ORDER

NOW, THEREFORE, It is the decision and order of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, that effective the date of this order, the authorized place of use under Water Right, File No. 37,148, shall be:

- 1.5 acres in Lot 5,
- 2.0 acres in Lot 6,
- L-4 → 0.5 acre in the Southeast Quarter of the Northeast Quarter (SE¼ NE¼),
- 1.0 acre in Lot 7,
- 8.0 acres in the Northeast Quarter of the Southwest Quarter (NE¼ SW¼),
- 50.5 acres in Lot 8,
- 4.0 acres in Lot 7,
- 4.5 acres in the Northeast Quarter of the Southeast Quarter (NE¼ SE¼),

a total of 72.0 acres in Section 33,

- 1.5 acres in Lot 5,
- 29.5 acres in Lot 10,
- 1.5 acres in the Northwest Quarter of the Southwest Quarter (NW¼ SW¼),
- 11.0 acres in the Southwest Quarter of the Southwest Quarter (SW¼ SW¼),
- 1.5 acres in Lot 9,

a total of 45.0 acres in Section 34,

all in Township 7 South, Range 2 East, Clay County, Kansas.

In all other respects, the Certificate of Appropriation for Beneficial Use of Water, issued pursuant to File No. 37,148, dated July 15, 1992, remains as authorized and as modified and amended on April 27, 2001, and December 12, 2004.

This is a final agency action. If you choose to appeal this decision or any finding or part thereof, you must do so by filing a petition for review in the manner prescribed by the Kansas Act for Judicial Review and Civil Enforcement of Agency Actions (KJRA K.S.A. 77-601 et seq.) within 30 days of service of this order. Your appeal must be made with the appropriate district court for the district of Kansas. The Chief Legal Counsel for the Kansas Department of Agriculture, 109 SW 9th Street, 4th Floor, Topeka, Kansas 66612, is the agency officer who will receive service of a petition for judicial review on behalf of the Kansas Department of Agriculture, Division of Water Resources. If you have questions or would like clarification concerning this order, you may contact the Chief Engineer.

Dated at Topeka, Kansas, this 12<sup>th</sup> day of December, 2013.

**DATE:** May 1, 2019  
**RE:** Water Right  
File Nos. 27,121; 34,520;  
35,749; 37,148 and 41,887  
Appropriation of Water  
49,508 and 49,509

Robert J. and Deborah A. Wietharn Trusts, etal, water right owners, filed applications for approval to change the authorized point of diversion and place of use for Water Right, File Nos. 27,121; 34,520 and 35,749, and applications to change the place of use for Water Right, File Nos. 37,148 and 41,887 and Appropriation of Water, File Nos. 49,508 and 49,509 all authorized surface water from the Republican River for irrigation use.

The referenced changes have been filed along with Application, File Nos. 50,155, 50,156 and 50,183 which are being processed by Doug Schemm, Environmental Scientist, Topeka Field Office.

The referenced files do not appear abandoned as per K.S.A. 82a-718. File Nos. 49,508 and 49,509 perfection periods expire December 31, 2021.

**Changes in PU File Nos. 37,148 and 41,887**

File Nos. 37,148 and 41,887 form a complete overlap in their 127-acre authorized place of use and incompletely overlap File Nos. 21,525 and 44,723 in a 9-acre tract located in the Southwest Quarter of Section 34, Township 7 South, Range 2 East, Clay County. Each file is authorized two pumpsites - File Nos. 37,148 and 41,887 overlap in point of diversion along with File No. 50,156 at one pumpsite (Lot 5 2731'N, 1845'W SE corner 33-7S-2E); the second pumpsite of File No. 37,148 overlaps Water Right, File No. 44,723 and the second pumpsite of File No. 41,887 has no overlap. The reference changes in place of use propose a complete overlap in the place of use with Application File No. 50,155 for a total of 141 acres to be irrigated all in Sections 33 and 34 of the aforementioned township and range, an increase of additional acres. The 9-acre incomplete overlap with File Nos. 21,525 and 44,723 will remain. The total limited quantity of 169.2 acre-feet to be authorized by File Nos. 37,148; 41,887 and 50,155, will irrigate the proposed 141 acres with 1.2 acre-feet per acre, which appears reasonable in Clay County.

**Change in PD/PU File Nos. 27,121; 34,520 and 35,749 PU only File Nos. 49,508 and 49,509**

File Nos. 27,121; 34,520 and 35,749 are all authorized the same three (3) points of diversion. In addition, the southernmost pumpsite authorized by File Nos. 27,121; 34,520 and 35,749 (5,203'N 2,821'W 14-8S-2E) overlaps the pumpsite authorized by Appropriation of Water, File No. 49,509. The referenced changes in point of diversion propose to remove the point of diversion of overlap with File No. 49,509 and move to a pumpsite located 102 feet North and 3,000 feet West of the Southeast corner of Section 11, Township 8 South, Range 2 East, Clay County, a distance of less than 300 feet.

File Nos. 27,121; 34,520 and 35,749 are authorized a limited total quantity of 167 acre-feet for 691 acres, form a complete overlap with each other in place of use and incompletely overlap the place of use with several other water rights, including a 155-acre overlap with File No. 49,508 in Section 10, Township 8 South, Range 2 East. The referenced changes in place of use for File Nos. 27,121; 34,520 and 35,749 propose to add the 118-acre place of use now authorized by Appropriation of Water, File No. 49,509 in Sections 11 and 14, Township 8 South, Range 2 East, creating a 273-acre overlap in place of use among File Nos. 27,121; 34,520; 35,749; 49,508; 49,509; 50,156 and 50,183. The incomplete overlap in place of use with other files to the north will remain, so that File Nos. 27,121; 34,520 and 35,749 will be authorized a total of 809 acres.

The applications to change the place of use for File Nos. 49,508 (155 acres) and 49,509 (118 acres) propose to create a complete overlap in place of use with each other along with Application, File Nos. 50,156 and 50,183 for a total of 273 acres in Sections 10, 11 and 14, Township 8 South, Range 2 East and as mentioned above, this 273 acres will incompletely overlap File Nos. 27,121; 34,520 and 35,749.

Page 2

File No. 49,508 is authorized 186 acre-feet limited to 186 acre-feet for irrigation on the currently authorized 155-acre place of use (1.2 AF/ac). The existing quantity limitation will be changed to 327.6 acre-feet when combined with File Nos. 27,121, 34,520 and 35,749 to reflect the increase in acres to 273 acres.

File No. 49,509 is authorized 141.6 acre-feet for 118 acres with no current overlaps in the authorized place of use. A quantity limitation will be added to File No. 49,509 limiting the file to 327.6 acre-feet when combined with File Nos. 27,121, 34,520, 35,749 and 49,508 to keep the quantity reasonable for the 273-acre place of use (1.2 AF/ac).

Doug sent nearby landowner letters on February 21, 2019 for both new applications and changes. Note that the notification letters listed each of the new applications and the related change applications for File Nos. 27,121; 34,520; 35,749; 37,148; 41,887; 49,508; and 49,509. Doug indicated that two telephone calls were received, asking general questions about the applications, but they did not express any specific impairment concerns. No written responses of any kind were received.

In an April 19, 2019 e-mail Katherine Tietsort, Water Commissioner of the Topeka Field Office, indicated she recommends approval of the package.

Water flow meters are required. Check valves are required if any chemical or foreign substance is injected into the water through the diversion works.

Appropriation of Water, File Nos. 49,508 and 49,509

Dear Mr. and Mrs. Wietharn:

Enclosed are the orders executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the applications for change under the above referenced file numbers.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in these approvals for change. A condition of these approvals is that acceptable water flow meters must be installed on the diversion works authorized under the referenced file numbers. Please return the required notification of completion of the diversion works and/or installation of the required meters as soon as these actions are completed.

Since the orders modify the original documents referred to above, the orders for File Nos. 27,121; 34,520; 35,749; 37,148 and 41,887 should be recorded with the Register of Deeds as other instruments affecting real estate.

If you have any questions, please contact this office. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

## APPROVAL OF APPLICATION FOR CHANGE IN PLACE OF USE WATER RIGHT FILE NO. 37,148

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of Robert J. and Deborah A. Wietharn, on behalf of Robert J. and Deborah A. Wietharn Trusts, 1925 Kiowa Road, Clay Center, Kansas, 67432, and Galen F. and Cleta Z. Wietharn, on behalf of Galen F. and Cleta Z. Wietharn Trusts, 211 Webster Street, Clay Center, Kansas, 67432, received in this office on November 5, 2018, for approval of a change in the location of the place of use under the certificate of appropriation issued pursuant to the permit to appropriate water for beneficial use, as modified and amended by the Orders of the Chief Engineer dated April 27, 2001 and December 12, 2004, approving the applications to change the place of use and point of diversion, and by the Findings and Order of the Chief Engineer dated December 12, 2013, more accurately describing the location of the authorized place of use, finds that the change is reasonable and will not impair existing rights, and that the application should be and is hereby approved.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized location of the place of use shall be:

located substantially as shown on the maps accompanying the application to change the place of use.

All diversion works shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

The water right owner shall properly install an acceptable water meter on the diversion works authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meter has been completed. The water right owner shall maintain the water meter in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. The water right owner shall also report the reading of said water meter and the total quantity of water diverted annually to the Chief Engineer. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

In all other respects, the Certificate of Appropriation issued pursuant to Approval of Application, File No. 37,148, for permit to appropriate water for beneficial use, is as stated and set forth in the Certificate of Appropriation dated July 15, 1992, as modified and amended by the aforementioned orders.

#### **RIGHT TO A HEARING AND TO ADMINISTRATIVE REVIEW**

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may:

- 1) request an evidentiary hearing before the Chief Engineer, or
- 2) request administrative review by the Secretary of Agriculture.

Failure to request an evidentiary hearing before the Chief Engineer does not preclude your right to administrative review by the Secretary.

To obtain an evidentiary hearing before the Chief Engineer, a written request for hearing must be filed within 15 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 18 days after this Order was mailed to you), with the Kansas Department of Agriculture, Attn: Legal Section, 1320 Research Park Drive, Manhattan, Kansas 66502, or by FAX (785) 564-6777.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for review may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. The petition must be filed within 30 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 33 days after this Order was mailed to you), and be filed with the Secretary of Agriculture, Attn: Legal Division, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, or by FAX (785) 564-6777.

If neither a request for an evidentiary hearing nor a petition for administrative review is filed as set forth above, then this Order shall be effective and become a final agency action as defined in K.S.A. 77-607(b). Failure to timely request either an evidentiary hearing or administrative review may preclude further judicial review under the Kansas Judicial Review Act.

Any request for hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564 - 6777.

It is proposed that the use be changed to NO CHANGE purposes.

13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.

NEW APPLICATION WILL ENSURE NO INCREASE IN CONSUMPTIVE USE.

(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to \_\_\_\_\_ (acre-feet or million gallons).

15. It is requested that the maximum rate of diversion of water be reduced to \_\_\_\_\_ gallons per minute (\_\_\_\_ c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 ([www.usgs.gov](http://www.usgs.gov)). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.

a. If a change in the location of the point(s) of diversion is proposed, show:

- 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
- 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
- 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.

b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

SAME SOURCE OF SUPPLY – REPUBLICAN RIVER

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

Hiya Doug,  
Hey I have a proolly insignificant little question on this.....compared to Bretts June 23 2010 attachment b memo - he shows in Sec. 34 13 acres in NWSW(lot 10) and 16.5 acres in SWSW (lot 10) - the applications today show 13.5 acres in NWSW(lot 10) and 16 acres in SWSW(lot 10).

I guess I was wondering whether shifting that 0.5 acre was intentional or not?

Like I say, proolly insignificant but thought I better ask.....

Thanks!

Good Morning,

If you are both confident that this final package represents what the intended project was and incorporates all of the modifications made along the way to address requirements of pumping these ponds and to incorporate the metering, I agree with both your recommendations for approval. The package does meet the regulations of the KWAA and is a new way to mitigate MDS on the Republican. Please include the overall map and the metering map with the package before it moves on. Doug- for the overall map, each PD should be labeled with the total quantity authorized on each PD and the sr vs jrs marked.

Have a great weekend, Katie

Doug,

Yes, I thought we had that all clear that there would be 2 meters at this site. This would be the old 37148 pump site. When pumping on the bottom ground (original point of use for 37148) or new ground it would be using senior file 37148 water. When pumping into the pond the water would be going through a different meter that would be the new right.

How is all of these new permit and changes coming?

Bob,

Richelle and I are working on your new apps and changes. Just a quick question on your pump sites.

File No. 50,155 and 50,156 are going to both overlap on the new (west) pump site in Lot 4. Application, File No. 50,155 will pump to the expanded acreage (same as File Nos. 37,148 & 41,887).

File No. 50,156 will be used to fill the ponds.

The question is, did you want a second pump site authorized under File No. 50,156 (it would be your current pump site in Lot 5 under you senior files), or just the new site only?

Dear Sir or Madam:

This is to advise you that Robert Wietharn has filed the pending new applications referred to above for permits to appropriate surface water for irrigation use. Application, File No. 50,155 is requesting 169.2 acre-feet of surface water per calendar year from the Republican River, for irrigation use to be diverted at a maximum rate of 3,000 gallons per minute from one pump site. Application, File No. 50,156 is requesting 339.07 acre-feet of surface water per calendar year from the Republican River, for irrigation use to be diverted at a maximum rate of 5,000 gallons per minute from two pump sites. This water will be used to fill two off-stream storage reservoirs. Application, File No. 50,183 is requesting to appropriate 235.5 acre-feet of surface water per calendar year at the rate of natural flows to be stored in two proposed reservoirs, and re-divert 235.5 acre-feet of the stored water for irrigation use. All of these applications are located in Section 33, Township 7 South, Range 2 East, Clay County, Kansas.

In conjunction with these new applications, Robert Wietharn has filed change applications proposing to modify both the points of diversion and place of use authorized under Water Right, File Nos. 27,121; 34,520; and 35,749; and modify the place of use under File Nos. 37,148; 41,887; 49,508 and 49,509.

Records in this office indicate that you own land along the stream in this vicinity and you are being notified of receipt of these applications in order that you may be fully informed of the proposed locations of the applicant's points of diversion and proposed use of water. Consideration will be given to comments or other information which you desire to submit to this office **within 15 days** from the date of this letter.

Dear Sir or Madam:

This is to advise you that Robert Wietharn has filed the pending new applications referred to above for permits to appropriate surface water for irrigation use. Application, File No. 50,155 is requesting 169.2 acre-feet of surface water per calendar year from the Republican River, for irrigation use to be diverted at a maximum rate of 3,000 gallons per minute from one pump site. Application, File No. 50,156 is requesting 339.07 acre-feet of surface water per calendar year from the Republican River, for irrigation use to be diverted at a maximum rate of 5,000 gallons per minute from two pump sites. This water will be used to fill two off-stream storage reservoirs. Application, File No. 50,183 is requesting to appropriate 235.5 acre-feet of surface water per calendar year at the rate of natural flows to be stored in two proposed reservoirs, and re-divert 235.5 acre-feet of the stored water for irrigation use. All of these applications are located in Section 33, Township 7 South, Range 2 East, Clay County, Kansas.

In conjunction with these new applications, Robert Wietharn has filed change applications proposing to modify both the points of diversion and place of use authorized under Water Right, File Nos. 27,121; 34,520; and 35,749; and modify the place of use under File Nos. 37,148; 41,887; 49,508 and 49,509.

Records in this office indicate that you own land along the stream in this vicinity and you are being notified of receipt of these applications in order that you may be fully informed of the proposed locations of the applicant's points of diversion and proposed use of water. Consideration will be given to comments or other information which you desire to submit to this office **within 15 days** from the date of this letter.

You can find the applications and site maps posted by the file numbers referenced above at:

RE: File No 37148

Dear Sir or Madam:

An application for approval of the Chief Engineer to change the following condition or conditions of the file number referred to above has been received:

- place of use PU/PD
- point of diversion
- use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore, to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. You will be contacted regarding this application as soon as it has been examined.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water prior to approval of the application is unlawful. You should not proceed and divert water as indicated by your plans in your application for a change for this file until you receive approval for this change from the Chief Engineer. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

**Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.**

**(b) (1) The violation of any provision of this section by any person is a class C misdemeanor...**

**A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.**

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

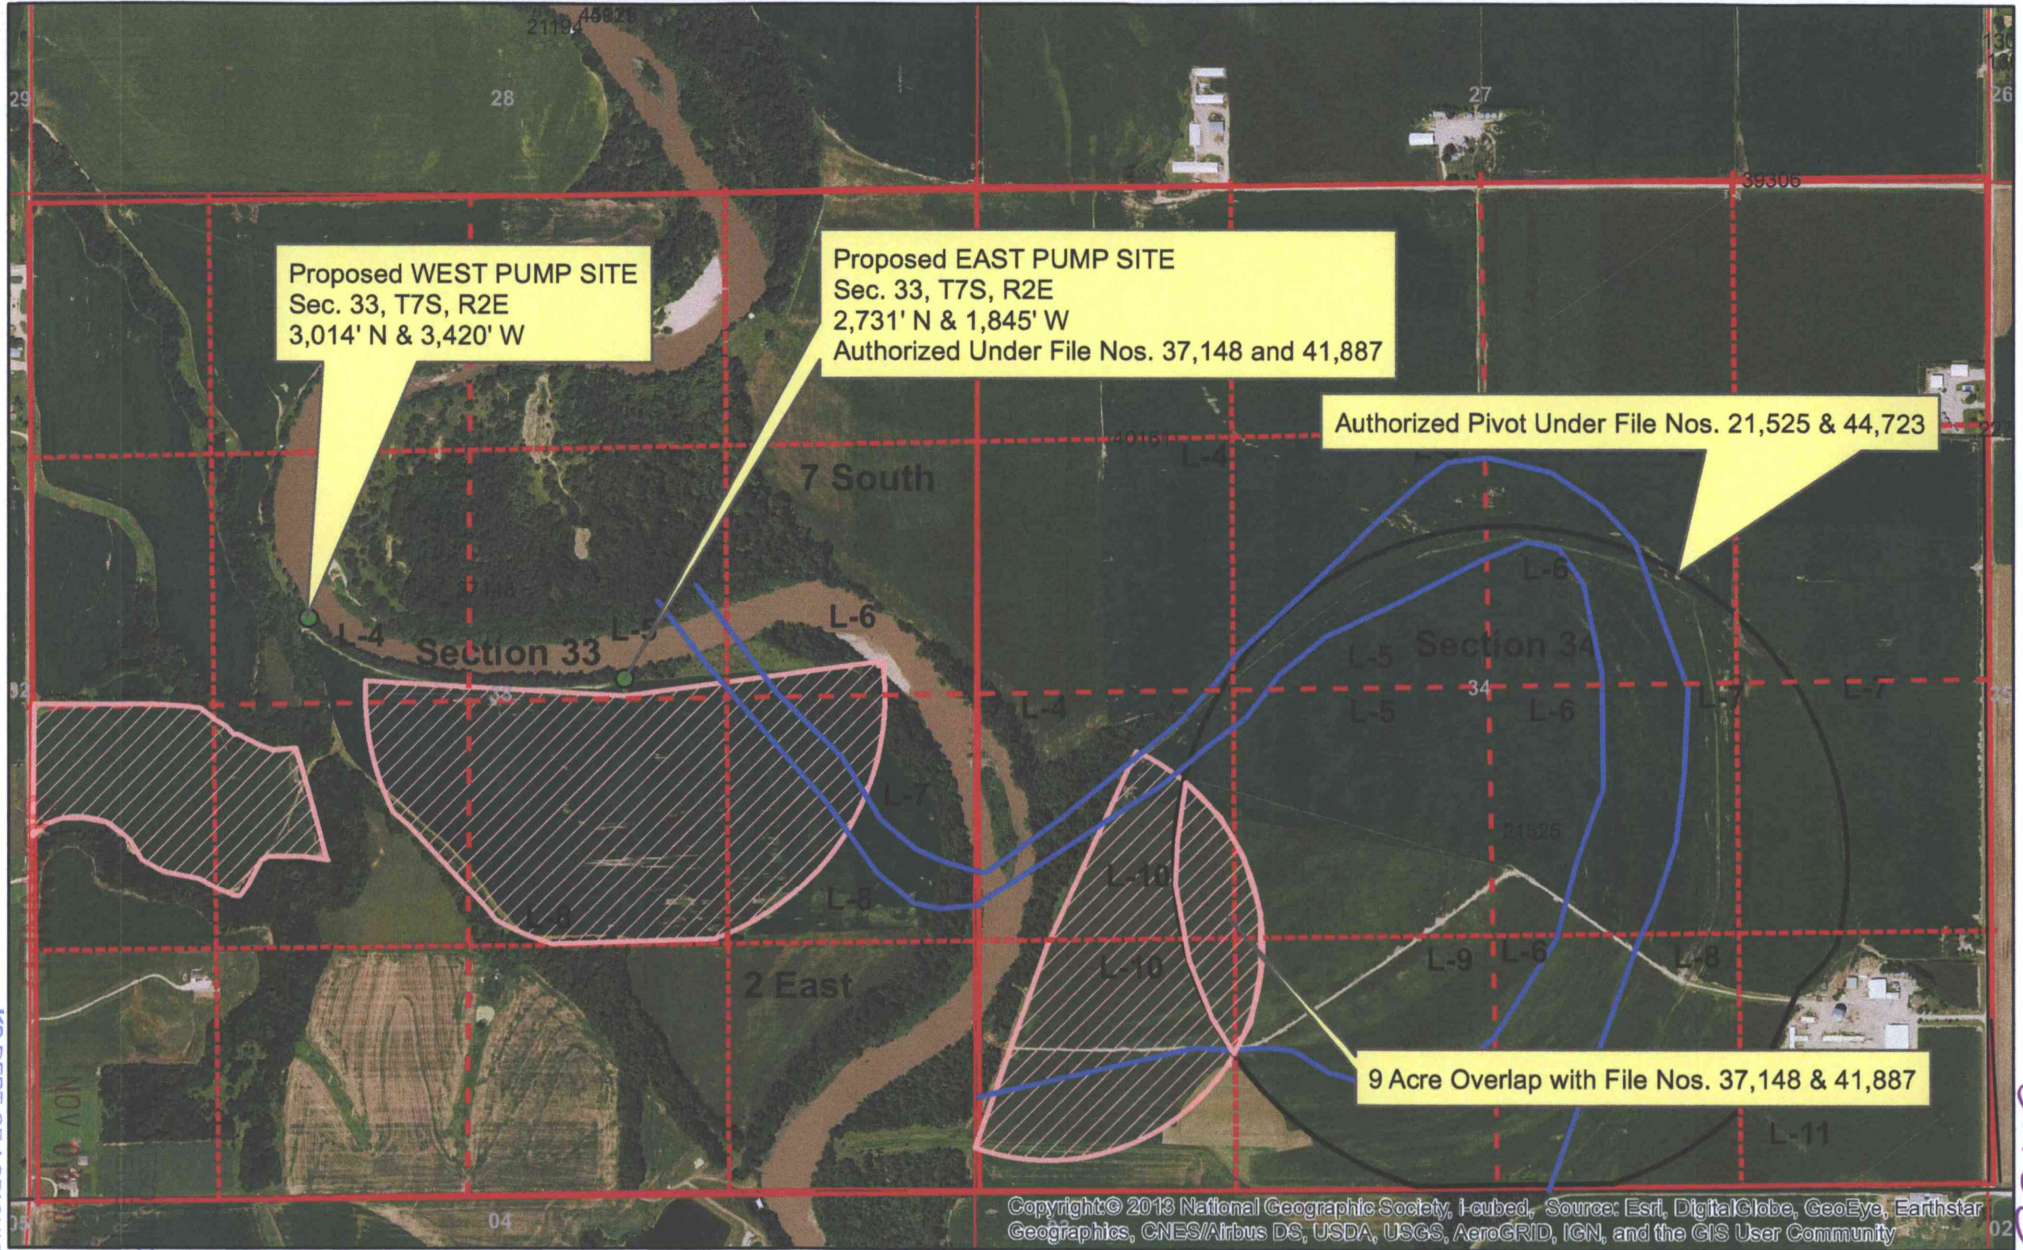

Sincerely,
