FROM: Doug Schemm

RE: Application, File No. 50,096

Willow Lake Homes Association has filed the above-referenced new application to appropriate 20 acre-feet of surface water storage at a rate not to exceed natural flows of Blue River Trib 3 (Missouri) for recreational use in an existing reservoir. The application is designed to cover the indirect use of water (evaporation) from a reservoir located in the Southeast Quarter of Section 34, in Township 13 South, Range 25 East, Johnson County, Kansas. Based on information in the associated structures permit, the reservoir was built in 1960. The point of diversion represents the point at which the center of the dam intersects the stream, and a representative of the applicant (President) has signed the form stating they have access to this point of diversion. The reservoir is already permitted by the DWR Water Structures Program under File No. DJO-0083. DWR appropriation staff assiduously determined that this existing reservoir did not have the required appropriation permit, and assisted in bringing the applicant into compliance with regulations.

The requested quantity of 20 acre-feet appears to be reasonable for indirect use, based on the following information. The reservoir surface area at normal pool storage elevation is estimated at 7 acres and the storage volume is 48.5 acre-feet. Potential net evaporation in inches, based on K.A.R. 5-6-3, is 4 inches; therefore the natural evaporation can be estimated as follows:

7 acres x 4 inches of evaporation / 12 inches = 2.33 acre-feet (1 year of evaporation)
2.33 acre-feet x 3 years = 7 AF of evaporation
Seepage Estimate of 13 acre-feet, for a total storage quantity of 20 acre-feet.

A runoff calculation was not prepared because it is reasonable to assume that with a drainage area in excess of 550 acres, engendering the requested 20 acre-feet of runoff in 1 out of every five (5) years (20% annually), will be readily accomplished. The capacity of the reservoir is the controlling factor. As noted above, the dam is already permitted under DWR Water Structures Program, File No. DJO-0083. Since the reservoir is currently storing water, no Special Condition on the Permit is needed to provide an initial fill quantity.

There are only three other permitted surface water rights within a two-mile radius circle. None of them are located downstream of this reservoir and they would not be impacted in any way. As noted above, this is an existing reservoir (in place since 1960), and the appropriation permit is merely to authorize the on-going beneficial recreational use of water (evaporation) from the reservoir. Typically for these types of applications, nearby landowners are not notified, since they would be cognizant of the current storage of water in this reservoir. In keeping with this consistent processing of new applications, no notification letters are required.

Katherine Tietsort, Water Commissioner, Topeka Field Office, recommended approval of the application in a discussion on November 1, 2018.

Based upon the above discussion, the area is open to new applications, the structure has been properly permitted under DWR water structures program, approval will bring this beneficial use of water into compliance, and there is no indication that the proposed beneficial use of water will impair existing water rights, it is recommended that the referenced application be approved.

FILE COPY

RE: Appropriation of Water, File No. 50,096

Dear Mr. Sher:

There is enclosed a permit to appropriate water authorizing you to proceed with construction of the proposed diversion works (except those dams and stream obstructions regulated by K.S.A. 82a-301 through 305a), to divert such unappropriated water as may be available from the source and at the location specified in the permit, and to use it for the purpose and at the location described in the permit.

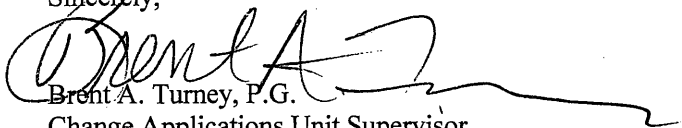

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in this permit. Records must be maintained from which the quantity of water actually diverted may be readily determined. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

Failure to notify the Chief Engineer of the Division of Water Resources of the completion of the diversion works within the time allowed, or within any authorized extension of time thereof, will result in the dismissal of this permit. Enclosed is a form which may be used to notify the Chief Engineer that the proposed diversion works have been completed.

All requests for extensions of time to complete diversion works, or to perfect appropriations, must be submitted to the Chief Engineer before the expiration of time originally set forth in the permit to complete diversion works or to perfect an appropriation. If for any reason, you require an extension of time, you must request it before the expiration of time set forth in this permit. Failure to comply with this regulation will result in the dismissal of your permit or your water right. Any request for an extension of time shall be accompanied by the required statutory fee, which is currently \$100.00.

There is also enclosed an information sheet setting forth the procedure to obtain a Certificate of Appropriation which will establish the extent of your water right. If you have any questions, please contact our office. If you wish to discuss this specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Brent A. Turney, P.G.

**APPROVAL OF APPLICATION
and
PERMIT TO PROCEED**
(This Is Not a Certificate of Appropriation)

This is to certify that I have examined Application, **File No. 50,096** of the applicant

**WILLOW LAKE HOMES ASSOCIATION
SCOTT SHER
14125 MEADOW LANE
LEAWOOD KS 66224**

for a permit to appropriate water for beneficial use, together with the maps, plans and other submitted data, and that the application is hereby approved and the applicant is hereby authorized, subject to vested rights and prior appropriations, to proceed with the construction of the proposed diversion works (except those dams and stream obstructions regulated by K.S.A. 82a-301 through 305a, as amended), and to proceed with all steps necessary for the application of the water to the approved and proposed beneficial use and otherwise perfect the proposed appropriation subject to the following terms, conditions and limitations:

1. That the priority date assigned to such application is **August 2, 2018**.
2. That the water sought to be appropriated shall be used for recreational use at a reservoir located in the Southeast Quarter (SE $\frac{1}{4}$) of Section 34, in Township 13 South, Range 25 East, Johnson County, Kansas.
3. That the appropriation sought shall be limited to all natural flows of an unnamed tributary to the Blue River, designated in the office of the Chief Engineer as Blue River Trib 3 (Missouri), not needed to satisfy all vested rights and prior appropriation rights to be stored to a maximum extent of **20 acre-feet** per calendar year, in a reservoir created by a dam located in the Southwest Quarter of the Southeast Quarter of the Southeast Quarter (SW $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 34, more particularly described as being near a point 464 feet North and 1,139 feet West of the Southeast corner of said section, in Township 13 South, Range 25 East, Johnson County, Kansas, located substantially as shown on the topographic map accompanying the application.
4. That the structure creating the above referenced reservoir has been assigned Division of Water Resources Structures Permit No. DJO-0083.
5. That installation of works for diversion of water shall be completed on or before **December 31, 2019**, or within any authorized extension thereof. The applicant shall notify the Chief Engineer and pay the statutorily required field inspection fee, which is currently \$400.00, when construction of the works has been completed. Failure to timely submit the notice and the fee will result in revocation of the permit. Any request for an extension of time shall be accompanied by the required statutory fee, which is currently \$100.00.

6. That the proposed appropriation shall be perfected by the actual application of water to the proposed beneficial use on or before **December 31, 2023**, or any authorized extension thereof. Any request for an extension of time shall be submitted prior to the expiration of the deadline and shall be accompanied by the required statutory fee, which is currently \$100.00.

7. That the applicant shall not be deemed to have acquired a water appropriation for a quantity in excess of the amount approved herein nor in excess of the amount found by the Chief Engineer to have been actually used for the approved purpose during one calendar year subsequent to approval of the application and within the time specified for perfection or any authorized extension thereof.

8. That the use of water herein authorized shall not be made so as to impair any use under existing water rights nor prejudicially and unreasonably affect the public interest.

9. That the right of the appropriator shall relate to a specific quantity of water and such right must allow for a reasonable raising or lowering of the static water level and for the reasonable increase or decrease of the streamflow at the appropriator's point of diversion.

10. That this permit does not constitute authority under K.S.A. 82a-301 through 305a to construct any dam or other obstruction; nor does it grant any right-of-way, or authorize entry upon or injury to, public or private property.

11. That the applicant shall maintain accurate and complete records from which the quantity of water diverted during each calendar year may be readily determined and the applicant shall file an annual water use report with the Chief Engineer by March 1 following the end of each calendar year. Failure to file the annual water use report by the due date shall cause the applicant to be subject to a civil penalty.

12. That no water user shall engage in nor allow the waste of any water diverted under the authority of this permit.

13. That failure without cause to comply with provisions of the permit and its terms, conditions and limitations will result in the forfeiture of the priority date, revocation of the permit and dismissal of the application.

14. That the right to appropriate water under authority of this permit is subject to any minimum desirable streamflow requirements identified and established pursuant to K.S.A. 82a-703c for the source of supply to which this water right applies.

RIGHT TO A HEARING AND TO ADMINISTRATIVE REVIEW

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may:

- 1) request an evidentiary hearing before the Chief Engineer, or
- 2) request administrative review by the Secretary of Agriculture.

Failure to request an evidentiary hearing before the Chief Engineer does not preclude your right to administrative review by the Secretary. To obtain an evidentiary hearing before the Chief Engineer, a written request for hearing must be filed within 15 days after service of this Order as provided in K.S.A. 77-531 (**i.e., within a total of 18 days after this Order was mailed to you**), with: Kansas Department of Agriculture, Attn: Legal Section, 1320 Research Park Drive, Manhattan, Kansas 66502, FAX (785) 564-6777.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for hearing may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. The petition must be filed within 30 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 33 days after this Order was mailed to you), and be filed with: Secretary of Agriculture, Attn: Legal Division, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, FAX (785) 564-6777.

If neither a request for an evidentiary hearing nor a petition for administrative review is filed as set forth above, then this Order shall be effective and become a final agency action as defined in K.S.A. 77-607(b). Failure to timely request either an evidentiary hearing or administrative review may preclude further judicial review under the Kansas Judicial Review Act.

Ordered this 29th day of November, 2018, in Manhattan, Riley County, Kansas.

WATER RESOURCES
RECEIVED

**APPLICATION FOR PERMIT TO
APPROPRIATE WATER FOR BENEFICIAL USE**
Filing Fee Must Accompany the Application
(Please refer to Fee Schedule attached to this application form.)

AUG 02 2018
12:43
KS DEPT OF AGRICULTURE

To the Chief Engineer of the Division of Water Resources, Kansas Department of Agriculture,
1320 Research Park Drive, Manhattan, KS 66502:

1. Name of Applicant (Please Print): WILLOW LAKE HOMES ASSOCIATION (ATT: SCOTT SHER)
Address: 2640 143RD STREET 14125 MEADOW LANE
City: LEAWOOD State: KS Zip Code 66224
Telephone Number: (816) 564-5910

2. The source of water is: surface water in Tributary to Blue River (Missouri) # 3944
(stream)
OR groundwater in Missouri River Basin _____
(drainage basin)

Certain streams in Kansas have minimum target flows established by law or may be subject to administration when water is released from storage for use by water assurance district members. If your application is subject to these regulations on the date we receive your application, you will be sent the appropriate form to complete and return to the Division of Water Resources.

3. The maximum quantity of water desired is 20 acre-feet OR _____ gallons per calendar year, to be diverted at a maximum rate of Natural Flow gallons per minute OR _____ cubic feet per second.

Once your application has been assigned a priority, the requested maximum rate of diversion and maximum requested quantity of water under that priority number can **NOT** be increased. Please be certain your requested maximum rate of diversion and maximum quantity of water are appropriate and reasonable for your proposed project and are in agreement with the Division of Water Resources' requirements.

4. The water is intended to be appropriated for (Check use intended):
(a) Artificial Recharge (b) Irrigation (c) Recreational (d) Water Power
(e) Industrial (f) Municipal (g) Stockwatering (h) Sediment Control
(i) Domestic (j) Dewatering (k) Hydraulic Dredging (l) Fire Protection
(m) Thermal Exchange (n) Contamination Remediation

YOU **MUST** COMPLETE AND ATTACH ADDITIONAL DIVISION OF WATER RESOURCES FORM(S) PROVIDING INFORMATION TO SUBSTANTIATE YOUR REQUEST FOR THE AMOUNT OF WATER FOR THE INTENDED USE REFERENCED ABOVE.

For Office Use Only:
F.O. 1 GMD Meets K.A.R. 5-3-1 (YES/NO) Use REC Source G(S) County 10 By AW Date 8/2/18
Code REG Fee \$ 260 TR # _____ Receipt Date 8/2/18 Check # 1003

8/9/2018 CUM

5. The location of the proposed wells, pump sites or other works for diversion of water is:

Note: For the application to be accepted, the point of diversion location must be described to at least a 10 acre tract, unless you specifically request a 60 day period of time in which to locate the site within a specifically described, minimal legal quarter section of land.

- (A) One in the SW quarter of the SE quarter of the SE quarter of Section 34, more particularly described as being near a point 464 feet North and 1139 feet West of the Southeast corner of said section, in Township 13 South, Range 25 East, JOHNSON County, Kansas.
- (B) One in the _____ quarter of the _____ quarter of the _____ quarter of Section _____, more particularly described as being near a point _____ feet North and _____ feet West of the Southeast corner of said section, in Township _____ South, Range _____ East/West (circle one), _____ County, Kansas.
- (C) One in the _____ quarter of the _____ quarter of the _____ quarter of Section _____, more particularly described as being near a point _____ feet North and _____ feet West of the Southeast corner of said section, in Township _____ South, Range _____ East/West (circle one), _____ County, Kansas.
- (D) One in the _____ quarter of the _____ quarter of the _____ quarter of Section _____, more particularly described as being near a point _____ feet North and _____ feet West of the Southeast corner of said section, in Township _____ South, Range _____ East/West (circle one), _____ County, Kansas.

If the source of supply is groundwater, a separate application shall be filed for each proposed well or battery of wells, except that a single application may include up to four wells within a circle with a quarter (1/4) mile radius in the same local source of supply which do not exceed a maximum diversion rate of 20 gallons per minute per well.

A battery of wells is defined as two or more wells connected to a common pump by a manifold; or not more than four wells in the same local source of supply within a 300 foot radius circle which are being operated by pumps not to exceed a total maximum diversion rate of 800 gallons per minute and which supply water to a common distribution system.

6. The owner of the point of diversion, if other than the applicant is (please print):

_____ (name, address and telephone number)

_____ (name, address and telephone number)

You must provide evidence of legal access to, or control of, the point of diversion from the landowner or the landowner's authorized representative. Provide a copy of a recorded deed, lease, easement or other document with this application. In lieu thereof, you may sign the following sworn statement:

I have legal access to, or control of, the point of diversion described in this application from the landowner or the landowner's authorized representative. I declare under penalty of perjury that the foregoing is true and correct.

Executed on May 15, 2018. _____
July 28, 2018 _____
Applicant's Signature

7. The proposed project for diversion of water will consist of ONE DAM AND RESERVOIR
(number of wells, pumps or dams, etc.)
and (was)(will be) completed (by) Existing dam _____
(Month/Day/Year - each was or will be completed)

8. The first actual application of water for the proposed beneficial use was or is estimated to be Summer 2018.
(Mo/Day/Year)

WATER RESOURCES RECEIVED

AUG 02 2018 SCANNED

- 9. Will pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion works?
 Yes No If "yes", a check valve shall be required.

All chemigation safety requirements must be met including a chemigation permit and reporting requirements.

- 10. If you are planning to impound water, please contact the Division of Water Resources for assistance, prior to submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir.

Have you also made an application for a permit for construction of this dam and reservoir with the Division of Water Resources? Yes No

- If yes, show the Water Structures permit number here DJO-0083.
- If no, explain here why a Water Structures permit is not required _____
Dam is already permitted under structures program, File No. DJO-0083.

- 11. The application must be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plat showing the following information. On the topographic map, aerial photograph, or plat, identify the center of the section, the section lines or the section corners and show the appropriate section, township and range numbers. Also, please show the following information:

- (a) The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North-South distance and the East-West distance from a section line or southeast corner of section.
- (b) If the application is for groundwater, please show the location of any existing water wells of any kind within 1/2 mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please advise us.

~~(c) If the application is for surface water, the names and addresses of the landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.~~

- (d) The location of the proposed place of use should be shown by crosshatching on the topographic map, aerial photograph or plat.
- (e) Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.

A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence, Kansas 66047.

- 12. List any application, appropriation of water, water right, or vested right file number that covers the same diversion points or any of the same place of use described in this application. Also list any other recent modifications made to existing permits or water rights in conjunction with the filing of this application.

Re. Application for Permit to Appropriate Water for Beneficial Use

The application referenced above was sent May 15th, 2018 along with a check for \$200 for the application fee. Unfortunately the package was lost in the mail. I spoke to Doug Schemm today and he found no record of the the application or the check.

Doug instructed me to have the application re-signed in blue ink in sections 6 & 16, and to enclose a new check, and resend the package to the address on Research Park Dr. in Manhattan, KS.

Please send the permit to Scott Sher (HOA President – mailing address in section 1 of application – and he will distribute a copy to me and our HOA attorney.

If you have questions please feel free to contact me (913-558-8603) or Scott Sher (816-564-5910)

Thank you,

Stan Lewis

RE: Application, File No. **50096**

Dear Sir or Madam:

The Division of Water Resources (Division) has received your application for a permit to appropriate water for beneficial use. Your application has been assigned the file number referenced above. Please be aware that the Division may have a large number of pending applications on hand at times and makes every attempt to process them in the order in which they are received. You will be contacted if additional information is required.

Please note, this letter only acknowledges receipt of your application and does not guarantee approval. In accordance with the provisions of the Kansas Water Appropriation Act, the use of water as proposed prior to approval of the application is unlawful.

Additional information about the process may be found on our website at agriculture.ks.gov/divisions-programs/dwr. If you have any other questions, please contact our office at 785-564-6640 or your local Topeka Field Office at 785-296-5733. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

Kristen A. Baum
New Application Unit Supervisor
Division of Water Resources
