		3-1 (YES / NO) Use REC	Source G/S County Receipt Date \\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\\	CM By BMM Date 10/25/2

5.	. The location of the proposed wells, pump sites or other works for diversion of water is:									
	Not	e: For the application to be accepted, the point of diversion location must be described to at least a 10 acre tract, unless you specifically request a 60 day period of time in which to locate the site within a specifically described, minimal legal quarter section of land.								
	(A)	(A) One in the $\underline{\text{NE}}$ quarter of the $\underline{\text{SE}}$ quarter of the $\underline{\text{SE}}$ quarter of Section 33, more particularly described as								
		being near a point 1054 feet North and 436 feet West of the Southeast corner of said section, in Township								
		33 South, Range 18 West , Comanche County, Kansas.								
	(B)	One in the quarter of the quarter of the quarter of Section, more particularly								
		described as being near a point feet North and feet West of the Southeast corner of said								
		section, in Township South, Range East/West (circle one), County, Kansas.								
	(C)	One in the quarter of the quarter of the quarter of Section, more particularly								
		described as being near a point feet North and feet West of the Southeast corner of said								
		section, in Township South, Range East/West (circle one), County, Kansas.								
	(D)	One in the quarter of the quarter of the quarter of Section, more particularly								
	(-)	described as being near a point feet North and feet West of the Southeast corner of said								
		section, in Township South, Range East/West (circle one), County, Kansas.								
0	A bathan pum	attery of wells is defined as two or more wells connected to a common pump by a manifold; or not more four wells in the same local source of supply within a 300 foot radius circle which are being operated by ups not to exceed a total maximum diversion rate of 800 gallons per minute and which supply water to a mon distribution system.								
6.	The	owner of the point of diversion, if other than the applicant is (please print):								
		(name, address and telephone number)								
		(name, address and telephone number)								
	land	must provide evidence of legal access to, or control of, the point of diversion from the landowner or the owner's authorized representative. Provide a copy of a recorded deed, lease, easement or other ument with this application. In lieu thereof, you may sign the following sworn statement:								
		I have legal access to, or control of, the point of diversion described in this application from the landowner or the landowner's authorized representative. I declare under penalty of perjury that the foregoing is true and correct. Executed on October 7, 2021. Applicant's Signature								
	land	applicant must provide the required information or signature irrespective of whether they are the owner. Failure to complete this portion of the application will cause it to be unacceptable for filing and the ication will be returned to the applicant.								
7.	The	proposed project for diversion of water will consist of one well								
	and	was completed (by) 12/27/2013 (number of wells, pumps or dams, etc.)								
8.	The	(Month/Day/Year - each was or will be completed) first actual application of water for the proposed beneficial use was or is estimated to be when approved RECEIVED RECEIVED

FEE SCHEDULE

1. The fee for an application for a permit to appropriate water for beneficial use, except for domestic use, shall be (see paragraph No. 2 below if requesting storage):

ACRE-FEET	FEE	
0-100	\$200.00	
101-320	\$300.00	

More than 320 \$300.00 plus \$20.00 for each additional 100

acre-feet or any part thereof.

2. The fee for an application in which storage is requested, except for domestic use, shall be:

ACDE FEET

ACRE-FEET	FEE
0-250	\$200.00
More than 250	\$200.00 plus \$20.00 for each additional 250 acre-feet of storage or any part thereof.

Note: If an application requests both direct use *and* storage, the fee charged shall be as determined under No. 1 or No. 2 above, whichever is greater, but not both fees.

3. The fee for an application for a permit to appropriate water for water power or dewatering purposes shall be \$100.00 plus \$200.00 for each 100 cubic feet per second, or part thereof, of the diversion rate requested.

ote: The applicant shall notify the Chief Engineer and pay the statutorily required field inspection fee of \$400.00 when construction of the works for diversion has been completed, except that for applications filed on or after July 1, 2009, for works constructed for sediment control use and for evaporation from a groundwater pit for industrial use shall be accompanied by a field inspection fee of \$200.00.

MAKE CHECKS PAYABLE TO THE KANSAS DEPARTMENT OF AGRICULTURE

ATTENTION

A Water Conservation Plan may be required per K.S.A. 82a-733. A statement that your application for permit to appropriate water may be subject to the minimum desirable streamflow requirements per K.S.A. 82a-703a, b, and c may also be required from you. After the Division of Water Resources has had the opportunity to review your application, you will be notified whether or not you will need to submit a Water Conservation Plan. You also may be required to install a water flow meter or water stage measuring device on your diversion works prior to diverting water. There may be other special conditions or Groundwater Management District regulations that you will need to comply with if this application is approved.

> Application Re: File No. Minimum Desirable Streamflow

Dear Sir:

I understand that a Minimum Desirable Streamflow requirement has been established by the legislature for the source of supply to which the above referenced application applies.

I understand that diversion of water pursuant to this application will be subject to regulation any time Minimum Desirable Streamflow requirements are not being met.

I also understand that if this application is approved, there could be times, as determined by the Division of Water Resources, when I would not be allowed to divert water. I realize that this could affect the economics of my decision to appropriate water.

I am aware of the above factors, and with the knowledge thereof, request that the Division of Water Resources proceed with processing and approval, if possible, of the above referenced application.

Signature of Applicant

State of Kansas County of Comanche

I hereby certify that the foregoing instrument was signed in my presence and sworn to
