**MEMORANDUM**

**TO:** File

**DATE:** December 3, 2020

**FROM:** Jessica Engelbrecht

**RE:** Application, File No. 50,335

Brian Eck has filed the referenced application on behalf of Tamela D Eck Irrevocable Trust, to appropriate groundwater for irrigation use, requesting one (1) well, a quantity of 156 acre-feet, and a diversion rate of 800 gallons per minute. The proposed well is to be located in the Southeast Quarter of the Northwest Quarter of the Northwest Quarter (SE $\frac{1}{4}$  NW $\frac{1}{4}$  NW $\frac{1}{4}$ ) of Section 24, more particularly described as being near a point 4,242 feet North and 4,130 feet West of the Southeast corner of said section, in Township 25 South, Range 3 West, Sedgwick County, within the Arkansas River drainage basin. The proposed point of diversion is located within the boundaries of Equus Beds Groundwater Management District No. 2. There are no other water rights overlapping the proposed point of diversion or place of use. The proposed place of use is owned by the Tamela D Eck Irrevocable Trust. The applicant has signed the application form stating that they have legal access to the point of diversion.

The applicant identified 3 possible domestic wells within one-half mile of the proposed well and no non-domestic wells. Nearby well notification letters were sent out on July 22, 2020. One unnamed nearby well owner called with concerns. No other communication was received. According to the WRIS database, the nearest non-domestic point of diversion (Water Right, File No. 47,579) is located over 3,000 feet away. Based on the site map the nearest domestic well is approximately 1,500 feet away. The proposed point of diversion meets minimum well spacing to all existing wells. Per the requirements in K.A.R. 5-22-2 for wells located within Equus Beds Groundwater Management District No. 2, the minimum well spacing should be 1,320 feet to all other non-domestic wells and 660 feet to domestic wells.

A driller's test log shows sandy top soil 0 to 3 feet, brown clay from 3 to 5 feet, fine sand from 5 to 12 feet, medium to coarse sand/some gravel from 12 to 25 feet, tan clay from 25 to 30 feet, fine/medium sand from 30 to 32 feet, medium to coarse sand from 32 to ff feet, and tan clay from 44 to 45 feet. A completed well depth or static water level was not provided. **The source appears to be Arkansas River alluvium.**

The requested quantity of water, 156 acre-feet, is to irrigate the proposed 120 acres identified in the application. This comes out to 1.3 acre-feet per acre which is the maximum allowable of 1.3 acre-feet per acre for Sedgwick County, Kansas.

A copy of the application was submitted to Equus Beds Groundwater Management District No. 2 on August 5, 2020. GMD #2 recommended approval of the application in a letter, received via email, on November 24, 2020. In the letter they said the application complies with K.A.R. 5-22-1 through 5-22-17 and recommended approval of the application.

In accordance with K.S.A. 82a-706c, the Chief Engineer retains full authority to require any water user to install meters, gages, or other measuring devices, which devices he or she or his or her agents may read at any time. Water flowmeter requirements are further described in K.A.R. 5-1-4 through K.A.R. 5-1-12. If any chemical or foreign substance is injected into the water pumped under this permit, a check valve will also need to be installed. A water level measurement tube is required because this is a proposed new well exceeding 100 gpm.

Jeff Lanterman, Water Commissioner, Stafford Field Office, recommended approval of the referenced application on December 14, 2020. Based on the above discussion, well spacing and safe yield criteria are met, and approval of the application will not impair senior water rights nor prejudicially or unreasonably affect the public interest, it is recommended that the referenced application be approved.

Re: Appropriation Application No. 50335 – Tamela D. Eck Irrev. Trust

Dear Ms. Engelbrecht:

The Equus Beds Groundwater Management District No. 2 reviewed the referenced new application on November 24, 2020, using the District's Revised Management Program (effective May 1, 1995), and Rules and Regulations K.A.R. 5-22-1 through 5-22-17.

The new application complies with the Revised Aquifer Management program approved by the Chief Engineer and with the District's Rules and Regulations K.A.R. 5-22-1 through 5-22-17. Therefore, the new application is recommended for approval by the Equus Beds Groundwater Management District No. 2.

A District decision may be appealed to the District Board of Directors by submitting a written petition to the District office within 30 days from date of this notification, pursuant to K.A.R. 5-22-12.

Sincerely,  
EQUUS BEDS GROUNDWATER  
MANAGEMENT DISTRICT NO. 2

Tim Boese  
Manager

## EQUUS BEDS GROUNDWATER MANAGEMENT DISTRICT NO. 2 FINAL APPLICATION REVIEW CHECKLIST

1) Application No. 50335 Date filed: 1/16/20  
 2) Applicant: Tamela D. Eck Irrev Trust County: Sedgwick  
 3) Proposed maximum quantity: 156 acre-feet/year Rate: 800 GPM  
 4) Proposed Use: Irrigation  
 5) P/D location: SE-NW-NW 24-25S-3W Geo Center: North 4242 ft, West 4130 ft  
 6) Number and type of points of diversion listed on the application 1 Well

7) Meter required K.A.R. 5-22-4a or K.A.R. 5-22-8?  Yes  No, Why \_\_\_\_\_

8) Meets Safe Yield K.A.R. 5-22-7?  Yes  No  N/A

(a) Total allowable appropriations: 4021.00 af/yr  
 (b) Total existing appropriations: 2935.2 af/yr  
 (c) Total small user exemptions: 0.00 af/yr  
 (d) Total non-consumptive use: 0.00 af/yr  
 (e) Total consumptive use: 2935.20 af/yr  
 (Total existing appropriations) – (Total non-consumptive use)  
 (f) exempt from regulation?  Yes  No,  
 Cite exemption: \_\_\_\_\_

9) Meets Well Spacing K.A.R. 5-22-2?  Yes  No  N/A

(a) POD in enhanced well spacing area?  Yes  No  
 (b) Domestic well spacing interval: >660 ft  
 (c) Non-Domestic well spacing interval: >1320 ft

10) Meets Max Reasonable Quantity K.A.R. 5-22-14?  Yes  No  N/A

(a) Irrigation max quantity: 1.3 acre-feet / acre  
 application paragraph 3 value (acre-feet) / proposed acres = Q  
 (b) Stockwater max quantity: \_\_\_\_\_ GPD \_\_\_\_\_ unit  
 (c) Industry max quantity: \_\_\_\_\_ Acre  
 Industry standard: \_\_\_\_\_  
 (d) Municipal max quantity: \_\_\_\_\_ GCD  
 Lesser of either 200 GCD or  
 $1.10 * (X - Y) * 365 d * (z + t)$   
 X - Average of last three years usage in Gallons per Capita per Day (GCD)  
 Y - water usage for industries that use over 200,000 gal/yr (GCD)  
 Z - Projected population in 20 years  
 T - Reasonable projected water use for industries that use over 200,000 gallons per year (GCD)  
 (e) Pond max quantity is \_\_\_\_\_  
 (Net evap + seepage)/12 x pond area + any initial fill  
 (f) Groundwater pit max Q: \_\_\_\_\_  
 Net evap \* pit area/12

11) Reasonable rate for intended use?  Yes  No  N/A

12) Depth to water: 7.05 ft bls at observation well: EB244A

13) Date reviewed: November 24, 2020

14) Reviewed by: T. Boese Title: Manager

15) District recommendation:  Approve  Deny  Other, see comment

### 16) Comments and Calculations:

Review completed for a new application submitted by Tamela D. Eck Irrev. Trust for irrigation use in Sedgwick County. Nearby well owner notifications sent by DWR. One unknown nearby well owner called DWR with concerns and the caller advised he/she would submit the concerns in writing to DWR, but never did. Nearby water-level data indicates groundwater levels in the area are stable.

The proposed well is located approximately 1/2 mile south of the Arkansas River and is an area of increased salinity in the groundwater. The test well log submitted with the application indicates the irrigation well will be drilled to ~44 feet bls. No water quality sampled data from the test well was submitted. GMD2 monitoring well site EB244 is located about 2 miles east-southeast of the proposed well and is located about the same distance from the Arkansas River. Water quality data from EB244 indicates increased salinity with depth. EB244A is 41 feet deep and Chloride values range from 380-657 mg/L. EB244C is 120 feet deep and Chloride values range from 630-930 mg/L.

Item 10: 156 AF / 120 acres = 1.3 AF/A

Recommend Approval. Complies with K.A.R. 5-22-1 through 5-22-17

## APPROVAL OF APPLICATION and PERMIT TO PROCEED

(This Is Not a Certificate of Appropriation)

This is to certify that I have examined Application, **File No. 50,335** of the applicant

**TAMELA D ECK IRREV TRUST**  
**1651 N 215TH ST W**  
**GODDARD, KS 67052**

for a permit to appropriate water for beneficial use, together with the maps, plans and other submitted data, and that the application is hereby approved and the applicant is hereby authorized, subject to vested rights and prior appropriations, to proceed with the construction of the proposed diversion works (except those dams and stream obstructions regulated by K.S.A. 82a-301 through 305a, as amended), and to proceed with all steps necessary for the application of the water to the approved and proposed beneficial use and otherwise perfect the proposed appropriation subject to the following terms, conditions and limitations:

1. That the priority date assigned to such application is **January 16, 2020**.
2. That the water sought to be appropriated shall be used for irrigation use on land described in the application, as follows:

Sec.	Twp.	Range	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				TOTAL
			NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	
24	25S	3W					40	40	20	20									120

3. That the authorized source from which the appropriation shall be made is groundwater, to be withdrawn by means of one (1) well, which is to located in the Southeast Quarter of the Northwest Quarter of the Northwest Quarter (SE $\frac{1}{4}$  NW $\frac{1}{4}$  NW $\frac{1}{4}$ ) of Section 24, more particularly described as being near a point 4,242 feet North and 4,130 feet West of the Southeast corner of said section, in Township 25 South, Range 3 West, Sedgwick County, Kansas, located substantially as shown on the map accompanying the application.

4. That the appropriation sought shall be limited to a maximum diversion rate not in excess of **800 gallons per minute (1.78 c.f.s.)** and to a quantity not to exceed **156 acre-feet** of water for any calendar year.

5. That installation of works for diversion of water shall be completed on or before **December 31, 2022** or within any authorized extension thereof. The applicant shall notify the Chief Engineer and pay the statutorily required field inspection fee of \$400.00 when construction of the works has been completed. Failure to timely submit the notice and the fee will result in revocation of the permit. Any request for an extension of time shall be submitted prior to the expiration of the deadline and shall be accompanied by the required statutory fee of \$100.00.

6. That the proposed appropriation shall be perfected by the actual application of water to the proposed beneficial use on or before **December 31, 2026** or any authorized extension thereof. Any request for an extension of time shall be submitted prior to the expiration of the deadline and shall be accompanied by the required statutory fee of \$100.00.

7. That the applicant shall not be deemed to have acquired a water appropriation for a quantity in excess of the amount approved herein nor in excess of the amount found by the Chief Engineer to have been actually used for the approved purpose during one calendar year subsequent to approval of the application and within the time specified for perfection or any authorized extension thereof.

8. That the use of water herein authorized shall not be made so as to impair any use under existing water rights nor prejudicially and unreasonably affect the public interest.

9. That the right of the appropriator shall relate to a specific quantity of water and such right must allow for a reasonable raising or lowering of the static water level and for the reasonable increase or decrease of the streamflow at the appropriator's point of diversion.

10. That this permit does not constitute authority under K.S.A. 82a-301 through 305a to construct any dam or other obstruction; nor does it grant any right-of-way, or authorize entry upon or injury to, public or private property.

11. That all diversion works constructed under the authority of this permit into which any type of chemical or other foreign substance will be injected into the water pumped from the diversion works shall be equipped with an in-line, automatic quick-closing, check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

12. That an acceptable water flow meter shall be installed and maintained on the diversion works authorized by this permit in accordance with Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. This water flow meter shall be used to provide an accurate quantity of water diverted as required for the annual water use report (including the meter reading at the beginning and end of the report year).

13. That all wells with a diversion rate of 100 gallons per minute or more drilled under the authority of this permit shall have a tube or other device installed in a manner acceptable to, and in accordance with specifications adopted by, the Chief Engineer. This tube or device shall be suitable for making water level measurements and shall be maintained in a condition satisfactory to the Chief Engineer.

14. That the applicant shall maintain accurate and complete records from which the quantity of water diverted during each calendar year may be readily determined and the applicant shall file an annual water use report with the Chief Engineer by March 1 following the end of each calendar year. Failure to file the annual water use report by the due date shall cause the applicant to be subject to a civil penalty.

15. That no water user shall engage in nor allow the waste of any water diverted under the authority of this permit.

16. That failure without cause to comply with provisions of the permit and its terms, conditions and limitations will result in the forfeiture of the priority date, revocation of the permit and dismissal of the application.

17. That the right to appropriate water under authority of this permit is subject to any minimum desirable streamflow requirements identified and established pursuant to K.S.A. 82a-703c for the source of supply to which this water right applies.

RE: Appropriation of Water, File No. 50,335

Dear Applicant:

Enclosed is a permit authorizing you to proceed with construction of the proposed diversion works and to appropriate water for beneficial use as set forth in the permit. Your attention is directed to the enclosures and to the terms, conditions, limitations, and requirements specified in this permit.

Notice must be filed on the enclosed form once the diversion works have been completed. Failure to complete the diversion works within the time allowed, or within any authorized extension of time thereof, will result in dismissal of this permit. If you need an extension of time, you must request it before the deadline for completion set forth in the permit. Any request for an extension of time must be accompanied by the statutorily required fee, which is currently \$100.00.

An annual water use report must be filed with the Chief Engineer by March 1, following the end of each calendar year. If a complete annual water use report is not received by the deadline, then a fine may be assessed and all water use under such permit or right may be suspended. Reports submitted in paper form will be assessed a \$20 per file number paper filing fee. In order to avoid this filing fee, you may submit your report online at [www.kswaterusereport.org](http://www.kswaterusereport.org).

The approval of your application constitutes a permit to appropriate water. It does not give authority to construct any dam or other stream obstruction regulated by K.S.A. 82a-301 through 305a. It does not give authority to access any right-of-way or authorize trespassing upon or injury to public or private property. It may also be necessary for you to comply with other local, state or federal requirements.

Enclosed is an informational sheet that sets forth the procedure to obtain a Certificate of Appropriation which will establish the extent of your perfected water right. Additional information and applicable forms may be found on our website at [agriculture.ks.gov/divisions-programs/dwr](http://agriculture.ks.gov/divisions-programs/dwr). If you have any questions or need assistance with any of these requirements, please contact our office at 785-564-6640 or your local Stafford Field Office at 620-234-5311. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

A handwritten signature in cursive script that reads "Kristen A. Baum".

**RIGHT TO A HEARING AND TO ADMINISTRATIVE REVIEW**

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may:

- 1) request an evidentiary hearing before the Chief Engineer, or
- 2) request administrative review by the Secretary of Agriculture.

Failure to request an evidentiary hearing before the Chief Engineer does not preclude your right to administrative review by the Secretary.

To obtain an evidentiary hearing before the Chief Engineer, a written request for hearing must be filed within 15 days after service of this Order as provided in K.S.A. 77-531 (**i.e., within a total of 18 days after this Order was mailed to you**), with: Kansas Department of Agriculture, Attn: Legal Section, 1320 Research Park Drive, Manhattan, Kansas 66502, FAX (785) 564-6777.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for hearing may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. The petition must be filed within 30 days after service of this Order as provided in K.S.A. 77-531 (**i.e., within a total of 33 days after this Order was mailed to you**), and be filed with: Secretary of Agriculture, Attn: Legal Division, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, FAX (785) 564-6777.

If neither a request for an evidentiary hearing nor a petition for administrative review is filed as set forth above, then this Order shall be effective and become a final agency action as defined in K.S.A. 77-607(b). Failure to timely request either an evidentiary hearing or administrative review may preclude further judicial review under the Kansas Judicial Review Act.

**CERTIFICATE OF SERVICE**

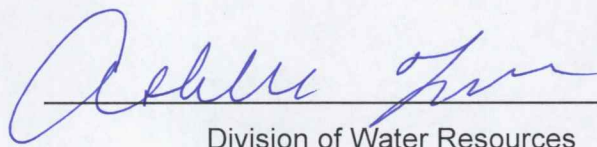

On this 1 day of April, 2021, I hereby certify that the foregoing Approval of Application and Permit to Proceed, File No. 50,335, dated 29 March, 2021, was mailed postage prepaid, first class, US mail to the following:

TAMELA D ECK IRREV TRUST  
1651 N 215TH ST W  
GODDARD, KS 67052

With photocopies to:
