Subject: Acreage Reduction Legislation

Dear Ms. Johns,

INITIAL	ACTION	DATE
Steve H		8/24
Alice		8/25
Mike K		8-28
Jack O		8/28
McCook	by cc	8/24
REMARKS:		

The Bostwick Irrigation District in Nebraska in evaluating the current status of water supplies and future supply projections has determined it may be prudent to consider downsizing or removing acres from our district if conditions or incentives should make it desirable. To this end it is our understanding that it is necessary to have legislation approved in Washington before any such potential is considered. Knowing that these types of things take time and have many steps it is our desire to start the process. We feel even if we do not currently need this alternative it may be prudent to start the process. In some of our previous discussions it was mentioned the Bureau may be able to draft the legislation on our behalf. The District would desire to have the necessary legislation drafted so it may be submitted to our representatives for their support. We appreciate your help and look forward to working with you for our mutual best interest if necessary. Thank you.

Respectfully,

  
Walter Knehans, President  
Bostwick Irrigation District in Nebraska
