

After due consideration, the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture (hereinafter referred to as the "Chief Engineer"), makes the following findings and order:

FINDINGS

- That on August 29, 2018, the Chief Engineer received an application from Perry Beachy for a 1. permit to appropriate ground water for beneficial use, assigned File No. 50,119, proposing the appropriation of 145.6 acre-feet of water, at a maximum requested diversion rate of 800 gallon per minute, for irrigation use. The applicant requested 60 days to locate the specific point of diversion within the Southeast Quarter of Section 20, Township 24 South, Range 6 West, Reno County, Kansas.
- 2. That on September 10, 2018, the original application was returned to the applicant, with a cover letter requesting that additional information be submitted in order to complete the application. The applicant was provided a deadline until November 10, 2018, the time in which to provide the requested information and return the application. The applicant was informed that the application would be dismissed if it was not returned by the November 10, 2018 deadline, or within any authorized extension of time.
- 3. That the applicant requested and was provided an extension of time with the latest deadline being January 10, 2019. A reminder letter was sent to the applicant on December 11, 2018, once again stating the January 10, 2019 date that the original application was required to be returned.
- 4. That the original application was not returned by the January 10, 2019 deadline, nor did the applicant request any extension of time in which to do so.
- 5. That the application should be dismissed and its priority forfeited as provided by K.S.A. 82a-710.

ORDER

NOW, THEREFORE, It is the decision and order of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, that effective the date of this order, in accordance with the law, Application, File No. 50,119, is herewith dismissed and the priority assigned to it is considered to be forfeited.

It is so ordered this I He day of February

August 23, 2020

, 2019, in Manhattan, Riley County, Kansas.

Pending Application, File Nos. 50,119, 50,120 & 50,121

Dear Mr. Beachy

The Division of Water Resources returned the above referenced applications to you for additional information on September 10, 2018 and the current deadline for your response is January 10, 2018. The purpose of this letter is to <u>provide a reminder</u> that in order for you to retain your priority of filing, the original application and requested information needs to be returned to this office on or before <u>January 10, 2018</u> or within any authorized extension of time thereof. According to law, default in refiling of the completed application and attachments within the time allowed shall constitute forfeiture of priority date and dismissal of the application.

If an extension of time is necessary to supply the requested information, please request the extension of time in writing before <u>January 10, 2018</u>. Provide information as to why the additional time is needed and how much additional time is requested. Please note that since there are instances when the Chief Engineer may deny your request for an extension of time, there is no guarantee that future requests for more time will be granted.

If you have any questions, please contact me at (785) 564-6645 or by email at Brent.Turney@ks.gov. If you wish to discuss a specific file, please have the file number ready so that I may help you more efficiently.

Sincerely,

Brent A. Turney, P.G.

Re:

Pending Application,

File Nos. 50,119; 50,120; 50,121

Dear Mr Beachy:

In response to your written request by fax received in this office on November 5, 2018, the Chief Engineer is allowing an <u>extension of time</u> for sixty (60) days, in which to supply further information concerning the above referenced file. The original application was returned to you on September 10, 2018, and with this extension of time, the revised deadline will be <u>January 10, 2019</u>.

Extension requests are evaluated on a case by case basis. Since it appears that no pending application would be adversely affected by granting this extension, you are being allowed an additional 60 days. If you determine that additional time will be needed, you may submit another request for an extension prior to the deadline given above. Please note that since there are instances when the Chief Engineer may deny your request for an extension of time, there is no guarantee that future requests for more time will be granted.

In order to retain its priority of filing, the original application and attachments must be returned to this office with the requested information on or before <u>January 10, 2019</u>, or within any authorized extension of time thereof. According to law, default in refiling of the completed application and attachments within the time allowed shall constitute forfeiture of priority date and dismissal of the application.

If you have any questions, please contact me at (785) 564-6631 or by email at Brandon.M.Milner@ks.gov. If you wish to discuss a specific file, please have the file number ready so that I may help you more efficiently.

Sincerely,

Brandon Milner

Re: Pending Applications,

File Nos. 50,119; 50,120 and 50,121

Dear Sir or Madam:

After a preliminary review of your above referenced applications for permits to appropriate water received in this office on August 29, 2018 and July 5, 2018, they are being <u>returned to you for additional information</u>. In your original applications, you requested a 60-day period of time in which to determine the precise locations for your points of diversion within specified quarter section tracts of land described as:

- the Southeast Quarter (SE½) of Section 20, in Township 24 South, Range 6 West, Reno County, Kansas
- the Northeast Quarter (NE¼) of Section 29, in Township 24 South, Range 6 West, Reno County, Kansas
- the Northwest Quarter (NW1/4) of Section 28, in Township 24 South, Range 6 West, Reno County, Kansas

Due to our delay in returning the original application to you, the 60-day period of time will start as of the date of this letter.

Once you've determined the precise locations for your points of diversion, complete the rest of Paragraph No. 5 for each of your applications by providing the description for the 10-acre tract location of the point of diversion as well as the feet distances North and West of the Southeast corner of the Section. The locations of the points of diversion must also be plotted on the topographical map(s) included. In the case of a battery of wells, please provide the description of the location of the proposed geographic center of the well battery, as well as **the location for each of the individual wells comprising the battery of wells**.

The locations of all other water wells of every kind within one-half mile (½) of the points of diversion must be plotted on the topographical map(s) as well. Each well should be identified as to its use (e.g. domestic, irrigation, industrial, etc.) and must **include the name and mailing address of the well owner**. A signed statement should be included on the map(s) declaring that all wells within one-half mile (½) of the points of diversion have been plotted, or it should declare that none exist. Please provide this information once you have established your points of diversion.

Paragraph No. 13 of the application requests well information so the source of supply of the proposed wells may be determined. Pursuant to K.A.R. 5-3-4d, this office requires a stratigraphic log of wells or test holes within 300 feet of the proposed points of diversion. Please supply the indicated information and test hole logs or driller's logs with the returned applications.

SCANNED

In order to retain their priority of filing, the original applications and attachments must be returned to this office with the requested information on or before **November 10, 2018**, or within any authorized extension of time thereof. According to law, default in refiling of the completed applications and attachments within the time allowed shall constitute forfeiture of priority date and dismissal of the applications.

If you have any questions, please contact me at (785) 564-6631 or by email at alexander.whitesell@ks.gov. If you wish to discuss a specific file, please have the file number ready so that I may help you more efficiently.

Sincerely,

Alex Whitesell

RE: Application, File No. 50119

Dear Sir or Madam:

The Division of Water Resources (Division) has received your application for a permit to appropriate water for beneficial use. Your application has been assigned the file number referenced above. Please be aware that the Division may have a large number of pending applications on hand at times and makes every attempt to process them in the order in which they are received. You will be contacted if additional information is required.

Please note, this letter only acknowledges receipt of your application and does not guarantee approval. In accordance with the provisions of the Kansas Water Appropriation Act, the use of water as proposed prior to approval of the application is unlawful.

Additional information about the process may be found on our website at <u>agriculture.ks.gov/divisions-programs/dwr</u>. If you have any other questions, please contact our office at 785-564-6640 or your local Stafford Field Office at 620-234-5311. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

Kristen A. Baum

New Application Unit Supervisor Division of Water Resources
