Any use of water that is not as authorized by the water right or permit to authorize water before the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executorix, conservator), it will be necessary to attach proper documents showing such authority.

Re: Water Right, File Nos. 20,824; 35,128.01 & Term Permit Application

Dear Mr. Nelson:

Per your recent conversations with this office regarding the referenced files, enclosed are three (3) partially completed forms. Please review each carefully and make any necessary corrections. All three should be submitted to the Manhattan, Kansas, headquarters address indicated, along with the required fees for processing payable by check to the Kansas Department of Agriculture.

<u>File 20,824</u>: Application for change in point of diversion. As completed, this application proposes to change from the three wells with individual rates and quantities currently authorized to a battery of three (3) wells with a total rate and quantity. A notarized signature is required on page 6, and the map on the final page should be reviewed and signed. A processing fee of \$100 is required.

<u>File 35,128.01</u>: Voluntary dismissal. This form pertains to the battery of two (2) wells authorized for stock use in Section 33, 1 South, Range 20 West, in Phillips County, Kansas. As completed, it indicates you wish to retain the wells for domestic use only. The notarized signature of all owners or an authorized agent is required. There is no fee associated.

<u>Term Permit application</u>: this application proposes an additional 6 acre-feet per year for 2020 and 2021 on the well authorized by File 49,423 (new truck wash). This will cover any over-pump quantity for 2020, (3.25 acre-feet as of September 23, 2020) and allow sufficient time for a change application to be filed to accommodate the additional quantity needed for industrial use at this site. A processing fee of \$200 is required.

If you have any questions or concerns, please contact this office at (785) 425-6787.

Sincerely,

Jodie K. Barker
