Comments: **INCOMPLETE OVERLAPS IN PLACE OF USE**

KANSAS DEPARTMENT OF AGRICULTURE
Division of Water Resources
MEMORANDUM

TO: Files
FROM: Brent A. Turney

DATE: December 8, 2016
RE: Water Right
File Nos. 27,121; 34,520 and
35,749

Robert J. and Deborah A. Wietharn Trusts, etal, water right owners, filed applications for approval to change the authorized point of diversion and place of use for Water Right, File Nos. 27,121; 34,520 and 35,749, all authorized surface water from the Republican River for irrigation use.

The referenced files do not appear abandoned as per K.S.A. 82a-718.

File Nos. 27,121; 34,520 and 35,749, authorized 536 acres, form a complete overlap with each other in place of use and point of diversion and incompletely overlap the place of use with several other water rights. The referenced changes in place of use propose to add the 155 acre place of use now authorized by Appropriation of Water, File No. 49,508 so that File Nos. 27,121; 34,520 and 35,749 will be authorized a total of 691 acres. A Findings and Order will be drafted for File No. 49,508 limiting it to 186 acre-feet when combined with File Nos. 27,121; 34,520 and 35,749 for irrigation on the land (1.2 af/ac). Incomplete overlaps in the place of use will remain.

The water right owners also propose to add a pumpsite now authorized by Appropriation of Water, File No. 49,509 to File Nos. 27,121; 34,520 and 35,749. The proposed existing pumpsite, located approximately 1.89 miles downstream from the closest authorized pumpsite, will move senior priorities downstream of junior priority pumpsites not under common ownership – File Nos. 44,867/45,544; 46,836/47,823/49,154 and 47,748. Paragraph No. 3 indicates the purpose of the change is to allow a senior priority pumpsite to irrigate the place of use currently authorized by File No. 49,508.

Notification letters to upstream and downstream landowners were sent on October 13, 2016, referencing the change applications; no responses of any kind were received in this office. However, Katherine Tietsort, Water Commissioner of Topeka Field Office, indicated in a November 14, 2016 e-mail that the field office received a call of concern from an adjacent owner but after they explained the unique conditions on this stretch of the Republican River, and how the project would be set up and how it would pump, he apparently agreed that it would not affect his water rights and chose not to provide written comment.

As indicated in an October 12, 2016 e-mail from Katie, the referenced change applications have been discussed with Lane Letourneau, Water Appropriation Program Manager, and they agreed it met the same criteria as a series of change applications for Wietharns approved on July 31, 2014 - the south pumpsite cannot physically serve land up north, the same local supply is not changed, there are no intervening perennially flowing streams, and no issues with moving a senior pumpsite below junior pumpsites since all juniors require permission and only obtain permission when the flow is sufficient for all juniors. Katie further indicated in the November 14, 2016 e-mail that the Wietharns are essentially requesting to mitigate prolonged MDS administration of the Republican River on their property. By moving/adding the downstream pumpsite, they can choose which properties/crops to pump to in the event of prolonged administration on the junior files. Katie further states that the referenced applications comply with K.A.R. 5-5-11 and will not increase the consumptive use of the water rights.

In the November 14, 2016 e-mail Katie indicated she recommends approval of the package and that this request will not physically create any impairment because the majority of the rights are junior to MDS, so when the proposed pumpsite is operated under the senior right, those rights will be under administration just like the junior right on this property. Where the senior right pumps from is not an issue because the quantity restricts the overall pumping under the senior files.

Water flow meters are required. Check valves are required if any chemical or foreign substance is injected into the water through the diversion works.

FILE COPY

RE: Water Right, File Nos. 27,121; 34,520 and 35,749

Dear Mr. and Mrs. Wietharn:

Enclosed are the orders executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the applications for change under the above referenced file numbers.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in these approvals for change. A condition of these approvals is that an acceptable water flow meter must be installed on the diversion works authorized under the referenced file numbers. Please return the required notification of completion of the diversion works and installation of the required meter as soon as these actions are completed.

Since these orders modify the original documents referred to they should be recorded with the Register of Deeds as other instruments affecting real estate.

If you have any questions, please contact this office. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

Brent A. Turney P. G.

**APPROVAL OF APPLICATION
FOR
CHANGE IN PLACE OF USE
AND POINT OF DIVERSION
WATER RIGHT
FILE NO. 27,121**

FILE COPY

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of Robert J. and Deborah A. Wietharn, on behalf of Robert J. and Deborah A. Wietharn Trusts, and Robert J. Wietharn, Member Manager, on behalf of Wietharn Investments, L.L.C., 1925 Kiowa Road, Clay Center, Kansas, 67432, and Galen F. and Clela Z. Wietharn, on behalf of Galen F. and Clela Wietharn Trusts, 211 Webster Street, Clay Center, Kansas, 67432, received in this office on August 10, 2016, for approval of a change in the location of the place of use and point of diversion under the certificate of appropriation issued pursuant to the application for permit to appropriate water for beneficial use, as modified and amended by the Orders of the Chief Engineer dated February 11, 1986, December 22, 1988, and February 5, 1990, approving the applications to change the place of use, by the Findings and Order of the Chief Engineer dated July 28, 2004 better defining the authorized point of diversion, and by the Order of the Chief Engineer dated July 31, 2014, approving the application to change the place of use and point of diversion, finds that the changes are reasonable and will not impair existing rights, that the changes relate to the same local source of supply and that the application should be and is hereby approved.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized location of the place of use shall be:

Sec.	Twp.	Range	NE¼				NW¼				SW¼				SE¼				TOTAL ACRES
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼

29	7S	2E			34.00	37.00								33.00	40.00	20.00	12.00		176.00
36	7S	2E								40.00	40.00	40.00	40.00						160.00
2	8S	2E	Lot 1 35.00	Lot 2 32.00	31.00	35.00	Lot 3 8.00												141.00
10	8S	2E												36.00	39.00	40.00	40.00		155.00

a total of 691.00 acres in Clay County, Kansas, and the authorized locations of the points of diversion shall be:

one(1) pumpsite located in Lot 4 of Section 28, more particularly described as being near a point 4,227 feet North and 4,707 feet West of the Southeast corner of said section, in Township 7 South,

one(1) pumpsite located in Lot 2 of Section 2, more particularly described as being near a point 4,118 feet North and 2,602 feet West of the Southeast corner of said section, in Township 8 South, and

one(1) pumpsite located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$) of Section 14, more particularly described as being near a point 5,203 feet North and 2,821 feet West of the Southeast corner of said section, in Township 8 South,

all in Range 2 East, Clay County, Kansas,

located substantially as shown on the map accompanying the application to change the point of diversion and place of use.

Installation of the works for diversion of water shall be completed on or before December 31, 2017, or within any authorized extension of time. The water right owner shall notify the Chief Engineer of the Division of Water Resources, Kansas Department of Agriculture, when construction of the works for diversion has been completed.

All diversion works into which any type of chemical or other foreign substance will be injected into the water pumped from the diversion works shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

The water right owner shall properly install an acceptable water meter on the diversion works authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meter has been completed. The water right owner shall maintain the water meter in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. The water right owner shall also report the reading of said water meter and the total quantity of water diverted annually to the Chief Engineer. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

In all other respects, the Certificate of Appropriation issued pursuant to Approval of Application, File No. 27,121, for permit to appropriate water for beneficial use, is as stated and set forth in the Certificate of Appropriation dated December 3, 1980, as modified and amended by the aforementioned orders.

This Order shall become a final agency action, as defined by K.S.A. 77-607(b), without further notice to the parties, if a request for hearing or a petition for administrative review is not filed as set forth below.

Request for Hearing. According to K.A.R. 5-14-3(c), any party who desires a hearing must submit a request within 15 days after the date shown on the Certificate of Service attached to this Order. Filing a request for a hearing will give you the opportunity to submit additional facts for consideration, contest any findings made by the Chief Engineer or present any other information you believe should be considered in this matter. A timely-filed request for hearing will stay the deadline for requesting administrative review of this Order pending the outcome of the hearing.

Petition for Review. Any person aggrieved by this Summary Order may petition for administrative review, pursuant to K.S.A. 82a-708b(a) and K.S.A. 82a-1901(a). The petition must be filed within 30 days after the date shown on the Certificate of Service attached to this Order and must set forth the basis for the review, unless stayed by the timely filing of a request for hearing.

Any request for hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564 - 6777.

Ordered this 20th day of December, 2016, in Topeka, Shawnee County, Kansas.

12. The presently authorized use of water is for NO purposes.
It is proposed that the use be changed to CHANGE purposes.

13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.
All the land is currently authorized under various files!
new appraisal.

(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to _____ (acre-feet or million gallons).
15. It is requested that the maximum rate of diversion of water be reduced to _____ gallons per minute (_____ c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 (www.usgs.gov). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.

- ✓ a. If a change in the location of the point(s) of diversion is proposed, show:
 - ✓ 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
 - 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
 - 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.
- ✓ b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

Attached maps. Discussed w/ Lane to town area.

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

Meets all applicable rules & regulations

SCANNED

Any use of water that is not as authorized by the water right or permit to authorize water **before** the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

Dated at Clay Center, Kansas, this 8th day of August, 20 16.

Subject: **Re: Request for Recommendation Changes in PD PU File Nos. 27121,34520 & 35749**

Good Afternoon Richelle,

The Wietharn's are essentially requesting to mitigate prolonged MDS administration of the Republican River on their property. By moving/adding the downstream pump site, they can choose which properties/crops to pump to in the event of prolonged administration on the junior files. It is essentially a good business set up. As you mentioned we did previously approve a very similar set of change applications, which has allowed the senior water to be used on the "home place" properties. Bob is now asking to do the same on the south property he has acquired.

A couple things that have been specifically considered in these change package requests includes that this specific area and stretch of the Republican River has no intervening tributaries, which is pretty unique. Additionally, as you mention, there are a number of intervening water rights. However, this request will not physically create any impairment, because the majority of the rights are junior to MDS, so when this pump site is operated under the senior right, those rights will be under administration just like the junior right on this property. Where the senior right pumps from is not an issue because the quantity restricts the overall pumping under the senior files.

The TFO did field a call of concern from an adjacent owner, however after we explained the unique conditions on his stretch of the Republican River and how this was set up and how it would pump, he apparently agreed that it would not affect his water rights and chose not to provide written comment.

The TFO recommends approval of this package. Thank you for your significant work on this package.

Have a great day,
Katie

Hi Richelle,

I ran this package by Lane when Bob came to me with the request before it was drafted up in final form and went out and we agreed it met the same criteria as the package Wietharn did previously- Brent has all the file numbers for the references. It should be written up, processed and justified the exact same way.

- The incomplete overlap is justified by 5-5-11 because the south pumpsite cannot physically serve land up north.
- You guys can add whatever land limitations you wish.
- As I recall, the water right has been severed off the 2 acre tract owned by Cott. You can put that on your worksheet however you need to. The water right has no ownership by Cotts but they do own the two-acre tract. It doesn't matter how you guys want to put that in the computer it is clear in the hard files.
- The same local supply is not changed. There are no intervening perennially flowing streams.
- Nope. The senior files will keep on pumping and all the juniors require permission and only obtain permission when the flow is sufficient for all juniors. The proposed Republican Access District would make all this a non-issue too.

It is really just exactly like that last set of changes we did for Bob. You have a perfect example in those files so this should be smooth.

Thanks for working it up! I know Bob will appreciate it.

Katie

Subject: Applications to change the PD PU File Nos. 27121, 34520 and 35749 Wietharn

Hi Katie,

How's it going? Hey I have begun looking at the referenced changes and have some questions I thought I better clear with you before I proceed. As you probably recall, the package is proposing to add a pumpsite now authorized by File No. 49,509 and a place of use now authorized by File No. 49508 to File Nos. 27121; 34520 and 35749.

- It looks like the proposal will create an incomplete overlap in pu between File Nos. 49508 and File Nos. 27121; 34520 and 35749. What are the base acres for this package and are you comfortable that this complies with 5-5-11?
- I am thinking we will need to do an F&O on File No. 49,508 limiting it to 186 AF when combined with File Nos. 27121; 34520 and 35749 for irrigation on the land in 10-8-2E- do you agree?
- Do the Griffiths and Cotts still own that 2 acre overlap piece in the SW¼ NW¼ 28-7-2E as shown in WRIS, or did they sell it to Wietharn Investments, as indicated in Paragraph 4 A of the application? I didn't know if I was supposed to do an ownership change on that piece, or if I am supposed to get their signatures on the applications?
- Do you think the same local source of supply will not change?
- Do you think there are any issues with File Nos. 27121; 34520 and 35749 moving a pumpsite downstream of the junior priority pumpsites of File Nos. 44867/45544; 46836/47823/49154 and 47748, none under common ownership?

I know this is a complex project and do not want to add problems, so thought I better get your input. Thanks, as always, for your help!

RE: Water Right
File Nos. 27,121; 34,520 and 35,749

FILE COPY

Dear Sir or Madam:

This is to advise you that Robert J. and Deborah A. Wietharn Trusts, have filed applications for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, to change the point of diversion and place of use under the above referenced file numbers. The applications will create an overlap in the authorized place of use with Appropriation of Water, File No. 49,508 and point of diversion with Appropriation of Water, File No. 49,509. The applications for File Nos. 27,121; 34,520 and 35,749 propose the following change in point of diversion.

from: one (1) pumpsite located in Lot 4 of Section 28, more particularly described as being near a point 4,227 feet North and 4,707 feet West of the Southeast corner of said section, in Township 7 South, and

one (1) pumpsite located in Lot 2 of Section 2, more particularly described as being near a point 4,118 feet North and 2,602 feet West of the Southeast corner of said section, in Township 8 South,

both in Range 2 East, Clay County, Kansas,

to: one (1) pumpsite located in Lot 4 of Section 28, more particularly described as being near a point 4,227 feet North and 4,707 feet West of the Southeast corner of said section, in Township 7 South,

one (1) pumpsite located in Lot 2 of Section 2, more particularly described as being near a point 4,118 feet North and 2,602 feet West of the Southeast corner of said section, in Township 8 South, and

one (1) pumpsite located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE¹/₄ NE¹/₄ NW¹/₄) of Section 14, more particularly described as being near a point 5,203 feet North and 2,821 feet West of the Southeast corner of said section, in Township 8 South,

all in Range 2 East, Clay County, Kansas.

You are being notified of this proposed change in the point of diversion so that you may furnish this office such comments or other information you may desire to submit. Such comments or other information must be received in this office within 15 days from the date of this letter.

Effective July 1, 2016, Senate Bill No. 337 enacted by the Legislature of the State of Kansas requires the Division of Water Resources to notify all water right owners with a point of diversion within half a mile of a water right pending a request to change the water right. In order to comply with the statute, you are being notified of the above referenced applications for change.

RE: Water Right
File Nos. 27,121; 34,520 and 35,749

Dear Sir or Madam:

This is to advise you that Robert J. and Deborah A. Wietharn Trusts, have filed applications for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, to change the point of diversion and place of use under the above referenced file numbers. The applications will create an overlap in the authorized place of use with Appropriation of Water, File No. 49,508 and point of diversion with Appropriation of Water, File No. 49,509. The applications for File Nos. 27,121; 34,520 and 35,749 propose the following change in point of diversion.

from: one (1) pumpsite located in Lot 4 of Section 28, more particularly described as being near a point 4,227 feet North and 4,707 feet West of the Southeast corner of said section, in Township 7 South, and

one (1) pumpsite located in Lot 2 of Section 2, more particularly described as being near a point 4,118 feet North and 2,602 feet West of the Southeast corner of said section, in Township 8 South,

both in Range 2 East, Clay County, Kansas,

to: one (1) pumpsite located in Lot 4 of Section 28, more particularly described as being near a point 4,227 feet North and 4,707 feet West of the Southeast corner of said section, in Township 7 South,

one (1) pumpsite located in Lot 2 of Section 2, more particularly described as being near a point 4,118 feet North and 2,602 feet West of the Southeast corner of said section, in Township 8 South, and

one (1) pumpsite located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE¹/₄ NE¹/₄ NW¹/₄) of Section 14, more particularly described as being near a point 5,203 feet North and 2,821 feet West of the Southeast corner of said section, in Township 8 South,

all in Range 2 East, Clay County, Kansas.

You are being notified of this proposed change in the point of diversion so that you may furnish this office such comments or other information you may desire to submit. Such comments or other information must be received in this office within 15 days from the date of this letter.

Effective July 1, 2016, Senate Bill No. 337 enacted by the Legislature of the State of Kansas requires the Division of Water Resources to notify all water right owners with a point of diversion within half a mile of a water right pending a request to change the water right. In order to comply with the statute, you are being notified of the above referenced applications for change.

RE: File No. 27121

FILE COPY

Dear Sir or Madam:

An application for approval of the Chief Engineer to change the following condition or conditions of the file number referred to above has been received:

- place of use PD/PU
- point of diversion
- use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. You will be contacted regarding this application as soon as it has been examined.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water prior to approval of the application is unlawful. You should not proceed and divert water as indicated by your plans in your application for a change for this file until you receive approval for this change from the Chief Engineer. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor...

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

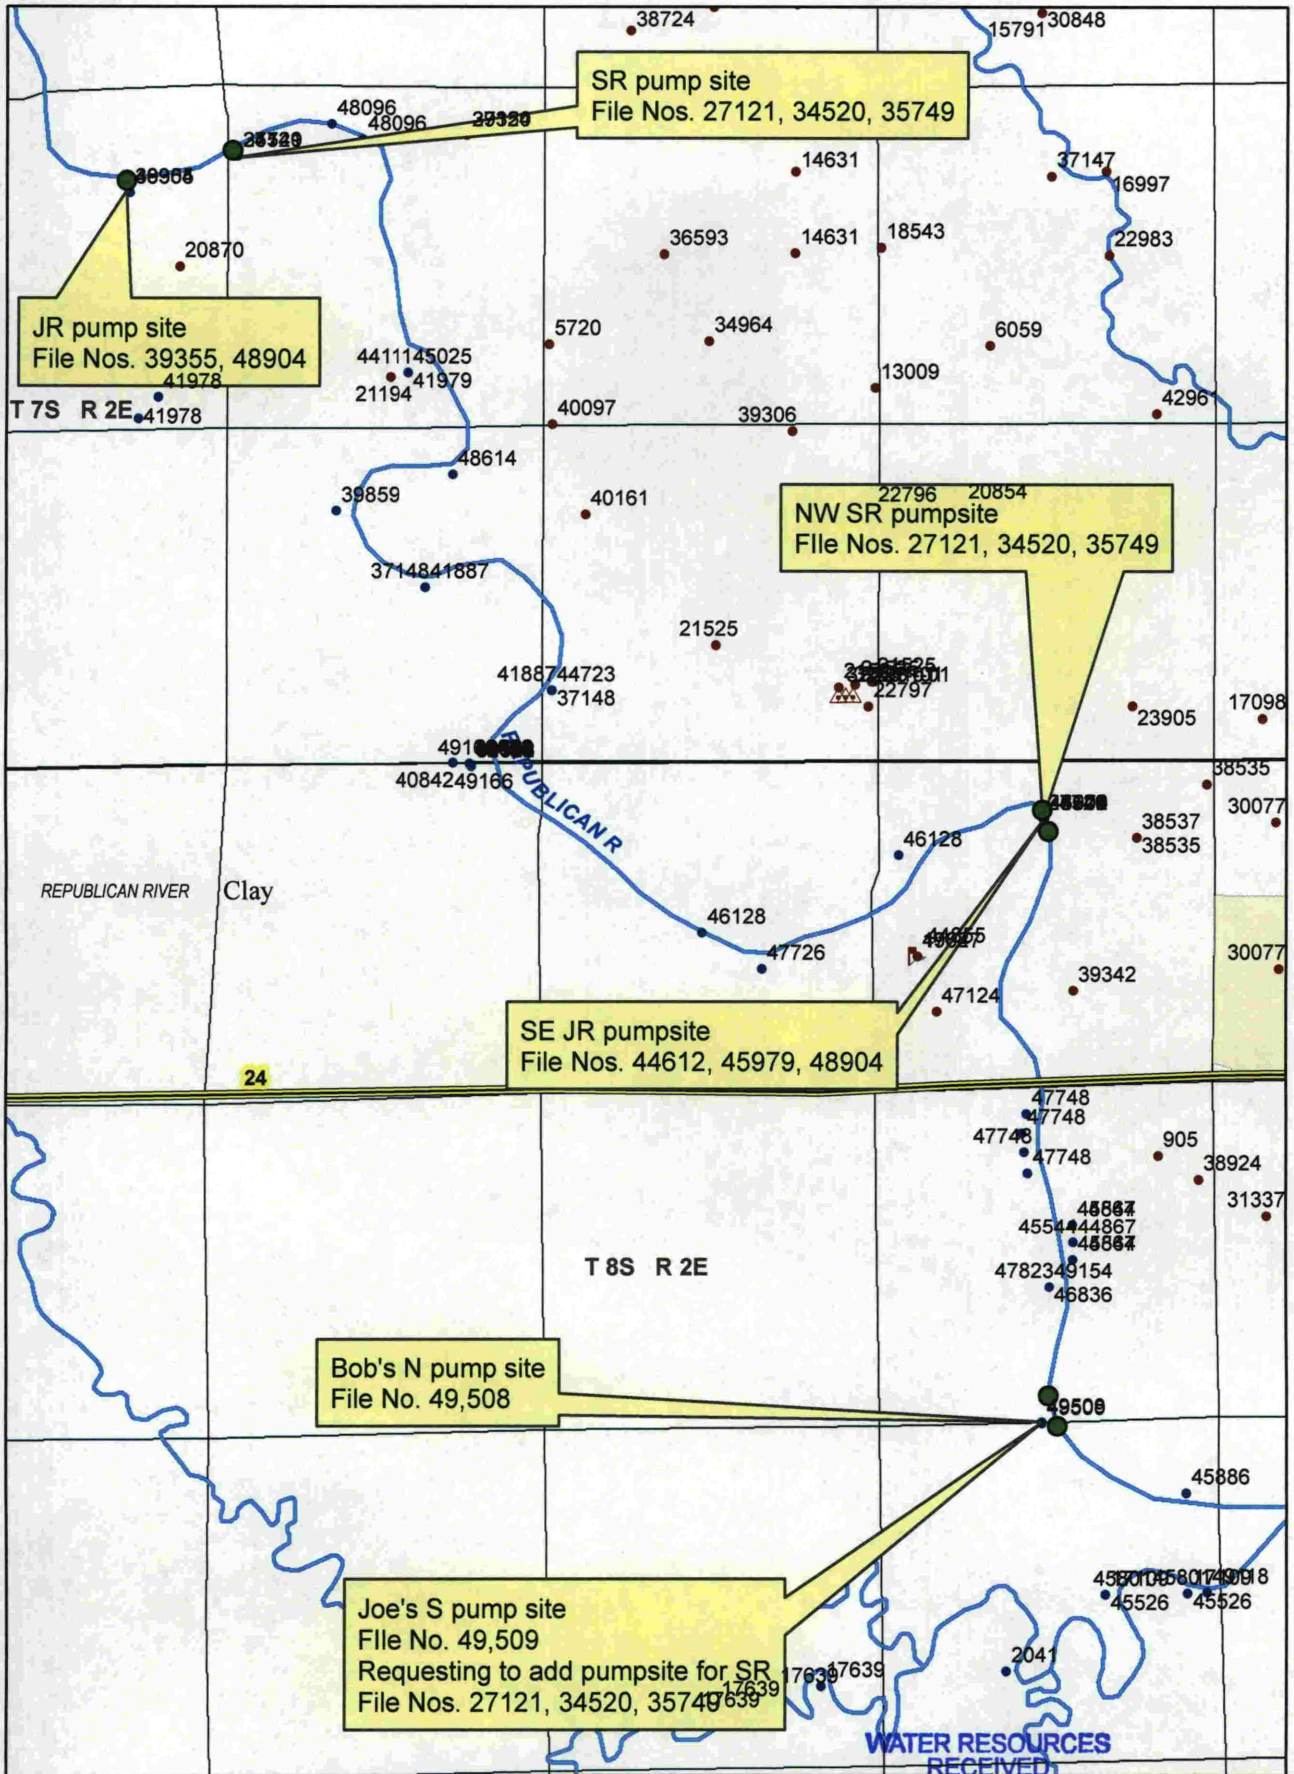

A handwritten signature in cursive script that reads "Brent A. Turney".
