5.	The	location of the proposed wells, pump sites or other works for diversion of water is:												
	Not	e: For the application to be accepted, the point of diversion location must be described to at least a 10 acre tract, unless you specifically request a 60 day period of time in which to locate the site within a specifically described, minimal legal quarter section of land.												
	(A)	One in the <u>SE</u> quarter of the <u>SW</u> quarter of the <u>SE</u> quarter of Section <u>24</u> , more particularly described as												
		being near a point 355 feet North and 1330 feet West of the Southeast corner of said section, in Township 4												
		South, Range 42 WEST, Chevenne County, Kansas.												
	(B)	One in the quarter of the quarter of the quarter of Section, more particularly												
		described as being near a point feet North and feet West of the Southeast corner of said												
		section, in Township South, Range East/West (circle one), County, Kansas.												
	(C)	One in the quarter of the quarter of the quarter of Section, more particularly												
		described as being near a point feet North and feet West of the Southeast corner of said												
		section, in Township South, Range East/West (circle one), County, Kansas.												
	(D)	One in the quarter of the quarter of the quarter of Section, more particularly												
	(D)	described as being near a point feet North and feet West of the Southeast corner of said												
	If the	section, in Township South, Range East/West (circle one), County, Kansas.												
	If the source of supply is groundwater, a separate application shall be filed for each proposed well or battery of wells, except that a single application may include up to four wells within a circle with a quarter (¼) mile radius in the same local source of supply which do not exceed a maximum diversion rate of 20 gallons per minute per well.													
	four not t	ttery of wells is defined as two or more wells connected to a common pump by a manifold; or not more than wells in the same local source of supply within a 300 foot radius circle which are being operated by pumps o exceed a total maximum diversion rate of 800 gallons per minute and which supply water to a common ibution system.												
6.	The	The owner of the point of diversion, if other than the applicant is (please print):												
		ne as applicant												
		(name, address and telephone number)												
		(name, address and telephone number)												
	land	You must provide evidence of legal access to, or control of, the point of diversion from the landowner or the landowner's authorized representative. Provide a copy of a recorded deed, lease, easement or other document with this application. In lieu thereof, you may sign the following sworn statement:												
		I have legal access to, or control of, the point of diversion described in this application from the landowner or the landowner's authorized representative. I declare under penalty of perjury that the foregoing is true and correct.												
		foregoing is true and correct. Executed on/ - 3/, 20_23												
	Fail	Applicant's Signature applicant must provide the required information or signature irrespective of whether they are the landowner. Use to complete this portion of the application will cause it to be unacceptable for filing and the application will esturned to the applicant.												
7.	The	proposed project for diversion of water will consist of 1 groundwater pit												
		(number of wells, pumps or dams, etc.)												
	and	WILL completed (by) as soon as approved (Month/Day/Year - each was or will be completed)WATER RESOURCES												

6.

8.

The first actual application of water for the proposed beneficial use was or is estimated to be upon approval. (Mo/Day/Year) FEB 0 6 2023

File No.

9.	Will pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion works? ☐ Yes ☐ No ☐ If "yes", a check valve shall be required. All chemigation safety requirements must be met including a chemigation permit and reporting requirements.
10.	If you are planning to impound water, please contact the Division of Water Resources for assistance, prior to submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir.
	Have you also made an application for a permit for construction of this dam and reservoir with the Division of Water Resources? ☐ Yes ☐ No
	If yes, show the Water Structures permit number here NA
	If no, explain here why a Water Structures permit is not required No reservoir involved
11.	The application <u>must</u> be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plat showing the following information. On the topographic map, aerial photograph, or plat, identify the center of the section, the section lines or the section corners and show the appropriate section, township and range numbers. Also, please show the following information:
	(a) The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North-South distance and the East-West distance from a section line or southeast corner of section.
	(b) If the application is for groundwater, please show the location of any existing water wells of any kind within ½ mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within ½ mile, please advise us.
	(c) If the application is for surface water, the names and addresses of the landowner(s) ½ mile downstream and ½ mile upstream from your property lines must be shown.
	(d) The location of the proposed place of use should be shown by crosshatching on the topographic map, aerial photograph or plat.
	(e) Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.
	A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence, Kansas 66047.
12.	List any application, appropriation of water, water right, or vested right file number that covers the same diversion points or any of the same place of use described in this application. Also list any other recent modifications made to existing permits or water rights in conjunction with the filing of this application.
	The approval of this application is contingent upon the voluntary dismissal of Water Right, File No. 28,506
	that is located within the same two mile circle. Otherwise, it will not overlap with any other water right.
	The dismissal of File No. 28,506 is intended to serve as an "offset" to justify the approval of this application.
	File No. 28.506 should not be dismissed if this application cannot be approved.

FEE SCHEDULE

1. The fee for an application for a permit to appropriate water for beneficial use, except for domestic use, shall be (see paragraph No. 2 below if requesting storage):

ACRE-FEET	FEE
0-100	\$200.00
101-320	\$300.00
More than 320	\$300.00 plus \$20.00 for each additional 100 acre-feet or any part thereof.

2. The fee for an application in which storage is requested, except for domestic use, shall be:

ACRE-FEET	FEE
0-250 More than 250	\$200.00 \$200.00 plus \$20.00 for each additional 250
Wore than 250	acre-feet of storage or any part thereof.

Note: If an application requests both direct use *and* storage, the fee charged shall be as determined under No. 1 or No. 2 above, whichever is greater, but not both fees.

3. The fee for an application for a permit to appropriate water for water power or dewatering purposes shall be \$100.00 plus \$200.00 for each 100 cubic feet per second, or part thereof, of the diversion rate requested.

Note: The applicant shall notify the Chief Engineer and pay the statutorily required field inspection fee of \$400.00 when construction of the works for diversion has been completed, except that for applications filed on or after July 1, 2009, for works constructed for sediment control use and for evaporation from a groundwater pit for industrial use shall be accompanied by a field inspection fee of \$200.00.

MAKE CHECKS PAYABLE TO THE KANSAS DEPARTMENT OF AGRICULTURE

ATTENTION

A Water Conservation Plan may be required per K.S.A. 82a-733. A statement that your application for permit to appropriate water may be subject to the minimum desirable streamflow requirements per K.S.A. 82a-703a, b, and c may also be required from you. After the Division of Water Resources has had the opportunity to review your application, you will be notified whether or not you will need to submit a Water Conservation Plan. You also may be required to install a water flow meter or water stage measuring device on your diversion works prior to diverting water. There may be other special conditions or Groundwater Management District regulations that you will need to comply with if this application is approved.

CONVERSION FACTORS

1 acre-foot equals 325,851 gallons

Re:

Application

File No.

Minimum Desirable Streamflow

I understand that a Minimum Desirable Streamflow requirement has been established by the legislature for the source of supply to which the above referenced application applies.

I understand that diversion of water pursuant to this application will be subject to regulation any time Minimum Desirable Streamflow requirements are not being met.

I also understand that if this application is approved, there could be times, as determined by the Division of Water Resources, when I would not be allowed to divert water. I realize that this could affect the economics of my decision to appropriate water.

I am aware of the above factors, and with the knowledge thereof, request that the Division of Water Resources proceed with processing and approval, if possible, of the above referenced application.

Re:

Water Right, File No. 28,506 & New Application

Dear Mr. Walz:

As a follow-up to our telephone conversations, I am enclosing the paperwork you need to dismiss Water Right, File No. 28,506 and to apply for a new permit. I have highlighted the areas needing your attention in yellow.

On the new application form, you will need to sign paragraphs nos. 6 and 16. You will need to write a check for \$200 to the Ks. Dept. of Agriculture. On the accompanying topographic map, plot all wells that are located within 1/2 mile of your proposed diverstion point (small pit). Provide the names and addresses of the owners of these wells. Once completed, sign and date the map on the line provided.

You will need to provide your notarized signature on the Minimum Desirable Streamflow (MDS) acknowledgment form. On the voluntary dismissal form for Water Right, File No. 28,506, you and Mary will need to provide your notarized signatures.

The completed forms and check should be mailed to Manhattan for processing. If you have any questions, please let me know.

Sincerely,

Kelly C. Stewart Water Commissioner
