Re: Water Right, File No(s). 14560

Dear Water Right Owner:

Enclosed is the order executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the application for change under the above referenced file number(s).

Your attention is directed to the enclosures and to the terms, conditions and limitations specified in this approval for change. An acceptable water flow meter must be installed on your well before any water is applied as authorized under this change approval. A copy of the approved list of Certified Water Flowmeters can be found at www.agriculture.ks.gov/divisions-programs/dwr/water-appropriation/water-flowmeters. Regulations regarding the installation of flowmeters, measurement tubes and check valves can be found at https://www.agriculture.ks.gov/divisions-programs/dwr/water-appropriation once the diversion works are completed, including a properly installed flowmeter. This form is available at www.agriculture.ks.gov/divisions-programs/dwr/water-appropriation/change-applications. If you do not have access to the internet, please contact this office and we will send you a paper copy of the referenced information.

Since this order modifies the original document referred to above, it should be recorded with the Register of Deeds as other instruments affecting real estate.

Any abandoned well must be plugged in accordance with the requirements of Article 30 of the Rules and Regulations as adopted by the Kansas Department of Health and Environment.

Should you have any questions, please feel free to contact this office. If you wish to refer to a specific file, please reference it when you contact us.

Sincerely,

Jeff Lanterman
