Additionally, as discussed in the water commissioners meeting, the existing file limitation on the irrigation portion of File No. 4,304 will be modified from 123 acre-feet when combined with File Nos. PL 016 and 3,130 to 105.7 acre-feet when combined with File Nos. PL 016 and 3,130 as long as dual use occurs under File No. 4,304 so as not to increase the consumptive use of the file. If dual use stockwatering no longer occurs under File No. 4,304 then the limitation reverts back to the 123 acre-feet quantity as stated in the July 21, 2008 change approval.

File No. 7,947- File No. 7,947 is presently authorized assigned rates and quantities to two wells for irrigation use – WRIS Well ID 26 (1359'N,1923'W) in Section 33 is authorized 15 AF and 660 g.p.m., and overlaps File No. 1,970; and WRIS Well ID 13 (2481'N 3950'W) is authorized 107 AF and 750 g.p.m. in Section 34, and overlaps File No. 35,649. Paragraph No. 13 of the application indicates only WRIS Well ID 13 will be converted to dual irrigation and stockwatering use, so that 91.92 acre-feet will be authorized for dual irrigation/stockwatering use from the well. No changes proposed for WRIS Well ID 26.

File No. 8,203- File No. 8,203 is presently authorized 31 acre-feet of groundwater and a limited rate of 720 g.p.m. for irrigation use on 765 acres from one well. The well is overlapped by File No. 4,005. Paragraph No. 13 of the application indicates that 26.63 acre-feet of water can be authorized for dual irrigation/stockwatering use.

File No. 26,865- File No. 26,865 is presently authorized 60 acre-feet of groundwater for irrigation use on 765 acres from one well. The well has no overlaps. Paragraph No. 13 of the application indicates that 51.54 acre-feet of water can be authorized for dual irrigation/stockwatering use.

File No. 35,648- File No. 35,648 is presently authorized 21 acre-feet of groundwater for irrigation use on 765 acres from one well. The well overlaps File Nos. 37,191 and 37,269.03. Paragraph No. 13 of the application indicates that 18.04 acre-feet of water can be authorized for dual irrigation/stockwatering use. No changes to the 857.35 acre-feet limitation.

The applicant proposes a complete overlap in all of the stockwatering places of use, including the dual use permits, to pump stock water to a tower where it can then be distributed to any of the cattle feedlots or hog facilities. In a phone conversation dated February 21, 2018, Kelly indicated that the quantity requested for stockwatering use is justified since the applicant is expanding their operation.

The proposed irrigation place of use will be reduced to 726.5 acres in Sections 28, 33 and 34, Township 1 South, and Section 4, Township 2 South, all in Range 20 West, Phillips County. The irrigation place of use will be authorized by File Nos. PL 016 and PL 017-D2; 219; 1,970; 3,130; 3,688; 4,005; 4,304, 7,947; 8,203; 26,865; 27,754; 30,902; 31,484 and 35,648.

The proposed stockwatering place of use will be authorized by File Nos. 4,005; 4,304; 5,069; 7,947; 8,203; 26,865; 35,648; 35,649; 37,191; 37,269.01, 37,269.02 and 37,269.03 and described as: the Southwest Quarter (SW $\frac{1}{4}$ ) and the West Half of the Southeast Quarter (W $\frac{1}{2}$  SE $\frac{1}{4}$ ) of Section 33, the West Half of the Southwest Quarter (W $\frac{1}{2}$  SW $\frac{1}{4}$ ) and near the center of Section 34, both sections in Township 1 South; and the South Half of the Northwest Quarter (S $\frac{1}{2}$  NW $\frac{1}{4}$ ) of Section 3, and the East Half (E $\frac{1}{2}$ ) of Section 4, both sections in Township 2 South, the entire place of use in Range 20 West, Phillips County.

The referenced change in place of use application and reduction requests were filed with the dual use change applications for File Nos. 4,005; 4,304; 7,947; 8,203; 26,865 and 35,648 with the goal of reducing the irrigation place of use from 775 acres to 726.5 acres in the above described location. No changes to any Almena limitations however, the limitation on File No. 3,130 limiting the file to 123 acre-feet when combined with File No. PL 016 will be modified to 105.7 acre-feet as long as dual use stockwatering occurs under File Nos. 4,304. If dual use stockwatering ceases under File No. 4,304 then the limitation for File No. 3,130 will revert to 123 acre-feet when combined with PL 016. The purpose of this temporary modification to the limitation is to prevent an increase in the consumptive use of File Nos. PL 016, 3,130 and 4,304, which shared an incomplete overlap in acres during perfection (see David L Means April 13, 2016 memorandum to the files with map for further explanation). No changes to the industrial use under File No. 30,902.

Change in PU File Nos. 5,069; 35,649; 37,191; 37,269.01; 37,269.02 and 37,269.03 -all stockwatering files

File No. 35,649 is authorized stockwatering use at a hog operation located near the center of Section 34, Township 1 South, Range 20 West, Phillips County-no current place of use overlaps. File Nos. 5,069; 37,191; 37,269.01; 37,269.02 and 37,269.03 all overlap the stockwatering place of use of File No. 4,304 and the current place of use is in the Southwest Quarter (SW $\frac{1}{4}$ ) of Section 33 and the West Half of the Southwest Quarter (W $\frac{1}{2}$  SW $\frac{1}{4}$ ) of Section 34, both in Township 1 South, and the Southwest Quarter of the Northwest Quarter (SW $\frac{1}{4}$  NW $\frac{1}{4}$ ) of Section 3 and the Northeast Quarter (NE $\frac{1}{4}$ ) of Section 4, both in Township 2 South, all in Range 20 West, Phillips County. As previously mentioned, the proposed stockwatering place of use will be authorized by File Nos. 4,005; 4,304; 5,069; 7,947; 8,203; 26,865; 35,648; 35,649; 37,191; 37,269.01, 37,269.02 and 37,269.03 at the above referenced proposed location.

Nearby water right owners identified on the map or in WRIS within one half-mile of the authorized points of diversion of all of the above referenced change applications were notified of the proposed changes by letter dated March 6, 2018 in order to comply with K.S.A. 82a 1906. The nearby well owners within one-half mile of the proposed well for File No. 4,304 were given 15 days for comments; no written responses were received.

In an e-mail dated April 26, 2018, Kelly Stewart, Water Commissioner of the Stockton Field Office, recommended approval of the applications.

Water flow meters are required and separate meters will be required for the dual use. Check valves are required if any chemical or foreign substance is injected into the water through the diversion works.

Dear Mr. Nelson:

Enclosed are the orders executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the applications for change under the above referenced file numbers.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in these approvals for change. A condition of the approvals is that acceptable water flow meters must be installed so that both irrigation and stockwatering uses can be metered independent of each other. Please return the required notification of completion of the diversion works and/or installation of the required meters as soon as these actions are completed.

Also enclosed are Findings and Orders by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, which set forth the authorized place of use under File Nos. PL 016; PL 017-D2; 219; 1,970; 3,130; 27,754; 30,902 and 31,484.

Please be reminded that reports of water usage must be submitted to this office annually. Records indicating the amount of water used should be furnished to the Chief Engineer by March 1 following the end of the previous calendar year so that the continued use of water becomes a matter of record in this office.

Since these orders modify the original documents referred to above, they should be recorded with the Register of Deeds as other instruments affecting real estate.

If you have any questions, please contact this office. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

This order effectively limits the authorized quantity of water to 26.63 acre-feet (8.68 million gallons) per calendar year for both stockwatering and irrigation uses combined. That the limitation on the quantity of water shall exist until such a time that the quantity of water for stockwatering use authorized by this approval is no longer required.

The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

The water right owner shall properly install a separate acceptable water meter for each use made of water for the diversion works authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. **RIGHT TO A HEARING AND TO ADMINISTRATIVE REVIEW**

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may:

- 1) request an evidentiary hearing before the Chief Engineer, or
- 2) request administrative review by the Secretary of Agriculture.

Failure to request an evidentiary hearing before the Chief Engineer does not preclude your right to administrative review by the Secretary.

To obtain an evidentiary hearing before the Chief Engineer, a written request for hearing must be filed within 15 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 18 days after this Order was mailed to you), with the Kansas Department of Agriculture, Attn: Legal Section, 1320 Research Park Drive, Manhattan, Kansas 66502, or by FAX (785) 564-6777.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for review may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. 12. The presently authorized use of water is for IRR \_\_\_\_\_ purposes.

It is proposed that the use be changed to IRR & STK purposes.

13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.

The maximum annual quantity that will be proposed to be used for IRR and STK will be the total quantity calculated by K.A.R. 5-5-9(a)(1). The return flow factor for Phillips County is 14.1%. This water right authorizes 31 AF for IRR.

31 AF x 14.1% = 4.37 AF    31 AF - 4.37 AF = 26.63 AF for dual use (IRR & STK).

\_\_\_\_\_  
\_\_\_\_\_  
(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to \_\_\_\_\_ (acre-feet or million gallons).

15. It is requested that the maximum rate of diversion of water be reduced to \_\_\_\_\_ gallons per minute (\_\_\_\_\_ c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 ([www.usgs.gov](http://www.usgs.gov)). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.

a. If a change in the location of the point(s) of diversion is proposed, show:

- 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
- 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
- 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.

b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

No change in source of supply. Place of use will be modified on all corresponding files to cover all the places water will be used for stockwater and irrigation.

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

RE: File No 8203

**FILE COPY**

Dear Sir or Madam:

An application for approval of the Chief Engineer to change the following condition or conditions of the file number referred to above has been received:

- place of use      PU/UMW
- point of diversion
- use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore, to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. You will be contacted regarding this application as soon as it has been examined.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water prior to approval of the application is unlawful. You should not proceed and divert water as indicated by your plans in your application for a change for this file until you receive approval for this change from the Chief Engineer. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

**Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.**

**(b) (1) The violation of any provision of this section by any person is a class C misdemeanor...**

**A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.**

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

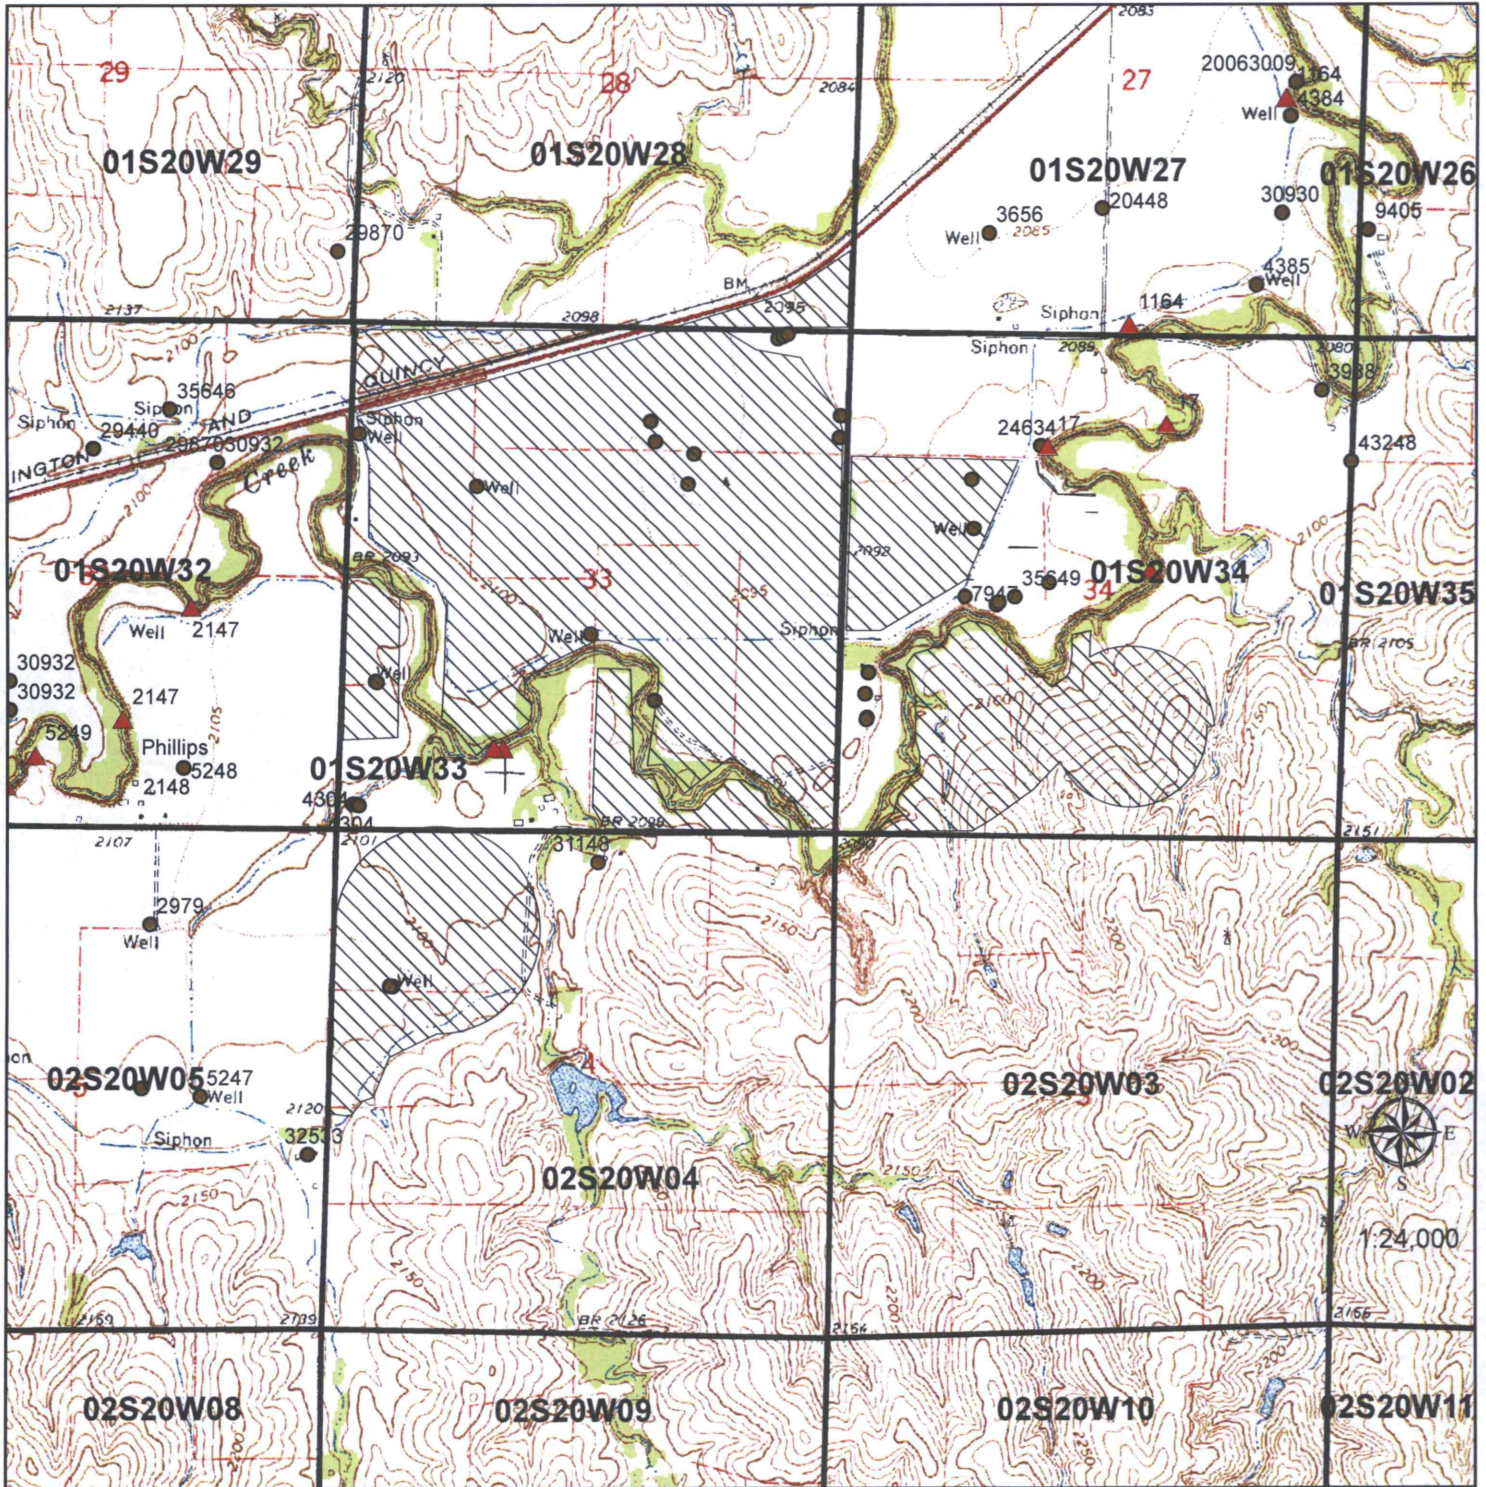

Sincerely,
