M E M O R A N D U M

TO: Files

DATE: April 30, 2018

FROM: Brent A. Turney

RE: Water Right
File Nos. 11,424; 17,871; 19,478;
20,824; 29,620; 33,786; 35,016;
36,663; 36,740; and 37,170

Nelson Farms, Inc., Craig and Genine Ingram, etal, filed applications for approval to change the authorized place of use for all of the above referenced file numbers. Use made of water applications were also filed for Water Right, File Nos. 20,824; 35,016 and 36,740, and changes in point of diversion for additional wells have also been filed for File Nos. 35,016 and 36,740. The referenced file numbers are in the RRC Prairie Dog Creek Special Use Area.

The referenced file numbers do not appear to be abandoned as per K.S.A. 82a-718.

The referenced applications were discussed in a March 8, 2018 meeting with Lane Letourneau, Water Appropriations Program Manager, and Kelly Stewart, Water Commissioner of the Stockton Field Office, and further reviewed in a water commissioner's meeting on April 19, 2018. It was determined the applications and reductions should be processed as follows:

Change in PU UMW File No. 20,824; 35,016 and 36,740; /Change in Pd File Nos. 35,016 and 36,740

The applications for File Nos. 20,824 and 36,740 request a dual use of water that will allow for both stockwatering use and irrigation use in any calendar year, and request temporary reductions/limitations in quantity based on K.A.R. 5-5-9 calculations. The application for File No. 35,016 proposes to convert from irrigation to stockwatering use (no dual use) based on K.A.R. 5-5-9. Changes in points of diversion pursuant to K.A.R. 5-5-16 have also been filed for File Nos. 35,016 and 36,740 and it was determined in an April 19, 2018 water commissioner's meeting that any reductions in quantity for File Nos. 35,016 and 36,740 would be permanent to comply with K.A.R. 5-5-16 consumptive use requirements. No changes to any Almena limitations.

File No. 20,824 – File No. 20,824 is presently authorized a blanket rate and quantity of 85.5 acre-feet and 460 gallons per minute of groundwater for irrigation use on 182 acres from two wells. No overlaps in the points of diversion but the place of use overlaps Water Right, File Nos. 36,740 and 37,170. Paragraph No. 13 of the application indicates that 73.45 acre-feet of water can be authorized for dual irrigation/stockwatering use.

File No. 35,016-File No. 35,016 is presently authorized 42 acre-feet and 200 gallons per minute of groundwater from one irrigation well located 4,154 feet North and 2,845 feet West of the Southeast corner of Section 8, Township 1 South, Range 19 West, Phillips County. The point of diversion overlaps Water Right, File No. 36,663 and the place of use overlaps Water Right, File Nos. 11,424 and 36,663. The K.A.R. 5-5-9 calculation indicates a reduction in quantity from 42 acre-feet to 36 acre-feet for stockwatering use. The proposed point of diversion change will authorize three wells with assigned rates and quantities (3,852'N, 3935'W -12AF @66 g.p.m.; 3,852'N, 4,188'W-12AF@66 g.p.m.; 3,852'N, 4,440'W – 12AF @68 g.p.m.) all in Section 8 and a permanent reduction in quantity to 36 acre-feet to comply with the additional well regulation. The currently authorized well will remain authorized by File No. 36,663.

File No. 36,740-File No. 36,740 is presently authorized 114.5 acre-feet and 590 gallons per minute of groundwater from one irrigation well located 3,630 feet North and 700 feet West of the Southeast corner of Section 8, Township 1 South, Range 19 West, Phillips County. The point of diversion has no current overlap but the place of use overlaps File Nos. 20,824 and 37,170. The applicant proposes to convert the total currently authorized irrigation quantity to dual use irrigation/stockwatering. Paragraph No. 13 calculation indicates 98.36 acre-feet will be authorized dual use. The point of diversion change proposes to better describe the currently authorized well (3,728'N,609'W) and add a well 49 feet to the west (3,728'N,649'W). The wells will each be able to pump 98.36 AF, limited to 98.36 AF, with the currently authorized well assigned 390 g.p.m., the additional well assigned 200 g.p.m. Also, a permanent reduction in quantity to 98.36 acre-feet due to the additional well.

File Nos. 20,824; 35,016 and 36,740 will all be authorized stockwatering use a hog facility located in the North Half of the Southwest Quarter of the Northwest Quarter (N $\frac{1}{2}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$) and in the Northwest Quarter of the Northwest Quarter (NW $\frac{1}{4}$ NW $\frac{1}{4}$) of Section 8, Township 1 South, Range 19 West, Phillips County, Kansas. In a phone conversation on February 21, 2018, Kelly indicated that the quantity requested for stockwatering use is justified.

Change in PU File Nos. 11,424; 17,871; 19,478; 20,824; 29,620; 33,786; 36,663; 36,740; and 37,170

The referenced change in place of use applications will create a complete overlap in the irrigation place of use, with a total of 620.5 acres to be authorized in Sections 5, 7, 8 and 18, Township 1 South, Range 19 West, Phillips County. As Paragraph No. 3 of the applications indicate, the proposal will remove the area to be authorized for the hog facility and completely overlap the place of use for the referenced files so that freshwater can be pumped into the effluent lagoons for subsequent re-diversion over the place of use. No changes to any Almema limitations.

Nearby water right owners identified on the map or in WRIS within one half-mile of the authorized/proposed points of diversion of all of the above referenced change applications were notified of the proposed changes by letters dated April 3, 2018 in order to comply with K.S.A. 82a 1906. The nearby well owners within one-half mile of the proposed wells for File Nos. 35,016 and 36,740 were given 15 days for comments; no written responses were received however two phone calls were received.

In an e-mail dated April 26, 2018, Kelly Stewart, Water Commissioner of the Stockton Field Office, recommended approval of the applications.

Water flow meters are required and separate meters are required for the dual use. Check valves are required if any chemical or foreign substance is injected into the water through the diversion works.

RE: Water Right, File Nos. 11,424; 17,871; 19,478; 20,824; 29,620; 33,786; 35,016; 36,663; 36,740 and 37,170

Dear Mr. Nelson:

Enclosed are the orders executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the applications for change under the above referenced file numbers.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in these approvals for change. A condition of the approvals is that acceptable water flow meters must be installed so that both irrigation and stockwatering uses can be metered independent of each other. Please return the required notification of completion of the diversion works and/or installation of the required meters as soon as these actions are completed

Please note that the applications to change the point of diversion for File Nos. 35,016 and 36,740 are approved subject to the condition that for the sole purpose of administering wells concerning direct impairment, the additional wells shall be considered to have the priority of the date the applications were filed (November 27, 2017) to add the additional wells. In addition, the Chief Engineer specifically retains jurisdiction in this matter with authority to review the approval of the additional wells at intervals of no fewer than five years, and no more than ten years to determine if the total annual quantity of water actually being withdrawn by all wells authorized by the approval of application for change is exceeding the total annual quantity of water that could have been physically withdrawn if the additional wells had not been approved, and based on the review, the Chief Engineer retains authority to make a reasonable reduction in the authorized quantity of water as may be deemed to be in the public interest.

Since these orders modify the original documents referred to above, they should be recorded with the Register of Deeds as other instruments affecting real estate.

If you have any questions, please contact this office. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

Brent A. Turney, P.G.

**APPROVAL OF APPLICATION
FOR
CHANGE IN PLACE OF USE
WATER RIGHT
FILE NO. 17,871**

FILE COPY

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of Craig and Genine Ingram, on behalf of Craig and Genine Ingram Living Trusts, 220 West 1100 Road, Long Island, Kansas, 67647-4001, Watkins Family Trust, Attn Bill Watkins, 8100 East Camelback Road, Suite 42, Scottsdale, Arizona, 85251, Nelson Farms Incorporated, PO Box 38, Long Island, Kansas 67647, Lisa Quinn etal, 225 State Street, Phillipsburg, Kansas 67661, and Bernard A. Van Kooten Trust #2 c/o Geraldine Van Kooten, 217 West 35th Street, Hays, Kansas 67601, received in this office on January 18, 2018, for approval of a change in the location of the place of use under the certificate of appropriation issued pursuant to the permit to appropriate water for beneficial use, as modified and amended by the Order of the Chief Engineer dated March 1, 2007, approving the application to change the point of diversion, and by the Order of the Chief Engineer dated February 15, 2013, approving the application to change the place of use, finds that the change is reasonable and will not impair existing rights, and that the application should be and is hereby approved.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized location of the place of use shall be:

Sec.	Twp.	Range	NE¼				NW¼				SW¼				SE¼				TOTAL ACRES
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼

a total of 620.50 acres in Township 1 South, Range 19 West, Phillips County, Kansas,

located substantially as shown on the map accompanying the application to change the place of use.

All diversion works shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

The water right owner shall properly install an acceptable water meter on the diversion works authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meter has been completed. The water right owner shall maintain the water meter in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. The water right owner shall also report the reading of said water meter and the total quantity of water diverted annually to the Chief Engineer. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

In all other respects, the Certificate of Appropriation issued pursuant to Approval of Application, File No. 17,871, for permit to appropriate water for beneficial use, is as stated and set forth in the Certificate of Appropriation dated July 18, 1988, as modified and amended by the aforementioned orders.

RIGHT TO A HEARING AND TO ADMINISTRATIVE REVIEW

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may:

- 1) request an evidentiary hearing before the Chief Engineer, or
- 2) request administrative review by the Secretary of Agriculture.

Failure to request an evidentiary hearing before the Chief Engineer does not preclude your right to administrative review by the Secretary.

To obtain an evidentiary hearing before the Chief Engineer, a written request for hearing must be filed within 15 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 18 days after this Order was mailed to you), with the Kansas Department of Agriculture, Attn: Legal Section, 1320 Research Park Drive, Manhattan, Kansas 66502, or by FAX (785) 564-6777.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for review may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. The petition must be filed within 30 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 33 days after this Order was mailed to you), and be filed with the Secretary of Agriculture, Attn: Legal Division, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, or by FAX (785) 564-6777.

If neither a request for an evidentiary hearing nor a petition for administrative review is filed as set forth above, then this Order shall be effective and become a final agency action as defined in K.S.A. 77-607(b). Failure to timely request either an evidentiary hearing or administrative review may preclude further judicial review under the Kansas Judicial Review Act.

Any request for hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564 - 6777.

Ordered this 30th day of April, 2018, in Topeka, Shawnee County, Kansas.

Perpetual Water, Gas and Electric underground lines only easements for Old Stone Pork LLC, Granite Bottoms, Craig and Genine Ingram, Nelson Farms Inc.

It is agreed by all parties that there are numerous gas lines, electricity lines, waste water, stock water and irrigation lines that cross the properties of Old Stone Pork LLC, Nelson Farms Inc., and Craig and Genine Ingram. At all times the party that owns their respective lines has a 20 foot easement on either side of the lines to maintain, replace or repair these lines and will pay for damages to the crops and other lines that may be damaged for such activities to the respective land owners satisfaction by acres damaged times actual crop production times the commodity price or contracted price at time of harvest at the impacted parties discretion. Failure of liable party to make payment by the end of the year the damages ocured will be grounds for dismissal of this perpetual easement agreement to that party. The impacted party will send by certified mail to the liable party stating you have ten days plus 20% to make payment or you will be dismissed from the agreement. These properties are located in Sections 5,7,8,17 and 18 of Twp. 1 Range 19 West of the 6th Principle Meridian line Phillips County, Kansas.

It is also agreed that many water rights may have a comingling affect by being pumped into lagoons but in no way will any water rights be jeopardized by the comingling and no one can claim any part of any other persons water rights now or in the future that is associated with either Old Stone Pork LLC, Granite Bottoms, Nelson Farms Inc. and Craig and Genine Ingram.

This agreement will survive any transfers, assigns or successors in the future.

WATER RESOURCES RECEIVED

JAN 18 2018

KS DEPT OF AGRICULTURE **SCANNED**

12. The presently authorized use of water is for IRR purposes.
It is proposed that the use be changed to no change requested purposes.

13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.
The place of use is being modified to allow the pumping of freshwater into the effluent lagoons of a new hog facility. A complete overlap with file nos. 11424, 19478, 20824, 29620, 33786, 36663, 36740, & 36740 will allow the effluent to be spread out on a total of 620.5 acres.

(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to _____ (acre-feet or million gallons).

15. It is requested that the maximum rate of diversion of water be reduced to _____ gallons per minute (_____ c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 (www.usgs.gov). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.

- a. If a change in the location of the point(s) of diversion is proposed, show:
 - 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
 - 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
 - 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.
- b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

No change in source of supply. No impairment will occur.

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

All regs met.

KS DEPT OF AGRICULTURE

Any use of water that is not as authorized by the water right or permit to authorize water before the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

Dated at Ray Island, Kansas, this 12 day of June, 2018.

RE: File No 17871

Dear Sir or Madam:

An application for approval of the Chief Engineer to change the following condition or conditions of the file number referred to above has been received:

- place of use PU
- point of diversion
- use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore, to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. You will be contacted regarding this application as soon as it has been examined.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water prior to approval of the application is unlawful. You should not proceed and divert water as indicated by your plans in your application for a change for this file until you receive approval for this change from the Chief Engineer. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor...

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,
