_	- ,											
5.		The location of the proposed wells, pump sites or other works for diversion of water is:										
	Not	Note: For the application to be accepted, the point of diversion location must be described to at least a 10 acre tract, unless you specifically request a 60 day period of time in which to locate the site within a specifically described, minimal legal quarter section of land.										
	(A) One in the <u>SW</u> quarter of the <u>SE</u> quarter of the <u>SE</u> quarter of Section <u>20</u> , more particularly described											
		being near a point 20 feet North and 1185 feet West of the Southeast corner of said section, in Township 2										
		South, Range <u>7 EAST</u> , <u>MARSHALL</u> County, Kansas.										
	(B)	One in the quarter of the quarter of the quarter of Section, more particularly										
	(5)	described as being near a point feet North and feet West of the Southeast corner of said										
		section, in Township South, Range East/West (circle one), County, Kansas.										
	(C)	One in the quarter of the quarter of the quarter of Section, more particularly										
		described as being near a point feet North and feet West of the Southeast corner of said										
		section, in Township South, Range East/West (circle one), County, Kansas.										
	(D)	One in the quarter of the quarter of the quarter of Section, more particularly										
		described as being near a point feet North and feet West of the Southeast corner of said										
		section, in Township South, Range East/West (circle one), County, Kansas.										
	If the source of supply is groundwater, a separate application shall be filed for each proposed well or battery of wells, except that a single application may include up to four wells within a circle with a quarter (¼) mile radius in the same local source of supply which do not exceed a maximum diversion rate of 20 gallons per minute per well.											
	four not t	attery of wells is defined as two or more wells connected to a common pump by a manifold; or not more than wells in the same local source of supply within a 300 foot radius circle which are being operated by pumps to exceed a total maximum diversion rate of 800 gallons per minute and which supply water to a common bibution system.										
6.	The owner of the point of diversion, if other than the applicant is (please print):											
		(name, address and telephone number)										
	-	(name, address and telephone number)										
	land	must provide evidence of legal access to, or control of, the point of diversion from the landowner or the owner's authorized representative. Provide a copy of a recorded deed, lease, easement or other document this application. In lieu thereof, you may sign the following sworn statement:										
		I have legal access to, or control of, the point of diversion described in this application from the landowner or the landowner's authorized representative. I declare under penalty of perjury that the foregoing is true and correct.										
		Executed on, 20 Applicant's Signature										
	The	Applicant is Signature applicant must provide the required information or signature irrespective of whether they are the landowner.										
	Failu	ure to complete this portion of the application will cause it to be unacceptable for filing and the application will eturned to the applicant.										
7.	The	proposed project for diversion of water will consist of ONE PUMP										
	and	(number of wells, pumps or dams, etc.) (was)(will be) completed (by) JULY 2023										
8.	The	(Month/Day/Year - each was or will be completed) first actual application of water for the proposed beneficial use was or is estimated to be JULY 2023

File No. _____

9.	Will pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion works?
	☐ Yes ☐ No If "yes", a check valve shall be required.
	All chemigation safety requirements must be met including a chemigation permit and reporting requirements.
10.	If you are planning to impound water, please contact the Division of Water Resources for assistance, prior to submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir.
	Have you also made an application for a permit for construction of this dam and reservoir with the Division of Water Resources? ☐ Yes ☐ No
	If yes, show the Water Structures permit number here
	If no, explain here why a Water Structures permit is not required NOT APPLICABLE
11.	The application <u>must</u> be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plat showing the following information. On the topographic map, aerial photograph, or plat, identify the center of the section, the section lines or the section corners and show the appropriate section, township and range numbers. Also, please show the following information:
	(a) The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North-South distance and the East-West distance from a section line or southeast corner of section.
	(b) If the application is for groundwater, please show the location of any existing water wells of any kind within ½ mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within ½ mile, please advise us.
	(c) If the application is for surface water, the names and addresses of the landowner(s) ½ mile downstream and ½ mile upstream from your property lines must be shown.
	(d) The location of the proposed place of use should be shown by crosshatching on the topographic map, aerial photograph or plat.
	(e) Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.
	A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence, Kansas 66047.
12.	List any application, appropriation of water, water right, or vested right file number that covers the same diversion points or any of the same place of use described in this application. Also list any other recent modifications made to existing permits or water rights in conjunction with the filing of this application.
