KANSAS DEPARTMENT OF AGRICULTURE
Division of Water Resources
MEMORANDUM

TO: Files

DATE: February 11, 2020

FROM: Richelle A. Krueger

RE: Vested Right
File No. WL 001
Water Right
File Nos. 8,497 and 30,489
Appropriation of Water
File Nos. 46,006 and 49,367

Ronald R. Flowers, President on behalf of the Public Wholesale Water Supply District No. 23 (PWWSD #23), has filed applications for approval to change the authorized place of use. The referenced file numbers are authorized surface water from Fall River for municipal use.

The referenced water rights do not appear abandoned as per K.S.A. 82a-718. The perfection period for File No. 46,006, expires on December 31, 2025 and the perfection period for File No. 49,367 expires December 31, 2035.

The referenced file numbers form a complete overlap in their authorized place of use and in their authorized point of diversion and are authorized a limited quantity and diversion rate of 950 million gallons per calendar year and 15,000 gallons per minute. The currently authorized place of use is described as:

within the boundaries of Public Wholesale Water Supply District No. 23, which serves the City of Altoona and immediate vicinity; the City of Buffalo and immediate vicinity; the City of Fredonia and immediate vicinity; the City of Thayer and immediate vicinity; within the boundaries of Rural Water District No. 4, Neosho-Labette County; Rural Water District No. 9, Montgomery County and Rural Water District No. 12, Montgomery County; Rural Water District No. 6, Neosho County; Rural Water District No. 7, Neosho County; Rural Water District No. 9, Neosho County; Rural Water District No. 12, Neosho County; Rural Water District No. 1, Wilson County; Rural Water District No. 2, Wilson County; Rural Water District No. 5, Wilson County; Rural Water District No. 7, Wilson County; Rural Water District No. 10, Wilson County; Rural Water District No. 11, Wilson County; Rural Water District No. 13, Wilson County; and Rural Water District No. 1, Woodson County, all in Kansas.

Paragraph No. 3 of the applications indicates that PWWSD #23 is planning to expand their water supply services/membership to the City of Howard, Elk RWD #2 and the City of Severy. Wilson RWD No. 4 is also an existing customer/member not currently listed in the description of the place of use. It has been determined that public wholesale water supply districts are legal entities (unlike rural water districts), so they do not have taxing authority, and since entities cannot tax entities, they do not legally have boundaries like rural water districts -they have members. It has been determined that the place of use for PWWSD No. 23 should be described as follows:

within the boundaries and immediate vicinities of the members of Public Wholesale Water Supply District No. 23, which serves the City of Altoona; the City of Buffalo; the City of Fredonia; the City of Howard; the City of Severy; the City of Thayer; Rural Water District No. 2, Elk County; Rural Water District Nos. 9 & 12, Montgomery County; Rural Water District No. 4, Neosho-Labette County; Rural Water District Nos. 6, 7, 9 & 12, Neosho County; Rural Water District Nos. 1, 2, 4, 5, 7, 10, 11, & 13, Wilson County; and Rural Water District No. 1, Woodson County, all in Kansas.

Paragraph No. 13 of the applications indicates that since the district began serving customers in 2009, no more than 47 percent of the currently authorized combined quantity has been used in any given year. Also, two of the five files are in their perfection period, there should be adequate quantity to supply the new customers.

Nearby landowners located one-half (½) mile upstream and downstream from land owned or controlled by the applicant were notified of the proposed change in place of use by letters dated November 26, 2019, no responses were received.

The same local source of supply will not change, which is surface water from the Fall River.

In an e-mail dated February 4, 2020, Katherine Tietsort, Water Commissioner of the Topeka Field Office, indicated no objection to approval of the referenced change applications.

A water flow meter is required. A check valve will be required if chemigating.

Based on the above discussion, that the changes are reasonable, that impairment to existing water rights is unlikely, and that no change in the local source of supply will occur, it is recommended that the referenced applications be approved.

Good Morning,

How about using this format we regularly use to make the PU description a little more readable?

within the boundaries and immediate vicinities of the members of Public Wholesale Water Supply District No. 23, which serves the City of Altoona; the City of Buffalo; the City of Fredonia; **the City of Howard; the City of Severy**, the City of Thayer; **Rural Water District No. 2, Elk County**; Rural Water District Nos. 9 & 12, Montgomery County; Rural Water District No. 4, Neosho-Labette County; Rural Water District Nos. 6, 7, 9 & 12, Neosho County; Rural Water District Nos. 1, 2, 4, 5, 7, 10, 11, & 13, Wilson County; and Rural Water District No. 1, Woodson County, all in Kansas.

Hi Katie,

Attached is a draft memo for PWWSD No. 23. I made an attempt at the proposed pu description as we discussed the other day, if you want something different or something does not appear correct, please let me know, or if you want it exactly as described in Paragraph 5 of the application. The application indicates they may serve Severy, do you know if that is still the plan?

Once we get the description straightened out, do you recommend approval of the referenced change applications?

Thanks,
Richelle

We decided that we should use the new language that says members instead of boundaries but we need to include all the members and not abbreviate in the WC Meeting last month. Does this answer your question? It appears that we do have to modify the requested place of use under the changes to be the expanded full version plus the new members he describes on page 1 item 3.

Subject: RE: PWWSD#23

I have had a fascinating discussion with Elmer this morning. And some thoughts were raised for discussion.

So the question is, if a PWWSD starts serving a new area, does it require a change in PU or not. Currently, with RWD's and their boundaries- if the District or City formally adjusts their boundaries legally or annexes territory and supplies that to the CE, and incorporates new territory into their legal boundaries, they would be as authorized under their current and existing description and PU and don't need a change, but if they serve a new area that isn't incorporated into their boundaries or not annexed, they have to make a PU change under their WR's.

Elmer explained and showed me that PWWSD's are a legal entity (unlike RWD's) so they don't have taxing authority and since entities can't tax entities so PWWSD's do not have Boundaries like RWD's. They only have members. So while a PWWSD, it appears would need to make PU change to DWR each time they begin serving a new entity (RWD or City), our inconsistency in how we have authorized these is creating a problem. Please see the two examples below.

First of all, since they don't legally have "boundaries" they have "members" I would suggest that we immediately start using members instead of boundaries language. As for Calebs original question, it looks like since we spelled out every member in the PWWSD 23 water rights, they will need to file for 5 sets of PU changes under their rights, however, when PWWSD #26 (Strong City/Cottonwood Falls) was adding members, because their approvals are more generic, they did not have to file changes.

It sounds like from this information, we probably shouldn't use the language "within the boundaries of the Public Wholesale..." maybe a better language would be something like "municipal use by the members of the Public Wholesale Water Supply District No. X, serving" Or something like that? We should probably be consistent though.

APPROVAL OF APPLICATION FOR CHANGE IN PLACE OF USE WATER RIGHT FILE NO. 30,489

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of Ronald R. Flowers, on behalf of Public Wholesale Water Supply District No. 23, P.O. Box 328, Fredonia, Kansas, 66736, received in this office on November 4, 2019, for approval of a change in the location of the place of use under the certificate of appropriation issued pursuant to the permit to appropriate water for beneficial use, as modified and amended by the Orders of the Chief Engineer dated February 2, 2005 and February 15, 2010, approving applications to change the place of use, finds that the change is reasonable and will not impair existing rights, and that the application should be and is hereby approved.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized location of the place of use shall be:

within the boundaries and immediate vicinities of the members of Public Wholesale Water Supply District No. 23, which serves the City of Altoona; the City of Buffalo; the City of Fredonia; the City of Howard; the City of Severy; the City of Thayer; Rural Water District No. 2, Elk County; Rural Water District Nos. 9 & 12, Montgomery County; Rural Water District No. 4, Neosho-Labette County; Rural Water District Nos. 6, 7, 9 & 12, Neosho County; Rural Water District Nos. 1, 2, 4, 5, 7, 10, 11, & 13, Wilson County; and Rural Water District No. 1, Woodson County, all in Kansas.

All diversion works shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

The water right owner shall properly install an acceptable water meter on the diversion works authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meter has been completed. The water right owner shall maintain the water meter in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. The water right owner shall also report the reading of said water meter and the total quantity of water diverted annually to the Chief Engineer. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

In all other respects, the Certificate of Appropriation issued pursuant to Approval of Application, File No. 30,489, for permit to appropriate water for beneficial use, is as stated and set forth in the Certificate of Appropriation dated October 7, 1998, as modified and amended by the aforementioned orders.

RIGHT TO A HEARING AND TO ADMINISTRATIVE REVIEW

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may:

- 1) request an evidentiary hearing before the Chief Engineer, or
- 2) request administrative review by the Secretary of Agriculture.

Failure to request an evidentiary hearing before the Chief Engineer does not preclude your right to administrative review by the Secretary.

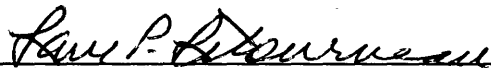

To obtain an evidentiary hearing before the Chief Engineer, a written request for hearing must be filed within 15 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 18 days after this Order was mailed to you), with the Kansas Department of Agriculture, Attn: Legal Section, 1320 Research Park Drive, Manhattan, Kansas 66502, or by FAX (785) 564-6777.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for review may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. The petition must be filed within 30 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 33 days after this Order was mailed to you), and be filed with the Secretary of Agriculture, Attn: Legal Division, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, or by FAX (785) 564-6777.

If neither a request for an evidentiary hearing nor a petition for administrative review is filed as set forth above, then this Order shall be effective and become a final agency action as defined in K.S.A. 77-607(b). Failure to timely request either an evidentiary hearing or administrative review may preclude further judicial review under the Kansas Judicial Review Act.

Any request for hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564 - 6777.

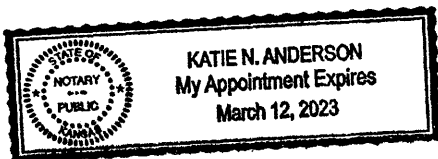

Ordered this 25th day of February, 2020, in Manhattan, Riley County, Kansas.
