**MEMORANDUM**

**TO:** Files

**DATE:** February 14, 2017

**FROM:** Leslie Ireland

**RE:** Application, File No. 49,141  
Water Right, File Nos. 7,016 & 14,304

Kent Crosson has filed a new application on August 25, 2014, proposing to appropriate surface water for irrigation use by direct diversion from a pumpsite located on Pipe Creek in the Solomon River basin. He also filed an application to change the point of diversion and place of use under File No. 7016, and the place of use under File No. 14,304, that were received on August 25, 2014.

The new application, File No. 49,141, is requesting 68 acre-feet of surface water to be diverted at 500 gallons per minute for irrigation use on 119 acres under a packman configuration pivot irrigation system to make a complete overlap in place of use with File Nos. 7,016 & 14,403. The proposed point of diversion will overlap with Water Right, File No. 7,016, which is proposing a point of diversion change. The requested pumpsite for both diversion is the Southeast Quarter of the Southeast Quarter of the Northwest Quarter (SE $\frac{1}{4}$  SE $\frac{1}{4}$  NW $\frac{1}{4}$ ) located approximately 2,827 feet North and 3,178 feet West of the Southeast corner of Section 30, Township 10 South, Range 3 West, in Ottawa County, Kansas. The proposed place of use for all of the referenced files is the Northeast Quarter (NE $\frac{1}{4}$ ), and the North Half of the Southeast Quarter (N $\frac{1}{2}$  SE $\frac{1}{4}$ ). There appeared to be some confusion as the proposed point of diversion for the new application and the groundwater point of diversion are very close. The surface water diversion after pumping out of the creek will be sent through the pumping setup for the groundwater right, File No. 14,304.

The proposed pumpsite will move File No. 7,016 downstream approximately 914 feet. There are no points of diversion authorized or stream inlets between the authorized and proposed point of diversion. The change will not alter the local source of supply.

The WRIS database indicates that the proposed point of diversion has no water right rights located one-half ( $\frac{1}{2}$ ) mile upstream, but downstream there is File No. 6,988, which is approximately 2,400 feet downstream. This right has not diverted water in several years and is authorized only 20 acre-feet for irrigation use. Utilizing Arc Map, the drainage area is approximately 88,900 acres which would provide sufficient flow with the normal annual precipitation of 27- 29 inches in this area.

The new permit will be subject to K.A.R. 5-3-15, *Availability of water for appropriation - safe yield; surface water*, restricting the diversion from Pipe Creek, when flows are available. The permit will require the diversion not to occur unless there is water available to satisfy all demands by senior rights and written or verbal permission from the Chief Engineer or an authorized representative is required prior to diversion water. The owner has submitted the required MDS statement acknowledging that there could be times when the diversion of water under File No. 49,141 may not be allowed. The permit will require that streamflow not be stopped at the first riffle below the point of diversion while the diversion is taking place. The application also complies with K.A.R 5-3-15 (c)(5) because the existing groundwater right, File No. 14,304 and senior surface right, File No. 7016, will provide an alternative sources of water, and there is no need for direct diversion of surface water from July 1 through September 30 from the pumpsite. The referenced files are not located in an assurance district, or area subject to a federal or intensive control area and the permit will not have additional conditions for these diversions located in these areas.

The applications for change appear to comply with K.A.R. 5-5-1a, the ownership documents in the files indicated Kent and Suzy Crosson are the owners of the place of use. The new application appears to comply with K.A.R. 5-3-1b. The referenced rights have had spotty water reporting indicating rain. The existing rights were fined in 2015 and have paid the fine, it would appear they are not considered to be abandoned per K.S.A. 82a-718 and in compliance with K.S.A. 82a-732.

File No. 7,016

This surface water right is authorized to divert 43 acre-feet at a maximum rate of 500 gallons per minute from Pipe Creek. The WRIS database does not appear to correctly represent the additional quantity or rate as there are no additional limitations. It was certified for the irrigation of 160 acres in Section 30, Township 10 south, Range 3 West, Ottawa. These acres form an incomplete overlap with File No. 14,304. The base acres for this right have been reviewed by staff at the Stockton Field Office and determined to be 100 acres. The requested change in place of use will add 19 acres, but complies with Part 6 of K.A.R. 5-5-11, *Applications for change in place of use for irrigation purposes*, as the historical consumptive use will not increase due to the approval of the new permit under File No. 49,141, and the requested overlap with File No. 14,304. The requested change in point of diversion has been discussed above.

File No. 14,304

This groundwater right is authorized 44 acre-feet at a maximum of 375 gallons per minute from a single well that has been determined to be located in the Southeast Quarter of the Southeast Quarter of the Northwest Quarter and determined by a 2005 Compliance Investigation to be 2,827 feet North and 2,828 feet West of the Southeast corner of Section 30, Township 10 South, Range 3 West, Ottawa County. The right has been determined to develop 58 base acres in 1968. The location of the point of diversion will be updated per the 2005 Compliance Investigation to add the feet distances of the well as 2,827 feet North and 2,828 feet West of the Southeast corner of Section 30, Township 10 South, Range 3 West, in Ottawa County, Kansas.

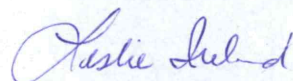

The total combined quantity under all of the referenced files is 155 acre-feet. The requested quantity appears to be reasonable for the proposed 119 acres as it will provide 1.3 acre-feet per acre. This quantity complies with Part(b)(3) of K.A.R. 5-3-20, *Maximum reasonable annual quantity of water for a new appropriation of water for irrigation use*. The surface water diversion under File Nos. 7016 & 49,141 will be 111 acre-feet and allowed 1,000 gallons per minute for the rate of diversion. This appears to be reasonable, based on the diversion of surface water and proposed irrigated acres. The total combined quantity indicates that a conservation plan will not be a condition of the permit or change approvals.

Notification letters were sent to upstream and downstream landowners and for the requested changes as required by the new statute. No written responses of any kind were received.

In accordance with K.S.A. 82a-706c, the Chief Engineer retains full authority to require any water user to install meters, gages, or other measuring devices, which devices he or she or his or her agents may read at any time. Water flowmeter requirements are further described in K.A.R. 5-1-4 through K.A.R. 5-1-12. If any chemical or foreign substance is injected into the water pumped under this permit, a check valve will also need to be installed. A water level measurement tube will not be a condition of the approval for File No. 14,304.

Kelly Stewart, Water Commissioner, Stockton Field Office, recommended the referenced new permit and applications for change be approved in an e-mail dated February 13, 2017.

Based on the above discussion, that the new permit and change in point of diversion will not impair senior water rights nor prejudicially or unreasonably affect the public interest, and that the changes in place of use will not increase consumptive use, it is recommended that the referenced application for permit and change applications be approved.

**FILE COPY**

RE: Appropriation of Water, File No. 49,141

Dear Mr. Crosson

There is enclosed a permit to appropriate water authorizing you to proceed with construction of the proposed diversion works (except those dams and stream obstructions regulated by K.S.A. 82a 301 through 305a), to divert such unappropriated water as may be available from the source and at the location specified in the permit, and to use it for the purpose and at the location described in the permit.

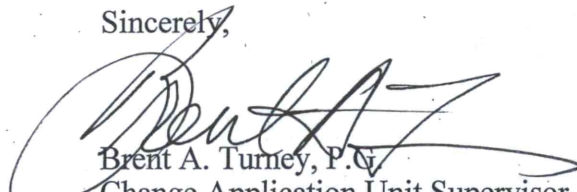

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in this permit. A water meter is required on the rediversion works and you must install it prior to water being put to beneficial use in order for you to maintain accurate records of water use. The meter should be used to provide the information required on the annual water use report.

Failure to notify the Chief Engineer of the Division of Water Resources of the completion of the diversion works within the time allowed, or within any authorized extension of time thereof, will result in the dismissal of this permit. Enclosed is a form which may be used to notify the Chief Engineer that the proposed diversion works have been completed.

All requests for extensions of time to complete diversion works, or to perfect appropriations, must be submitted to the Chief Engineer before the expiration of time originally set forth in the permit to complete diversion works or to perfect an appropriation. If for any reason, you require an extension of time, you must request it before the expiration of time set forth in this permit. Failure to comply with this regulation will result in the dismissal of your permit or your water right. Any request for an extension of time shall be accompanied by the required statutory fee, which is currently \$100.00.

There is also enclosed an information sheet setting forth the procedure to obtain a Certificate of Appropriation which will establish the extent of your water right. If you have any questions, please contact our office. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Brent A. Turney, P.G.

 David W. Barfield, Chief Engineer

**APPROVAL OF APPLICATION  
 and  
 PERMIT TO PROCEED**  
 (This is not a Certificate of Appropriation)

This is to certify that I have examined Application **File No. 49,141** of the applicant

**Kent Crosson**  
**1554 US Highway 81**  
**Minneapolis, Kansas 67467**

for a permit to appropriate water for beneficial use, together with the maps, plans and other submitted data, and that the application is hereby approved and the applicant is hereby authorized, subject to vested rights and prior appropriations, to proceed with the construction of the proposed diversion works (except those dams and stream obstructions regulated by K.S.A. 82a-301 through 305a, as amended), and to proceed with all steps necessary for the application of the water to the approved and proposed beneficial use and otherwise perfect the proposed appropriation subject to the following terms, conditions and limitations:

1. That the priority date assigned to such application is **August 25, 2014**.
2. That the water sought to be appropriated shall be used for irrigation use on land described in the application, as follows:

Sec.	Twp.	Range	NE¼				NW¼				SW¼				SE¼				TOTAL			
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼				
30	10	3W	7.0	3.0	37.0	21.0												19.0	29.0			119

3. That the authorized source from which the appropriation shall be made is surface water from Pipe Creek, (Solomon) to be diverted at one (1) pumphouse located in the Southeast Quarter of the Southeast Quarter of the Northwest Quarter (SE¼ SE¼ NW¼) of Section 30, more particularly described as being near a point 2,827 feet North and 3,178 feet West of the Southeast corner of said section, in Township 10 South, Range 3 West, in Ottawa County, Kansas, located substantially as shown on the topographic map accompanying the application.

4. That the appropriation sought shall be limited to a maximum diversion rate not in excess of **500 gallons per minute (1.11 c.f.s.)** and to a quantity not to exceed **68.0 acre-feet** of water for any calendar year.

5. That installation of works for diversion of water shall be completed on or before **December 31, 2018** or within any authorized extension thereof. The applicant shall notify the Chief Engineer and pay the statutorily required field inspection fee, which is currently \$400.00, when construction of the works has been completed. Failure to timely submit the notice and the fee will result in revocation of the permit. Any request for an extension of time shall be submitted prior to the expiration of the deadline and shall be accompanied by the required statutory fee, which is currently \$100.00.

6. That the proposed appropriation shall be perfected by the actual application of water to the proposed beneficial use on or before **December 31, 2022** or any authorized extension thereof. Any request for an extension of time shall be submitted prior to the expiration of the deadline and shall be accompanied by the required statutory fee, which is currently \$100.00.

7. That the applicant shall not be deemed to have acquired a water appropriation for a quantity in excess of the amount approved herein nor in excess of the amount found by the Chief Engineer to have been actually used for the approved purpose during one calendar year subsequent to approval of the application and within the time specified for perfection or any authorized extension thereof.

8. That the use of water herein authorized shall not be made so as to impair any use under existing water rights nor prejudicially and unreasonably affect the public interest.

9. That the right of the appropriator shall relate to a specific quantity of water and such right must allow for a reasonable raising or lowering of the static water level and for the reasonable increase or decrease of the streamflow at the appropriator's point of diversion.

10. That this permit does not constitute authority under K.S.A. 82a-301 through 305a to construct any dam or other obstruction; nor does it grant any right-of-way, or authorize entry upon or injury to, public or private property.

11. That all diversion works constructed under the authority of this permit into which any type of chemical or other foreign substance will be injected into the water pumped from the diversion works shall be equipped with an in-line, automatic quick-closing, check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

12. That an acceptable water flow meter shall be installed on the diversion works authorized by this permit in accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. This water flow meter shall be used to provide an accurate quantity of water diverted as required for the annual water use report (including the meter reading at the beginning and ending of the report year).

13. That the applicant shall maintain accurate and complete records from which the quantity of water diverted during each calendar year may be readily determined and the applicant shall file an annual water use report with the Chief Engineer by March 1 following the end of each calendar year. Failure to file the annual water use report by the due date shall cause the applicant to be subject to a civil penalty.

14. That no water user shall engage in nor allow the waste of any water diverted under the authority of this permit.

15. That failure without cause to comply with provisions of the permit and its terms, conditions and limitations will result in the forfeiture of the priority date, revocation of the permit and dismissal of the application.

16. That the right to appropriate water under authority of this permit is subject to any minimum desirable streamflow requirements identified and established pursuant to K.S.A. 82a-703c for the source of supply to which this water right applies.

17. That the diversion of natural flows shall not take place unless there is water available to satisfy all demands by senior water rights and permits.

18. That the stream flow shall not be stopped at the first riffle below the point of diversion while diversion is taking place under the authority of this water right or permit.

19. That during the period October 1 through June 30, the verbal or written permission of the Chief Engineer or an authorized representative of the Chief Engineer, shall be obtained in order to divert water each time the applicant desires to divert water.

20. That during the period July 2 through September 30 each calendar year, no direct diversion of surface water authorized under this permit shall be allowed unless written permission is obtained from the Chief Engineer, or the Chief Engineer's authorized representative.

This Order shall become a final agency action, as defined by K.S.A. 77-607(b), without further notice to the parties, if a request for hearing or a petition for administrative review is not filed as set forth below.

Request for Hearing. According to K.A.R. 5-14-3(c), any party who desires a hearing must submit a request within 15 days after the date shown on the Certificate of Service attached to this Order. Filing a request for a hearing will give you the opportunity to submit additional facts for consideration, contest any findings made by the Chief Engineer, or present any other information you believe should be considered in this matter. A timely-filed request for hearing will stay the deadline for requesting administrative review of this Order pending the outcome of the hearing.

Petition for Review. The applicant, if aggrieved by this Order, may petition for administrative review, pursuant to K.S.A. 82a-711(c) and K.S.A. 82a-1901(a). The petition must be filed within 30 days after the date shown on the Certificate of Service attached to this Order and must set forth the basis for the review, unless stayed by the timely filing of a request for hearing.

Any request for hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564 – 6777.

Ordered this 6<sup>th</sup> day of March, 2017, at Topeka, Shawnee County, Kansas.

WATER RESOURCES  
RECEIVED

**APPLICATION FOR PERMIT TO  
APPROPRIATE WATER FOR BENEFICIAL USE**

Filing Fee Must Accompany the Application  
(Please refer to Fee Schedule attached to this application form.)

AUG 25 2014  
1:52  
KS DEPT OF AGRICULTURE

To the Chief Engineer of the Division of Water Resources, Kansas Department of Agriculture,  
109 SW 9<sup>th</sup> Street, Second Floor, Topeka, KS 66612-1283:

1. Name of Applicant (Please Print): KENT CROSSON  
Address: 1554 US Hwy 81  
City: Minneapolis State KS Zip Code 67467  
Telephone Number: (785) 392-4078

2. The source of water is:  surface water in Pipe Creek (tributary to Solomon)  
(stream)  
OR  groundwater in \_\_\_\_\_  
(drainage basin)

Certain streams in Kansas have minimum target flows established by law or may be subject to administration when water is released from storage for use by water assurance district members. If your application is subject to these regulations on the date we receive your application, you will be sent the appropriate form to complete and return to the Division of Water Resources.

3. The maximum quantity of water desired is 68 acre-feet OR \_\_\_\_\_ gallons per calendar year,  
to be diverted at a maximum rate of 500 gallons per minute OR \_\_\_\_\_ cubic feet per second.

Once your application has been assigned a priority, the requested maximum rate of diversion and maximum requested quantity of water under that priority number can **NOT** be increased. Please be certain your requested maximum rate of diversion and maximum quantity of water are appropriate and reasonable for your proposed project and are in agreement with the Division of Water Resources' requirements.

4. The water is intended to be appropriated for (Check use intended):  
(a)  Artificial Recharge (b)  Irrigation (c)  Recreational (d)  Water Power  
(e)  Industrial (f)  Municipal (g)  Stockwatering (h)  Sediment Control  
(i)  Domestic (j)  Dewatering (k)  Hydraulic Dredging (l)  Fire Protection  
(m)  Thermal Exchange (n)  Contamination Remediation

YOU **MUST** COMPLETE AND ATTACH ADDITIONAL DIVISION OF WATER RESOURCES FORM(S) PROVIDING INFORMATION TO SUBSTANTIATE YOUR REQUEST FOR THE AMOUNT OF WATER FOR THE INTENDED USE REFERENCED ABOVE.

For Office Use Only:

5. The location of the proposed wells, pump sites or other works for diversion of water is:

**Note:** For the application to be accepted, the point of diversion location must be described to at least a 10 acre tract, unless you specifically request 60 days in which to locate the site within a quarter section tract. Any request for an extension of time in which to locate the point of diversion shall include a contract with a well driller or a contractor for the necessary test holes.

- (A) One in the SE quarter of the SE quarter of the NW quarter of Section 30, more particularly described as being near a point 2827 feet North and 3178 feet West of the Southeast corner of said section, in Township 10 South, Range 3 West, Ottawa County, Kansas.
- (B) One in the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of Section \_\_\_\_\_, more particularly described as being near a point \_\_\_\_\_ feet North and \_\_\_\_\_ feet West of the Southeast corner of said section, in Township \_\_\_\_\_ South, Range \_\_\_\_\_ East/West (circle one), \_\_\_\_\_ County, Kansas.
- (C) One in the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of Section \_\_\_\_\_, more particularly described as being near a point \_\_\_\_\_ feet North and \_\_\_\_\_ feet West of the Southeast corner of said section, in Township \_\_\_\_\_ South, Range \_\_\_\_\_ East/West (circle one), \_\_\_\_\_ County, Kansas.
- (D) One in the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of Section \_\_\_\_\_, more particularly described as being near a point \_\_\_\_\_ feet North and \_\_\_\_\_ feet West of the Southeast corner of said section, in Township \_\_\_\_\_ South, Range \_\_\_\_\_ East/West (circle one), \_\_\_\_\_ County, Kansas.

If the source of supply is groundwater, a separate application shall be filed for each proposed well or battery of wells, except that a single application may include up to four wells within a circle with a quarter (1/4) mile radius in the same local source of supply which do not exceed a maximum diversion rate of 20 gallons per minute per well.

A battery of wells is defined as two or more wells connected to a common pump by a manifold; or not more than four wells in the same local source of supply within a 300 foot radius circle which are being operated by pumps not to exceed a total maximum diversion rate of 800 gallons per minute and which supply water to a common distribution system.

6. The owner of the point of diversion, if other than the applicant is (please print):

\_\_\_\_\_ (name, address and telephone number)

\_\_\_\_\_ (name, address and telephone number)

You must provide evidence of legal access to, or control of, the point of diversion from the landowner or the landowner's authorized representative. Provide a copy of a recorded deed, lease, easement or other document with this application. In lieu thereof, you may sign the following sworn statement:

I have legal access to, or control of, the point of diversion described in this application from the landowner or the landowner's authorized representative. I declare under penalty of perjury that the foregoing is true and correct.

Applicant's Signature

7. The proposed project for diversion of water will consist of 1 pumpsite (number of wells, pumps or dams, etc.) and (was)(will be) completed (by) upon approval (Month/Day/Year - each was or will be completed)

8. The first actual application of water for the proposed beneficial use was or is estimated to be upon approval (Mo/Day/Year)

WATER RESOURCES RECEIVED

AUG 25 2014

SCANNED

9. Will pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion works?

Yes  No If "yes", a check valve shall be required.

All chemigation safety requirements must be met including a chemigation permit and reporting requirements.

10. If you are planning to impound water, please contact the Division of Water Resources for assistance, prior to submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir.

Have you also made an application for a permit for construction of this dam and reservoir with the Division of Water Resources?  Yes  No

- If yes, show the Water Structures permit number here \_\_\_\_\_
- If no, explain here why a Water Structures permit is not required water will not be impounded.

11. The application must be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plat showing the following information. On the topographic map, aerial photograph, or plat, identify the center of the section, the section lines or the section corners and show the appropriate section, township and range numbers. Also, please show the following information:

- (a) The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North-South distance and the East-West distance from a section line or southeast corner of section.
- (b) If the application is for groundwater, please show the location of any existing water wells of any kind within 1/2 mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please advise us.
- (c) If the application is for surface water, the names and addresses of the landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.
- (d) The location of the proposed place of use should be shown by crosshatching on the topographic map, aerial photograph or plat.
- (e) Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.

A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence, Kansas 66047.

12. List any application, appropriation of water, water right, or vested right file number that covers the same diversion points or any of the same place of use described in this application. Also list any other recent modifications made to existing permits or water rights in conjunction with the filing of this application.

This application proposes to create a complete overlap in place of use and point of diversion with 7016 and overlap in place of use only with 14304.

ATTN: Water Use Coordinator

RE: Water Use Correspondent for

File No(s) 49144, 7016, 14304

Dear Sir:

49,144 - LI/Dwn - owned

I am aware that Kansas law (K.S.A. 82a-732) requires the owner of a water right or permit to appropriate water for beneficial use, except for domestic use, to file an annual water use report with the Chief Engineer of the Division of Water Resources, Kansas Department of Agriculture, on or before March 1 following the end of the previous calendar year.

I understand that the law provides that failure to file the report or submission of an incomplete or inaccurate report could subject me, as owner (or part owner) of the above file number(s) to a civil penalty not to exceed \$1000 and that any person falsifying the report could be charged with a class C misdemeanor.

For confirmation of the correspondent change provide a valid e-mail address.

E-mail: Crossonfamilyfarms@gmail.com

With full knowledge of these facts, I request that Tyler Crosson,  
1537 Nugget Rd, Minneapolis, KS, 67467, (785)392-4093  
(Address) (City) (State) (Zip) (Telephone)

be designated as water use correspondent for the above file number(s) until I rescind this authority in writing.

I further understand that as water use correspondent my designee will be the only person who will receive an annual water use report from the Division of Water Resources concerning my water use reporting requirement.

RE: Appropriation, File No. 49,141

Dear Mr. Crosson;

After reviewing your above referenced application for permit to appropriate water for beneficial use, we find the following information is needed.

All applications to appropriate water for beneficial use filed on or after April 12, 1984, are subject to any minimum desirable streamflow requirements identified and established pursuant to KSA 82a-703c. The above referenced application was received in the office of the Chief Engineer will be subject to the minimum desirable streamflow requirement established by the legislature for the source of supply to which this application applies.

Enclosed is a form which will need to be signed and notarized. Please return your completed form in the enclosed envelope.

Should you have any questions, please give me a call at (785) 264-6633.

Sincerely,

A handwritten signature in cursive script that reads "Leslie Ireland".

RE: Water Right, File Nos. 7,016 & 14,304  
Permit, File No. 49,141

Dear Sir or Madam:

This letter is to **provide notice** as required by Kansas Senate House Bill No. 337, which became effective on July 1, 2016.

The owner of the referenced appropriations of water has filed applications for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture. The applications propose to change in the existing place of use to a pivot system under File Nos. 7,016 & 14,304, along with a new appropriation under File No. 49,141, all authorized for irrigation use. The new application, File No. 49,141, proposes the diversion of 68 acre-feet of surface water per calendar year at the rate 500 gallons per minute to be diverted from Pipe Creek at a pumpsite that will also be authorized by File No. 7,016. The proposed pumpsite is described as being located:

one (1) pumpsite located in the Southeast Quarter of the Southeast Quarter of the Northwest Quarter (SE $\frac{1}{4}$  SE $\frac{1}{4}$  NW $\frac{1}{4}$ ) of Section 30, more particularly described as being near a point 2,827 feet North and 3,178 feet West of the Southeast corner of said section, in Township 10 South, Range 3 West, Ottawa County, Kansas.

Information supplied by the applicant indicates that you as a nearby landowner may have a well or wells in this vicinity or you own land along the creek, therefore you are being notified. Should you want to comment or provide other information which you desire to submit, please do so within 15 days for the date of this letter.

If you have any questions, please contact our office, my desk phone is (785) 564-6633. If you wish to discuss a specific file, please have the file numbers ready so that we may help you more efficiently.

RE: Water Right, File Nos. 7,016 & 14,304  
Permit, File No. 49,141

Dear Sir or Madam:

This letter is to **provide notice** as required by Kansas Senate House Bill No. 337, which became effective on July 1, 2016.

The owner of the referenced appropriations of water has filed applications for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture. The applications propose to change in the existing place of use to a pivot system under File Nos. 7,016 & 14,304, along with a new appropriation under File No. 49,141, all authorized for irrigation use. The new application, File No. 49,141, proposes the diversion of 68 acre-feet of surface water per calendar year at the rate 500 gallons per minute to be diverted from Pipe Creek at a pumpsite that will also be authorized by File No. 7,016. The proposed pumpsite is described as being located:

one (1) pumpsite located in the Southeast Quarter of the Southeast Quarter of the Northwest Quarter (SE $\frac{1}{4}$  SE $\frac{1}{4}$  NW $\frac{1}{4}$ ) of Section 30, more particularly described as being near a point 2,827 feet North and 3,178 feet West of the Southeast corner of said section, in Township 10 South, Range 3 West, Ottawa County, Kansas.

Information supplied by the applicant indicates that you as a nearby landowner may have a well or wells in this vicinity or you own land along the creek, therefore you are being notified. Should you want to comment or provide other information which you desire to submit, please do so within 15 days for the date of this letter.

If you have any questions, please contact our office, my desk phone is (785) 564-6633. If you wish to discuss a specific file, please have the file numbers ready so that we may help you more efficiently.

Sincerely,

Leslie Ireland  
Environmental Scientist  
Water Appropriation Program

## FEE SCHEDULE

1. The fee for an application for a permit to appropriate water for beneficial use, except for domestic use, shall be (see paragraph No. 2 below if requesting storage):

ACRE-FEET	FEE
0-100	\$200.00
101-320	\$300.00
More than 320	\$300.00 plus \$20.00 for each additional 100 acre-feet or any part thereof.

2. The fee for an application in which storage is requested, except for domestic use, shall be:

ACRE-FEET	FEE
0-250	\$200.00
More than 250	\$200.00 plus \$20.00 for each additional 250 acre-feet of storage or any part thereof.

Note: If an application requests both direct use *and* storage, the fee charged shall be as determined under No. 1 or No. 2 above, whichever is greater, but not both fees.

3. The fee for an application for a permit to appropriate water for water power purposes shall be \$100.00 plus \$200.00 for each 100 cubic feet per second, or part thereof, of the diversion rate requested.

Note: The applicant shall notify the Chief Engineer and pay the statutorily required field inspection fee of \$400.00 when construction of the works for diversion has been completed, except that for applications filed on or after July 1, 2009, for works constructed for sediment control use and for evaporation from a groundwater pit for industrial use shall be accompanied by a field inspection fee of \$200.00.

### MAKE CHECKS PAYABLE TO THE KANSAS DEPARTMENT OF AGRICULTURE

#### ATTENTION

A Water Conservation Plan may be required per K.S.A. 82a-733. A statement that your application for permit to appropriate water may be subject to the minimum desirable streamflow requirements per K.S.A. 82a-703a, b, and c may also be required from you. After the Division of Water Resources has had the opportunity to review your application, you will be notified whether or not you will need to submit a Water Conservation Plan. You also may be required to install a water flow meter or water stage measuring device on your diversion works prior to diverting water. There may be other special conditions or Groundwater Management District regulations that you will need to comply with if this application is approved.

RE: Application  
File No. 49,141

Dear Sir or Madam:

Your application for permit to appropriate water in 30-10S-3W, in Ottawa County, was received and has been assigned the file number noted above.

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. Once review of your application has begun, we will contact you, if additional information is required.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water as proposed prior to approval of the application is unlawful. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

**Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.**

**(b) (1) The violation of any provision of this section by any person is a class C misdemeanor . . .**

**A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.**

If you have any questions, please contact me at (785) 564-6643. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Richard Rockel  
New Application Unit Supervisor  
Water Appropriation Program
