6. The 1:24 Kar	app	
1:24 Kar		plication must include either a tenegraphic man or detailed plat. A LLS. Geological Survey Tenegraphic Man. cool
sho	nsas tanc ould	10, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence 66047-3726 (www.usgs.gov). The map should show the location of the presently authorized point(s) of diversion ses North and West of the Southeast corner of the section must be shown. The presently authorized place of us also be shown. Identify the center of the section, the section lines and the section corners and show the appropriat township, and range numbers on the map. In addition the following information must also be shown on the map.
a.	If a	change in the location of the point(s) of diversion is proposed, show:
	1)	The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
	2)	If the source of supply is groundwater, please show the location of existing water wells of any kind, includin domestic wells, within $\frac{1}{2}$ mile of the proposed well or wells. Identify each well as to its use and furnish name an mailing address of the property owner or owners. If there are no wells within $\frac{1}{2}$ mile, please indicate so on the map
	3)	If the source of supply is surface water, the names and mailing addresses of all landowner(s) $\frac{1}{2}$ mile downstream and $\frac{1}{2}$ mile upstream from your property lines must be shown.
b.		change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please b tain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.
loca	al so I log	documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same burce of supply as to which the water right relates. This information may include statements, plats, geology reports is, test hole logs, and other information as necessary information to show the above. Additional comments may be elow.
ider	ntify uest	roposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, pleas the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the should be granted. Attach documentation showing that granting the request will not impair existing water rights an prejudicially and unreasonably affect the public interest.
No	waiv	vers are anticipated

File No.	23867	
I IIC INO.	23007	

Any use of water that is not as authorized by the water right or permit to authorize water <u>before</u> the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as authorized to make this application on their behalf, and declare furthe complete. By filing this application I authorize the chief engineer to per as specified in sections 14 and 15 of this application.	r that the statements contained herein are true, correct, and manently reduce the quantity of water and/or rate of diversion

Change Applications for Ward Feed Yard North--Cover Letter Email RECEIVED Subject:

Bronson,

KS DEPT OF AGRICULTURE Following this initial 'cover letter' email, you will receive three separate emails with attachments for the change applications we have been discussing for the water rights associated with Ward Feed Yard North. Below is a list of the file numbers and what the proposed change applications seek to accomplish.

- File No. 14407: The application for this file is a reduction request to remove the stock pens in the Northeast Quarter from the authorized place of use. There will not be an impact to the authorized rate or quantity for this file. The intent is to remove any partial overlap with the stockwater permits that are proposed to cover the stock pens. There is no fee for this application.
- 77 . File No. 20713: This change application proposes to convert this water right into a dual use permit, allowing water use for irrigation or stockwater use at the feed yard. This involves a change in place of use and use made of water with a fee of \$500.
 - File Nos. 16977, 34633, 34728, 34729, 34730, 34731, 34732 & 34733: The change applications for these files propose to modify the authorized place of use to include the stock pens located in the Northeast Quarter of Section 9-22-16W. Currently, only the feed yard in Section 10 is authorized by these permits. The fee is \$200 per application for a total of \$1,600.
 - File No. 24211: This change application proposes to convert most of the stockwater quantity authorized under this water right back to irrigation use. A small amount of water is being left as stockwater use at the feed yard. The change also proposes to modify the irrigation place of use to add a center pivot system in the Northeast Quarter of Section 11-22-16W. This application involves a change in place of use and use made of water with a fee of \$500.
 - File Nos. 23867, 24210, 24212 & 26686: The change applications for these files propose to modify the irrigation place of use to add a center pivot system in the Northeast Quarter of Section 11-22-16W in conjunction with the changes proposed under File No. 24211. The fee is \$200 per application for a total of \$800.

Each of these application should be carefully reviewed and any necessary corrections made. A notarized signature from an authorized representative of the landowner(s) is needed on each application. In addition, the maps will need reviewed to ensure that all known wells within one-half mile of the authorized point(s) of diversion have been shown. If any wells need added to a map, the landowner and mailing address should also be provided. The map showing the nearby well locations will need to be signed.

The total fee for the noted applications is \$3,400. Please include a check made payable to the Kansas Department of Agriculture with the signed applications when they are submitted to Manhattan for processing. If I can be of any further assistance, or if you have any questions regarding the applications, please let me know.

RE:

File No(s). 23867

Dear Sir or Madam:

The Division of Water Resources (Division) has received your application(s) to change the place of use, point of diversion or use made of water for the file number(s) referenced above. Please be aware that the Division may have a large number of pending applications on hand at times and makes every attempt to process them in the order in which they are received. You will be contacted if additional information is required.

Please note, this letter only acknowledges receipt of your application(s) and does not guarantee approval. In accordance with the provisions of the Kansas Water Appropriation(s) Act, the use of water as proposed prior to approval of the application(s) is unlawful.

Additional information about the process may be found on our website at <u>agriculture.ks.gov/divisions-programs/dwr</u>. If you have any other questions, please contact our office at 785-564-6640 or your local Stafford Field Office at 620-234-5311. If you call, please reference the file number so we can help you more efficiently.
