DIVISION OF WATER RESOURCES Earl D. Lewis Jr., Chief Engineer

51193

APPLICATION FOR PERMIT TO APPROPRIATE WATER FOR BENEFICIAL USE

Filing Fee Must Accompany the Application

(Please refer to Fee Schedule attached to this application form.)

To the Chief Engineer of the Division of Water Resources, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502:

1.	Name of Applicant (Please Print	nt): Daniel Kelly		
	Address: 3806 S. Mayfield	Rd.		
	City: <u>Hutchinson</u>		State KS	Zip Code <u>67501</u>
	Telephone Number: (620) <u>262-1276</u>		
2.	The source of water is:	surface water in	later	am)
	OR [groundwater in <u>Little /</u>	Arkansas River Basin	e basin)
	when water is released from	storage for use by water a late we receive your applie	ssurance district membe	ay be subject to administration rs. If your application is subject e appropriate form to complete
3.	The maximum quantity of wa	ater desired is 224 AF	_acre-feet OR	gallons per calendar year,
	to be diverted at a maximum	rate of <u>800</u> gal	lons per minute OR	cubic feet per second.
	requested quantity of water	r under that priority num diversion and maximum q	ber can <u>NOT</u> be increated uantity of water are approximated approximately of water are approximately approximatel	ate of diversion and maximum used. Please be certain your opriate and reasonable for your requirements.
4.	The water is intended to be	appropriated for (Check use	e intended):	
	(a) Artificial Recharge	(b) 🔳 Irrigation	(c) Recreational	(d) 🛛 Water Power
	(e) 🗆 Industrial	(f) 🛛 Municipal	(g) 🛛 Stockwatering	(h) 🛛 Sediment Control
	(i) 🔲 Domestic	(j) 🛛 Dewatering	(k) 🛛 Hydraulic Dredgir	ng (I) 🗆 Fire Protection
	(m) 🛛 Thermal Exchange	(n) Contamination Re	mediation	
	YOU <u>MUST</u> COMPLETE AND ATT SUBSTANTIATE YOUR REQUEST			M(S) PROVIDING INFORMATION TO REFERENCED ABOVE.
For Offic F.O2 Code _	ce Use Only: Meets K.A.R. 5-3	B- (YES) NO) Use e \$ TR #	Source_G/S County	RN ALB 3/1/
code_	re	εφ <u>_200</u> _1K#		

DWR 1-100 (Revised 05/17/2019)

Applicant requests 60 days to locate the well in S/2-NW Quarter of Section 32

File No.

5. The location of the proposed wells, pump sites or other works for diversion of water is:

Note: For the application to be accepted, the point of diversion location must be described to at least a 10 acre tract, unless you specifically request a 60 day period of time in which to locate the site within a specifically described, minimal legal quarter section of land.

- (A) One in the _____ quarter of the _____ quarter of the _____ quarter of Section 32 ___, more particularly described as being near a point _____ feet North and _____ feet West of the Southeast corner of said section, in Township ²³ South, Range ^{4W} East/West (circle one), Reno County, Kansas.
- (B) One in the _____ quarter of the _____ quarter of the _____ quarter of Section _____, more particularly described as being near a point _____ feet North and _____ feet West of the Southeast corner of said section, in Township _____ South, Range _____ East/West (circle one), _____ County, Kansas.
- (C) One in the _____ quarter of the _____ quarter of the _____ quarter of Section _____, more particularly described as being near a point _____ feet North and _____ feet West of the Southeast corner of said section, in Township _____ South, Range _____ East/West (circle one), _____ County, Kansas.
- (D) One in the _____ quarter of the _____ quarter of the _____ quarter of Section _____, more particularly described as being near a point feet North and feet West of the Southeast corner of said section, in Township _____ South, Range East/West (circle one), County, Kansas.

If the source of supply is groundwater, a separate application shall be filed for each proposed well or battery of wells, except that a single application may include up to four wells within a circle with a guarter (1/4) mile radius in the same local source of supply which do not exceed a maximum diversion rate of 20 gallons per minute per well.

A battery of wells is defined as two or more wells connected to a common pump by a manifold; or not more than four wells in the same local source of supply within a 300 foot radius circle which are being operated by pumps not to exceed a total maximum diversion rate of 800 gallons per minute and which supply water to a common distribution system.

6 The owner of the point of diversion, if other than the applicant is (please print): Daniel B. & Rachel E. Kelly, 3806 S. Mayfield Rd., Hutchinson, KS 67501, (620) 262-1276

(name, address and telephone number)

(name, address and telephone number)

You must provide evidence of legal access to, or control of, the point of diversion from the landowner or the landowner's authorized representative. Provide a copy of a recorded deed, lease, easement or other document with this application. In lieu thereof, you may sign the following sworn statement:

I have legal access to, or control of, the point of diversion described in this application from the landowner or the landowner's authorized representative. Ldeclare under penalty of perjury that the foregoing is true and correct. 1/49 23. Suy

Executed on <u>february</u> 26th, 2025.

a mar 🔒 🕺 Sa

oplicant's Signature

The applicant must provide the required information or signature irrespective of whether they are the landowner. Failure to complete this portion of the application will cause it to be unacceptable for filing and the application will be returned to the applicant.

- 7. The proposed project for diversion of water will consist of <u>one</u> well
 - (number of wells, pumps or dams, etc.) and (was)(will be) completed (by) as soon as possible (Month/Day/Year - each was or will be completed)
- The first actual application of water for the proposed beneficial use was or is estimated to be as soon as possible 8 (Mo/Day/Year)

FEB 2 9 2024

File No.

KS Dept. of Agriculture

9. Will pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion works?

Yes No If "yes", a check valve shall be required.

All chemigation safety requirements must be met including a chemigation permit and reporting requirements.

 If you are planning to impound water, please contact the Division of Water Resources for assistance, prior to submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir.

Have you also made an application for a permit for construction of this dam and reservoir with the Division of Water Resources?

- If yes, show the Water Structures permit number here NA
- If no, explain here why a Water Structures permit is not required NA
- 11. The application <u>must</u> be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plat showing the following information. On the topographic map, aerial photograph, or plat, identify the center of the section, the section lines or the section corners and show the appropriate section, township and range numbers. Also, please show the following information:
 - (a) The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North-South distance and the East-West distance from a section line or southeast corner of section.
 - (b) If the application is for groundwater, please show the location of any existing water wells of any kind within ½ mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within ½ mile, please advise us.
 - (c) If the application is for surface water, the names and addresses of the landowner(s) ½ mile downstream and ½ mile upstream from your property lines must be shown.
 - (d) The location of the proposed place of use should be shown by crosshatching on the topographic map, aerial photograph or plat.
 - (e) Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.

A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence, Kansas 66047.

12. List any application, appropriation of water, water right, or vested right file number that covers the same diversion points or any of the same place of use described in this application. Also list any other recent modifications made to existing permits or water rights in conjunction with the filing of this application.

Applicant requests 60 days to perform test drilling and submit log

File No.

Furnish the following well information if the proposed appropriation is for the use of groundwater. If the 13. well has not been completed, give information obtained from test holes, if available.

Information below is from:	□ Test holes	□ Well as	s completed	Drillers	log attached
Well location as shown in p No.	baragraph	(A)	(B)	(C)	(D)
Date Drilled	-				
Total depth of well	_				
Depth to water bearing for	mation _				
Depth to static water level		net 1 heerter			
Depth to bottom of pump ir	ntake pipe				

14. The relationship of the applicant to the proposed place where the water will be used is that of owner (owner, tenant, agent or otherwise)

15. The owner(s) of the property where the water is used, if other than the applicant, is (please print): Daniel B. & Rachel E. Kelly, 3806 S. Mayfield Rd., Hutchinson, KS 67501, (620) 262-1276 (name, address and telephone number)

(name, address and telephone number)

The undersigned states that the information set forth above is true to the best of his/her knowledge and 16. that this application is submitted in good faith.

FEE SCHEDULE

KS Dept. of Agriculture

1. The fee for an application for a permit to appropriate water for beneficial use, except for domestic use, shall be (see paragraph No. 2 below if requesting storage):

ACRE-FEET	FEE
0-100	\$200.00
101-320	\$300.00
More than 320	\$300.00 plus \$20.00 for each additional 100 acre-feet or any part thereof.

2. The fee for an application in which storage is requested, except for domestic use, shall be:

ACRE-FEET	FEE	
0-250 More than 250	\$200 \$200	00 00 plus \$20.00 for each additional 250 acre-feet of storage or any part thereof.

- Note: If an application requests both direct use *and* storage, the fee charged shall be as determined under No. 1 or No. 2 above, whichever is greater, but not both fees.
- 3. The fee for an application for a permit to appropriate water for water power or dewatering purposes shall be \$100.00 plus \$200.00 for each 100 cubic feet per second, or part thereof, of the diversion rate requested.
 - Note: The applicant shall notify the Chief Engineer and pay the statutorily required field inspection fee of \$400.00 when construction of the works for diversion has been completed, except that for applications filed on or after July 1, 2009, for works constructed for sediment control use and for evaporation from a groundwater pit for industrial use shall be accompanied by a field inspection fee of \$200.00.

MAKE CHECKS PAYABLE TO THE KANSAS DEPARTMENT OF AGRICULTURE

ATTENTION

A Water Conservation Plan may be required per K.S.A. 82a-733. A statement that your application for permit to appropriate water may be subject to the minimum desirable streamflow requirements per K.S.A. 82a-703a, b, and c may also be required from you. After the Division of Water Resources has had the opportunity to review your application, you will be notified whether or not you will need to submit a Water Conservation Plan. You also may be required to install a water flow meter or water stage measuring device on your diversion works prior to diverting water. There may be other special conditions or Groundwater Management District regulations that you will need to comply with if this application is approved.

											<u> </u>								

- 2. Please complete the following information for the description of the operation for the irrigation project. Attach supplemental sheets as needed.
 - a. Indicate the soils in the field(s) and their intake rates:

	C-11	Deve ent	Intolso	Imigation						
	Soil	Percent	Intake	Irrigation						
	Name	of field	Rate	Design						
		(%)	(in/hr)	Group						
	Punkin-Taver complex	53	0.00-0.06	1						
	Nickerson fine sandy loam	21	0.60-2.00	9						
	Darlow-Elmer complex	13	0.00-0.06	3						
	Kisiwa loam	12	0.00-0.06	11						
	Carway and Carbika soils	1	0.00-0.06	1						
	Total:	100 %								
b.	Estimate the average land slope in the field(s): <u>1</u> %									
	Estimate the maximum land slope in the field(s): 2 %									
c.	Type of irrigation system you propose	to use (check	one):							
	<u>X</u> Center pivot	Cent	er pivot - LEPA	"Big gun" sprinkler						
	Gravity system (furrows)	Grav	vity system (borders)	Sideroll sprinkler						
	Other, please describe: Center pivot w	ith cornering	system							
d.	System design features:									
u.	System design readeres.									
	i. Describe how you will control tai	lwater: Will	schedule and apply irrigation to	eliminate run-off						

ii. For sprinkler systems: Not Available

- (1) Estimate the operating pressure at the distribution system: _____ psi
- (2) What is the sprinkler package design rate? _____ gpm
- (3) What is the wetted diameter (twice the distance the sprinkler throws water) of a sprinkler on

the outer 100 feet of the system? ______ feet

- (4) Please include a copy of the sprinkler package design information.
- e. Crop(s) you intend to irrigate. Please note any planned crop rotations: Wheat, Soybeans, Corn
- f. Please describe how you will determine when to irrigate and how much water to apply (particularly important if you do not plan a full irrigation). Owner will check soil moisture and crop needs

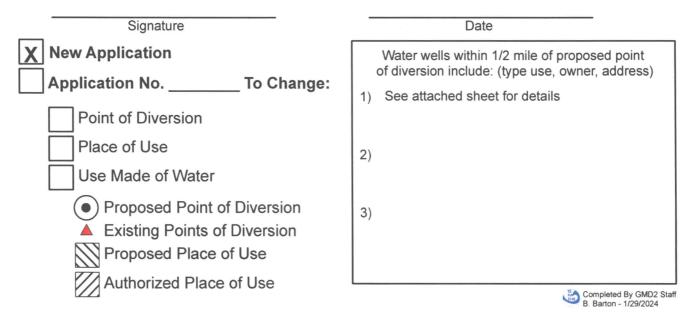

You may attach any additional information you believe will assist in informing the Division of the need for your request.

Application Map - File No.

FEB 29 2024

I declare that all water wells or diversion sites using the same source of supply and within 1/2 mile of the proposed point of diversion have been plotted on the application map.

> Application Re: File No.

> > Minimum Desirable Streamflow

I understand that a Minimum Desirable Streamflow requirement has been established by the legislature for the source of supply to which the above referenced application applies.

I understand that diversion of water pursuant to this application will be subject to regulation any time Minimum Desirable Streamflow requirements are not being met.

I also understand that if this application is approved, there could be times, as determined by the Division of Water Resources, when I would not be allowed to divert water. I realize that this could affect the economics of my decision to appropriate water.

I am aware of the above factors, and with the knowledge thereof, request that the Division of Water Resources proceed with processing and approval, if possible, of the above referenced application.

RE: Application, File No(s). 51193

Dear Sir or Madam:

The Division of Water Resources (Division) has received your application(s) for a permit to appropriate water for beneficial use. Your application(s) has been assigned the file number(s) referenced above. Please be aware that the Division may have a large number of pending applications on hand at times and makes every attempt to process them in the order in which they are received. You will be contacted if additional information is required.

Please note, this letter only acknowledges receipt of your application(s) and does not guarantee approval. In accordance with the provisions of the Kansas Water Appropriation Act, the use of water as proposed prior to approval of the application(s) is unlawful.

Additional information about the process may be found on our website at <u>agriculture.ks.gov/divisions-</u> <u>programs/dwr</u>. If you have any other questions, please contact our office at 785-564-6640 or your local Stafford Field Office at 620-234-5311. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

inhans
