DWR FIELD OFFICE APPLICATION FOR APPROVAL TO CHANGE THE PLACE OF USE AND/OR THE POINT OF DIVERSION

STATE OF KANSAS

WATER METER REQUIRED

Filing Fee Must Accompany the Application, K.S.A. 82a-708b(b), as amended.
 Fee Schedule is on the third page of this application form.

Paragraph Nos. 1, 2, 3 & 5 must be completed. Complete all other applicable portions. If change in point of diversion is greater than 100 feet, or if place of use will be changed, include a topographic map or detailed plat showing the authorized and proposed point(s) of diversion and/or place of use.

14. If the proposed groundwater point of diversion is 300 or fewer feet from the existing point of diversion, complete the following:
- (a) Does the undersigned represent all owners of the currently authorized place(s) of use identified in this application?
 Yes No (If no, all owners must sign this application.)
 - (b) Will the ownership interest of any owner of the currently authorized place(s) of use identified in this application be adversely affected if this application is approved as requested?
 Yes No (If yes, all owners must sign this application.)
 - (c) If this application is not approved expeditiously, will there be substantial damage to property, public health or safety?
 Yes No (If no, all owners must sign this application.)

If the application proposes a surface water change in point of diversion, a groundwater change in point of diversion greater than 300 feet, or a change in place of use, the application must be signed by all owners of the currently authorized place of use, or their duly authorized agent (attach notarized statement authorizing representation).

I hereby verify, being first duly sworn upon my oath or affirmation and under penalty of perjury, that I am of lawful age and the owner, the spouse of the owner, or a duly authorized agent of the owner(s) to make this application on their behalf, in regards to the water right(s) to which this application pertains. I further verify that the statements contained in this application are true, correct and complete.

Re: Water Right, File No(s). 26294

Dear Water Right Owner:

Enclosed is the order executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the application for change under the above referenced file number(s).

Your attention is directed to the enclosures and to the terms, conditions and limitations specified in this approval for change. An acceptable water flow meter must be installed on your well before any water is applied as authorized under this change approval. A copy of the approved list of Certified Water Flowmeters as well as the regulations regarding the installation of flowmeters, measurement tubes and check valves can be found at <https://www.agriculture.ks.gov/divisions-programs/dwr/water-appropriation/new-applications-and-permits>. If you do not have access to the internet, please contact this office and we will send you a paper copy of the referenced information.

Since this order modifies the original document referred to above, it should be recorded with the Register of Deeds as other instruments affecting real estate.

This order requires that a notice and completion of works form be submitted once the diversion works are completed, including a properly installed flowmeter. This form is available at the referenced website.

Any abandoned well must be plugged in accordance with the requirements of Article 30 of the Rules and Regulations as adopted by the Kansas Department of Health and Environment.

Should you have any questions, please feel free to contact this office. If you wish to refer to a specific file, please reference it when you contact us.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeff Lanterman".

RE: Water Right, File No. 26294
Point of Diversion Change App

On November 7, 2022, a change application was received from Groundwater Management District No. 2. The applicant(s) was John A. Young Trust, and application assistance had been completed through the GMD2 office with Bill Barton. The application is a point of diversion change to swap quantity of water between two wells of the referenced water right.

The referenced file is in compliance with 82a-732. A review of the application finds that it complies with K.A.R. 5-5-1, *Filing an application for change*. The referenced file does not appear abandoned as per K.S.A 82a-718.

The presently authorized points of diversion are as follows: Northeast diversion is at 5,234' N and 643' W of the SE corner of Section 21 of Township 24 South, Range 3 West. We have footages from GPS that are more accurate at 5,248' N, 630' W. This P/d is authorized 102 AF of water at 650 GPM. The northwest well is at 4,582' N and 2,523' W of the same legal description. We have GPS for more accurate descriptive footages of 4,592' N and 2,519' W. This P/d is authorized 10 AF of water at 755 gpm. The following change application authorizes a transfer of 5 AF of water from the northwest well to the northeast well. The northwest well will now be authorized 5 AF of water annually and the northeast well will be authorized 107 AF of water annually upon approval of the change.

This approval would comply with K.A.R. 5-5-3, *Change in consumptive use*, since there is no proposed change in rate or overall quantity. The quantity is merely shifting between two wells of the same water right.

The application was received in the Stafford Field Office on November 7, 2022, with all correct payment and signatures present.

On November 8, 2022, nearby letters were sent out to nearby well owners. The responses were to be due in our office by November 23, 2022. There were no responses for this change from the nearby well owners.

On November 28, 2022, a GMD 2 recommendation request was sent out to Tim Boese. The recommendation was received back at the Stafford Field Office on December 2, 2022 with recommendation for approval.

A water flow meter is required. A check valve is required if any chemical or foreign substance is

injected into the water through the diversion works.

Based on the above discussion that the change is reasonable, that impairment to existing water rights is unlikely, and that no change in local source of supply will occur, it has been recommended that the application be approved.

Re: Water Right No. 26294 Change in Point of Diversion Application – John A. Young Trust

Dear Mr. Arrowood:

The Equus Beds Groundwater Management District No. 2 reviewed the referenced change in point of diversion application on December 2, 2022, using the District's Revised Management Program (effective May 1, 1995) and Rules and Regulations K.A.R. 5-22-1 through 5-22-17.

The review found that the application proposes to move 5 acre feet of quantity from the Northwest well to the Northeast well, resulting in the Northwest being authorized for 5 acre-feet per year, the Northeast well being authorized for 107 acre-feet per year, and the South well remaining at the currently authorized quantity of 152 acre-feet per year. The proposed points of diversion, as described by the application, are: One well (Northeast well) located in the Northeast quarter of the Northeast quarter of the Northeast quarter; one well (Northwest well) located in the Southwest quarter of the Northwest quarter of the Northeast quarter; and one well (South well) located in Northwest quarter of the Northeast quarter of the Southeast quarter; all in Section 21, Township 24 South, Range 3 West, Harvey County.

The District's review found that the change application complied with the District's Revised Management Program (effective May 1, 1995) and Rules and Regulations K.A.R. 5-22-1 through 5-22-17. Based upon the review, the change application is recommended for approval.

A District decision may be appealed to the District Board of Directors by submitting a written petition to the District office within 30 days from date of this notification, pursuant to K.A.R. 5-22-12.

Sincerely,

Other, see comment

17) Comments and Calculations:

Change in PD application proposes to move 5 AF from NW well to the NE well. NE well will be authorized for 107 AF (previously 102 AF) and NW well will be authorized for 5 AF (previously 10 AF), south well will remain the same at 152 AF.

Distance between authorized locations of the NW well to the NE well is approximately 1,990 feet. No new replacement well to be drilled. Moving quantity only on wells authorized by the same water right.

All 3 authorized wells comply with well spacing requirements to domestic and non-domestic wells.

No known nearby well comments received by DWR.

PD is approximately 1 mile south of southern edge of Burrton IGUCA.

Last meter inspection on 10-11-2022 By GMD2. Found the NW well meter in compliance, the NE well meter was missing security seal, and the South well meter had evidence of slight water intrusion into the meter register case, although it appeared to probably still be working. Advised Gregg Young in person of this on 11/4/2022. Gregg advised he would bring meters in for service. GMD2 staff will follow up with letter if meters not repaired soon.

Item 11) total AF = 152+5+107 = 264 AF/216 Acres = 1.22 AF/A Harvey Co. max of 1.3 AF/A

Recommend approval, complies with K.A.R. 5-22-1 through 5-22-17

RE: Point of Diversion Change Application, File No(s). 26294

Dear Mr. Boese,

We are enclosing a copy of the application, as referenced above, for your review and recommendation. At this time the application appears to be in proper form.

This office will delay any further action on this file for a period of 15 business days from the date of this letter to allow you time to submit your recommendation concerning the application. Please submit your recommendation within the allotted time, or any authorized extension of time thereof.

If you have any questions, please feel free to contact the office.

Sincerely,

Taylor Arrowood

Subject: Change in Point of Diversion Application File No. 26294
Attachments: 26294_GMD2CoverLetter.pdf; 26294_PDchangeApplication_scanned.pdf

Hello Tim,

I am attaching a cover letter and change application that proposes to change the point of diversion under the above file number. The change will swap quantity between two wells. The change will move 5 AF from Northwest well to the Northeast well. The details of the points of diversion are outlined further in the change application. The existing PDs are located at 21-24-3W in Harvey County.

Please provide a recommendation on this change. Let me know if you have any further information or have any questions regarding this change. If you need an extension of the 15 business days, as stated in the cover letter, please let me know. As of now, the deadline for the recommendation will be **December 16, 2022**.

Thank you,

RE: Water Right, File No(s). 26294

Dear Travis,

This is to advise you that Gregg Young, on behalf of John A. Young Trust, has filed an application for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, to change the point of diversion under the above referenced file number(s). You are being notified of the proposed change because it appears you have a groundwater well within one-half mile of the proposed point of diversion. As such, you may provide this office any comments or other information you may want to submit regarding the proposed change. Such comments or other information must be received in this office within 15 days of the date of this letter, or any authorized extension of time.

You can find the complete application posted by the water right file number(s) as referenced above at www.agriculture.ks.gov/divisions-programs/dwr/water-appropriation/notices. If you do not have access to the internet and would like a copy of the application, please contact the Stafford Field Office. If you have any additional questions about the application, please contact the Stafford Field Office at (620) 234-5311.

Sincerely,

Taylor M. Arrowood
