KS DEPT OF AGRICULTURE

APPLICATION FOR PERMIT TO APPROPRIATE WATER FOR BENEFICIAL USE

Filing Fee Must Accompany the Application (Please refer to Fee Schedule attached to this application form.)

To the Chief Engineer of the Division of Water Resources, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502: Name of Applicant (Please Print): GREG NELSON Address: 8530 US HIGHWAY 24

State **KS** Zip Code **66502-8663** City: MANHATTAN Telephone Number: (785) 776-9401 The source of water is: ☐ surface water in (stream) □ groundwater in KANSAS RIVER

Certain streams in Kansas have minimum target flows established by law or may be subject to administration when water is released from storage for use by water assurance district members. If your application is subject to these regulations on the date we receive your application, you will be sent the appropriate form to complete and return to the Division of Water Resources.

The maximum quantity of water desired is 144.1 acre-feet OR _____ gallons per calendar year, to be diverted at a maximum rate of 1200 gallons per minute OR _____ cubic feet per second.

Once your application has been assigned a priority, the requested maximum rate of diversion and maximum requested quantity of water under that priority number can NOT be increased. Please be certain your requested maximum rate of diversion and maximum quantity of water are appropriate and reasonable for your proposed project and are in agreement with the Division of Water Resources' requirements.

The water is intended to be appropriated for (Check use intended):

- (a) ☐ Artificial Recharge
- (b) ⊠ Irrigation
- (c) ☐ Recreational
- (d) Water Power

- (e) ☐ Industrial (i) Domestic
- (f) Municipal

(j) ☐ Dewatering

(g) ☐ Stockwatering (k) ☐ Hydraulic Dredging

(drainage basin)

(h) ☐ Sediment Control (I) Fire Protection

1/5/21

- (m) ☐ Thermal Exchange (n) ☐ Contamination Remediation

YOU MUST COMPLETE AND ATTACH ADDITIONAL DIVISION OF WATER RESOURCES FORM(S) PROVIDING INFORMATION TO SUBSTANTIATE YOUR REQUEST FOR THE AMOUNT OF WATER FOR THE INTENDED USE REFERENCED ABOVE.

For Office Use Only:

WATER RESOURCES

DEC 3 1 2020

File No.	
----------	--

The location of the proposed wells, pump sites or other works for diversion of water is:

Note: For the application to be accepted, the point of diversion location must be described to at least a 10 acre tract, unless you specifically request a 60 day period of time in which to locate the site within a specifically described, minimal legal guarter section of land. (A) One in the SW quarter of the SE quarter of the SW quarter of Section 12, more particularly described as being near a point 50 feet North and 3600 feet West of the Southeast corner of said section, in Township 10 South, Range 8 EAST, POTTAWATOMIE (B) One in the ____ quarter of the ___ quarter of the ___ quarter of Section ____, more particularly described as being near a point feet North and feet West of the Southeast corner of said section, in Township _____ South, Range ____ East/West (circle one), ____ County, Kansas. (C) One in the _____ quarter of the _____ quarter of the _____ quarter of Section _____, more particularly described as being near a point _____ feet North and _____ feet West of the Southeast corner of said section, in Township South, Range East/West (circle one), County, Kansas. (D) One in the _____ quarter of the _____ quarter of the _____ quarter of Section _____, more particularly described as being near a point _____ feet North and _____ feet West of the Southeast corner of said section, in Township South, Range East/West (circle one), County, Kansas. If the source of supply is groundwater, a separate application shall be filed for each proposed well or battery of wells, except that a single application may include up to four wells within a circle with a quarter (1/4) mile radius in the same local source of supply which do not exceed a maximum diversion rate of 20 gallons per minute per well. A battery of wells is defined as two or more wells connected to a common pump by a manifold; or not more than four wells in the same local source of supply within a 300 foot radius circle which are being operated by pumps not to exceed a total maximum diversion rate of 800 gallons per minute and which supply water to a common distribution system. The owner of the point of diversion, if other than the applicant is (please print): N/A (name, address and telephone number) (name, address and telephone number) You must provide evidence of legal access to, or control of, the point of diversion from the landowner or the landowner's authorized representative. Provide a copy of a recorded deed, lease, easement or other document with this application. In lieu thereof, you may sign the following sworn statement: I have legal access to, or control of, the point of diversion described in this application from the landowner or the landowner's authorized representative. I declare under penalty of perjury that the foregoing is true and correct. Executed on Dea The applicant must provide the required information or signature irrespective of whether they are the landowner. Failure to complete this portion of the application will cause it to be unacceptable for filing and the application will be returned to the applicant. The proposed project for diversion of water will consist of **ONE WELL** (number of wells, pumps or dams, etc.) and WILL BE completed (by) JUNE 2021 (Month/Day/Year - each was or will be completed)

The first actual application of water for the proposed beneficial use was or is estimated to be **JUNE 2021** (Mo/Day/Year)

 distance and the East-West distance from a section line or southeast corner of section. (b) If the application is for groundwater, please show the location of any existing water wells of any kind within ½ mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within ½ mile, please advise us. (c) If the application is for surface water, the names and addresses of the landowner(s) ½ mile downstream and ½ mile upstream from your property lines must be shown. (d) The location of the proposed place of use should be shown by crosshatching on the topographic map, aerial photograph or plat. (e) Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use. A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range. 		
All chemigation safety requirements must be met including a chemigation permit and reporting requirements If you are planning to impound water, please contact the Division of Water Resources for assistance, prior t submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir. Have you also made an application for a permit for construction of this dam and reservoir with the Division of Water Resources? ☐ Yes ☐ No If yes, show the Water Structures permit number here ☐ If no, explain here why a Water Structures permit is not required NOT APPLICABLE The application must be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed pla showing the following information. On the topographic map, aerial photograph, or plat, identify the center of the section, the section, the section line or so the section corners and show the appropriate section, township and range numbers Also, please show the following information: (a) The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North-Sout distance and the East-West distance from a section line or southeast corner of section. (b) If the application is for groundwater, please show the location of any existing water wells of any kind within? mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within ½ mile, please advise us. (c) If the application is for surface water, the names and addresses of the landowner(s) ½ mile downstream and ½ mile upstream from your property lines must be shown. (d) The location of the proposed place of use should be shown by crosshatching on the topographic map, aeria photograph or plat. (e) Show the location of the pipelines, canals, reservoirs or other facilities for	Wi	pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion works
If you are planning to impound water, please contact the Division of Water Resources for assistance, prior t submitting the application. FEE SCHEDULE

1. The fee for an application for a permit to appropriate water for beneficial use, except for domestic use, shall be (see paragraph No. 2 below if requesting storage):

ACRE-FEET	FEE
0-100	\$200.00
101-320	\$300.00
More than 320	\$300.00 plus \$20.00 for each additional 100 acre-feet or any part thereof.

2. The fee for an application in which storage is requested, except for domestic use, shall be:

ACRE-FEET	FEE
0-250	\$200.00
More than 250	\$200.00 plus \$20.00 for each additional 250 acre-feet of storage or any part thereof.

Note: If an application requests both direct use *and* storage, the fee charged shall be as determined under No. 1 or No. 2 above, whichever is greater, but not both fees.

3. The fee for an application for a permit to appropriate water for water power or dewatering purposes shall be \$100.00 plus \$200.00 for each 100 cubic feet per second, or part thereof, of the diversion rate requested.

Note: The applicant shall notify the Chief Engineer and pay the statutorily required field inspection fee of \$400.00 when construction of the works for diversion has been completed, except that for applications filed on or after July 1, 2009, for works constructed for sediment control use and for evaporation from a groundwater pit for industrial use shall be accompanied by a field inspection fee of \$200.00.

MAKE CHECKS PAYABLE TO THE KANSAS DEPARTMENT OF AGRICULTURE

ATTENTION

A Water Conservation Plan may be required per K.S.A. 82a-733. A statement that your application for permit to appropriate water may be subject to the minimum desirable streamflow requirements per K.S.A. 82a-703a, b, and c may also be required from you. After the Division of Water Resources has had the opportunity to review your application, you will be notified whether or not you will need to submit a Water Conservation Plan. You also may be required to install a water flow meter or water stage measuring device on your diversion works prior to diverting water. There may be other special conditions or Groundwater Management District regulations that you will need to comply with if this application is approved.

CONVERSION FACTORS

1 acre-foot equals 325,851 gallons

RE: Application, File No(s). 50495

Dear Sir or Madam:

The Division of Water Resources (Division) has received your application(s) for a permit to appropriate water for beneficial use. Your application(s) has been assigned the file number(s) referenced above. Please be aware that the Division may have a large number of pending applications on hand at times and makes every attempt to process them in the order in which they are received. You will be contacted if additional information is required.

Please note, this letter only acknowledges receipt of your application(s) and does not guarantee approval. In accordance with the provisions of the Kansas Water Appropriation Act, the use of water as proposed prior to approval of the application(s) is unlawful.

Additional information about the process may be found on our website at <u>agriculture.ks.gov/divisions-programs/dwr</u>. If you have any other questions, please contact our office at 785-564-6640 or your local Topeka Field Office at 785-296-5733. Topeka Field Office at 785-296-5733. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

Kris Neuhauser
