5.	The location of the proposed wells, pump sites or other works for diversion of water is:												
	Note: For the application to be accepted, the point of diversion location must be described to at least a 10 acre tract, unless you specifically request a 60 day period of time in which to locate the site within a specifically described, minimal legal quarter section of land.												
	(A) One in the SE quarter of the MV quarter of the SW quarter of Section R , more particularly												
	described as being near a point 1536 feet North and 4402 feet West of the Southeast corner of said												
	section, in Township South, Range County, Kansas.												
	(B) One in the quarter of the quarter of the quarter of Section, more particularly												
	described as being near a point feet North and feet West of the Southeast corner of said												
	section, in Township South, Range East/West (circle one), County, Kansas.												
	(C) One in the quarter of the quarter of the quarter of Section, more particularly												
	described as being near a point feet North and feet West of the Southeast corner of said												
	section, in Township South, Range East/West (circle one), County, Kansas.												
	(D) One in the quarter of the quarter of the quarter of Section, more particularly												
	described as being near a point feet North and feet West of the Southeast corner of said												
	section, in Township South, Range East/West (circle one), County, Kansas.												
	If the source of supply is groundwater, a separate application shall be filed for each proposed well or battery of wells, except that a single application may include up to four wells within a circle with a quarter (¼) mile radius in the same local source of supply which do not exceed a maximum diversion rate of 20 gallons per minute per well												
	A battery of wells is defined as two or more wells connected to a common pump by a manifold; or not more than four wells in the same local source of supply within a 300 foot radius circle which are being operated by pumps not to exceed a total maximum diversion rate of 800 gallons per minute and which supply water to a common distribution system.												
6.	The owner of the point of diversion, if other than the applicant is (please print): Douglas i Jaryl Grimm 2991 Gold Finch Rd Hirwarks KS 66434 >85-547-2555 (name, address and telephone number)												
	(name, address and telephone number)												
	You must provide evidence of legal access to, or control of, the point of diversion from the landowner or the landowner's authorized representative. Provide a copy of a recorded deed, lease, easement or other document with this application. In lieu thereof, you may sign the following sworn statement:												
	I have legal access to, or control of, the point of diversion described in this application from the landowner or the landowner's authorized representative. I declare under penalty of perjury that the foregoing is true and correct.												
	Executed on 5/29, 20/8. Applicant's Signature												
	The applicant must provide the required information or signature irrespective of whether they are the landowner.												
	Failure to complete this portion of the application will cause it to be unacceptable for filing and the application will be returned to the applicant.												
7.	The proposed project for diversion of water will consist of												
	The proposed project for diversion of water will consist of												
8.	The first actual application of water for the proposed beneficial use was or is estimated to be 20/9 (Mo/Day/Year) Water Resources												
	Received												

MAY 31 2018

9.	Will pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion works?
	☐ Yes ☑ No If "yes", a check valve shall be required.
	All chemigation safety requirements must be met including a chemigation permit and reporting requirements.
10.	If you are planning to impound water, please contact the Division of Water Resources for assistance, prior to submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir.
	Have you also made an application for a permit for construction of this dam and reservoir with the Division of Water Resources? ☐ Yes ☐ No
	If yes, show the Water Structures permit number here
	If no, explain here why a Water Structures permit is not required
11.	The application <u>must</u> be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plat showing the following information. On the topographic map, aerial photograph, or plat, identify the center of the section, the section lines or the section corners and show the appropriate section, township and range numbers. Also, please show the following information:
	(a) The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North-South distance and the East-West distance from a section line or southeast corner of section.
	If the application is for groundwater, please show the location of any existing water wells of any kind within ½ mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within ½ mile, please advise us.
	(c) If the application is for surface water, the names and addresses of the landowner(s) ½ mile downstream and ½ mile upstream from your property lines must be shown. Same as File 48770
	(by The location of the proposed place of use should be shown by crosshatching on the topographic map, aerial photograph or plat.
	 (e) Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.
	A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence, Kansas 66047.
12.	List any application, appropriation of water, water right, or vested right file number that covers the same diversion points or any of the same place of use described in this application. Also list any other recent modifications made to existing permits or water rights in conjunction with the filing of this application.
	same point Dweston as file 48770 will be seprete meter.

GOVERNOR JEFF COLYER, M.D. JACKIE McClaskey, Secretary of Agriculture

June 6, 2018

GEORGE G DIETRICH & MARYANNE DIETRICH 2966 GOLDINCH RD HIAWATHA KS 66434

RE: Application File No. 50061

Dear Sir or Madam:

Your application for permit to appropriate water in 8-1S-16E in Brown County, was received and has been assigned the file number noted above.

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. Once review of your application has begun, we will contact you, if additional information is required.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water as proposed prior to approval of the application is unlawful. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, ... it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor . . .

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6637. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Kristen A. Baum
