#### <u>MEMORANDUM</u>

TO: Files DATE: January 6, 2017

FROM: Kristen Baum RE: Application, File No. 49,529

Nickolas Zerr filed the referenced application to appropriate 130.5 acre-feet of groundwater at a diversion rate of 800 gallons per minute for irrigation use. The proposed point of diversion was to be a battery of four (4) wells with a geographic center located in the Southeast Quarter of Section 25, Township 12 South, Range 28 West, Gove County, Kansas. The proposed appropriation is located within the Hackberry Creek River Basin and based on the well log submitted with the application, the source of supply would be tributary alluvium.

The proposed point of diversion must comply with K.A.R. 5-3-11 safe yield evaluation based on the area of consideration (extent of unconfined aquifer) within a 2-mile circle, calculated recharge quantity, and the extent of recharge available in that basin. Using an 1,081 acre area of consideration (the entire 2-mile circle) and a potential recharge of 0.62 inches with 75% available for appropriation, safe yield was determined to be 41.89 acrefeet. Existing water rights have appropriated 123.0 acre-feet within the area of consideration, which exceeds the calculated safe yield quantity. Thus no additional water is available for appropriation within this area of consideration.

The applicant was sent a letter on December 21, 2016 explaining the safe yield evaluation and stating that it would be recommended to the Chief Engineer that pending application, File No. 49,529 be denied and dismissed due to the failure to meet safe yield criteria, as required by K.A.R. 5-3-18. The applicant was provided 15 days (until January 5, 2017) to either (1) submit additional information to our office or (2) request additional time beyond the 15 days to submit additional information.

No response of any kind was received from the applicant. Based on the available information, it is recommended that the file be denied and dismissed for failure to meet safe yield criteria.

Re: Application, File No. 49,529

Dear Sir or Madam:

Enclosed is the Findings and Order by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, dismissing Application, File No. 49,529 for failure to meet safe yield criteria.

This Order shall become a final agency action, as defined by K.S.A. 77-607(b), without further notice to the parties, if a request for hearing or a petition for administrative review is not filed as set forth below.

Request for Hearing. According to K.A.R. 5-14-3(c), any party who desires a hearing must submit a request within 15 days after the date shown on the Certificate of Service attached to this Order. Filing a request for a hearing will give you the opportunity to submit additional facts for consideration, contest any findings made by the Chief Engineer, or present any other information you believe should be considered in this matter. A timely-filed request for hearing will stay the deadline for requesting administrative review of this Order pending the outcome of the hearing.

Petition for Review. The applicant, if aggrieved by this Order, may petition for administrative review, pursuant to K.S.A. 82a-71 1(c) and K.S.A. 82a-1 90 1(a). The petition must be filed within 30 days after the date shown on the Certificate of Service attached to this Order and must set forth the basis for the review, unless stayed by the timely filing of a request for hearing.

Any request for hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564-6777. If you have any questions, please contact our office. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Change Application Unit Supervisor

David W. Barfield, Chief Engineer

## FINDINGS AND ORDER IN THE MATTER OF THE DISMISSAL OF APPLICATION FILE NO. 49,529

After due consideration, the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture (hereinafter referred to as the "Chief Engineer"), makes the following findings and order:

#### **FINDINGS**

- 1. That on December 28, 2015, the Chief Engineer received an application from Nickolas Zerr for permit to appropriate groundwater for beneficial use, assigned File No. 49,529, proposing the appropriation of 130.5 acre-feet of water, at a maximum requested diversion rate of 800 gallons per minute, for irrigation use. The specific location for the proposed point of diversion would be the Southwest Quarter of the Southeast Quarter of the Southeast Quarter (SW¼ SE¼ SE¼) of Section 25, more particularly described as being near a point 408 feet North and 929 feet West of the Southeast corner of said section, in Township 12 South, Range 28 West, Gove County, Kansas.
- 2. That the source of water for the pending application is the Ogallala Formation based on the test hole log that was submitted. The specific method for calculating safe yield for unconfined groundwater aguifers is described in K.A.R. 5-3-11.
- 3. That based on the area of consideration (extent of the unconfined aquifer), the calculated recharge, and the percent of the calculated recharge that can be considered to be available for appropriation, safe yield was determined to be 41.89 acre-feet. Prior water rights within this same area of consideration have appropriated 123.0 acre-feet, leaving no additional water available for appropriation.
- 4. That on December 21, 2016, a letter was mailed to the applicant stating that the application did not comply with the safe yield requirements of K.A.R. 5-3-10 and K.A.R. 5-3-11, and that the application would be submitted to the Chief Engineer with a recommendation that it be denied and dismissed, for failure to meet safe yield criteria. The applicant was provided 15 days, until January 5, 2017 to either submit additional information to our office or request additional time, prior to final action on the application.
- 5. That the applicant, has not submitted additional information for consideration, nor requested an extension of time for Application, File No. 49,529.
- 6. That the application should be denied and dismissed and its priority forfeited for failure to comply with K.A.R. 5-3-10 and K.A.R. 5-3-11.

#### **ORDER**

NOW, THEREFORE, It is the decision and order of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, that effective the date of this order, in accordance with the law, Application, File No. 49,529, is herewith dismissed and the priority assigned to it is considered to be forfeited.

This Order shall become a final agency action, as defined by K.S.A. 77-607(b), without further notice to the parties, if a request for hearing or a petition for administrative review is not filed as set forth below.

Request for Hearing. According to K.A.R. 5-14-3(c), any party who desires a hearing must submit a request within 15 days after the date shown on the Certificate of Service attached to this Order. Filing a request for a hearing will give you the opportunity to submit additional facts for consideration, contest any findings made by the Chief Engineer, or present any other information you believe should be considered in this matter. A timely-filed request for hearing will stay the deadline for requesting administrative review of this Order pending the outcome of the hearing.

Petition for Review. The applicant, if aggrieved by this Order, may petition for administrative review, pursuant to K.S.A. 82a-711(c) and K.S.A. 82a-1901(a). The petition must be filed within 30 days after the date shown on the Certificate of Service attached to this Order and must set forth the basis for the review, unless stayed by the timely filing of a request for hearing.

Any request for hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564-6777.

### APPLICATION FOR PERMIT TO APPROPRIATE WATER FOR BENEFICIAL USE

Filing Fee Must Accompany the Application (Please refer to Fee Schedule attached to this application form.) **WATER RESOURCES** RECEIVED

DEC 2 8/2015

2:49

To the Chief Engineer of the Division of Water Resources, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502: Name of Applicant (Please Print): Nickolas W. Zerr Address: P.O. Box 157 City: Gove State KS Zip Code 67736 Telephone Number: (785) 673-6424 The source of water is: □ surface water in \_\_\_\_\_

☐ groundwater in Hackberry Creek Basin

Certain streams in Kansas have minimum target flows established by law or may be subject to administration when water is released from storage for use by water assurance district members. If your application is subject to these regulations on the date we receive your application, you will be sent the appropriate form to complete and return to the Division of Water Resources

The maximum quantity of water desired is 130.5 acre-feet OR \_\_\_\_\_ gallons per calendar year, to be diverted at a maximum rate of 800 gallons per minute OR \_\_\_\_\_ cubic feet per second. Once your application has been assigned a priority, the requested maximum rate of diversion and maximum

requested quantity of water under that priority number can NOT be increased. Please be certain your requested d

maximum rate of diversion and maximum quantity of water are appropriate and reasonable for your proposed project and are in agreement with the Division of Water Resources' requirements.													
The water is intended to be	appr	opriated for (Check use	e int	ended):									
(a) ☐ Artificial Recharge	(b)	☑ Irrigation	(c)	☐ Recreational	(d)	□ Water Power							
(e) ☐ Industrial	(f)	☐ Municipal	(g)	☐ Stockwatering	(h)	☐ Sediment Control							
(i) Domestic	(j)	□ Dewatering	(k)	☐ Hydraulic Dredging	<b>(l)</b>	☐ Fire Protection							
(m) ☐ Thermal Exchange	(n)	☐ Contamination Re	eme	diation									

YOU MUST COMPLETE AND ATTACH ADDITIONAL DIVISION OF WATER RESOURCES FORM(S) PROVIDING INFORMATION TO SUBSTANTIATE YOUR REQUEST FOR THE AMOUNT OF WATER FOR THE INTENDED USE REFERENCED ABOVE.

4.

	49,529	
File No.	11112	

5. The location of the proposed wells, pump sites or other works for diversion of water is:

Note: For the application to be accepted, the point of diversion location must be described to at least a 10 acre tract, unless you specifically request a 60 day period of time in which to locate the site within a specifically described, minimal legal quarter section of land.

- (A) \*One in the <u>SOUTHWEST</u> quarter of the <u>SOUTHEAST</u> quarter of the <u>SOUTHEAST</u> quarter of Section <u>25</u>, more particularly described as being near a point <u>408</u> feet North and <u>929</u> feet West of the Southeast corner of said section, in Township <u>12</u> South, Range <u>28</u> West, <u>Gove</u> County, Kansas. \*This point is geo-center of battery of 4 wells.
- (B) \*One in the <u>SOUTHWEST</u> quarter of the <u>SOUTHEAST</u> quarter of the <u>SOUTHEAST</u> quarter of Section <u>25</u>, more particularly described as being near a point <u>408</u> feet North and <u>1,229</u> feet West of the Southeast corner of said section, in Township <u>12</u> South, Range <u>28</u> West, <u>Gove</u> County, Kansas. \*Battery 1 of 4 wells.
- (C) \*One in the <u>SOUTHWEST</u> quarter of the <u>SOUTHEAST</u> quarter of the <u>SOUTHEAST</u> quarter of Section <u>25</u>, more particularly described as being near a point <u>108</u> feet North and <u>929</u> feet West of the Southeast corner of said section, in Township <u>12</u> South, Range <u>28</u> West, <u>Gove</u> County, Kansas. \*Battery 1 of 4 wells.
- (D) \*One in the <u>SOUTHEAST</u> quarter of the <u>SOUTHEAST</u> quarter of the <u>SOUTHEAST</u> quarter of Section <u>25</u>, more particularly described as being near a point <u>408</u> feet North and <u>629</u> feet West of the Southeast corner of said section, in Township <u>12</u> South, Range <u>28</u> West, <u>Gove</u> County, Kansas. \*Battery 1 of 4 wells.
- (E) \*One in the NORTHWEST quarter of the SOUTHEAST quarter of the SOUTHEAST quarter of Section 25, more particularly described as being near a point 708 feet North and 929 feet West of the Southeast corner of said section, in Township 12 South, Range 28 West, Gove County, Kansas. \*Battery 1 of 4 wells.

If the source of supply is groundwater, a separate application shall be filed for each proposed well or battery of wells, except that a single application may include up to four wells within a circle with a quarter (½) mile radius in the same local source of supply which do not exceed a maximum diversion rate of 20 gallons per minute per well.

A battery of wells is defined as two or more wells connected to a common pump by a manifold; or not more than four wells in the same local source of supply within a 300 foot radius circle which are being operated by pumps not to exceed a total maximum diversion rate of 800 gallons per minute and which supply water to a common distribution system.

6. The owner of the point of diversion, if other than the applicant is (please print):

Re:

Pending Application, File No. 49,529

Dear Mr. Zerr:

The Division of Water Resources has completed an initial review of the above referenced application. The source of water for the pending application appears to be tributary alluvium. The specific method for calculating safe yield for unconfined groundwater aquifers is described in K.A.R. 5-3-11, and is based on the area of consideration, calculated recharge quantity, and the extent of recharge available in the basin.

Based on a safe yield determination for this application, a quantity of 41.89 acre-feet can safely be appropriated, of which a quantity of 123.0 acre-feet has already been permitted. Thus, it will be recommended to the Chief Engineer that pending application, File No. 49,529 be denied and dismissed due to failure to meet safe yield criteria, as required by K.A.R. 5-3-10 and K.A.R. 5-3-11.

We are advising you of this recommendation in order to allow you an opportunity to submit additional information to show why our evaluation should be reconsidered. You have a period of 15 days (until January 4, 2017) to either (1) submit additional information to our office or (2) request additional time beyond the 15 days to submit additional information. If you wish to request additional time, you must do so in writing, before the 15 day period expires. Such a request should state what steps are being taken to obtain the information and the amount of time you will need to supply the information to our office.

Any relevant credible information submitted within the time allowed will be given due consideration, prior to final action on the application. Otherwise, if you do not request more time within the 15 day period, or if your request is not granted, it will be recommended to the Chief Engineer that Application, File No. 49,529 be denied and dismissed due to failure to meet safe yield criteria, as required by K.A.R. 5-3-11. If you have any questions or would like to discuss your options, please contact myself at 785-564-6627 or Kelly Stewart at the Stockton Field Office (785-425-6787).

Sincerely,

Kristen A. Baum

RE: Zerr

#### Kristen,

I agree completely. I also found information from a well identified in the KGS Bulletin No. 145 for Gove Co. in the SE/4 of the SE/4 of 25-12-28w that was 45' deep and was alluvium.

Subject: RE: Zerr

Dusting this one off again – I've been distracted by extensions to complete and a couple other files that fail safe yield.

Alluvium was the direction I was leaning, in which case the area of consideration isn't much – see attached to see if you agree.

Let me know your thoughts. Thanks, Kristen

Mark,

Kristen is needing to know how to run safe-yield on 49,529. I took a quick look at the enclosed well log and looked at the geology map. I believe this is tributary alluvium and the two mile circle should only include mapped alluvium as the area of consideration. Would you double check this please and see if you agree? I haven't had enough time today to give it proper consideration.

Kelly

Do you have any well logs for that application?

Please be advised my e-mail has changed to: kelly.stewart@ks.gov

Kelly C. Stewart, Water Commissioner Kansas Department of Agriculture Division of Water Resources Stockton Field Office (785)425-6787

http://www.agriculture.ks.gov/

#### Analysis Results

The selected PD is in an area to new appropriations. The safe yield, based on the variables listed below is 41.89 AF. Total prior appropriation in the circle is 253.50 AF. Total quantity of water available for appropriation is 0.00 AF.

#### Safe Yield Variables

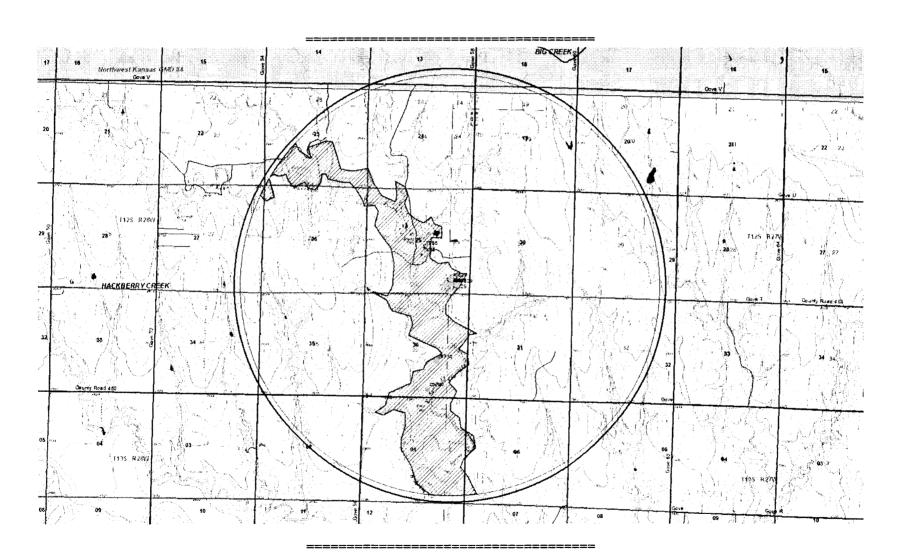

The area used for the analysis is set at 1081 acres. Potential annual recharge of the area is estimated to be 0.62 inches. The percent of recharge available for appropriation is 75%.

Authorized Quantity values are as of 05-DEC-2016 and are based on Appropriated and Vested ground water right and possible stream nodes for GMD #2. Domestic, Term and Temporary water rights have been excluded.

There are 2 water right(s) and 7 point(s) of diversion within the circle.

**NICKOLAS W ZERR PO BOX 157 GOVE KS 67736** 

> **RE**: Application File No. 49529

Dear Sir or Madam:

Your application for permit to appropriate water in 25-12S-28W in Gove County, was received and has been assigned the file number noted above.

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. Once review of your application has begun, we will contact you, if additional information is required.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water as proposed prior to approval of the application is unlawful. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor . . .

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6634. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely

Kenneth A. Kopp, P.G.
