MEMORANDUM

TO: Files
FROM: Richelle A. Krueger

DATE: May 1, 2019
RE: Water Right
File Nos. 27,121; 34,520;
35,749; 37,148 and 41,887
Appropriation of Water
49,508 and 49,509

Robert J. and Deborah A. Wietharn Trusts, etal, water right owners, filed applications for approval to change the authorized point of diversion and place of use for Water Right, File Nos. 27,121; 34,520 and 35,749, and applications to change the place of use for Water Right, File Nos. 37,148 and 41,887 and Appropriation of Water, File Nos. 49,508 and 49,509 all authorized surface water from the Republican River for irrigation use.

The referenced changes have been filed along with Application, File Nos. 50,155, 50,156 and 50,183 which are being processed by Doug Schemm, Environmental Scientist, Topeka Field Office.

The referenced files do not appear abandoned as per K.S.A. 82a-718. File Nos. 49,508 and 49,509 perfection periods expire December 31, 2021.

Changes in PU File Nos. 37,148 and 41,887

File Nos. 37,148 and 41,887 form a complete overlap in their 127-acre authorized place of use and incompletely overlap File Nos. 21,525 and 44,723 in a 9-acre tract located in the Southwest Quarter of Section 34, Township 7 South, Range 2 East, Clay County. Each file is authorized two pumpsites - File Nos. 37,148 and 41,887 overlap in point of diversion along with File No. 50,156 at one pumpsite (Lot 5 2731'N, 1845'W SE corner 33-7S-2E); the second pumpsite of File No. 37,148 overlaps Water Right, File No. 44,723 and the second pumpsite of File No. 41,887 has no overlap. The reference changes in place of use propose a complete overlap in the place of use with Application File No. 50,155 for a total of 141 acres to be irrigated all in Sections 33 and 34 of the aforementioned township and range, an increase of additional acres. The 9-acre incomplete overlap with File Nos. 21,525 and 44,723 will remain. The total limited quantity of 169.2 acre-feet to be authorized by File Nos. 37,148; 41,887 and 50,155, will irrigate the proposed 141 acres with 1.2 acre-feet per acre, which appears reasonable in Clay County.

Change in PD/PU File Nos. 27,121; 34,520 and 35,749 PU only File Nos. 49,508 and 49,509

File Nos. 27,121; 34,520 and 35,749 are all authorized the same three (3) points of diversion. In addition, the southernmost pumpsite authorized by File Nos. 27,121; 34,520 and 35,749 (5,203'N 2,821'W 14-8S-2E) overlaps the pumpsite authorized by Appropriation of Water, File No. 49,509. The referenced changes in point of diversion propose to remove the point of diversion of overlap with File No. 49,509 and move to a pumpsite located 102 feet North and 3,000 feet West of the Southeast corner of Section 11, Township 8 South, Range 2 East, Clay County, a distance of less than 300 feet.

File Nos. 27,121; 34,520 and 35,749 are authorized a limited total quantity of 167 acre-feet for 691 acres, form a complete overlap with each other in place of use and incompletely overlap the place of use with several other water rights, including a 155-acre overlap with File No. 49,508 in Section 10, Township 8 South, Range 2 East. The referenced changes in place of use for File Nos. 27,121; 34,520 and 35,749 propose to add the 118-acre place of use now authorized by Appropriation of Water, File No. 49,509 in Sections 11 and 14, Township 8 South, Range 2 East, creating a 273-acre overlap in place of use among File Nos. 27,121; 34,520; 35,749; 49,508; 49,509; 50,156 and 50,183. The incomplete overlap in place of use with other files to the north will remain, so that File Nos. 27,121; 34,520 and 35,749 will be authorized a total of 809 acres.

The applications to change the place of use for File Nos. 49,508 (155 acres) and 49,509 (118 acres) propose to create a complete overlap in place of use with each other along with Application, File Nos. 50,156 and 50,183 for a total of 273 acres in Sections 10, 11 and 14, Township 8 South, Range 2 East and as mentioned above, this 273 acres will incompletely overlap File Nos. 27,121; 34,520 and 35,749.

Memorandum

File Nos. 27,121; 34,520; 35,749; 37,148; 41,887; 49,508 and 49,509

May 1, 2019

Page 2

File No. 49,508 is authorized 186 acre-feet limited to 186 acre-feet for irrigation on the currently authorized 155-acre place of use (1.2 AF/ac). The existing quantity limitation will be changed to 327.6 acre-feet when combined with File Nos. 27,121, 34,520 and 35,749 to reflect the increase in acres to 273 acres.

File No. 49,509 is authorized 141.6 acre-feet for 118 acres with no current overlaps in the authorized place of use. A quantity limitation will be added to File No. 49,509 limiting the file to 327.6 acre-feet when combined with File Nos. 27,121, 34,520, 35,749 and 49,508 to keep the quantity reasonable for the 273-acre place of use (1.2 AF/ac).

Doug sent nearby landowner letters on February 21, 2019 for both new applications and changes. Note that the notification letters listed each of the new applications and the related change applications for File Nos. 27,121; 34,520; 35,749; 37,148; 41,887; 49,508; and 49,509. Doug indicated that two telephone calls were received, asking general questions about the applications, but they did not express any specific impairment concerns. No written responses of any kind were received.

In an April 19, 2019 e-mail Katherine Tietsort, Water Commissioner of the Topeka Field Office, indicated she recommends approval of the package.

Water flow meters are required. Check valves are required if any chemical or foreign substance is injected into the water through the diversion works.

This appropriation right is further limited to a quantity of water which when combined with the water rights set forth in the Certificates of Appropriation issued pursuant to File Nos. 27,121, 34,520 and 35,749 and Appropriation of Water, File No. 49,508 will provide a quantity not to exceed 327.6 acre-feet of water per calendar year for irrigation use on the land described herein.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized location of the place of use shall be:

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may:

- 1) request an evidentiary hearing before the Chief Engineer, or
- 2) request administrative review by the Secretary of Agriculture.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for review may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. The petition must be filed within 30 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 33 days after this Order was mailed to you), and be filed with the Secretary of Agriculture, Attn: Legal Division, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, or by FAX (785) 564-6777.

Good Morning,

If you are both confident that this final package represents what the intended project was and incorporates all of the modifications made along the way to address requirements of pumping these ponds and to incorporate the metering, I agree with both your recommendations for approval. The package does meet the regulations of the KWAA and is a new way to mitigate MDS on the Republican. Please include the overall map and the metering map with the package before it moves on. Doug- for the overall map, each PD should be labeled with the total quantity authorized on each PD and the sr vs jrs marked.

Have a great weekend, Katie

Subject: Wietharn applications

Hi Doug!

How's it going this morning? Pretty quiet here at the moment...Hey I have looked over the Wietharn changes and here are things I need to confirm..

- That he only wants the one pumpsite for File No. 50155 and 50156 at Lot 4 of Section 33, 3014'N and 3420'W of SE corner 33-7S-2E?
- Guess we need the two reservoir pds for File No 50183 confirmed? Yes, these are as shown on the new application.
- On the place of use description on the Elsie Mugler LLC Tract in 11-8S-2E based on the map and approval for File No. 49509 - the 30 acre tract should be in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ (Lot 7) not the SE $\frac{1}{4}$ SE $\frac{1}{4}$ correct? Yes, you are correct, should be SE SW qtr.
- The limitation on File No. 49508 will be modified to 327.6 acre-feet when combined with File Nos. 27,121, 34,520 and 35,749 to reflect the increase in acres to 273 acres (1.2 AF/AC)? Yes, agreed.
- A limitation on File No. 49509 will be added limiting it to 327.6 acre-feet when combined with File Nos. 27,121, 34,520; 35,749 and 49508 to reflect the increase in acres to 273 acres (1.2 AF/AC)? Yes, agreed.

I guess that's the questions I have, thanks as always, for your help!

Dear Sir or Madam:

An application for approval of the Chief Engineer to change the following condition or conditions of the file number referred to above has been received:

- place of use PU
- point of diversion
- use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore, to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.
